Brunswick Community College is accredited by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) to award associate degrees. Brunswick Community College also may offer credentials such as certificates and diplomas at approved degree levels. Questions about the accreditation of Brunswick Community College may be directed in writing to the Southern Association of Colleges and Schools Commission on Colleges at 1866 Southern Lane, Decatur, GA 30033-4097, by calling (404) 679-4500, or by using information available on SACSCOC's website (http://www.sacscoc.org).

This catalog is not a contract between Brunswick Community College and the student. Adjustments in program or course content, sequence, schedule, and faculty may be made as necessary; minimum enrollment may be required to offer a course; charges for tuition, course materials, and fees are subject to change, and the College calendar dates or events may change because of inclement weather or other reasons.

Brunswick Community College does not discriminate on the basis of race, religion, color, national origin, age, political affiliation, genetic information, or disability.

MESSAGE FROM THE PRESIDENT

Students,

Welcome to Brunswick Community College (BCC), home of the Dolphins.

We are thankful and honored that you have chosen to join our community to pursue your educational and career goals. This catalog is designed to be your guide throughout your academic journey here. Whether you are looking for information on courses, programs, or policies, you will find everything you need within these pages.

I encourage you to make the most of the resources provided by the college, including connecting with academic advisors, engaging with student clubs, and receiving academic tutoring in the Learning Center. We also have many services that can help you to succeed, including Distance Education assistance, the BCC Food Pantry, personal counseling, the Career Center, and BCC Foundation scholarships.

You will also discover that our outstanding faculty and staff are here to help you succeed at every step. It is the people of Brunswick Community College - those who learn here, teach here, and work here - who make it a special place.

On behalf of the BCC faculty, staff, and the Board of Trustees, I welcome you to Brunswick Community College. I hope that you will use this catalog to your advantage and will not hesitate to ask us to explain anything you do not understand. BCC is only successful when you are. Your journey towards graduation, into the workforce, or to securing a better job begins today.

Please call me at 910-755-7301 or visit me in Building A if I can assist you in achieving your goals.

Dr. Gene SmithPresident, Brunswick Community College

^{*}Career and College Promise Pathway leading to an Associate in Arts, Associate in Science, or Associate in Engineering degree.

Diploma and certificate programs earn a diploma or certificate, respectively. The College also supports one transitional program of study that does not yield a credential: Special Credit (Non-Degree Seeking) - T90990.

COLLEGE INFORMATION

Introduction & History

Brunswick Community College (BCC) is a taxsupported, public, nonprofit school under the control of a Board of Trustees. The North Carolina Legislature established the college in 1979 under provisions of the General Statutes of North Carolina, Chapter 115-A, passed by the Legislature in 1963. The North Carolina Community College System and the North Carolina State Board of Community Colleges supervise the college. Brunswick Community College originally chartered the school as Brunswick Technical Institute.

On May 1, 1979, the General Assembly passed a bill to permit technical institutes to change their names to technical colleges with the approval of the Board of Trustees and the Brunswick County Board of Commissioners.

On October 5, 1979, the Board of Trustees, with the approval of the Brunswick County Board of Commissioners, voted unanimously to change the name of the institution to Brunswick Technical College. In 1988, the College's name changed to Brunswick Community College to reflect statewide changes in community colleges.

The College received its initial accreditation from the Southern Association of Colleges and Schools in 1983, and reaffirmed in 2019.

Campus Locations

Main Campus is located in Bolivia on US Highway 17 Business, three miles north of the intersection of NC 211 & US Highway 17.

The Leland Center is located on US Highway 74/76 in the Leland Industrial Park.

The Southport Center is located at 701 North Street in Southport.

Brunswick Educational & Trades Certification Center is located at 104 Ocean Highway East in Supply.

Mission

Brunswick Community College provides opportunities for individuals to be successful through accessible, high-quality, student-centered programs and services that meet the educational, cultural, and workforce needs of a diverse community.

Vision

At Brunswick Community College, our vision is to exceed the expectations of our stakeholders for delivering quality education, exceptional workforce training, and broad community enrichment.

Core Values

We honor and embrace the Core Values of Brunswick Community College. We identify these beliefs as timeless guiding principles of our organization. These values serve as the glue that holds our institution together as it grows and represents what we believe is the enduring character of Brunswick Community College.

- Excellence: Fostering a culture of continual advancement through superior academics and quality service.
- **Integrity**: Vigilantly upholding the highest fair, ethical, and honest behavior.
- Respect: Accepting and appreciating the worth and contributions of ourselves, others, and the College.
- Opportunity: Helping our students, employees, and community reach their potential by supporting success through education.
- Community: Cultivating and nurturing a welcoming environment of trust and belonging through collaboration and partnerships.
- Service: Uplifting our students, colleagues, and community through actions, generosity, and purpose.

Approved by Brunswick Community College Board of Trustees January 19, 2017; reaffirmed February 15, 2018, February 21, 2019, February 20, 2020, and February 18, 2021; and revised April 24, 2025.

Academic Rigor

Academic rigor at BCC describes a level of instruction and engagement meant to challenge students academically, intellectually, and personally. Brunswick Community College's faculty and staff are committed to providing excellent services to its students. In return, the institution expects students to engage in rigorous academic work in the classroom. Instructors expect students to use academic and support resources provided by the college to enhance their learning.

BCC Guarantee to Employers

Brunswick Community College guarantees that its graduates are proficient in basic knowledge and skills covered by our educational programs.

Graduates not meeting their employer's entry-level expectations during the first year following graduation may be referred, by the employer, to BCC for additional coursework, provided the employer's entry-level expectations are consistent with those skills and competencies routinely taught in the college program from which the employee graduated. In addition, the graduate must have earned a minimum grade of "C" in the course(s) that provided the skill or competency and, if applicable, must have passed a licensure exam.

After determining the precise nature of the deficiency in conjunction with appropriate College departments, the graduate, one's employer, and the Vice President of Student Affairs will work with the graduate to enroll in a maximum of three applicable courses and/or the learning lab at the College. These courses will be provided at no charge to the graduate other than books and supplies. The College reserves the right to notify curriculum advisory committees of the College and the curriculum committee of the Board of Trustees concerning specific claims made under this Guarantee so that programs may be adjusted as needed.

A graduate referred to BCC for additional coursework must permit the College to give the employer any information that might help explain the graduate's lack of proficiency. This information may include grades and/or attendance records. The guarantee becomes invalid if the graduate

refuses to allow the College to share such information with the employer.

The guarantee applies to graduates of one-year diploma and 2-year associate degree programs. It is not intended to create any specific legal rights or causes of action whatsoever. The exclusive remedy under this guarantee is as provided herein and is intended solely as a statement of educational commitment to employers.

Approved by the Brunswick Community College Board of Trustees June 20, 2014 and November 20, 2017.

Competencies Required of Associate Degree Students

BCC has identified a set of common competencies to all associate degree programs. These competencies ensure that program graduates have a breadth of knowledge, including written and oral fluency and quantitative reasoning. These skills provide a foundation for the graduates to be productive members of their environment.

- Oral Communication: Students will be able to apply knowledge of oral communication in a prepared, purposeful presentation designed to increase knowledge, foster understanding, or promote change in the listeners' attitudes, values, beliefs, or behaviors.
- Written Communication: Students will be able to develop and express their ideas in writing. Written communication involves learning to work in many genres and styles. It can include working with many different writing technologies and mixing texts, data, and images.
- Quantitative Reasoning: Students will be able to demonstrate an understanding of Quantitative Literacy from authentic contexts of everyday life situations. Exhibiting these skills include the ability to reason and solve quantitative problems using such elements as words, tables, graphs, and equations.

2024 Summary Report on Performance Measures

Brunswick Community College

	Excellence	System	System	BCC
Measure	Level	Average	Baseline	Results
Basic Skills Student Progress, 2022-23	1.216	1.104	0.543	1.281
Student Success Rate in College-level English	1.174	1.099	0.727	1.169
Courses, Fall 2020 Cohort				
Student Success Rate in College-level Math	1.204	1.114	0.665	1.181
Courses, Fall 2020 Cohort				
First Year Progression, Fall 2022 Cohort	1.063	1.036	0.899	1.028
Curriculum Completion Fall 2019 Cohort	1.094	1.048	1.002	1.024
Licensure and Certification Passing Rate, 2022-23	1.073	0.985	0.985	1.029
College Transfer Performance, 2021-22	1.031	0.993	0.993	1.011
Community College Students				

Source: <u>NCCCS 2024 Performance Measures Report</u>, http://www.nccommunitycolleges.edu/about-us/data-reporting/state-performance-measures/

The Semester System

Brunswick Community College operates on the semester system. The fall and spring semesters are each 16 weeks in length with 4, 8, 12 and 16-week course offerings. The summer semester is typically eight weeks in length providing 4 and 8 week course offerings.

Curriculum Credit Hour Procedures

The North Carolina Community College System (NCCCS) restricts the number of hours in curriculum degrees, diplomas, and certificates as follows:

	Degree	Diploma	Certificate
Min. General Education Hours	15	6	0
Min. Major Hours	49	30	12
Other Required Hours	0-7	0-4	0-1
Total Semester Credit Hours	64-76	36-48	12-18

Lab, clinicals, and work-based learning courses from the NCCCS Combined Course Library convert credit hours to contact hours per course using a multiplier of 16:

- Labs 2 or 3 hours per week over 16 weeks equals 1 credit hour.
- Clinical 3 to 5 hours per week for 16 weeks equals 1 credit hour.
- Work-based Learning 1 credit hour per 10 hours of work experience.

Academic programs offered online have the same total semester credit hours as the

equivalent program provided in a traditional, seated environment or hybrid format and follow the NCCCS guidelines above. All courses within an academic program contain the same student learning outcomes, content, rigor, contact, and credit hours regardless of delivery method.

Statement on Non-Discrimination

Admission to any educational programs
Brunswick Community College offers is made
without regard to race, religion, color, national
origin, gender, gender expression, age, political
affiliation, genetic information, sexual
orientation, or disability.

Drug-Free Environment

College policy prohibits the unlawful manufacture, distribution, dispensation, possession, or use of a controlled substance in College buildings and on College grounds. Any student or employee violating this policy will be subject to disciplinary action including suspension or termination.

Tobacco-Free Campus

Brunswick Community College is committed to providing its students, employees, and visitors with a safe and healthy environment. We recognize smoking as a significant health risk to both the smoker and the non-smoker and a safety hazard to the College.

Effective July 1, 2017, the college prohibits tobacco products on all Brunswick Community College property and in vehicles owned, leased, or operated by the institution.

Examples include cigarettes, e-cigarettes, cigars, chewing tobacco, pipe tobacco, dip, smokeless tobacco or spit tobacco snuff, or any other items containing or reasonably resembling tobacco or tobacco products.

Business Hours of the College

The College operates on a regular schedule throughout the year. The College's normal business hours are Monday through Thursday, 8:00 a.m. to 5:00 p.m. and Friday 8:00 a.m. to 3:00 p.m. BCC's OneStop Student Services Center offers extended hours and is open Monday through Thursday, 7:30 a.m. to 5:30 p.m., and Friday, 8:00 a.m. to 3:00 p.m. BCC officially closes for certain holidays and other dates throughout the year. For additional information, consult the Academic Year Calendar for dates the college is closed.

Classes, meetings, and special events may occur outside of regular business hours.
Additionally, the Dinah E. Gore Sports & Aquatics Complex and Odell Williamson Auditorium operate on schedules independent of the College, and their hours of operation appear on their respective websites.

Conflict of Interest

No agent or employee of Brunswick Community College that is affected by federally funded programs shall participate in any decisions that have a direct bearing on services to be provided by that member or by any organization with which that member is associated.

Emergency Closings

The Brunswick Community College President, or appointee, is responsible for closing the College in the event of inclement weather or another emergency.

Economic and Workforce Development/Continuing Education (EWD/CE)

Canceled instructional sessions in the areas of continuing education, workforce development, and adult basic education due to inclement weather or other emergencies will be addressed on a case-by-case basis at the program director's discretion. In cases of inclement weather, BIP adheres to the schedule of Brunswick County Schools and follows continuing education guidelines for making up class time. This policy is in place to

accommodate students' transportation needs and the daily operation of large public transit vehicles.

Curriculum Instruction

If the College closes due to adverse weather or other emergencies, instruction will continue using Moodle, the College's Learning Management System (LMS). Instructors will post alternative assignments in the LMS and notify students of the posted assignments. Depending on the class, subject, and content, the instructor may also assign alternative assignments later in the semester. Instructors send alternative assignments as posted in the LMS to the Office of the Registrar who retains information for audit purposes.

- A. Basic law enforcement training, cosmetology classroom and labs, health information technology work experience, clinical practicums, and other work-based learning activities will be rescheduled.
- B. Health Sciences Programs will make up missed clinical time and laboratory instruction with simulation activities or through clinical/lab reassignment and missed classroom instruction with online graded assignments, case studies, and/and faculty-led discussion boards using the LMS.
- C. Brunswick County Public Schools (BCPS), Early College High School (ECHS), and public/private/home schooled dual-enrolled students adhere to the BCC attendance policy located on BCC's website and within this Catalog and Student Handbook. Students are encouraged to attend all scheduled classes.

Exceptions include:

- When BCPS closes early due to inclement weather or other emergencies and public, private, and home schooled dual-enrolled students are released from BCC classes without attendance penalty.
- When BCC is open and BCPS, ECHS, and private/home schools are closed, instruction will continue using the College's LMS. Instructors are required to post alternative assignments in the LMS and notify students of the posted assignments at the next scheduled class meeting.

Announcements are made on the following media outlets: WWAY-TV3 (ABC), WECT-TV6 (NBC), News 14 Carolina, WGNI (102.7 FM),

and WWQQ (101.3 FM), WMNX (97.3), WAAV (980 WAAV AM), WKXB (94.5), WHQR (91.3), WAZO (107.5).

Approved by Brunswick Community College Board of Trustees March 16, 2017, and November 2017.

Employment at the College

Brunswick Community College is an Equal Opportunity Employer. It is the policy of Brunswick Community College to hire well-qualified people to perform the various tasks required. This policy is to provide to existing employees and to all persons seeking employment, equal opportunity for recruitment and all benefits and privileges of employment and promotion without regard to religion, race, gender, gender expression, ethnicity, age, national origin, political affiliation, veteran's status, disability, genetic information, sexual orientation, or any other characteristic protected by Federal or State law. Any complaints alleging failure of the College to follow this policy should be brought to the attention of the College President. Employment openings for faculty and staff appear on the College's Employment Webpage, http://www.brunswickcc.edu/contact/employmentopportunities/, on a regular basis. Applications should be submitted through the website or by one of the following:

Email: humanresources@brunswickcc.edu

FAX: 910.754.8229

Visit: Human Resource Office

50 College Road NE Bolivia, NC 28422

Mail: P.O. Box 30, Supply, NC 28462

Brunswick Community College Foundation

The mission of Brunswick Community College Foundation is to raise funds on behalf of the College, which assures open access to higher education for all prospective students and enhances the campus community by supporting the identified needs of the College.

As the only charitable, nonprofit organization dedicated to supporting Brunswick Community College (BCC), the BCC Foundation plays a vital role in supporting students by awarding scholarships.

In an effort to meet its mission, BCC's Foundation develops strategies to cultivate

relationships and increase awareness among the College's essential supporters, including friends, government policymakers media, community stakeholders, and philanthropic donors. The Foundation works on behalf of BCC to secure financial support from donors who are committed to the College's mission.

The motivations for giving are many. BCC's Foundation works with College administration to encourage growth and achieve objectives beneficial to the community while performing its primary purpose of supporting students to attain their educational goals.

For additional information, contact BCC's Foundation office, visit http://www.brunswickcc.edu/foundation, or call 910.755.7473.

<u>Dinah E. Gore Sports & Aquatics</u> Complex

The Dinah E. Gore Sports & Aquatics Complex is located on the College's main campus, and is a community-minded facility established to encourage a healthy lifestyle among BCC students, employees, residents of Brunswick County, and surrounding counties.

The Dinah E. Gore Sports & Aquatics Complex has combined usage with academics, athletics, member activities, and contracted events. Facility regulations are in place to ensure the safety of members, students, and the public.

Hours of operation and additional information about the Dinah E. Gore Sports & Aquatics Complex is located on the College website. Students use the facility free of charge for curriculum classes held in the Sports & Aquatics Complex and may receive a reduced rate membership to use the facility at other times.

Membership rates are available online for full membership, pool-only, group exercise classes, personal training, and swim lesson, as well as, weekly and daily use of the facility.

For additional information, visit http://www.bccfitness.com, or call 910.846.BFIT (2348),

Odell Williamson Auditorium

Brunswick Community College's Odell Williamson Auditorium, situated on the main campus in Bolivia, North Carolina, is a 1,500-seat performing arts center dedicated to educational and cultural enrichment in Southeastern North Carolina. Annually, it hosts a diverse array of national and international performances.

Adjacent to the auditorium is the Virginia Williamson Event Center, a versatile facility accommodating events such as receptions,

banquets, conferences, lectures, dances, small concerts, and theater performances. The Event Center features a catering kitchen and shares its entrance with the auditorium's lobby.

The Odell Williamson Auditorium Box Office operates Monday through Thursday from 9:00 a.m. to 4:00 p.m., and Friday from 9:00 a.m. to 12:00 p.m. For rental or event inquiries, please call 910.755.7416 or 910-755-7421. Additional information is available on the Odell Williamson Auditorium website: http://bccowa.com/.

ADMISSIONS & ENROLLMENT SERVICES

Admission to the College

Brunswick Community College adheres to the "open door" admission policy of the North Carolina Community College System (NCCCS).

The College will admit any person who is a legal resident of the United States and who is a high school graduate, a GED® recipient or an adult high school equivalency diploma recipient, who is at least 18 years of age (Ref. 1D SBCCC 400.2). Further, the accreditation of a secondary school located in North Carolina that a person attended is not a factor in determining the applicant's admissibility to the College, unless accreditation was conducted by a State agency.

Admission to the College does not imply admission to specific continuing education or curriculum courses or programs. You can find the specific course and program requirements in this catalog and other College publications. All students enrolling in an associate degree, diploma, or certificate program must be a high school graduate, possess a GED®, or adult high school equivalency diploma.

The "Application for Admission" is available online through BCC's website, http://brunswickcc.edu/bcc-admissions/how-to-apply/.

International Students

Brunswick Community College is not open to international students who have F-1 or M-1 student visa. The College also does not sponsor educational visas.

