

Teacher Education

Program Learning Outcomes

PLO1:

Upon completion of this program, the student will design and implement developmentally appropriate and meaningful curriculum that supports all domains of learning as demonstrated by achieving desired proficiency (a grade of 80 or higher) on the grading rubrics for the designated assignments.

PLO2:

Upon completion of this program, the student will evaluate and model other reflective teaching practices as demonstrated by achieving desired proficiency (a grade of 80 or higher) on the grading rubrics for the designated assignments.

PLO3:

Upon completion of this program, the student will identify characteristics of and create safe, healthy, developmentally appropriate, and responsive learning environments for children as demonstrated by achieving desired proficiency (a grade of 80 or higher) on the grading rubrics for the designated assignments.

PLO4:

Upon completion of this program, the student will effectively use relationship building strategies to support and engage families as demonstrated by achieving desired proficiency (a grade of 80 or higher) on the grading rubrics for the designated assignments.