Accreditation of Academic Credentials

For out-of-state students, in accordance with the best practices of the United States Department of Education, Brunswick Community College only recognizes high school diplomas, GED®'s, and adult high school equivalency diplomas granted from regionally accredited institutions or home schools authorized by the Department of Non-Public Instruction or equivalent body. Known "Diploma Mills" are not recognized as sufficient documentation of a high school diploma. The college awards transfer college credit from those institutions accredited with the regional

accrediting body of the Commission on Colleges approved by the United States Department of Education in their state.

Applications & Priority Dates

To enroll in curriculum-level programs, the prospective student submits an "Application for Admission". The college guarantees admission for all applicants who meet the requirements of the College. Although the College enrolls applicants throughout the year, applicants who intend to begin classes at the start of the traditional Fall, Spring, and Summer should submit necessary credentials at least 1-2 months prior to the start of the respective term.

General Admission Classifications

In general, there are five classifications of students who may seek admission to the College: First-year, Transfer, Dually Enrolled High School, Special Credit (non-degree seeking), and Reenrolling students. Each of these populations have differing admission requirements.

A. First-Year Students

A first-year student is an individual who has never attended a post-secondary institution after graduating from high school (or the equivalent). A first-year student generally does not possess any academic credentials other than a high school diploma, GED®, or adult high school equivalency diploma, unless they obtained a higher-level credential through a concurrent high school enrollment program.

B. Transfer Students

A transfer student is an individual who has enrolled in a post-secondary institution after graduation from high school (or the equivalent). Transfer students may or may not possess a credential beyond the high school diploma (or the equivalent), but may have credit from at least one post-secondary institution.

Students who have completed only continuing education or career credit (or any other non-curriculum credit) are not considered transfer students, as the credits for these courses are not generally transferable to curriculum-level programs except in certain cases. For additional information, refer to the *Transfer Admission & Transcript Evaluation* section of this Catalog.

C. Dually Enrolled Students

A Dually Enrolled student is an individual who currently enrolls in high school and college courses as early as the ninth grade. There are two dually enrolled classifications of students, i.e. Early College High School students and Career and College Promise students.

Early College High School students attend the Cooperative Innovative High School located on BCC's campus and enroll in Associate in Arts, Associate in Science, Associate in Engineering, and Professional Technical programs with the approval of their high school counselor and/or assigned administrator.

Career and College Promise students are current North Carolina public, private, or home schooled high school students. Special admission procedures are in place for each of the Career and College Promise pathways.

With approval of the high school principal or his/her designee and the college's chief academic officer or chief student development administrator, a student who completes a College Transfer Pathway, while still enrolled in high school, may continue to earn college transfer credits leading to the completion of the Associate in Arts, Associate Degree Nursing, Associate in Science, Associate in Engineering, Associate in Arts in Teacher Preparation Associate, and Associate in Science in Teacher Preparation Associate as well as many Career Technical Education (CTE) Pathways. Students who complete a pathway during a term may concurrently enroll in additional courses to complete the associated degree program in the same or subsequent term.

D. Special Credit (Non-Degree Seeking Students)

A high school graduate, or anyone 18 years of age or older, who want to enroll in a credit course, but do not plan on completing an associate's degree, diploma, or certificate may be admitted to the college as a Special Credit student. Special Credit students are required to submit a College application and complete a Residency determination, but are not necessarily required to meet all of the College's admission requirements.

Special Credit students are non-degree seeking students who intend to complete BCC coursework for the sole purpose of transferring credit to another institution or gaining admission to a specific program of study at another institution.

A student may also be classified as a Special Credit Student if they do not meet the specific curriculum program requirements but meet the requirements of the College's "open door" policy. A Special Credit student has no intention of applying for or receiving financial aid, or receiving a certificate, degree, or diploma from the College.

Special Credit students are required to meet all course pre- and corequisites unless the student has received written approval from their primary institution to bypass pre- and/or corequisite requirements.

Upon successful completion of 15 credit hours, a Special Credit student is required to meet with an Admissions or Academic Support representative to declare a program of study. The Vice President of Student Affairs must approve exceptions to this rule.

E. Re-Enrolling Students (Re-admission) Any student who has been admitted to BCC (even as a high school student) and returns after an absence is considered a Re-Enrolling student.

Students who have separated from the College for more than two consecutive semesters (excluding summer) must complete a new Admission Application and Residency determination. If a change in program of study is necessary and/or the student has a gap in enrollment greater than two consecutive semesters (excluding summer semester), the student will be assigned to the current catalog as of his/her re-enrollment.

Students who withdrew while on financial aid suspension or who are suspended for academic deficiencies or disciplinary actions must reapply and obtain the written approval for readmission from the Vice President of Student Affairs. To promote student success, the College may recommend specific course enrollment and/or course load restrictions.

The Vice President of Student Affairs must approve readmission of any student suspended for disciplinary reasons.

Application Process

Students should take the following steps to complete an application:

- A. All students are required to submit an Admission Application. Re-enrolling students who have separated from the College for more than two consecutive semesters (excluding the summer semester) must reapply for admission.
- B. All students must complete a Residency determination. Additional information on completing a Residency determination is located in Appendix F of this Catalog and Student Handbook.
- C. First-year and transfer students must submit an official copy of their final high school transcript (showing a confirmed graduation date), GED®, or Adult High School equivalency diploma.

All students must submit official copies of all post-secondary transcripts. *Faxed transcripts are not accepted.*

International high school and post-secondary transcripts require translation by a professional translation agency prior to submission.

Unofficial transcripts are required for Special Credit students to demonstrate pre- and/or corequisites for the specific course(s) that the student intends to enroll, unless the requisite requirement is waived.

Note: Pursuant to federal law, once submitted, all original documents of academic credentials are the property of the College and will not be released back to the student for any reason.

D. Complete College Readiness Assessment (if applicable) to assess readiness for college level courses. For additional information, refer to the College Readiness Assessment Policy within this Catalog.

Application Records Retention

Upon application, all documents received (applications, transcripts, letters, etc.) are imaged and stored in the student's permanent electronic record. After imaging, paper documents are stored in a secure storage area within the Office

of Records & Enrollment Services until they have reached their retention period, and then, shredded in accordance with the College's Electronic Records Retention Policy.

Enrolling in Courses When Residence Is Outside North Carolina

Students who want to enroll in courses via distance learning are required to complete the same admission process as students enrolled in classes on campus and must provide evidence of college readiness. Refer to the State Authorization section of this Catalog and Student Handbook for additional information specific to those residing outside of North Carolina.

College Readiness Assessment

Brunswick Community College (BCC) uses the student's high school unweighted GPA as primary means of assessing college readiness, followed by ACT/SAT, GED®, High School Equivalence Test scores, EdReady Assessments or Accuplacer scores.

Prospective students enrolling in curriculum programs including Special Credit students interested in English, mathematics, or any other courses that require an English or mathematics pre- or corequisite must provide evidence of college-level readiness before being able to enroll in classes. Evidence of college readiness includes but is not limited to high school transcripts, high school unweighted GPA, assessment scores, and/or college transcripts that identify credit earned at higher-level institutions or non-credit earned for college readiness courses.

College readiness scores are waived for:

- A. Applicants applying to a certificate program that the curriculum does not require a pre- or corequisite math or English course.
- B. Transfer students who have earned a grade of "C" or better in one college-level English and mathematics course at an approved college, university, or technical institution. If the transfer student's transcript is not on file for verification, the student may be required to complete a college readiness assessment.
- C. Applicants who hold an associate or higher post-secondary degree from a regionally accredited institution.
- Applicants classified as Special Credit or non-degree seeking students are subject to the College's College Readiness Assessment

Policy to determine if they meet course prerequisites, unless they have professional/life experience, provide written documentation from a peer/senior institution to enroll in a specific course, or they meet the criteria mentioned in paragraph A or B above.

- E. Applicants who have graduated from high school with an unweighted GPA of 2.8 or higher. High School graduates with an unweighted GPA of less than 2.8 must successfully complete a college readiness assessment exam or a College Readiness English or mathematics course to meet the prerequisite requirements of enrolling in a gateway English or mathematics course.
- F. Applicants who have ACT and/or SAT with scores as follows:

English:

SAT Evidenced-Based Reading/Writing: 480 ACT Reading: 22 or ACT English: 18

Math:

SAT Math: 530 ACT Math: 22

G. Applicants who have a GED® Score from 2014- to present as follows:

GED Language Arts - 165 or greater GED Math - 165 or greater

H. Applicants who have a HiSet score from 2014 – present as follows:

Language Arts Reading – 15 or higher Writing – 4 or higher on Essay Exam

Math – 15 or higher

 High School students who completed a Career and College Ready Graduate Program:

English:

Tier Test 1 (Unit 1-6):

- Students completing only Tier Test 1 must successfully complete ENG-025 prior to enrolling in ENG 111
- Score 80+, student should take Tier Test 2

Tier Test 2 (Unit 7-10):

- Score below 80, student must successfully complete ENG 025 prior to enrolling in ENG 111.
- Core 80+ may enroll in ENG 111

Math

Tier Test 1:

- Students completing only Tier Test 1 must successfully complete the appropriate College Readiness math course prior to enrolling in any gateway math course.
- Score of 80+ student should take Tier Test 2.

Tier Test 2:

- Score below 70 must successfully complete the transition math course prior to enrolling in any gateway math course.
- Score 80+ student may enroll in MAT 143 or MAT 152 or attempt Tier Test 3.

Tier Test 3:

- Score below 80, student may enroll in MAT 143 or MAT 152 or may take MAT 035 before taking MAT 171.
- Score 80+: Student may enroll in MAT 171.
- J. Applicants who have Accuplacer scores as follows:

Accuplacer Classic:

- Sentence Skill 86
- Reading Score 80
- Arithmetic 55
- Elem. Algebra 75

Accuplacer Next Generation:

- Reading 253
- Math QAS 254

The College provides opportunities for prospective students to complete College Readiness
Assessment (Accuplacer) at the College's main campus testing facility. Assessment exams are not entrance examinations and results will not deny admission to the College. Students who do not meet the above requirements or obtain a passing score on the English or mathematics portion of the assessment exam must enroll in a College Readiness mathematics and/or English course to meet the prerequisite requirements of enrolling in a gateway English or mathematics course.

Students who do not receive a passing score have one opportunity to retake all or a portion of the exam. Otherwise, the student will enroll in a College Readiness English or mathematics course as needed.

Note: College Readiness Assessment scores are valid for five years.

Preparation for Assessment Exams

To assure proper placement in college courses, students are strongly encouraged to study and prepare for College Readiness Assessments before sitting for the exam. Study documents are available on BCC's website under Resources, Tutoring and Testing (TLC).

New Student Orientation

BCC's New Student Orientation program helps students transition into college providing information on campus policies, procedures, online systems, technology, support resources, and academic services. The college offers an online orientation program throughout the year and a seated orientation prior to the start of the fall semester.

Freshman, dually enrolled students who just graduated high school, and students who have been away from College for more than two consecutive semesters (excluding summer semester) are required to complete a New Student Orientation prior to the start of semester.

Additional Admission Considerations

Admissions for additional populations may be subject to additional conditions:

- A. Applicants with Felony Convictions
 Some local, state, and federal laws may prohibit individuals with felony convictions to possess and discharge a firearm, enter childcare and healthcare facilities, or enter campus due to the presence of minors. Not being able to participate in course activities may affect the student's ability to successfully complete specific courses and/or programs.
- B. Applicants with prior suspension or expulsion from higher education institutions
 Brunswick Community College reserves the right to refuse admission to any applicant who has been suspended or expelled for disciplinary reasons from another educational institution.
 Additionally, the College reserves the right to refuse admission to any applicant who poses an articulable, imminent, and significant threat to others.
- C. Admission of persons under age 18

 The College may admit minor applicants under the following conditions:
 - 1. A minor between the ages of 16 and 18 years who is not enrolled in a public or private educational agency may be admitted to GEAR or other Continuing Education

- programs if the educational agency determines that admission to such programs is the best educational option for the student. Individuals may seek enrollment on a semester-by-semester basis by obtaining proper authorization from their current high school administrator, the College President, and parent/guardian.
- 2. A person who is under the age of 18 and enrolled in a public or private educational agency may be admitted to the College under the conditions set forth in the General Statutes and the State Board of Community Colleges Code, employing procedures consistent with guidelines from the State Board of Community Colleges and the NCCCS. For additional information, see the Career and College Promise section of this Catalog.
- D. Admission of Undocumented Immigrants
 A person who is an undocumented immigrant
 (anyone who is not lawfully present in the
 United States) may be admitted to the College
 as permitted by State Law and the State Board
 of Community Colleges Code, employing
 procedures consistent with guidelines from the
 NC Community Colleges System Office and
 federal immigration classifications. However,
 admission to a specific program of study may
 be prohibited due to federal law that prohibits

Undocumented immigrants may be admitted if they attended and graduated from a United States public high school, private high school, or home school that operates in compliance with State or local law and does not displace a North Carolina or United States citizen from enrollment.

states from granting professional licenses to

undocumented immigrants.

Admitted undocumented immigrants must comply with all federal and state laws concerning financial aid and will be charged out-of-state tuition rates, whether or not the student resides in North Carolina.

Finally, students lawfully present in the United States shall have priority over any undocumented immigrant in any class or program of study when capacity limitations exist.

E. Admission of Students with Deferred Action for Childhood Arrivals (DACA) Status

The U.S. Department of Homeland Security has given guidance to the State Board of Community Colleges on Admission of Students with Deferred Action for Childhood Arrivals ("DACA") classification. Individuals must satisfy all of the following criteria to be eligible for this classification:

- Individuals who came to the United States under the age of 16, were present in the United States on June 15, 2012, and are presently under the age of 30;
- 2. Individuals who have continuously resided in the United States for at least five years prior to June 15, 2012;
- Individuals who are currently in school, have graduated from high school, or are honorably discharged veterans;
- 4. Individuals who have not been convicted of any serious criminal offense;
- Individuals who do not pose a threat to national security or pose a threat to public safety.

Programs with Additional Admission Requirements

A. Basic Law Enforcement Training (BLET)

The BLET curriculum is a limited admission program, and is generally offered two times a year at the Leland Center. Interested applicants must meet the following requirements:

- A. Submit an Admissions Application and complete a Residency determination.
- B. Submit a medical examination release from a physician licensed to practice in North Carolina.
- C. Submit a sponsorship letter from a NC Public Law Enforcement Agency.
- D. Submit an official final high school transcript (showing actual graduation date), GED®, or Adult High School Equivalency Diploma.
- E. Submit a background check covering the period beginning with one's 18th birthday until the time of admission from

- the Clerk of Superior Court of the applicant's counties of residency.
- F. Be at least 20 years of age.
- G. Place out of or satisfactorily complete ENG 025 (College Readiness English), or equivalent, prior to enrollment in the program via the reading placement test (regardless of previous college-level English credit).
- H. Have no felony or Misdemeanor B convictions.
- Interview with and gain the approval of the Director of the BLET program to enter the program.

B. Health Sciences Programs

Health Science Programs have a competitive admissions process. Candidates may be measured on prior grade point average, results of comprehensive academic skill exams, accumulated points for non-NUR courses, and participation in mandatory Information Sessions. Applicants should refer to the respective Health Sciences Program's webpage to review application criteria and documentation requirements.

Students wishing to transfer from another institution to any Health Science Program will be evaluated for acceptance and course placement on an individual basis. In addition to meeting the College entrance requirements, students seeking admission via transfer into nursing programs should refer to BCC's Nursing Transfer Policy located on the Health Sciences Program webpage for any additional requirements.

C. Dually Enrolled Programs (Admission of Persons Under Age 18)

Early College High School and Career and College Promise Programs provide seamless dual enrollment educational opportunities for eligible North Carolina high school students to accelerate completion of college certificates, diplomas, and associate degrees that lead to college transfer or provide entry-level job skills.

Early College High School Program Pathway

Brunswick County Schools and BCC have established the Brunswick County Early College High School (BCECHS), a cooperative innovative program. BCECHS students concurrently enroll in high school and college courses as early as the ninth grade.

For additional information about the Cooperative Innovative High School Pathway (BCECHS), 910.754.8565.

Career and College Promise Program Pathways

The Career and College Promise Program is available to public, private, and home schooled students providing the following pathway options:

1. Career and Technical Education Pathways

The Career and Technical Education Pathways provide courses leading to a certificate, diploma, or degree in technical programs.

2. College Transfer Pathways

College Transfer Pathways provide core courses required for transfer to a 4-year institution in the University of North Carolina system.

3. Workforce Continuing Education Pathway

The Workforce Continuing Education Pathways offer credits toward entry-level job credentials related to workforce development.

Additional information about Career and College Promise Program pathways is available in the High School Programs section of this Catalog and Student Handbook or contact the Center for Advanced Studies, 910.755.7355.

State Authorization for Out-of-State Students Taking Distance Learning Classes

In compliance with the United States Department of Education policy, the College complies with the standards of state authorization that provide students residing outside of North Carolina the opportunity to enroll in courses and programs at BCC. If you are an out-of-state student who intends to complete a course while residing outside of North Carolina, contact Distance Learning at brunsdl@brunswickcc.edu to ensure that the appropriate state authorization is in place for your state residency.

Transfer Admission and Transcript Evaluation

BCC admits transfer applicants under the General Admissions Policy. Upon application to the College, the Office of the Registrar reviews transfer credit and electronically notifies the students of credit applied within 2 weeks of receipt of the external college transcript(s).

Transfer applicants must submit official transcripts of courses completed at all institutions of higher education they have previously attended. The applicant is required to have international high school and post-secondary transcripts translated by a professional translation agency prior to submission.

Acceptable transfer course(s) must meet the following criteria:

- The course(s) must be from another regionally accredited institution.
- You must have earned a letter grade of "C" or better for the course.
- The course(s) credit must be greater than or equal to the number of semester hours (or converted quarter hours) of the corresponding BCC course, and be equivalent to an active course in the Catalog and Student Handbook and/or North Carolina Community College System's Combined Course Library.
- The course(s) must be equivalent to required and elective courses in the program of study for which the applicant seeks admission.

Transfer credit is not awarded for nationally accredited institutions (or other non-regional accrediting bodies), nor for coursework that does not meet the above criteria.

Students receive advanced standing based upon their performance and receipt of official transcripts from the originating source in Advanced Placement (AP) examinations, the College-Level Examination Program (CLEP), institutional proficiency exams, High Level International Baccalaureate (IB) examinations, and/or High School to Community College Articulation Agreement coursework (Career Pathways). With select Programs of Study, under particular conditions, the college may award experiential credit.

Refusal to Admit

The College may refuse admission to any applicant if it is necessary to protect the safety of the applicant or other individuals. When the College determines that there is an articulable, imminent, and significant threat, the College will document the following:

- detailed facts supporting the rationale for denying admission;
- the time period within which the refusal to admit shall be applicable and the supporting rationale for the designated time period; and
- 3. the acceptable conditions upon which to admit the student.

Per state authorization, the college may refuse admission to any applicant who is not a North Carolina resident, who seeks enrollment in any distance education course only if that applicant resides in a state where the college is not authorized to provide distance education.

The applicant may appeal the College's decision to deny admissions by following the College's disciplinary appeal process. However, State Authorization decisions are final and may not be appealed.

Approved by Brunswick Community College Board of Trustees July 9, 1980, October 25, 1997. Amended and Approved: November 19, 1997, July16, 2003, May 16, 2007, March 18, 2009, March 31, 2011, June 29, 2012, November 15, 2012, June 28, 2013 and January 12, 2018.

RECORDS & REGISTRATION

Responsibilities of the Student

Brunswick Community College recognizes and respects the student's responsibility as a steward of one's education while at the College. To this point, students have an obligation to do all of the following in order to create the most powerful and successful learning experience possible:

- Adhere to the College policies and procedures outlined in this Catalog and Student Handbook.
- Become knowledgeable regarding their program of study and the requirements therein.
- Enroll and attend class(es) by the Course Census Date.
- Continually check their official BCC email for college communications.
- Follow schedule changes and course withdrawal procedures and comply with deadlines.
- Meet with an Academic Advisor or Success Coach at least once per semester to assess academic progress.

Students are expected to maintain satisfactory progress toward a degree, diploma, or certificate each semester. At the conclusion of each semester, final course grades are issued to the student and an assessment is made of the student's academic progress.

There are significant consequences to a student's financial aid eligibility if they do not make satisfactory academic progress. For additional information, refer to the *Academic Progress* section of this Catalog and Student Handbook.

Each student is responsible for knowing the academic regulations of Brunswick Community College, maintaining academic standing, and meeting graduation requirements for their program of study. Advisors and Success Coaches will assist students in course planning and program completion, but the final responsibility rests with the student.

Expectations of Students

Engagement, enthusiasm, motivation, and selfdiscipline are essential elements of individual learning and development. Therefore, all students should show respect for themselves, their peers, and College personnel. Students at BCC are expected to:

- be courteous to fellow students, faculty, staff members, and the public;
- be honest in academic work and in interactions with members of the campus community;
- · obey local, state, and federal laws;
- keep confidential all passwords, PINs, and usernames: and
- respect the property of the College, fellow students, and others.

Honor Code

BCC is an institution that values academic integrity. To this end, students will exhibit absolute honesty in all academic endeavors.

BCC students will refrain from acts of academic dishonesty such as cheating, fabrication, lying, bribery, assuming another's identity, and/or using electronic devices not specifically allowed by the instructor. This also includes, but is not limited to, inappropriate collaboration, giving or receiving of information (including test materials) without permission, taking a test for another student, allowing someone other than the enrolled student to complete coursework, and the unauthorized submission of the same paper in a different course.

Plagiarism

Plagiarism is an act of academic dishonesty, and is therefore, a serious violation of BCC's Honor Code. Students commit plagiarism when they use words, ideas, statistics, images, and/or graphics from other sources, and present this material as their own work or do not attempt to document their sources. If students are unsure what information should be cited, they should ask their instructor for guidance.

Examples of plagiarized assignments include:

- Artificial Intelligence (AI) generated content misrepresented as original student work;
- word-for-word copies of essays and articles taken from websites, books, periodicals, or other sources;
- phrases, sentences, and longer sections that are copied word-for-word from other sources without using quotation marks and citing the source; and

 paraphrased and summarized words and ideas whose sources are not clearly cited in the student's text.

All students are obligated to report incidents of academic dishonesty of which they have knowledge to the appropriate authorities.

Instructors who suspect a student has participated in academic dishonesty/plagiarism are authorized to request and examine the student's research notes and other materials. Therefore, students are required to keep their research notes until they receive final grades.

Students may receive a grade of zero for the assignment and may be dismissed from the course and/or program. Instructors provide verified cases to the appropriate department head, and submit an Academic Alert to the student's success team.

Classroom Behavior and Disciplinary Actions

Brunswick Community College is an institution for adult learning. It is a partnership between instructors with the desire to teach and students with the desire to learn. To create an appropriate teaching and learning environment, students must show respect for their instructors and fellow students. The College provides the following guidelines to assure an uninterrupted learning environment:

A. Attendance

Students are expected to be in class. They should not enter late or leave early. For online classes, attendance is measured by active participation and by the timely submission of assignments.

B. Absences

Students should inform the instructor, in advance, if an absence is necessary. It is the student's responsibility to obtain missed assignments from the instructor or from their classmates. Students should not expect to be able to make up work, such as unannounced quizzes or exams. It is not the responsibility of the instructor to re-teach material missed due to an absence.

Students requesting an excused absence for religious observance must make their request in writing to their instructor(s) at least fourteen (14) days prior to the intended absence. The request should include the day requested and the class(es) to be missed. Prior to the date of absence, the instructor and student must agree

in writing as to how, when, and where the make-up(s) will take place for the missed work. Failure to adhere to the agreed-upon schedule will void the student's right to make up the work unless the instructor(s) involved agree to a reschedule.

A student may not request different religious observance days for different classes offered on the same day. If a request is made for any class on a certain day, that request will count as one of the two days permitted for the entire academic year.

C. Verbal Disruption

Students should not engage in side conversations in class.

D. Use of Class Time

Students should not use class time to work on unrelated activities. This includes homework for other courses or personal activities.

E. Internet

Students may use the Internet for valid academic purposes in class and may not access non-academic sites that are unrelated to the course. In all instances, students must obey BCC's Computer Usage policy and directives. Refer to the Information Technology Services (Appendix E) section of this Catalog and Student Handbook for additional information.

F. Attentiveness

Students should be alert in class. Therefore, they should avoid placing their heads on desks, hiding behind hats or hoods, and sleeping.

G. Attitude

Students are expected to maintain a civil attitude in class. Inappropriate commentary or body language that expresses a negative attitude towards the course, the instructor, assignments, or fellow students is not allowed. In electronic communications, responses should be similarly civil and pertinent.

H. Profanity and Offensive Language

Profanity or offensive language is not permitted in class.

Cell Phones and Other Devices

Students must turn off cell phones and other electronic devices when entering class. They may not send/receive text messages or telephone calls, surf the Internet, or listen to music during class.

J. Guests

Friends or children are not allowed in class. In addition, children should not be left unattended anywhere on campus.

K. Food, Drink, and Tobacco Products Students may consume bottled drinks with screw tops with permission from the instructor. No food items are to be consumed in the classroom. Tobacco products are also prohibited from use on all Brunswick Community College property.

L. Personal Business

Personal business transactions with instructors, such as asking them to sign forms, etc., should be conducted before or after class.

Both faculty and students shall enjoy a positive and supportive environment guided by clearly defined expectations and policies. Therefore, faculty should review these expectations, including the Honor Code, with their students during the first week of class. For each course, the instructor shall clarify the extent to which collaboration on assignments or the use of technology is permitted.

The instructor is responsible for maintaining an environment that is conducive to learning. Therefore, the instructor may remove a student from class if that student's behavior is disruptive to the academic environment. Repeated or egregious offenses shall be directed to the Vice President of Student Affairs or appropriate administrator. For additional information *refer to the Student Code of Conduct Appendix* of this Catalog and Student Handbook.

General Registration Procedures

Students are expected to register during scheduled registration dates as published in the College's Academic Calendar. To register, curriculum students must first be admitted to the College following the procedures and policies outlined in the *Admissions & Enrollment Services* section of this catalog.

Courses selection must be within the students Program of student and the student's Faculty Advisor or Success Coach must approve course selection prior to registration. (The College reserves the right to schedule courses as deemed appropriate to the best interest of the student and the College, and some courses may only be offered at specific times throughout the academic year.)

Advising

Students are encouraged to meet with their advisor periodically throughout the academic year. During these meetings, the Advisor reviews the student's academic progress, discusses barriers to their success, and selects upcoming courses for credential completion. After registration opens, course sections are selected, the Advisor approves the courses for the student to complete the registration process.

Registration

Given the variety of class start dates, registration occurs throughout the academic year. Online registration through the College's Self-Service Program may not be available the day prior to the start of class sessions. Should this occur, students can obtain assistance by contacting or stopping by BCC's OneStop Student Services Center.

Registration during Schedule Change Period
 A student may register for classes during the
 Schedule Change (Add/Drop) period, and in
 some instances, up until the Course Census
 Date. All registration activity after the first day
 of class must occur through BCC's OneStop
 Student Services Center.

Schedule Changes

After the start of the semester, a student who wishes to change their schedule should consult with their instructor, advisor, and financial aid counselor for approval. Schedule changes are limited to the first few days of each semester and in some instances may occur up until the Course Census Date. Classes dropped after the Course Census Date are recorded as a course withdraw.

It is the student's responsibility to drop courses that they do not plan on attending <u>before</u> the first day of class to avoid being responsible for tuition, received course materials, and fees.

Refer to the *Curriculum Tuition Refund Policy* in the *Tuition, Fees, & Expenses* section of this Catalog and Student Handbook for additional information regarding financial implications of dropping courses after the start of the semester.

Withdrawal that occur after Census Date appear on a student's transcript with a grade of "W". For additional information, refer to the *Withdrawal Policy* section within this Catalog and Student Handbook.

Audit Policy

Students may elect to audit a course for non-credit purposes when space is available.
Students who wish to audit a course must follow regular registration procedures and have approval of the Lead Instructor, Program Director, Department Chair, and/or Dean responsible for the course.

Permission to audit a course is granted one-time per course. Under extenuating circumstances, such as illness, family death, job change, etc., a student may be allowed to audit a course a second time, subject to the approval of the Vice President of Student Affairs. Students do not receive credit or count the hours in the computation of grade point average for audited courses. Nor, can an audited course be changed to a credit course; however, a credit course may be changed to an audit course during the Schedule Change (Add/Drop) period. Tuition, course materials, and fees for audit courses are the same as for credit courses.

Approved by the Brunswick Community College Board of Trustees September 16, 1992. Amended: October 25, 1997 and June 28, 2013.

Requisite Requirements & Waivers

Students are required to meet all course requisites providing evidence of one of the following:

- by demonstrating higher-level course or requisite completion on a transcript,
- by providing previous evidence of awarded credit based on professional/life experience,
- by obtaining college-level scores on an assessment inventory,
- by being awarded an associate or higher level degree, or
- by providing written documentation from a peer/senior institution.

Senior Citizens

Brunswick Community College complies with State Board of Community Code (1ESBCCC 1000.2) and allows individuals at least 65 years of age to audit a course section without payment of tuition or registration fee, although course materials may need to be purchased to fully participate in the course. Proof of age is required as verified through a driver's license, State identification card, or other government-issued document. Students who receive approval to

audit a course will not receive a grade, academic credit, continuing education units, or any certification upon completion of the course.

Students wishing to enroll as a Senior Citizen must apply to the College and complete a Residency determination.

Certain classes or types of classes shall be excluded from this policy at the discretion of the College. The College reserves the right to deny or delay a decision for a senior audit for any class based on an analysis of course enrollment and overall viability. Certain courses are not eligible for senior audits based on their status as selfsupporting or other special circumstances associated with the delivery of the course. Seniors wishing to appeal a decision of an audit denial for any course may direct their appeal to the respective Vice President area, whose decision is final. A senior citizen (age 65+) may audit a Curriculum or Continuing Education Workforce Development course only if a seat is available once the course's minimum enrollment requirements are met.

A Senior who audits a course shall not displace other students seeking to enroll in the course section. The Senior must make application to audit the course prior to the start date of the course and will be notified by the college personnel handling their registration if the audit is approved. Once enrollment is accepted, the Senior is expected to pay any local fees such as insurance, materials, supplies, books, and other instructional materials required for the course.

Certain courses will not be eligible for senior audit, such as those with classroom space constraints, laboratory, work-based learning or clinical courses, courses affected by strict teacher/student ratios, or those with safety-related concerns. Directors, Chairs and/or Deans make the determination if a course may be audited.

Students Less than Age 18

Students under the age of 18 are only permitted to register for curriculum-level courses under the established guidelines of the Career and College Promise program.

It is important to note that in most cases, North Carolina high school students typically graduate high school after most College summer courses have already started. As such, a high school student may continue to register for summer courses through the Career and College Promise program of their high school graduating year. To enroll the fall semester following high school

graduation, the student must contact OneStop Student Services to transition their Program of Study to a traditional degree, diploma, or certificate program. The student must also complete a new Residency determination to determine in- or out-of-state tuition rates. For additional information, refer to the *Additional Admission Considerations* section of this Catalog and Handbook.

Undocumented Immigrants

In accordance with North Carolina Community College System policy and procedures, undocumented immigrants, when admissible to the College, are permitted to register for courses beginning on the last day of registration, prior to the start of classes when receiving business sponsorships or paying out-of-state tuition and fees.

Self-Service Registration System

All pre-registration activity at the College is electronic through the College's Self-Service Registration system. Students are provided a username and password for entry into Self-Service. Students may only register for courses in their active program(s) of study after obtaining Advisor approval. A Business and/or Registrar Office hold on a student's account may prevent a student from completing registration. If this occurs, the student should consult with BCC's OneStop Student Services Center or the Business Office to satisfy the requirements to resolve the account hold to complete the registration process.

Class Size & Course Repetition Policy

Enrollment in curriculum classes is based on an individual's educational background, test scores, and/or the potential for him/her to benefit from the class or classes as determined by the faculty, staff, and administration.

Class Size

In setting appropriate class enrollments for programs/courses for effective and efficient operations, Brunswick Community College considers the following criteria: student needs; safety; accreditation requirements; certification requirements; course subject matter; time and location; facilities; special equipment requirements; funding sources; and economic feasibility. The Vice President of Academic

Affairs will ensure that registration numbers are sufficient for a class to operate effectively and efficiently.

Course Repetition

Students may repeat courses for credit in the following circumstances:

- A. Courses with an earned grade of C or better may be repeated once with the permission of the student's faculty advisor and when space is available.
- B. Courses with an earned grade of D, F, or W may be repeated a maximum of two times. College Readiness courses may be repeated as often as needed.
- C. Audit courses may be repeated one time with the permission of the student's faculty advisor.

The Course Repetition Policy applies only when students are able to enroll in regularly scheduled courses. The policy does not guarantee courses will be available to repeat.

All earned grades will appear on a student's official transcript, but in the case of a student who repeats a course, only the highest grade is used in calculating the student's program grade point average. The Vice President of Student Affairs must approve exceptions to this policy.

Approved by Brunswick Community College Board of Trustees November 16, 1988. Amended: August 21, 1991, October 25, 1997, May 17, 2000, April 20, 2005, June 1, 2009, June 28, 2013, and September 21, 2023.

Attendance & Course Delivery

To meet course learning objectives, students are responsible for regularly attending class. The instructor's course documents provide the rules on tardiness and leaving class early. Instructors are required to record absences and report excessive absenteeism to the Office of Records and Enrollment Management.

Attendance Procedures

 Students must attend class prior to the course census date to remain enrolled in the course. Those students who do not meet census requirements are recorded as a "No Show" (NS) for that course. Departments and individual instructors <u>may not</u> waive this requirement.

- a. Face-to-face courses: Students must attend a class meeting time at least one time on or before the course census date to remain enrolled.
- b. Blended/Hybrid courses: Student must (1) be in attendance at the class meeting time or (2) log into the online portion of the course's Learning Management System (Moodle), and submit the enrollment or census assignment before the course census date to remain enrolled. Any assignment completed outside of Moodle, including Third Party software platforms, is not acceptable to satisfy course census requirements.
- c. On-line courses: Students enrolled in online courses must log into an online course in Moodle and submit the enrollment or census assignment before the course census date to remain enrolled. Any assignment completed outside of Moodle, including Third Party software platforms, does not satisfy course census requirements.
- No students may remain in a class if their name is not on the attendance roster and no students may be added to the roster after the Course Census date.
- 3. Course instructors will record attendance, at least weekly, throughout the entire length of the class.
- Course instructors will post all critical dates (census date, including the 75% point of the course for withdrawal purposes) on the Course Syllabus.
- Some programs (BLET, Cosmetology, and others) with outside regulatory bodies may require a minimum of course attendance hours other than those dictated by BCC.
- Students are responsible for informing the instructor of circumstances that may cause them to be away from class. It is the student's responsibility to catch up quickly on any missed class activities and assignments.
- Student absence due to military deployment can qualify for extenuating circumstances for withdrawal (see below). Absences due to deployment qualify for special consideration such as:
 - opportunity to make up missed tests/ coursework,

- options to continue coursework when feasible,
- options to receive a temporary grade of "Incomplete or I" (coursework must be completed by a time specified by the College),
- ability to drop the course with no academic or financial penalty, or
- opt to withdraw from the course with no academic penalty.
- 8. If a student is absent for any reason in excess of 20% of the class hours, he or she is in violation of the Brunswick Community College's Attendance Policy. Students who are absent for any reason in excess of 20% of the class hours must contact their instructor to review the conditions for developing a plan of action to continue in the course.

Instructors are required to evaluate attendance weekly. If it is determined a student should be withdrawn due to absences and the student has not already instigated the withdrawal, the instructor may instigate an administrative withdrawal and inform the Office of Records and Enrollment Management of the student's last date of attendance.

Withdrawal for attendance may affect the student's satisfactory academic progress and continued financial aid eligibility. Students who withdraw from class(es) prior to completing at least 60% of the enrollment term will have their financial aid eligibility recalculated based on the percent of the term completed. A student's withdrawal from class(es) can affect future financial aid eligibility and can result in the student needing to repay to the College some if not all of the financial aid funds they have already received.

Attendance Policy approved by Brunswick Community College Board of Trustees July 13, 1994. Amended: October 25, 1997, June 28, 2013, June 18, 2018, and August 17, 2017; Changes in Procedures Approved by President's Cabinet September 21, 2017, June 18, 2018, and November 1, 2021.

Course Delivery

Courses at Brunswick Community College are offered in various formats and via a multitude of media. Presently, a course may be offered in one of the following formats:

A. Traditional Delivery (Seated) Courses

Traditional Delivery Courses meet in person in a regular classroom learning environment for lecture and lab activities.

B. Hybrid Courses

Hybrid Courses meet in person, but also receive more than half of the course content via the Internet.

C. Online Courses

Online Courses are delivered entirely online and may require an on- or off-campus proctored exam.

D. Blended Courses

Blended Courses meet in-person, but also receive up to half of the course content via the Internet.

E. Clinical, Hospital, or Workplace Setting Courses

Clinical, hospital, or workplace setting courses are completed at professional sites throughout the region, often outside of those owned and maintained by the College. These courses vary by program and provide real-world, hands-on experience, i.e. nursing practicum courses in area hospitals, clinical courses in professional healthcare environments and area schools, and/or workplace settings such as area businesses and golf courses.

Withdrawal Policy

Students who elect to withdraw from a course or from the College are expected to consult with their instructor(s), Success Coach, or Faculty Advisor, and Financial Aid Counselor if applicable.

All students have the option to withdraw before the 75% point of class without academic penalty. A student who wishes to withdraw from a course is responsible for initiating the withdrawal request through the instructor of the course, their Faculty Advisor, or BCC's OneStop Student Services Center.

For Financial Aid students, the instructor will identify the last date of attendance in Self-Service prior to the Office of Financial Aid Resources processing a withdrawal request. A Financial Aid student must acknowledge the

impact of the withdrawal on future financial aid eligibility prior to the Financial Aid department processing the request.

If a student is absent for any reason in excess of 20% of the class hours, they do not meet the College's Attendance Policy requirements. Unless the student officially withdraws from the course, the instructor and/or student services administrator, in consultation with the instructor, may submit an administrative withdrawal to the Office of Records and Enrollment Management to officially withdraw the student from the course.

If the student presents written documentation of extenuating circumstances that make it impossible for the student to continue in the course, a grade of "W" may be awarded upon agreement of the instructor and the Vice President of Student Affairs. Extenuating circumstances is a condition that arises after the official withdrawal date that forces the student to withdraw from class(es) for reasons beyond their control. Documentation. including dates and the exact condition(s), must be provided to the Vice President of Student Affairs. In approved cases, a grade of "W" will appear on the student's academic record with no effect to GPA. Unsatisfactory academic performance does not meet the requirement of an extenuating circumstance.

Withdrawals can affect a student's satisfactory academic progress for continued financial aid eligibility and can result in the student needing to repay financial aid that they have already received. Students who withdraw from class(es) prior to completing at least 60% of the enrollment term will have their financial aid eligibility recalculated based on the percent of the term completed.

Notice: Financial aid students who stop attending courses prior to the 60% point of the semester may owe a portion of the aid they received back to the College. The student must contact the Office of Financial Aid Resources to determine their financial obligation.

Curriculum Program Selection & Expectations

Academic Advising

All students, regardless of their program of study, are assigned a Faculty Advisor and a Success Coach. Students meet with a Faculty Advisor a few times during the academic year to review their academic progress and affirm that their coursework continues to align with their career

and educational goals. Optimally, the advisor and student prepare a 2-year academic plan. Once the registration period begins, students may register for courses through the College's Self-Service system once their Advisor has approved their course selection.

In most cases, advising sessions are one-on-one and face-to-face. However, in some cases, an advisor may elect to advise the student over the phone, by email, or by video conference. Additionally, some program administrators may elect to advise students within a group setting.

Anticipated Completion Date

Regardless of full- or part-time enrollment classification, the anticipated completion date for a student's program of study is determined by federal reporting standards and is routinely reported to the National Student Clearinghouse with the College's enrollment data. The expected amount of time necessary to complete a certificate-level program is up to 11 months, 12-23 months for a diploma-level program, and 24 months for a degree-level program.

Catalog of Record

A student's Catalog of Record is a resource for program requirements associated with the student's degree requirements. A student may elect to change their Catalog of Record to the newest catalog year. In any case, the student must satisfy all requirements for the desired degree under the catalog selected.

A re-enrolling student who has separated from the College for two or more consecutive semesters (summer semester excluded) will automatically be placed under the catalog in effect at the time of re-enrollment. The student must then satisfy all requirements of this updated catalog of record.

Degrees, Diplomas, & Certificates

Brunswick Community College awards an Associate in Applied Science (AAS) degree to students who complete a 2-year technical program. Students are awarded an Associate in Arts (AA), Associate in Engineering (AE), and/or Associate in Science (AS) degree upon completing a 2-year college transfer program. A diploma is awarded for completion of a one-year technical program; and a certificate is awarded to individuals who complete other courses of the specific certificate program of study that generally requires less than one year of study.

Program of Study Changes

New students and those applying for readmission are enrolled in the program selected on their "Application for Enrollment." It is highly recommended that students consult with their Faculty Advisor or Success Coach before requesting a change in Program of Study as changes may have financial implications and affect the time to credential completion. Program of Study Change Requests received within the first three weeks of the semester are processed for the current term; otherwise, the change is effective on the first day of the following term. And, in some instances, the student may be appointed a new Faculty Advisor based on their new Program of Study.

Changing a program of study may have serious implications to continued financial aid and scholarship eligibility. All financial aid recipients are required to obtain approval from the Office of Student Financial Resources prior to completing a Program of Study Change transaction.

When a student changes from one program of study to another, any course(s) taken in the first program of study which is applicable to the new curriculum will be transferred to the new program of study with the grade earned in that course. These course grades are used to calculate the GPA for the new program.

Academic Progress

Students enrolled in a degree, diploma, or certificate program are expected to maintain satisfactory progress toward completing their program of study. At the end of each semester, a student's grade point average for the semester and the student's cumulative grade point average are examined.

For purposes of determining satisfactory academic progress, the grade point average includes all credit hours attempted within the student's program of study.

A student must maintain a minimum cumulative grade point average of 2.0 in a program of study to maintain satisfactory academic progress.

See the Satisfactory Academic Progress (SAP) for additional information as it pertains to financial aid eligibility under the Student Financial Resources section of this catalog.

Academic Probation

Students whose cumulative grade point average falls below 2.0 will be placed on academic

probation for the subsequent semester in which they enroll. Students on academic probation receive a probation notification from the Office of Records & Enrollment Services. Students who demonstrate academic progress by earning a cumulative 2.0 GPA or higher during the probation period will be reinstated to "good standing".

Financial Aid recipients should refer to the Student Financial Resources section of this Catalog and Handbook for additional information.

Stacked Programs of Study

In certain cases, select programs of study at the College provide students the opportunity to obtain various certificates and/or diplomas during the course of completing the requirements of their parent (highest-level) program. These programs are known as "stacked programs of study."

The following is a list of stacked programs of study currently offered at BCC (AAS denotes an Associate in Applied Science Degree):

AAS in Accounting and Finance (A25800)

Diploma – Accounting and Finance (D25800)

Diploma in Accounting and Finance (D25800)

Certificate - Accounting and Finance – Forensic Accounting (C25800FA)

AAS in Business Administration (A25120GB/SC)

Diploma - Business Administration (D25120)

Certificate - Business Administration (C25120)

Certificate-Small Business Entrepreneur (C25120SB)

AAS in Business Administration Public Administration (A25120PA)

Diploma – Business Administration (D25120)

Certificate - Business Administration (C25120)

Certificate-Small Business Entrepreneur (C25120SB)

Diploma - Business Administration (D25120)

Certificate - Business Administration (C25120)

Certificate-Small Business Entrepreneur (C25120SB)

AAS in Cosmetology (A55140)

Diploma - Cosmetology (D55140)

Certificate - Cosmetology (C55140)

AAS in Criminal Justice Technology (A55180)

Diploma – Criminal Justice Technology (D55180)

Certificate – Criminal Justice Technology (C55180)

Diploma – Criminal Justice Technology (D55180)

Certificate – Criminal Justice Technology (C55180)

AAS in Early Childhood Education Birth-Kindergarten (B-K) Teaching Licensure Transfer Option (A55220L)

Diploma - Early Childhood Education (D55220)

Certificate - Early Childhood Education (C55220)

Certificate - Infant and Toddler Care (C55290)

AAS in Early Childhood Education Birth-Kindergarten (B-K) Non-Licensure Transfer Option (A55220NL)

Diploma - Early Childhood Education (D55220)

Certificate - Early Childhood Education (C55220)

Certificate - Infant and Toddler Care (C55290)

Certificate – Early Childhood Education Admin

(C55220A)

AAS in Early Childhood Education Career Entry (A55220CE)

Diploma - Early Childhood Education (D55220)

Certificate - Early Childhood Education (C55220)

Certificate - Infant and Toddler Care (C55290)

Certificate – Early Childhood Education Admin (C55220A)

Diploma in Early Childhood Education (D55220)

Certificate - Early Childhood Education (C55220)

Certificate - Infant and Toddler Care (C55290)

AAS in Health and Fitness Science (A45630)

Certificate—Health Promotions (C45630H)

Certificate—Public Health (C45630PH)

Certificate—Health and Fitness Athletic Training (C45630AT)

Certificate – Health and Fitness Science (C45630)

AAS in Health Information Technology (A45360)

Diploma - Health Information Technology (D45360)

AAS in Horticulture Technology (A15240)

Diploma in Horticulture Technology (D15240)

Certificate - Horticulture Technology (C15240)

Diploma in Horticulture Technology (D15240)

Certificate - Horticulture Technology (C15240)

AAS in Computer Programming and Development (A25590C)

Diploma – Computer Programming (D25590C)

Certificate - C++ Programming (C25590C)

Certificate – JAVA Programming (C25590J)

Certificate – Information Technology (C25590T)

Diploma in Computer Programming (D25590C)

Certificate – JAVA Programming (C25590J)

Certificate - C++ Programming (C25590C)

AAS in Information Systems (A25590S)

Diploma –Information Systems (D25590S) Certificate – Information Systems (C25590T)

AAS in Information Technology General Studies (A25590GS)

Certificate – Simulation & Game Development (C25590SG)

AAS in Turfgrass Management Technology (A15420)

Diploma - Turfgrass Management Technology (D15420)
Certificate - Turfgrass Management Technology (C15420)
Certificate - Landscape Construction Management
Technology (C15420CM)

Certificate – Landscape Design and Construction (C15420LD)

Diploma in Turfgrass Management Technology (D15420)

Certificate - Turfgrass Management Technology (C15420)

AAS in Web Development (A25590WD)

Certificate – Information Technology (C25590T)

Certificate – Web Development (C25590WD)

Certificate - Digital Marketing (C25590DM)

Diploma in Welding Technology (D50420)

Certificate - Welding Technology (C50420)

Certificate - NC3 - 3M Safety

Certificate - NC3 - Starrett PMI

Certificate(s) - NC3 - Lincoln Welding

Certificate - NC3 - Snap-On Tools @ Height

Enrollment Classifications & Course Load

Class Standing

Students in associate degree programs who have completed less than one-half the credit hours required for graduation are classified as freshmen; those who have completed one-half or more of the credit hours required for graduation are classified as sophomores.

Course Load

Course schedules and course loads should be carefully planned by the student in consultation with a Faculty Advisor or Success Coach. Each student is responsible for being familiar with the requirements of the program of study, and keeping account of their progress toward credential completion.

For students pursuing an Associate in Arts, Associate in Engineering, or Associate in Science degree, the course load is typically 16-17 semester credit hours.

The maximum load is 18 semester credit hours and/or 20 semester contact hours.

For student pursuing an Associate in Applied Science and Professional and Technical diplomas and certificates, course loads are outlined by semester in the Programs of Study section of this Catalog and Student Handbook.

During mini-mesters, students are typically limited to one course. Likewise, students who enroll in 8-week courses are typically restricted to 8 credit hours each partial semester limiting enrollment to 16 credits per semester. Requests for exceeding semester course loads must be approved by the appropriate Chair, Dean, or the Vice President of Student Affairs prior to enrollment.

Full-Time vs. Part-Time Status

A full-time student is defined as one who is enrolled in a minimum of twelve (12) credit hours during the fall or spring semester or a minimum of six (6) credit hours in the summer semester in a certificate, degree, or diploma program.

A part-time student is defined as one who is enrolled in fewer than twelve (12) credit hours during the fall or spring semester or fewer than six (6) credit hours in the summer semester in a degree, diploma, or certificate program.

Full-time and part-time status for financial aid purposes may differ. For additional information, refer to the *Student Financial Resources* section of this Catalog and Student Handbook.

Grading Policy

Brunswick Community College employs a system of letter grades and corresponding quality points per grade to evaluate a student's performance in achieving the stated goals and objectives for each course. This grading system and the method used to calculate grade point averages are published in this Catalog and Student Handbook. The grading system is also published in each Course Syllabus.

The Course Syllabus also includes a detailed description of the methods of assessment to evaluate student learning and performance and the categorical weights for each assessment towards calculating the student's final grade.

The College provides grades at the end of each course and maintains an official transcript of grades for each student.

BCC Grading System

Curriculum-Level Courses (Numbered 100 and Higher)

Grade	Description	Quality Points
А	Excellent	4
В	Good	3
С	Average	2
D	Poor	1
F	Failure	0

College Readiness Courses

(Numbered 010 to 099)

(These grades do not compute in the GPA for Financial Aid purposes. They also do not count in Program, Term, or Cumulative GPA.)

Grade	Description	Quality Points
А	Excellent	4
В	Good	3
С	Average	2
F	Failure	0

Other Grades (These grades do not compute in the GPA.)

Grade	Description
AU	Audit - Credit hours do not count in the computation of grade point average; all audited courses are assigned the grade of "AU".
CR	Credit by Proficiency Exam - Counts as hours earned for program completion but is not included in the computation of grade point average.
SR	Senior Audit
I	Incomplete. See below.
T or XT	Transfer Credit - Counts as hours earned for graduation but is not included in the computation of grade point average.
w	Official Withdrawal - The grade of "W" or "WE" is given when a student officially withdraws from a course. Credit hours attempted do not count in the computation of grade point average.

Grade of "I" (Incomplete)

An instructor may grant a grade of "I" or "IE" if a student has extenuating circumstances that prevent them from completing the course requirements by the end of the semester; however, a grade of "I" or "IE" will

affect the student's financial aid eligibility in the subsequent semester. It is the responsibility of the student to work with their instructor to request and develop an academic plan to complete the course requirements by the subsequent semester. If the student completes the required work during the subsequent semester, the instructor will assign the grade earned. The Dean of the respective department may only approve extensions to the subsequent semester date. If not updated, a Grade of "I" or "IE" automatically reverts to an "F" at the conclusion of the subsequent semester.

Grade Point Average Calculation

The grade point average (GPA) is a way to give objective value to grades on courses that have different credit hours. The 4.0 grade point system is used to calculate student grade point averages. Each letter grade is assigned quality points as follows:

Α	Excellent	4 Points
В	Good	3 Points
С	Average	2 Points
D	Poor	1 Points
F	Failure	0 Points

To calculate a grade point average, use the following steps:

- A. List your courses and grades for the semester.
- B. List the credit hours for each course, then add the credit hours.

Note: The credit hours for a course can be found in the Course Descriptions section of this Catalog and Student Handbook; the credit hours are the last number in the 5-number sequence in the header for each course.

- C. List grade points earned for the grade received in each course.
- D. Multiply credit hours in each course by the quality points earned by each grade received to yield the total grade points, then add the results.
- E. Divide the total number of total grade points by the total number of credit hours to obtain the grade point average (GPA). For example:

Course	Grade	Credit Hours		Quality Points		Total Grade Points
ACC 120	А	4	Х	4	=	16
ENG 111	В	3	Х	3	=	9
HIT 213	С	2	Х	2	=	4
REL 111	D	3	Х	1	=	3
Total Credit Hours Taken		12	Total Grade Points Earned			32

A student's cumulative grade point average includes all courses the student has attempted at BCC, excluding the lowest grade of repeated courses. The program grade point average includes all courses attempted at BCC that are required in a student's program of study, excluding the lowest grade of repeated courses and grades for College Readiness courses.

32 Grade Points / (divided by) 12 Credit Hours = 2.66 GPA

In accordance with federal regulations, calculating a student's GPA for financial aid purposes includes all courses including those that are repeated as well as those College Readiness Courses. For this reason, a student's Financial Aid GPA may differ from their Program and Cumulative GPA.

Note: When a student repeats a course, only the highest grade earned will be used to calculate the Cumulative and Program GPAs, but all attempted courses will appear on the official transcript.

Academic Honors

Outstanding academic achievements by students are recognized each fall and spring semester by publication of the President's List, Dean's List, and Honor Roll posted within the College's Learning Resource Center and may be listed in the local newspaper. Academic Honors are also noted on the student's college transcript.

- A. **President's List:** The President's List includes students who are enrolled in a minimum of 12 credit hours (college readiness courses and courses offered through Institutional Service Agreements with sister colleges which yield credit from the other institution are excluded) and have achieved a semester grade point average of 4.0. Students eligible for the President's List must be enrolled in an associate degree, diploma, or certificate program.
- B. **Dean's List:** The Dean's List includes students who are enrolled for a minimum of 12 credit hours (excluding any college readiness courses and courses offered through Institutional Service Agreements with sister colleges that yield credit from the other institution) and have achieved a semester grade point average of 3.5 3.99 (with no grade lower than "C"). Students eligible for the Dean's List must be enrolled in an associate degree, diploma, or certificate program.
- C. Honor Roll: The Honor Roll includes students who are enrolled in 6 to 11 credit hours (excluding college readiness courses and courses offered through Institutional Service Agreements with sister colleges which yield credit from the other institution) and have achieved a semester grade point average of 3.5 4.0 (with no grade lower than "C"). Students eligible for the Honor Roll must be enrolled in an associate degree, diploma, or certificate program.

Request for Recalculation of Cumulative Grade Point Average

A currently enrolled student may provide a written request to have any grade of "F" removed from

the calculation of the cumulative grade point average, provided that the course(s) is not in the student's current program of study and the course was completed at least five years prior to the date of the request. The written request must include the:

- 1. student's name,
- 2. student identification number,
- 3. current and former programs(s) of study,
- 4. courses to be deleted from the cumulative grade point average calculation, and
- 5. the reason for the request.

A returning student must be enrolled the semester prior to making the request, having taken a minimum of 12 credit hours, and earned a semester grade point average of 2.0 or better.

The Office of Records & Enrollment Management will review the Request for Recalculation within five working days of receipt. If the request is approved, the courses selected for removal will still appear on the student's transcript with an asterisk (*), and a recalculated cumulative grade point average will be shown on the transcript. If the request is denied, the student will receive a written explanation for the denial.

Note: Approval of a Request for Recalculation is granted only once for each student.

Request for Academic Forgiveness. Cumulative Grade Point Average ReCalculation

After 3 years of non-enrollment, students who reenroll and complete at least 12 semester hours of credit with a 2.0 GPA, have a one-time opportunity to petition the Office of Records & Enrollment Management to have prior course work with grades below a "C" forgiven.

To be eligible:

- the student must <u>not</u> have enrolled in an institution of higher education, including Brunswick Community College, during the three-year period of non-enrollment, and
- the course grades to be forgiven must be at least three years' old with a grade below "C".

If the request is approved, the course(s) selected for forgiveness will appear on the student's transcript with an asterisk (*) along with the adjusted cumulative GPA.

When transferring credit outside BCC, higher education institutions may not recognize grade forgiveness and may elect to include forgiven grades when computing the student's grade point average for admission purposes.

Note: While recalculation applies to the student's academic GPA for graduation and registration eligibility, it does not apply to the student's Financial Aid GPA. In accordance with Federal Law, for financial aid purposes, all attempted credit hours must be considered when calculating a student's Satisfactory Academic Progress.

Grade Appeal Procedure

Students have the right to appeal an end-of-term final grade. A student who desires to appeal should:

- A. Discuss the matter with the instructor who assigned the final grade and request a review of the basis of the grade. If the dispute about the final grade is resolved, if applicable, the instructor will initiate a grade change with the Office of Records & Enrollment.
- B. If not resolved in the above step, the student will contact the Lead Instructor, Program Director, or Department Chair to review the basis for the final grade. The student must present in writing the issue with the final grade to the Lead Instructor, Director, or Department Chair. Supporting evidence of the dispute must be provided along with this review request.
 - Exception: In a situation where the final grade in question involves a dispute between a student and a Program Director or Department Chair, the appeal may move directly to the next step in this process.
- C. If not resolved in the above step, the student will contact the Dean of the instructional area. The Dean may wish to consult individually with the student and instructor. If the disagreement about the final grade is resolved in the discussion, grade change action (when needed) should originate through the instructor and be approved by the Lead Instructor, Program Director, or Department Chair.

Exception: In a situation where the final grade in question involves a dispute between

- a student and a Dean, the appeal may move directly to the next step in this process.
- D. If the matter is still not resolved, the student will contact the Vice President of Academic Affairs for review. The student must present in writing the issue with the final grade and information obtained from each step of the process. Supporting evidence of the dispute must be provided along with this review request.
- E. A final review will be made by the Vice President of Academic Affairs by consultation with all the individuals involved. The grade in question may be upheld or it may be declared invalid by the Vice President of Academic Affairs. If declared invalid, the Vice President of Academic Affairs may choose the following options:
 - Ask the student be given a comprehensive examination by the department involved to establish a final grade of record; and/or
 - Assign a temporary grade of "Incomplete" until the comprehensive examination has been completed. Once completed, the comprehensive examination grade will replace the "Incomplete" final grade.

The right to appeal a final grade expires at the end of the semester following the semester the final grade is assigned. Only in unusual circumstances may the time limit be waived by the Vice President of Academic Affairs. When a student appeals the final grade assigned by an instructor who is no longer employed by the institution, students should begin with the second step of this process.

Students who wish to appeal an individual grade within a specific class shall refer to Policy 4.25 Student Grievance Policy, which states, "Grades, which shall be the subject of the decision of the instructor unless related to some type of suspected discrimination." Continuing, "matters of a purely academic nature shall be adjudicated through the Director, Department Chair, or Dean of the area of instruction."

Therefore, a student who appeals an individual grade should first do so through the instructor. If not resolved, the student should provide supporting evidence of the dispute along with the review request to the Director or Department Chair. If not resolved or in a situation where the grade in question involves a dispute between a student and a Program Director or Department Chair, the individual grade appeal shall be provided to the Dean, whose decision will be final.

Graduation

Graduation Eligibility

To be eligible for graduation in an associate degree, diploma, or certificate program, students must have completed at least one-fourth of the total number of credit hours required in their program of study at BCC. To be eligible for graduation the student must (no exceptions):

- Pass all courses required in the student's chosen program of study;
- Earn a minimum cumulative grade point average of 2.0 in the program of study.
- Satisfactorily complete at least one-fourth of the total number of credit hours for the program of study at BCC.
- Meet all other additional requirements for graduation from the college.

In addition to the above requirements, certain programs have clock-hour, state examination, and/or minimum grade requirements for a student to be eligible for graduation from that particular program of study.

Graduation Procedure & Requirements

To apply for graduation from a degree, diploma, or certificate program, the student must:

 Complete an "Application for Graduation" via Self-Service for each graduating term and each program of study (degree, diploma, and/or certificate), regardless of the student's intent to participate in the actual ceremony.

Term	Application Due
Fall	September 15th
Spring/Summer	February 15th

Summer graduates should submit an application by February 15th if the Summer coursework completes their program of study.

- Students should consult with their Faculty Advisor to confirm coursework listed as "Pending Anticipated (Complete)" will complete their program of Study; and
- Student should complete an online Graduation Survey.

Review of Graduation Readiness & Program of Study Completion

Students may meet with their Faculty Advisor to determine readiness to graduate. Once an Application for Graduation is received, the Office of Records & Enrollment Management completes an initial audit to determine fulfillment of degree requirements. A final audit is completed at the end of the semester.

Release of Printed Credentials & Transcripts

Printed credentials and/or transcripts showing earned credentials may be obtained through the National Student Clearinghouse's E-Transcript service or by contacting the Office of Records & Enrollment Services. Some transcripts and Enrollment Verifications may be withheld if a debt is owed to the College. For additional information, contact the Office of Records & Enrollment Services.

Awarding Dual Degrees & Diplomas

If a student wishes to earn a second degree or diploma (i.e. an Associate in Arts student who also wants to complete an Associate in Science), dual degree requests must be pre-approved by the Vice President of Student Affairs. Once enrollment in dual degrees is approved, courses already taken in one program of study are automatically applied to the secondary program of study. Further, it is the responsibility of the Lead Instructor, Program Director, Department Chair, or Dean to jointly determine which elective credits transfer into the other degree program. Students are responsible for completing any additional requirements of their new program(s) of study.

Graduation Survey

To properly evaluate the effectiveness of the various programs offered, the Office of Institutional Planning & Research gathers survey data from former students regarding their academic and personal experiences to assess the College's climate, curricula, programs, and services. The results of these surveys are compiled and presented to the President, President's Cabinet, and pertinent faculty for the purpose of evaluating interactions of students, staff, and faculty; services; programs; methods of instruction; course content; and potential job markets for the alumni of each program.

Graduation Honors & Distinctions

BCC bestows upon graduates a series of graduation honors, recognizing academic achievement and membership in certain on-campus student organizations.

Academic Honors

Students graduating from associate degree or diploma programs of study are eligible for the following graduation honors based upon their **cumulative** GPA at the conclusion of the fall semester:

A. Associate Degree Graduates

President's Award: The President's Award is given annually to the associate degree graduate with the highest cumulative GPA among the pool of graduates. In the event of a tie, the number of credit hours and programs of study completed at the College are used to determine the award recipient. This individual is recognized during the graduation ceremony and is presented with a keepsake in recognition of their achievement.

Summa Cum Laude: A student graduating with a cumulative GPA of 3.90 or higher in a program of study will be deemed to graduate Summa Cum Laude, or "with the highest honors".

Magna Cum Laude: A student graduating with a cumulative GPA of 3.75 to 3.89 in a program of study will be deemed to graduate Magna Cum Laude, or "with high honors."

Cum Laude: A student graduating with a cumulative GPA of 3.50 to 3.74 in a program of study will be deemed to graduate Cum Laude, or "with honors".

B. Diploma Graduates

Honor Graduate: A student graduating with a cumulative GPA of 3.50 or higher in a program of study will be deemed an "Honor Graduate".

Honor students are acknowledged in the graduation program and on their printed credentials. Additionally, one gold honor cord is provided to students to wear with their regalia, even if they completed more than one program of study with "honors".

C. Other Distinctions

Honor cords or stoles are provided (at no cost to the student) to those who elect to participate in the graduation ceremony and are part of the following student organizations or activities or have the following distinctions:

- Brunswick County Early College High School
- Career and College Promise
- National Technical Honor Society
- Phi Theta Kappa
- Student Ambassador
- Student Government Association
- BCC Athlete
- Veteran
- Adult Learners
- BCC/UNCW CCURE Program
- Scholars of Global Distinction

Note: Students should <u>not</u> order cords and other items from their honor organization other than for a personal keepsake. To ensure uniformity, graduates are only permitted to wear Collegeissued honor cords and stoles for the Commencement Ceremony. Students who do not wish to participate in the Commencement Ceremony may obtain cords from the Office of Registrar after the Commencement Ceremony.

Transfer & Advanced Credit

While there is no limit as to the number of credit hours a student may transfer into Brunswick Community College, transfer or advanced credit can only be used to complete up to 3/4 of the credit hours in their program of study for graduation purposes. Proficiency examination credit is limited to 1/4 of the credit hours required in the program. Further, transfer and advanced credit can be used to fulfill BCC graduation requirements but will not transfer to another institution as BCC coursework. The determination as to the transferability of transfer coursework is the sole decision of the other institution. Transfer and advanced credit do not award quality points for GPA purposes.

Transfer Credit

Transfer credit is awarded for previous college-level studies. The general criteria for the transferability of coursework is a course in which:

- The institution at which the course is taken maintains regional accreditation with the appropriate accrediting body,
- The student earned a letter grade of "C" or better,
- The number of credit hours (or converted quarter-hours) is greater than or equal to the number of credit hours of BCC's course (at

times, this requires adding together the lecture and the lab credits from the transfer institution to equate credit hours), If credit is reported in quarter-hours, these are converted to semester-hours (1 quarter-hour is equivalent to 2/3 of a credit hour).

- An equivalent course (in name and/or description) is offered at BCC or is a part of the NC Community College System Combined Course Library and Comprehensive Articulation Agreement, and
- If credit is reported in quarter-hours, these are converted to semester-hours (1 quarter-hour is equivalent to 2/3 of a credit hour).

Advanced Placement (AP) Examinations

A student may receive advanced credit based on the AP Examinations from CollegeBoard. Students who take an AP Examination should have an official score report sent from CollegeBoard to Student Services & Enrollment Management. Once the score report has been received, examinations with scores of 3 or higher are awarded credit as follows:

Advanced Placement Examination Name	Minimum Score(s)	BCC Course Equivalent	BCC Course Title	Credit Hours

College Level Placement Examinations (CLEP)

Students may receive credit at BCC for achieving acceptable scores on CLEP subject examinations. For most examinations, specific course credit is awarded. Credit is not awarded for general examinations. Students who take a CLEP Examination are required to have an official score report sent from CollegeBoard to Student Services & Enrollment Management to award credit. Once the score report has been received, examinations with sufficient scores (noted below) are awarded credit as follows:

College Level Placement Examination (CLEP) Name	Minimum Score(s)	BCC Course Equivalent	BCC Course Title	Credit Hours

International Baccalaureate (IB)

Students may receive credit at BCC for achieving acceptable scores on High Level International Baccalaureate (HL IB) examinations. Students who take an HL IB examination should have an official score report sent to Student Services & Enrollment Management to award credit. Once the score report has been received, examinations with scores of 5 or higher are awarded credit as follows:

Proficiency Examinations

Students may request course credit by passing a proficiency examination. To be eligible to sit for a proficiency exam, a student must be enrolled at BCC and may not have enrolled in the course prior to taking the proficiency examination.

The Dean of Professional Technical Programs determines the exact examination schedule; however, proficiency examinations are normally administered during pre-registration periods. A \$25 exam fee must be paid when the exam is scheduled and successful students will be given credit for the course as a "CR" (Credit by Examination).

A student must first meet with his/her Faculty Advisor to determine which courses are eligible for proficiency examination credit. A "Proficiency Exam Application" must be completed, signed by the course instructor; faculty advisor; the Lead Instructor, Program Director, and Department Chair; and the Dean. Students are allowed one attempt per course and must pass the proficiency examination with a minimum grade of 80%. The following courses are eligible for proficiency examinations:

BCC Course

ACC 150 Accounting Software Applications

MED 121 Medical Terminology I

MED 122 Medical Terminology II

WLD 115 SMAW (Stick) Plate

WLD 131 GTAW (TIG) Plate

Note: Additional Courses may be eligible. Contact your Faculty Advisor for details.

Educational Records

The Family Education Rights to Privacy Act (FERPA) and other federal regulations govern the College's actions related to students' personal and educational information retained by the College. The following sections describe how Brunswick Community College ensures compliance with these regulations.

Directory Information

Brunswick Community College designates the following items as directory information: student name, major/field of study, dates of attendance, full-time or part-time status, and degrees, diplomas, certificates, and awards received. The College may disclose any of these items without prior written consent unless the student has notified the Office of Records & Enrollment Management, in writing, not to release such information.

Disclosure of Educational Records

Brunswick Community College will disclose information from a student's education record only with the written consent of the student, except in the following allowable instances:

- A. To school officials who have a legitimate educational interest in the records. A school official is:
 - A person employed by Brunswick Community College in an administrative, supervisory, academic or research support staff position or work-study student.
 - 2. A person elected to the Board of Trustees.
 - A person employed by or under contract to Brunswick Community College to perform a special task, such as the attorney or auditor.
 - 4. A person employed by the Brunswick County Sheriff's Office at BCC.
 - 5. A student serving on an official committee, such as a disciplinary or grievance committee, who is assisting another school official in performing tasks. A school official has a legitimate educational interest if the official is:

- Performing a task that is specified in a position description or contract agreement.
- b. Performing a task related to the student's education.
- c. Performing a task related to the discipline of a student.
- d. Providing a service or benefit relating to the student's family, such as childcare, job placement, or financial aid.
- e. Maintaining the safety and security of the campus.
- B. To officials of another school, upon request, in which a student seeks or intends to enroll.
- C. To certain officials of the U.S. Department of Education, the Comptroller General, and State and local educational authorities, in connection with audit or evaluation of certain State and federally supported education programs.
- D. In connection with student's request for or receipt of financial aid to determine the eligibility, amount or condition of the financial aid, or to enforce the terms and conditions of the aid.
- E. To State and local officials or authorities if specifically required by State law that was adopted before November 19, 1974.
- F. To organizations conducting certain studies for or on behalf of Brunswick Community College.
- G. To accrediting organizations to carry out their functions.
- H. To parents of an eligible student who is claimed as a dependent for income tax purposes.
- I. To comply with a judicial order or a lawfully issued subpoena.
- To appropriate parties in a health or safety emergency.
- K. To individuals requesting directory information so designated by Brunswick Community College.
- L. The results of any disciplinary proceeding conducted by Brunswick Community College against an alleged perpetrator of a crime of violence to the alleged victim of that crime.

Records of Requests for Disclosure

Brunswick Community College will maintain a record of all requests for and/or disclosures of information from a student's education records. The record will indicate the name of the party making the request, any additional party to whom it may be disclosed, and the legitimate interest the party had in requesting or obtaining the information. The record may be reviewed by the eligible student.

<u>Inspection of Educational Records</u>

Students have the right to review their education records retained at the College. Appointments for this review may be made by contacting the Office of Records & Enrollment Management at bccregistrar@brunswickcc.edu.

Correction of Education Records

Students have the right to ask to have any record that they believe is inaccurate, misleading, or in violation of their privacy rights corrected. The following are the procedures for correcting educational records:

- A. A student must formally request, in writing, for the Director of Records & Enrollment Management to amend a record. In doing so, the student must identify the part of the record to be amended and specify why they believe the record is inaccurate, misleading, or in violation of the student's privacy rights.
- B. Brunswick Community College may comply with the request, or it may decide not to comply. If the College decides not to comply, Brunswick Community College will notify the student of the decision and advise the student of the right to a hearing to challenge the information believed to be inaccurate, misleading, or in violation of the student's privacy rights.
- C. Upon request, Brunswick Community College will arrange a hearing and notify the student, reasonably in advance, of the date, place, and time of the hearing. The hearing will be conducted by a hearing officer who is a disinterested party. However, the hearing officer may be an official of the institution. The student shall be afforded full and fair opportunity to present evidence relevant to the issues raised in the original request to amend the student's educational records. The student may be assisted by one or more individuals, including an attorney.

- D. Brunswick Community College will prepare a written decision based solely on the evidence presented at the hearing. The decision will include a summary of the evidence presented and the reasons for the decision.
- E. If Brunswick Community College decides that the information is inaccurate, misleading, or in violation of the student's right of privacy, it will amend the record and notify the student, in writing, that the record has been amended.
- F. If Brunswick Community College decides that the challenged information is not inaccurate, misleading, or in violation of the student's right of privacy, it will notify the student that he/she has the right to place in the record a statement commenting on the challenged information and/or a statement setting forth reasons for disagreeing with the decision.
- G. The statement will be maintained as part of the student's education records as long as the contested portion is maintained. If Brunswick Community College discloses the contested portion of the record, it must also disclose the statement.

Use of Social Security Numbers

Brunswick Community College recognizes that it collects and maintains confidential information relating to its students and is committed to maintaining the privacy and confidentiality of an individual's Social Security Number. This policy is to comply with the provisions of North Carolina General Statute 75-60, the Identify Theft Protection Act of 2005. The policy applies to all individuals who have access to, collect, or use an individual's Social Security Number.

The administrative computer system (Colleague) generates a Student ID number that shall replace the Social Security Number as the primary identifier used by Brunswick Community College. Therefore, the use of the Social Security Number as an identification number within the College shall be limited as permitted by law. No office or individual at the College shall:

- A. post grades, assignments, or other information using a Social Security Number.
- B. require an individual to use or transmit a Social Security Number over the Internet or a computer system or network unless the connection is secure and encrypted.

Approved by Brunswick Community College Board of Trustees February 21, 2007. Amended June 28, 2013, amended and included as part of the Student Records & Privacy Act, November 16, 2017.

TUITION, FEES, & EXPENSES

Brunswick Community College, a member of the North Carolina Community College System, offers affordable educational opportunities for all students. Tuition is established by the North Carolina General Assembly, and fees are set by the Brunswick Community College Board of Trustees in accordance with policies established by the State Board of Community Colleges; however, course fees and materials may vary between programs of studies and are included as part of your tuition. Tuition and fees are due and payable at the time of registration unless otherwise noted, and are subject to change without notice.

General Expenses & Billing Procedures

Tuition and fees are applied to a student's account up to a maximum of 16 credit hours. Course supplies and materials are a part of tuition expenses and a charged per credit hour. (There is not a maximum for course supplies and materials per credit hour.) A student is considered full-time for purposes of reporting and activity fees if registered for 12 or more semester hours of coursework. A part-time student is defined as one who is registered for less than 12 semester hours of coursework. A student who audits a course pays normal tuition, fees, and may need to purchase additional supplies and course materials. Before a course is audited, the student must complete an Audit Request, register, and pay for the course.

Payment Responsibility

Students are responsible to pay for classes from which they do not officially withdraw prior to the first day of classes. If financial aid is removed or the third-party sponsor does not pay due to a student's lack of attendance, the student is liable for the tuition, received course materials, and/or fee expenses.

Returned Checks

If payment of tuition, supplies and received course materials, and fees is made by check and the check does not clear, the student has 10 days from the date of notification to pay tuition and fees. If payment is not received within 10 days, it will be considered nonpayment and enrollment will be terminated.

The College will notify the student a minimum of three times before the matter is turned over to the North Carolina Department of Revenue Debt Setoff or a collection agent. If a student officially withdraws from all classes, the student is still responsible for settling the returned check.

Failure to make restitution on a returned check will result in the student not being allowed to register for future semesters, and all academic records will be flagged. Once a student issues a check to the College that is returned to the Business Office, the College will not accept any other checks from that student.

Unpaid Financial Obligations

No student will be permitted to register for classes or graduate until all financial obligations to the college are satisfied.

Additional Costs of Attendance

Activity Fee

Students who register for a course load of four hours or more are required to pay a student activity fee during the fall and spring semesters. (There is no activity fee assessed during the summer semester.) These fees provide financial support for student activities including student government association, student clubs, enrichment and social activities, student identification cards, and athletics. The activity fee is non-refundable except when a class is cancelled by the college.

Credit Hours	Activity Fee (per semester)
7 hours or greater	\$50.00
4-6 hours	\$32.00
1-3 hours	No Activity Fee

Student Accident Insurance

Accident insurance is required for all students at a nominal rate of \$1.50 per semester. The insurance fee is non-refundable. For additional information, contact the Business Office.

Technology Fee

The technology fee is used to defray the cost of technology including the operations of computer

labs. Fees are used to purchase consumables (such as paper, ink cartridges, etc.), equipment upgrades, and software acquisition.

The technology fee is non-refundable except when a class is cancelled.

Credit Hours	Technology Fee (per semester)
7 hours or greater	\$24.00
6 hours or fewer	12.00

Other Expenses

Students are required to purchase course materials and supplies to participate in course activities. BCC's Book Smart Program provides students with course materials (textbooks and supplies) in advance of the start of class. Course material costs are added to a student's tuition fee, saving the student up to 60% on textbooks and course materials. Students incur a \$31.50 per credit hour charge for course materials, while nursing program students incur a \$49.50 per credit hour charge, and BLET students incur a \$14.00 per credit hour charge due to the variation of cost of program supplies. Students may be required to purchase additional personal items for class, at their own expense, to complete practicum course work.

Reduced-Tuition Programs

Basic Law Enforcement Training (BLET)

Students enrolled in the BLET program may gain sponsorship from a local law enforcement agency that may help defray the cost of the program. Each applicant meets with the BLET Director to discuss the admission requirements and costs prior to acceptance into the BLET program.

Common fees for the BLET program include cost for:

- College owned handguns, related ammunition, issued equipment, vehicle maintenance, and fuel.
- Uniforms and special clothing.
- College activities fee, technical fees, and student accidental insurance.
- Textbooks and other course supplies.

Career and College Promise Students

Students in the Career and College Promise program (Career and Technical Education Pathways, the Cooperative Innovative High School [Early College High School], the College Transfer Pathways, or Workforce Development Pathways) are not charged tuition during the fall or spring semesters. Students are, however, liable for the student accident insurance and technology fees, \$13.50 or \$25.50, depending on the number of credit hours enrolled.

Eligible Children of a Totally & Permanently Disabled Public Safety Officer

Tuition is waived for the children of a law enforcement officer, firefighter, volunteer firefighter, or rescue squad worker who is permanently and totally disabled as a direct result of traumatic injury sustained in the line of duty. The student may still be liable for activity, student insurance, and technology fees. Any scholarships received will be applied to these fees, with any remaining balance of the scholarship returned to the student.

Eligible Spouse of a Totally & Permanently Disabled Public Safety Officer

Tuition is waived for the spouse of a law enforcement officer, firefighter, volunteer firefighter, or rescue squad worker who is permanently and totally disabled as a direct result of traumatic injury sustained in the line of duty. The student may still be liable for activity, student insurance, and technology fees, and any scholarships received will be applied to these fees, with any remaining balance of the scholarship returned to the student.

Eligible Survivor of Public Safety Officers Killed in the Line of Duty

Tuition is waived for any person who is the eligible survivor of a law enforcement officer, firefighter, volunteer firefighter, or rescue squad worker killed as a direct result of a traumatic injury sustained in the line of duty. The student may still be liable for activity, student insurance, and technology fees, and any scholarships received will be applied to these fees, with any remaining balance of the scholarship returned to the student.

Wards of the State

Tuition is waived for any child, if the child is at least seventeen (17), but not yet twenty-four (24) years old, who is a ward of the State of North Carolina, or was a ward of the State at the time the child reached eighteen (18), is a resident of North Carolina, and is eligible for services under the Chaffee Education and Training Vouchers Program. The student may still be liable for activity, student insurance, and technology fees. The waiver is limited only to any charges remaining after financial aid has been applied to the student's account.

Residency for Tuition Purposes

North Carolina Residency Basics

The tuition and fees for students who qualify as residents of the State of North Carolina is less than those charged for non-resident students. To qualify for in-state tuition, as specified in General Statute 116-143.1, a legal resident must have maintained domicile in North Carolina for at least the 12 months immediately prior to receiving in-state classification for tuition purposes. To be eligible for such classification, the individual must establish presence in the State during such 12-month period was for purposes of maintaining a bona fide domicile, rather than for purposes of mere temporary residence incident to enrollment in an institution of higher education. Further, if the parents (or court appointed legal guardian) of the individual seeking resident classification are bona fide domiciliary of the state, this fact shall be prima facie evidence of domiciliary status of the individual applicant; and if such parents or guardian are not bona fide domiciliary of this State, this fact shall be prima facie evidence of no domiciliary status of the individual.

In-State Tuition for Certain Veterans and Other Individuals

Effective July 2, 2015, S.L. 2015-116 (S478), In-State Tuition for Certain Veterans/Federal Program, makes certain veterans and other individuals eligible for in-state tuition if certain conditions are met.

For veterans, the 12-month residency requirement for in-state tuition is waived for any veteran who meets all of the following criteria:

 Served active duty for at least 90 days in the Armed Forces, the Commissioned Corps of

- the U.S. Public Health Service, or the National Oceanic and Atmospheric Administration.
- Was discharged or released under conditions other than dishonorable.
- Qualifies for and uses federal educational benefits under either the Montgomery GI Bill® Active Duty Education Program or the Post -9/11 Educational Assistance.
- Qualifies for admission to the community college.
- Enrolls within three years of the veteran's discharge or release.
- The veteran's abode is North Carolina, meaning the veteran must actually live in NC, whether temporarily or permanently.
- Provides the College with a letter of intent to establish legal residence in North Carolina.

For other individuals, the 12-month residence requirement is waived if the person meets all of the following criteria:

- The person is the recipient of a veteran's federal educational benefit under either 38 USC Chapter 30 (Montgomery GI Bill® Active Duty Education Program) or 38 USC Chapter 33 (Post-9/11 Educational Assistance).
- The person qualifies for admission and enrolls in a community college within three years of the veteran's discharge or release from the Armed forces, the Commissioned Corps of the US Public Health Service or the National Oceanic and Atmospheric Administration.
- The person's abode is North Carolina, meaning the person must actually live in NC, whether temporarily or permanently.
- Provides the College with a letter of intent to establish legal residence in North Carolina.

Furthermore, after the expiration of the threeyear period, any enrolled veteran or other enrolled individual eligible for the educational benefits listed above and for whom the 12month residency requirement was waived will continue to be eligible for the in-State tuition rate so long as the veteran or qualified individual remains continuously enrolled at the same institution of higher education.

Tuition for Non-Residents

Any student whose legal residence is outside the State of North Carolina, or students who are living with relatives in the community (whose parents or guardians live outside the State) and who do not qualify as residents, for tuition purposes under General Statute 116-143.1, shall pay tuition at out-of-state rates as established by the North Carolina Community College System.

See Appendix F: North Carolina Residency for Tuition Purposes for additional information about NC Residency for Tuition Purposes.

Curriculum Tuition Refund Policy

General Refunds

The curriculum tuition refund policy for the College is set forth by the State Board of Community Colleges [23 SBCCC 02D.0202 (d-e)] as follows:

- A. A refund shall not be made except under the following circumstances:
 - A 100% refund shall be made if the student officially withdraws prior to the first day of class(es) of the academic semester or term as noted in the college calendar. Also, a student is eligible for a 100% refund if the class in which the student is officially registered is cancelled by the college due to insufficient enrollment.
 - A 75% refund shall be made if the student officially withdraws from the class(es) prior to or on the official 10% point of the semester.
 - 3. For classes beginning at times other than the first week (seven calendar days) of the semester a 100% refund shall be made if the student officially withdraws from the class prior to the first class meeting. A 75% refund shall be made if the student officially withdraws from the class prior to or at the 10% point of the class.
 - 4. A refund of 100% shall be made if the student officially withdraws from a

contact hour class prior to the first day of class of the academic semester or term or if the college cancels the class. A 75% refund shall be made if the student officially withdraws from a contact hour class on or before the 10th calendar day of the class. Refunds are calculated by the Colleague System.

- B. To comply with applicable federal regulations regarding refunds, federal regulations supersede the state refund regulations stated in this rule.
- C. Where a student, having paid the required tuition for a semester, dies during that semester (prior to or on the last day of examinations of the college the student was attending), all tuition and fees for that semester may be refunded to the estate of the deceased.
- D. For a class(es) which the college collects receipts which are not required to be deposited into the State Treasury account, the college shall adopt local refund policies.

Military Tuition Refunds

Upon request of the student, each college shall:

- A. grant a full refund of tuition and fees to military reserve and National Guard personnel called to active duty or active duty personnel who have received temporary or permanent reassignments as a result of military operations then taking place that make it impossible for them to complete their course requirements; and
- B. buy back textbooks through the colleges' bookstore operations to the extent possible. Colleges shall use distance learning technologies and other educational methodologies to help these students, under the guidance of faculty and administrative staff, complete their course requirements.

Note: Since a curriculum student is charged per credit hour up to a maximum of 16 credit hours, a refund would not be applicable unless the credit hours enrolled were reduced to less than 16.

2025-26 Cost of Attendance

IN-STATE RESIDENTS FOR TUITION PURPOSES					
Credit Hours	Tuition*	Activity Fee	Insurance Fee	Technology Fee	Total Tuition & Fees
1	\$ 76.00	\$0.00	\$1.50	\$ 12.00	\$ 89.50

16 or more	4,288.00	50.00	1.50	24.00	4,348.50

^{*}Course materials are included as part of BCC's tuition costs. Students incur a \$31.50 per credit hour charge for course materials, while nursing program students incur a \$49.50 per credit hour charge, and BLET students incur a \$14.00 per credit hour charge. Students who wish to opt-out of BCC's Book Smart program must do so prior to the course census date.

Note: Tuition is determined by the North Carolina General Assembly and is subject to change without notice.

The College accepts cash, checks, Discover, MasterCard, and Visa for payment of tuition and fees.

STUDENT FINANCIAL RESOURCES

The primary purpose of the Office of Student Financial Resources is to provide assistance to students who, without aid, would be unable to begin or continue their college education. The College administers federal, state, county, and institutional aid designed to assist students and their families in meeting the cost of obtaining a college education. Students needing financial assistance should contact:

Office of Student Financial Resources bccfinancialaid@brunswickcc.edu, http://www.brunswickcc.edu/financial-aid Title IV School Code: 015285

General Financial Aid Eligibility

To be eligible for financial assistance, a student must:

- be a citizen or eligible non-citizen of the United States,
- have a valid Social Security Number,
- have a high school diploma or a General Education Development (GED) certificate, or have completed homeschooling,
- be enrolled in a Title IV eligible program as a regular student seeking a degree or certificate.
- not owe a refund on a federal student grant or be in default on a federal student loan,
- not have a conviction for the possession or sale of illegal drugs for an offense that occurred while the student was receiving federal student aid (such as grants, workstudy, or loans).
- provide equivalency transcript and any other official transcript(s) from college(s) attended.

New and re-enrolling students must meet all admissions requirements. Continuing students must be in good academic standing and must not exceed the maximum time frame allowed in their program of study.

Additionally, students may only receive federal or state financial aid during the time necessary to complete the first baccalaureate degree (a lifetime maximum12 academic semesters, or 60%). For example, if a student attends a full-year (fall and spring semesters) of college at a full-time status, the student will have received

100% of their scheduled award for that year. If the same student attends their next full-year of college at half-time status, the student will have received 50% of their scheduled award. At the end of the two years, this student's "lifetime eligibility used" (LEU) is 150%.

Title IV Eligible Programs of Study

The following associate degree programs are available at Brunswick Community College and eligible for financial aid under the Title IV Federal Financial Aid program guidelines:

Associate in Arts

Accounting and Finance

Associate in Engineering

Associate in Science

Associate Degree Nursing

Business Administration

Cosmetology

Criminal Justice Technology

Early Childhood Education

Emergency Medical Science

Health and Fitness Science

Health Information Technology

Horticulture Technology

Information Technology

Public Safety Administration

Turfgrass Management Technology

In addition, the following non-associate degree level programs are eligible for Title IV Federal Financial Aid:

Accounting & Finance (Diploma)

Basic Law Enforcement Training (Certificate)

Business Administration (Diploma)

Cosmetology (Diploma)

Cosmetology (Certificate)

Criminal Justice Technology (Diploma)

Early Childhood Education (Diploma)

Health Information Technology (Diploma)

Horticulture Technology (Diploma)

Information Systems Technology (Diploma)

Practical Nursing (Diploma)

Turfgrass Management Technology (Diploma)

Welding Technology (Diploma)

Students may only receive financial aid funds for courses that count toward completing an eligible program of study.

Enrollment Status

Depending on the form of aid awarded, a minimum enrollment status is required. In most cases, there is also a considerable difference in the amount of aid available to those who are enrolled full-time versus those who are enrolled half-time or less.

Enrollment status categories for financial aid purposes are as follows:

	Credit Hours
Full-Time	12 or greater
Three-Quarter Time	9-11 hours
Half-Time	6-8 hours
Less than Half-Time	5 or fewer

Note: Financial aid for summer semester may be available. For additional information, contact the Office of Student Financial Resources at 910.755.7322.

FEDERAL & STATE AID PROGRAMS

Federal Pell Grant

This program is federally funded, and awards are based on need. Pell grants are only awarded to undergraduate students who have not earned a bachelor's degree or higher.

Federal Supplemental Education Opportunity Grant

The Federal Supplemental Education Opportunity Grant (FSEOG) is limited funding awarded to undergraduate students with exceptional financial need. Federal Pell Grant recipients receive priority for FSEOG funds.

Federal Work Study

Work-study awards provide part-time employment opportunities for eligible students to earn money to meet college expenses.

NC State Grants

This need-based scholarship provides financial assistance to North Carolina students attending eligible colleges and universities. To be eligible, students must be enrolled in a Title IV eligible degree, certificate, or diploma program at least half-time and considered a North Carolina resident.

Federal Direct Loans

Brunswick Community College does <u>not</u> participate in any loan programs including Federal Direct loans. However, the College will provide confirmation of enrollment for students seeking to obtain private loans from various third-party banks and lenders. To confirm enrollment, students must complete a FAFSA and be enrolled in at least six credit hours.

Other Forms of Aid & Resources

BCC Scholarships

The BCC Foundation provides scholarships to students through an annual application process each spring (February 1st through May 17th). Criteria for scholarships are specified by the donor in collaboration with the Foundation staff and vary by scholarship. For additional information, contact the Foundation office, 910.755.7473.

Brunswick Guarantee Scholarship

Supported by the Brunswick County
Commission, the Brunswick Guarantee
scholarship program provides local community
college students with in-state tuition, fees, and
\$750 toward books not covered by other
financial aid and scholarship programs.

Scholarship recipients must:

- be a resident of Brunswick County within the past 2 years
- be a United States citizen or documented lawful permanent resident of the United States
- have been enrolled in a Brunswick County public, private, or home school for the duration of their high school education, earning at least a 2.3 unweighted high school GPA. (Students with county residence of less than the full duration of high school but greater than 2 years [4 semesters] will receive a reduced scholarship based on the percentage of time residency was maintained to the nearest whole semester.)
- have attended a Brunswick County School, maintained Brunswick County residency, and received a GED/Adult High School diploma from Brunswick Community College

- (BCC), receiving a passing score on the GED®, HiSET® exam
- enroll at BCC within four semesters (Fall, Spring, Summer, Fall) of graduating a Brunswick County high school or receiving a BCC GED®/Adult High School Diploma
- complete a BCC Scholarship application and a Free Application for Federal Student Aid (FAFSA), http://studentaid.gov
- enroll in a curriculum (for credit) program (certificate, diploma, or degree)

To apply for this scholarship program, students must complete a BCC Brunswick Guarantee Scholarship Application and a Federal Financial Aid Application (FAFSA) and reapply each academic year.

To remain eligible for Brunswick Guarantee, students must be in good academic standing with Brunswick Community College. This consists of maintaining a minimum GPA of a 2.0 and a completion rate of at least 67% of credit hours attempted each semester. Students who withdraw from classes prior to completing at least 60% of the enrolled semester will have their aid recalculated based on the percentage of the semester completed. If the amount of aid disbursed is more than the amount earned as calculated, the student is required to reimburse the college for any unearned aid. For additional information, contact the Office of Student Financial Aid Resources.

Child Care Assistance

Child Care Assistance awards do not require repayment. Awards are based on identified financial need on a first-come, first-served basis, for full-time enrolled students. If approved to receive this award, the student will select a child care provider of their choice. For additional information, contact BCC's OneStop Student Services Center.

Outside Scholarships

In addition to scholarships available through the BCC Foundation, there are innumerable scholarships from local, state, federal, and private entities. Students are encouraged to actively search for outside scholarship opportunities with search tools such as http://www.fastweb.com. For additional information and assistance, contact BCC's OneStop Student Services Center.

Tax Credits

The Hope Scholarship Credit may be claimed for qualified tuition and related expenses for each student in a taxpayer's family who is enrolled at least half-time in one of the first two years of post-secondary education. The student must be enrolled in a program leading to a degree, diploma, certificate, or other recognized educational credential.

The Lifelong Learning Credit may be available for those who have completed the first two years of college or are taking classes part-time to improve or upgrade their job skills. The credit is available for net tuition and fees (less grant aid) paid for post-secondary enrollment. Additional information on tax credit programs can be provided by your tax advisor or the Internal Revenue Service.

Vocational Rehabilitation

Vocational Rehabilitation may provide educational assistance for individuals with physical, mental, emotional, or learning impairments. To be eligible for services, an individual must:

- be an individual with a disability. This means that (a) the individual has a physical or mental impairment that for such individual constitutes or results in a substantial impediment to employment; and (b) the individual can benefit from Vocational Rehabilitation services in terms of an employment outcome; and
- require Vocational Rehabilitation services to prepare for, enter, engage in, or retain gainful employment.

Workforce Innovation and Opportunity Act (WIOA)

The Workforce Innovation and Opportunity Act is a federal workforce development program that provides training, education, and employment services using a one-stop delivery system. In Brunswick County, these services are provided by the EDSI Workforce Services, located in Shallotte, North Carolina. For additional information, contact 910.754.6120, http://www.edsisolutions.com.

Veterans Services

Funds may be available to those who have served in the armed forces as well as to dependents of deceased veterans or disabled veterans with a service-connected disability.

The College cooperates with the US Department of Veterans Affairs and the NC Department of Veterans Affairs to assist veterans in securing their educational benefits. Veterans are provided admissions counseling and guidance in the selection of an educational program. Eligible spouses, widows, and children of disabled or deceased veterans are also provided assistance. For information, students should visit: http://www.va.gov.

Certification of Eligibility

Students must submit a Certificate of Eligibility to the Office of Student Financial Resources. The student must also submit an official high school/GED®/Adult High School Equivalency transcript and any other official transcript(s) from any college(s) attended to the Office of Admissions.

Continued Eligibility

When a veteran or dependent enrolls, one must make satisfactory academic progress (SAP) in order to continue to receive veteran benefits. If a student fails to maintain SAP, the same consequences relating to academic warning and financial aid termination (as well as eligibility to receive benefits) apply to veterans as to all other students.

Enrollment & Payment of Veterans Benefits

Department of Veterans Affairs payments are based on an individual's classification according to credit hours per semester. Eligible students must submit a Class Schedule for Veteran Education Benefits to the Office of Student Financial Resources to claim educational benefits during the registration period for each semester in which they plan to use their benefits. Students may only be certified for enrolled courses in their program of study.

College Readiness Coursework

To be certified for college readiness, veteran benefit students must enroll in approved College Readiness courses. To qualify for full-time status, the veteran benefit students must be also be enrolled in an additional 12 credit hours.

Applying for Financial Aid & Priority Dates

All Forms of Financial Aid

Applicants must file a Free Application for Federal Student Aid (FAFSA) online at http://www.studentaid.gov, designating Brunswick Community College, *Title IV School Code: 015285*, as a recipient of the needs analysis. A FAFSA should be completed as soon after October 1 as possible.

A completed FAFSA, along with all required documentation, **must be** received by the priority date for each semester (see below) to be guaranteed that eligible funding will be applied to a student's account prior to tuition payment due dates.

Semester	Date
Fall	June 15 th
Spring	November 15 th
Summer	April 1st

Students who submit a FAFSA after the priority dates, or provide incomplete submissions may be required to pay out-of-pocket tuition, fees, and book charges while their FAFSA application is being processed.

Scholarships

Students who wish to apply for scholarships must complete the Universal Scholarship Application through BCC's Foundation office (April 1st – May 31st).

Verification

Verification is a process to confirm student or parent information provided on your FAFSA. The US Department of Education selects some FAFSAs for verification. Other FAFSAs may be institutionally selected to clarify discrepancies in the information provided on the FAFSA.

Dependency Status

Certain questions on the FAFSA will determine whether the student is considered dependent on the income of their parents. If a student is under 24 years of age and has children or other dependents that they are providing more than 50% of the support for, that student will be required to complete and submit a Proof of

Dependents Form along with required documentation to prove they provide more than 50% of the support.

A student may also be declared independent if they answer "yes" to other questions on the FAFSA. There may be additional information the student will be required to submit to the Office of Student Financial Resources for determination.

Awards, Notifications, & Deadlines

Students will be notified by email if they are eligible for financial aid or need to submit additional information. Students may view financial aid awards online through their Self-Service account.

Refunds

Financial aid is awarded by the Office of Student Financial Resources but is disbursed by the Business Office. Aid awards made for the academic year are disbursed in multiple installments per semester based on registered credit hours at time of disbursement.

Financial aid refunds are mailed to the student's permanent address on the 21st of each month after the semester has started and the Schedule Change period has ended. For example, fall semester checks are not disbursed until September.

To ensure receipt of your financial aid disbursements, the student should ensure their mailing address of record is correct. Address corrections may be made online through a student's Self-Service Account or by visiting BCC's OneStop Student Services Center.

Financial aid refunds checks not cashed within 240 days of disbursement will be voided and the funds returned to the Department of Education.

Out-of-State Resident Tuition
Students that are paying out-of-state tuition may not receive enough financial aid to pay tuition, fees, and books. Outstanding tuition must be paid by the student to remain enrolled in classes.

Special Circumstances

If a student or their family has experienced a significant reduction in family income since the prior-prior year income reported on the FAFSA, they may request a Professional Judgment Form from the Office of Student Financial Resources based on the current year situation. Examples of reasons for change are unemployment, divorce, separation, death, disability, high medical

expenses, etc. A student may obtain a form from the Office of Student Financial Resources and return it with required paperwork.

Withdrawing from Courses

Students who register and withdraw from courses will have their financial aid eligibility recalculated based on the percentage of the semester completed. Calculations are based on actual number of days the student was in "academic attendance" versus the number of days scheduled in the course. If the amount of aid disbursed is more than the amount earned as calculated by federal regulations, the student is required to reimburse the college for any unearned aid.

Academic Attendance

Academic attendance includes:

- physically attending class
- submitting assignments
- taking exams
- participating in interactive tutorial or computer-based instruction
- attending school assigned study groups
- participating in online class discussions
- initiating contact with faculty to ask questions about subject matter.

Academic attendance does not include:

logging into an online course without actively participating in academic subject matter or academic counseling.

If a student registers for classes and decides not to attend, it is the student's responsibility to drop the class(es) before the first day of class by completing the required paperwork to drop or withdraw from a course. The student is liable for any outstanding tuition and fees as a result of dropping or withdrawing from class(es).

Federal Grant Procedures

Return of Title IV Funds

The Return of Title IV Funds procedure applies to all students who receive Title IV financial funds that subsequently withdraw, drop out or are expelled from the College. The term "Title IV Funds" refers to the Federal financial aid programs authorized under the Higher Education Act of 1965 (as amended) and includes the following programs:

- Federal Pell Grant
- Federal Supplemental Education Opportunity Grant

Students who withdraw from classes prior to completing more than 60% of an enrollment term will have their aid recalculated based on the percent of the term completed. For example, a student who withdraws completing only 25% of the term will have "earned" only 25% of any Title IV aid received. The remaining 75% must be returned by the school and/or the student. Once the student has completed more than 60% of the enrollment term, the student has earned the financial aid received for that period.

Withdrawal Date

To officially withdraw from the College, a student must submit a Withdrawal Request through the Office of Academic Support. A student who completely withdraws from all courses is expected to consult with their instructor(s), Faculty Advisor/Success Coach, and Financial Aid Counselor to assess the effect of withdrawing on their academic progress.

Brunswick Community College is an institution that requires class attendance; therefore, a student's withdrawal date is always the last date of attendance as determined by instructor from class attendance records. The last date of attendance is used for any student who ceases to attend or officially/unofficially withdraws from class(es) or the college.

Calculating Title IV Refund

Title IV aid is earned in a prorated manner on a per diem basis up to and including the 60% point in the semester. The percentage of Title IV aid earned is calculated by dividing the number of days completed by the student by the total number of days in the term. The percent of term completed shall be the percentage of Title IV aid earned by the student. The college must return any unearned aid to the federal government.

Federal funds may not cover unpaid tuition and fee charges due to the college upon a student's withdrawal and a student must pay any debt created by the withdrawal. Failure to pay outstanding debt may prevent the student from registering for future course and graduating from the college.

If a student did not receive all of the earned funds, they may be due a post-withdrawal disbursement. The college automatically uses all or a portion of your post-withdrawal aid

disbursement to cover current tuition, fees and other institutional charges; however, the college must obtain the student's permission to use the post-withdrawal grant disbursement for other academic terms. A student will receive any post-withdrawal disbursement no later than 45 days after the date the student withdraws from class(es).

Returning Funds to the Department of Education

The college must return any overpayment of unearned funds to the Department of Education no later than 45 days from the determination of a student's withdrawal. The Office of Financial Resources returns funds in the following order:

- Federal Pell Grant
- Federal Supplemental Education Opportunity Grant

If the appropriate funds are not available in a student's account at the time the college is required to return funds to the Department of Education, the student must make repayment arrangements with the college.

<u>Unofficial Withdrawal for Calculating</u> Federal and State Aid

Students who stop attending class(es) may be administratively withdrawn from class(es) by their instructor without the student submitting a withdraw form. If the unofficial withdrawal occurs after the course withdrawal deadline, the instructor may award the student a grade of "F" for the course.

The Office of Financial Resources will review the student's last date of attendance to assess financial aid eligibility based on the length of the student's course attendance. Unofficially withdrawn students will be billed for resulting institutional charges and repayments of Federal and State Aid.

State Grant Procedures

Return of State Grant Funds

Brunswick Community College is required to complete a withdrawal worksheet provided by the North Carolina State Education Assistance Authority to calculate the amount of aid that must be returned to the Department of Education when a student withdraws from classes or the college. In completing the worksheet, the student's last date of attendance

is determined consistent with Title IV regulations for Return of Title IV funds. The student is responsible for any debt to the college created by this withdrawal.

Institutional Charges: If the student is entitled to a refund of a portion of tuition and fees, the state grant funds must be returned before issuing the student a refund.

Non-Institutional expenses: If the student withdraws from a class prior to or at the 35% point of the term, the college shall use the State Grant Withdrawal Worksheet to prorate the amount of State funds disbursed for non-institutional expenses to return State funds.

Any credit balance created by State funds and awaiting disbursement cannot be released to the student and must be returned to the State grant program.

The college is not required to return any funds for non-institutional expenses when the student officially withdraws after the 35% point of the term

No Academic Credit Earned

The college will use the State-provided worksheet to calculate any required return of State funds using the same method to recalculate official withdrawals.

In all cases where the student has not earned academic credit for a term, the college must determine whether the student completed the term. If the college determines the student did not withdraw, but instead completed the courses and earned no academic credit, the college is not required to return State funds. If the college determines the student unofficially withdrew, the college is required to return State funds.

Future disbursements of State aid are also subject to Federal Title IV Satisfactory Academic Progress determinations.

Unpaid Financial Obligations

All balances due to the college must be fully paid before a student may register for future courses. No degree, diploma, or certification will be granted to a student until all financial obligations to the college have been paid.

Satisfactory Academic Progress (SAP)

In accordance with federal and state regulations, the Office of Student Financial Resources is required to evaluate a student's satisfactory academic progress at the end of each term (fall, spring, summer) to determine financial aid eligibility for the following term.

SAP evaluations include all periods of enrollment whether students received or did not receive financial aid for the period of enrollment, and includes credit hours earned at other institutions and transferred into the student's program of study.

To be eligible for federal, state, and institutional aid, students must meet both quantitative (time-based) and qualitative (grade-based) standards each semester.

Grade-Based Standard

 A student must maintain a minimum cumulative grade point average (GPA) of 2.0.

Time-Based Standard

- A student must complete 67% percent of the total cumulative credit hours attempted; and
- complete the requirements for an eligible program of study within a timeframe, not to exceed 150% of the published program length.

For example, if an academic program length is 60 credit hours, the maximum number of credit hours eligible for financial aid is 90 (60 \times 150% = 90).

The maximum timeframe calculation includes all credits attempted in all programs of study in which the student has been enrolled. The maximum timeframe calculation also includes remedial coursework and is limited to 30 credit hours.

Returning students who previously enrolled under an academic progress policy other than the current policy must meet SAP standards of the current policy by the end of the returning semester.

Treatment of Selected Grades

- Withdrawals: Credit hours in which a student receives a grade of "W" or "WE" are included in the number of attempted hours but do not count toward successfully completed hours. Excessive withdrawals and excessive absenteeism that lead to administrative withdrawal may affect a student's ability to meet satisfactory academic progress standards.
- Incompletes: Credit hours in which a student receives a grade of "I" or "IE" are included in the number of attempted hours but do not count toward successfully completed hours. Grades of "I" or "IE" are treated as an "F", which negatively affects a student's GPA.
- Fails: Credit hours in which a student receives a grade of "F", "WF", "R" are included in the number of attempted hours, but do not count toward successfully completed hours. In addition, these grades negatively affect a student's GPA. Students with failed grades may have difficulty meeting satisfactory academic progress standards.
- Audit and Never Attend: An audit "AU" or never attended "NS" grade are not considered attempted coursework. These are not included in the student's GPA or completion rate evaluation. A student cannot receive financial aid for courses they audit or never attended.
- Repeat Courses: Per federal regulations, a student may repeat a previously passed course (grade of "D" or better) one additional time for the repeated course to be eligible for Financial Aid. All earned grades will be used to determine a student's compliance with the cumulative GPA requirement and all attempted hours will be included in the calculation of maximum time frame.
- Credit by Exam: Credit hours for which a student receives a "CR" are included in attempted and completed hours for the timebased standards of completion rate and maximum time frame. A student cannot receive financial aid for "CR" credit.
- Transfer Credit: All hours transferred and accepted from other institutions are included in the number of hours attempted and completed. In addition, a student's maximum

time to receive financial aid is reduced by the equivalent transfer of credit hours toward a degree.

Re-enrolling at the College

Students who return to the college after an absence of one or more semesters will have their academic status carried forward. Likewise, students who have graduated from one program of study at the college and return to enroll in a second eligible program of study should contact the Office of Student Financial Resources to determine their individual SAP status under the new program of study.

Financial Aid Eligibility Status

The Office of Financial Resources notifies all federal and/or state financial aid recipients of their SAP status at the end of each semester. Students should check their school email shortly after the end of the term for this important information.

- Satisfactory: Students who meet the minimum requirements (cumulative 2.0 GPA and 67% completion rate) of satisfactory academic progress standards are placed on Financial Aid "Satisfactory" status.
- Warning: Students who do not meet the minimum requirements (cumulative 2.0 GPA and 67% completion rate) after an official evaluation at the end of a semester are placed on "Warning" for the following semester. Students may continue to receive financial aid during the "Warning" period.
- Suspension: Students on Warning status
 who fail to meet the minimum requirements
 (cumulative 2.0 GPA and 67% completion
 rate) or have not met the minimum
 requirements for two consecutive terms are
 placed on Financial Aid "Suspension" status
 and are no longer eligible for aid.
- Maximum Time Frame: Students who have reached the maximum credit hours allowed for their program of study are placed on "Max Time Frame" status. Attempted credits from all enrollment periods at the College plus all applicable transfer credits are counted, whether or not the student received financial aid for those terms.

- Probation: Students who have successfully appealed financial aid suspension are placed in "Probation" status. Students in Probation Status are eligible to receive financial aid for one (1) semester, after which they MUST be in satisfactory status and/or meeting the requirements outlined in their SAP Appeal Decision Letter as determined by the Office of Student Financial Resources.
- Terminated: Students on Probation status who do not adhere to the Success Plan provided are placed on Financial Aid "Termination" status. Students who have been terminated are no longer eligible for financial aid until the minimum satisfactory academic progress standards are met.

Regaining Financial Aid Eligibility

Students who fail to meet Satisfactory Academic Progress standards for two consecutive semesters are immediately ineligible for financial aid. To regain financial aid eligibility, students must meet the minimum requirements of Satisfactory Academic Progress Standards by enrolling for classes at their own expense.

Students with documented extenuating circumstances that are beyond their control may submit an appeal to the Office of Financial Resources. If the appeal is approved, the student's financial aid eligibility will be reinstated in Probationary status.

Financial Aid and SAP Appeals

A student who becomes ineligible for financial aid has the opportunity to appeal the decision. If the student's appeal is approved, the student will be placed on academic warning for the term and be eligible to continue to receive financial aid.

A student who desires to appeal should contact the Office of Student Financial Resources to obtain an Appeal for Waiver of Unsatisfactory Progress form. The student must complete the form in its entirety and submit all required documentation to the Office of Student Financial Resources for consideration. The Financial Aid Review Committee will review the circumstances and documentation provided and present their decision to the Director of Student Financial Resources. The Director of Financial Resources awards or rejects the appeal. The decision of the Director of Student Financial Resources is final.

Mitigating Circumstances

Students with mitigating circumstances are encouraged to use the appeal process. The circumstances must be properly documented for the Review Committee review process. This evaluation pertains only to financial aid recipients and is not applicable for the purpose of continued enrollment, since such determinations are made according to other institutional policies.

Examples of mitigating circumstances include illness or injury to the student, illness, or death of a student's immediate family member, and other circumstances that are beyond the student's control.

Policy and Procedure Revised by the Brunswick Community College Board of Trustees: September 21, 2023

STUDENT RESOURCES

Bookstore

The college's Bookstore is independently operated by Follett and is located in the LaDane Williamson Student Center. The bookstore has everything a student needs from textbooks, class supplies, BCC apparel, and convenience items. Textbooks are available new and used, with rental, digital, and price match options.

The bookstore is typically open Monday through Thursday 8:00 a.m. to 4:00 p.m., and Friday 8:30 a.m. to 2:00 p.m. Students may pre-order textbooks for pick-up or home delivery, http://www.brunswickccbooks.com.

Course Materials and Supplies

BCC's new Book Smart Program provides students with course materials (textbooks and supplies) in advance of the start of class. Course material costs are added to a student's tuition fee, saving the student up to 60% on textbooks and course materials. Students incur a \$31.50 per credit hour charge for course materials, while nursing program students incur a \$49.50 per credit hour charge, and BLET students incur a \$14.00 charge per hour due to the variation of cost of program supplies. Students may be required to purchase personal items for class, at their own expense, to complete practicum course work.

Career Center

The Career Center is a resource that helps students navigate their career paths, offering guidance, tools, and opportunities to transition from college to the work force. Through personalized mentoring sessions, students can explore their interests, skills, abilities, and values and discover potential career options to develop a personalized academic and career plan that meets their chosen education and career goals. The Career Center is located on BCC's main campus, Building A, second floor, next to the library. For additional information, 910.755.8505.

Advising/Success Coaching

The Office of Academic Support provides centralized services for advising, coaching, mentoring, career planning, and student leadership/development. Success Coaches work in unison with Faculty Advisors to help students

complete their educational goals, recognizing and valuing students' needs. Success Coaches help students understand their roles and responsibilities as college students, while providing learning resources and motivational strategies to help them overcome barriers to their success. Success Coaches are located on BCC's main campus in Building A (first floor) and are typically available Monday through Thursday 8:00 a.m. to 5:00 p.m. and Friday 8:00 a.m. to 3:00 p.m. Success Coaches can also connect with students by video conference, text, and email. For additional information, 910.755.7334.

ID/Library Cards

College identification cards are required for full time and part time students, faculty, and staff. Students should have the identification card in their possession while on campus. Campus officials may ask to see a college identification card and this card is needed to access The Learning Center (TLC) and Library resources. The college provides an initial card and one replacement card free of charge.

Tutoring and Academic Assistance

The Learning Center (TLC) offers individual tutoring, testing, and technology services. Face-to-face and online tutoring using video conferencing software are available throughout the day to help curriculum students in English, math, and science, along with study skills and time management.

The tutoring staff is also available to help students at any stage of the writing process, from prewriting to final paper in all subject areas.

In addition to in-person tutoring opportunities, the college also offers online tutoring services 24/7, featuring a variety of tutoring options for English, math, sciences, and other subject areas.

The Learning Center is located in the Learning Resources Center, Building A (second floor) and is open Monday through Thursday from 8 a.m. to 4 p.m. and Friday from 8 a.m. to 3 p.m. Hours may vary during semester breaks, holidays, and summer months. For additional information, 910.755.7334.

Learning Resources Center (Library)

The Library is located in Building A (second floor) and provides users with a diverse collection of print and electronic resources.

A variety of services are provided to enhance the use of available resources. In the Learning

Resources Center, users can research, study, read, and participate in educational activities.

The physical collection of books and audiovisual materials contains about 20,000 volumes. The Library's electronic collection contains over 150 databases, providing access to a vast array of scholarly resources via the Library portal.

Physical and electronic materials can be searched using the Summon Search feature on the Library portal homepage. Users may also request physical items from other North Carolina Community Colleges through Interlibrary Loan (ILL).

Faculty may request group instruction on library skills, such as using the Library portal to find scholarly resources. Individuals are encouraged to seek assistance from the staff by visiting the Library in person or visiting the Library portal.

Brunswick County residents age 16 and over are welcome to use the College's library. Library hours are typically 7:30 a.m. to 6:00 p.m. Monday through Thursday and 7:30 a.m. to 3:00 p.m. on Friday. Hours may vary during semester breaks, holidays, and the summer. For additional information, 910.755.7331.

Mentoring Services

Mentoring services are provided to promote the development of academic, personal, and professional skills of students. The program offers a great opportunity for participants to connect with peers and mentors who offer support. Program and events focus on helping students gain the knowledge and skills to be successful in college and beyond. For additional information, 910.755.7344.

Counseling Services

Counseling services are provided by trained personnel. These services are available to students from admission through graduation. BCC's Counselors can provide assistance with personal and relationship concerns, educational and career planning, and problem solving. Students whose needs cannot be accommodated with short-term counseling are referred to community resources. For additional information, 910.755.7324.

Student Housing

Housing for students is **NOT** provided on campus. Students seeking assistance with housing needs may contact a local real estate

company or see what is available online through local media outlets.

Health Services & Standards

The College does not provide medicine, hospitalization, or surgical services. The College also does not assume responsibility for injuries incurred by students when taking part in intramural sports, physical activity courses, classes, or student activities. Medical services are available at Brunswick Novant Medical Center, J.A. Dosher Memorial Hospital, and the Brunswick County Health Department.

Students with communicable diseases may be prohibited from registering for classes when health records indicate that attendance would be hazardous to the health and safety of the student or other persons with whom they may come in contact.

Students who have significant health problems or limitations may be required to submit a report of medical examination prior to initial registration and are encouraged to inform their instructors at the beginning of each semester. When deemed appropriate by the Vice President of Student Affairs or assigned administrator, faculty advisors, instructors, and/or counselors are notified of students who have significant health problems.

Certain programs have technical standards that must be met for admission to the program.

Technical standards are defined as physical, mental, social, and psychological requirements needed for specific educational training. Those standards are required to ensure that the student is not a danger to themselves or others with whom they may come in contact with while on campus or participating in class activities.

The College seeks to assist students who have special health problems or limitations in the attainment of their educational goals. Services are provided in accordance with Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act.

In the event of accident or illness, Brunswick County Sheriff's office, Office of Student Affairs, and/or the Business Office should be notified immediately. First aid will be provided by College personnel, limited by their capabilities. First aid kits are located in each building.

Environmental health and safety on the campus are addressed in the College's Safety Plan under the direction of the Vice President of Operations.

Americans with Disabilities Act Policy & Non-Discrimination Policy

Title IV of the Americans with Disabilities Act and Section 504 of the Rehabilitation Act (the "Disability Laws") require that no qualified individual with a disability be excluded from participation in or be denied the benefits of any of Brunswick Community College's services, programs, or activities on the basis of his or her disability. BCC strives to make all hard copy and electronic resources including website content accessible to all users. Individuals with disabilities may not be subjected to retaliation, intimidation, or other mistreatment on the basis of their assertion or enforcement of these rights.

The College complies with Disability Laws by providing reasonable modification in its rules, policies, and practices, by removing architectural, communication, and transportation barriers, and by providing auxiliary aids and services, when necessary to insure that individuals with disabilities who meet the College's essential eligibility requirements for the receipt of services or participation in College programs or activities are afforded equal opportunities to those of nondisabled individuals. College personnel have been instructed not to presume that a disabled individual will need an accommodation or to question students and other persons unnecessarily about their disabilities. However, students and other individuals with disabilities who desire access to College services, programs, or activities are encouraged to request accommodation of their disabilities and provide the necessary documentation to support their request in accordance with the established College procedures.

Brunswick Community College is committed to ensuring equal access for disabled students, staff and faculty, as well as guests and visitors to its campuses. BCC permits Service Animals, as defined by the Americans with Disabilities Act, (http://www.ada.gov/service_animals_2010.htm) in approved campus areas which will generally be mulched or natural outdoor areas (locations to be determined on an individual basis) and according to College procedures.

Brunswick Community College does not make pre- or post-admission inquiries or referrals

based on an assumption that a student has a disabling or handicapping condition. It is the responsibility of the individual with a disability to initiate the request for accommodations/services by contacting the College's Office of Accessibility Services.

Students With Special Needs

The College recognizes its responsibility, under Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act (ADA), to provide equal access to students with special needs. Assistive services may be provided for students with a documented disability. Students are requested to make applications for these services in advance of the semester in which they plan to enroll. Students with special needs are also encouraged to participate in college-related activities, and special services may be provided for these functions when requested. Regular College procedures for applications and admissions apply to all students.

Accommodation Requests

Brunswick Community College believes that an individual knows what is needed to accommodate his/her disability. Some accommodation requests can and should be handled on an informal basis (i.e., asking to sit at the front of a classroom when a visual or hearing impairment will be aided by being closer to the instructor). When a request for accommodation is more extensive and cannot be handled on an informal basis, accommodations should be requested through the College's Office of Accessibility Services.

A. Requesting Accommodations

The student or individual seeking accommodations should submit a Student Accommodation Request form, which may be found on the College's website Accessibility Services webpage, http://www.brunswickcc.edu/resources/accessibility-at-bcc/ to the Office of Accessibility Services. Accommodation requests may be submitted at any time; however, accommodations cannot be provided retroactively.

To allow adequate time to arrange accommodation services, Accommodation Requests should be submitted at least 30 days prior to the start of a semester. Accommodation and modifications received in high school or other post-secondary institutions will not automatically transfer to BCC. Instead, it is necessary for students to

request accommodations by submitting the following documentation:

- Student Accommodation Request Form (completed by the student).
- Current documentation prepared by a medical professional or health care provider that describes the student's or applicant's diagnosis, the functional limitations this diagnosis causes, and the accommodations/services necessary to address the diagnosis.
- Historical documentation, if applicable, regarding accommodations the student has previously received to address the disability, including but not limited to an Individualized Education Plan (IEP), Summary of Performance (SOP), or a 504 Plan.

To receive services, ample documentation must be submitted to support the disability accommodation request. Generally, sufficient documentation includes a psychological/psycho-educational evaluation or a letter from a medical/mental health provider that includes the following:

1. Qualifications of Clinician/Provider:

Documentation must be typed on office or practice letterhead, dated and signed by a professional who is licensed or certified in the area for which the diagnosis is made. Name, title, and license/certification credentials must be stated and shall not be family members or others with a close personal relationship to the individual.

2. Diagnosis & History:

A diagnostic statement identifying the disability including ICD or DSM classification along with any relevant personal, psychosocial, medical, developmental and/or educational history.

3. Description of Diagnostic Methodology:

A full description of the diagnostic methodology used, including data and measurements from appropriate evaluation instruments. The results obtained should draw a direct link to the diagnosis and the functional limitations of the disability. For cognitive disorders, evaluations should use adult norms.

4. Current Impact and Functional Limitations: A clear description of the level of severity

A clear description of the level of severity along with the current impact and functional

limitations of the condition pertaining to the academic and/or residential settings. Information regarding if symptoms are constant or episodic, and the frequency and/or duration should be addressed. Changing conditions and/or changes in how a condition affects the individual may warrant updates that are more frequent.

Any treatments, medications, and/or assistive devices/services currently prescribed or in use, should include a description of the mediating effects and potential side effects from such treatments.

5. Recommendations:

Recommendations are welcomed and considered, however the Office of Accessibility Services makes the ultimate determination on eligibility and reasonable academic adjustments necessary to provide equal access for participation in academic courses, programs and activities. Recommendations should be directly linked to the impact or functional limitations associated with the disability, or medication prescribed to control symptoms and include a clear rationale based on level of impairment.

B. Confidentiality

The College will make every effort to maintain the confidentiality of information pertaining to the individual's disability. College personnel will inform only those persons who need to know of a request for accommodations and of the circumstances surrounding that request.

C. Accommodation Determination

The College will make every effort to provide you with the requested accommodation or an equally effective accommodation providing access to the particular service, program, or activity, taking into consideration the nature of the service, program, or activity and the financial resources and administrative obligations of the College. Although the College is required to make its services, programs, and activities accessible to persons who meet the essential eligibility requirements, the Disability Laws do not require the College to make all of its facilities accessible to such persons or to provide the student with personal equipment or services to accommodate his/her disability. The Disability Laws permits the College to deny a request, if the accommodation would result in a fundamental alteration in the nature of a service, program, and/or activity, or if the accommodation creates undue financial and administrative burdens to the College.

Once the determination is made, the Office of Accessibility Services will notify the individual of the accommodation denial or approval. The Office of Accessibility Services also notifies the instructors of the allowed accommodation(s) and assists with any arrangements as needed.

Service Animals and Service Animals-in-Training

Students who have a disability that require the assistance of a Service Animal are permitted to bring such animals to campus. Individuals who are animal trainers (handlers) are also permitted to bring a service-animal-in-training to campus as permitted in accordance with North Carolina General Statue 168-4.2.B and the provisions of College policy.

A Service Animal is any dog (or miniature horse) that is individually trained to do work or perform tasks for the benefit of an individual with a disability, including a physical, sensory, psychiatric, intellectual, or other mental disability. A service-animal-in-training is any dog (or miniature horse) that is being trained to become a service animal for individuals with disability. A domestic animal kept for pleasure, companionship, or emotional support is **not** a service animal.

The Owner/Handler should contact the Office of Accessibility Services as soon as he/she is aware of plans to bring a Service Animal to campus. The Office of Accessibility Services will encourage the Owner/Handler to provide documentation of his/her disability and documentation for the need of the Service Animal.

The tasks performed by a Service Animal must be directly related to the handler's disability or for which the service animal is being trained. Examples of service tasks include but are not limited to, assisting individuals who are blind or have low vision with navigation, alerting individuals who are deaf or hard of hearing to the presence of people or sounds, providing nonviolent protection or rescue work, pulling a wheelchair, assisting an individual during a seizure, alerting individuals of potential allergens, retrieving items such as medicine or the telephone, providing physical

support and assistance with balance and stability to individuals with mobility disabilities, and helping persons with psychiatric and neurological disabilities by preventing or interrupting impulsive or destructive behaviors. [28 C.F.R. S35.104]

If the animal meets the ADA definition of a Service Animal or Service Animal-in-Training, then the student/handler may be asked two questions:

- Is this a service animal that is required due to a disability? and
- 2. What work or tasks has the dog or miniature horse been trained to perform?

A Support Animal is a non-service animal selected or prescribed to an individual with a disability by a healthcare or mental health professional to assist with a significant part of a person's treatment process (alleviating the symptoms) and is therefore not supported as it does not assist a person with a disability with activities of daily living, and does not accompany a person with a disability at all times. [28 C.F.R. S 35.104: Fair Housing & Equal Opportunity Notice – HEO-2013-01]

A. Documentation for a Service Animal

The student requesting permission to have a Service Animal on–campus must provide (from a certified clinician) a letter that substantiates:

- 1. If the Service Animal is required because of a disability, and
- 2. What work or task the Service Animal has been trained to perform [28 C.F.R.S 35.136(f)].

The letter must be dated, on the certified clinician's letterhead, and must provide information establishing the existence of an impairment. The certified clinician's letter should also provide sufficient information concerning the individual's functional limitation to show the work or tasks performed by the animal is related to those limitations. Documentation that does not fulfill the outlined requirements may result in accommodation delay or denial. The letter must also contain an explanation of the tasks or functions the animal has been trained to perform as a disability-related accommodation and the type/description of the animal.

B. Documentation for a Service Animal-in-Training

The student requesting permission to have a Service Animal-in-Training on campus must provide (from the training organization) a letter that substantiates what work or task the Service Animal is being trained to perform.

C. Conflicting Health Conditions

Students with medical conditions affected by animals (e.g., respiratory diseases, asthma, severe allergies) are asked to contact the Office of Accessibility Services if they have a health or safety-related (fear) concern about exposure to a Service Animal. If possible, the College will address the concern or attempt to make suitable adjustments to assist the individual that has the concern, while protecting the rights of both individuals to a quality learning environment.

D. Guidelines for Maintaining an Approved Service Animal on Campus

1. Care and Supervision

Care and supervision of the animal are the responsibility of the individual who benefits from the support of the approved animal. The person is required to maintain control of the animal at all times. The person is also responsible for ensuring the cleanup of the animal's waste and, when appropriate, must toilet the animal in areas designated (to be determined on an individual basis) by the College consistent with the reasonable capacity of the owner.

Animal Health and Well-being Vaccination In accordance with local ordinances and regulations, the animal must be immunized against diseases common to that type of animal. Dogs must have current vaccination against rabies and wear a rabies vaccination tag.

3. Health

Animals must have an annual clean bill of health from a licensed veterinarian. Documentation can be a vaccination certificate for the animal or a veterinarian's statement regarding the animal's health. The College has the authority to direct that the animal receive veterinary attention.

4. Licensing

The College reserves the right to request documentation showing that the animal

has been licensed if required in the local municipality.

5. Training

Service Animals must be properly trained.

6 Leash

If appropriate, the animal must be on a leash/harness unless the leash/harness would inhibit the animal's ability to be of service.

7. Readily Identifiable as a Service Animal or Service Animal-in-Training

It is recommended, but not required, that animals for individuals with disabilities wear some type of commonly recognized identification symbol indicating the animal is a working animal. However, a Service Animal-in-Training must wear a collar and leash, harness, or cape that identifies the animal as a Service Animal-in-Training.

8. Other Conditions

Accessibility Services may place other reasonable conditions or restrictions on the animal depending on the nature and characteristics of the animal.

E. Requirements for Faculty, Staff, Students, and Other Members of the College

Members of the College community are required to allow a Service Animal or Service Animal-in-Training to accompany its owner at all times and in all places on campus; however, members of the College community shall refrain from:

- 1. Touching or petting a Service Animal unless invited to do so by the owner.
- 2. Feeding a Service Animal.
- 3. Startling a Service Animal.
- 4. Separating or attempting to separate an owner/handler from his/her Service Animal.
- Inquiring about details of the owner's disabilities. The nature of a person's disability is confidential.

F. Removal of Approved Animal

A Service Animal or Service Animal-in-Training may be excluded from campus, classrooms, or other facilities when:

1. The animal's behavior poses a direct threat to the health or safety of others.

- The animal is out of control and the animal's handler does not take effective action to control it.
- 3. The animal is not housebroken.
- 4. The animal's behavior fundamentally alters the nature of the programs, services, facilities, privileges, or accommodations for other learners. If a Service Animal is properly excluded, the individual with a disability shall be given the opportunity to participate in the service, program, or activity without having the Service Animal on the premises [28 C.F.R. S 35.136(f)].

Approved by Brunswick Community College Board of Trustees: January 15, 1997; October 25, 1997; June 28, 2013; January 11, 2018

Changes to Procedures Approved by President's Cabinet. January 6, 2020, February 28, 2022

Compliance Statement

Brunswick Community College complies with Title IX of the Educational Amendments of 1972 in assuring that no student or employee shall, based on sex, be excluded from the participation in, be denied the benefits of, or be otherwise subjected to discrimination in any program or activity of the College.

In accordance with requirements of Title IX of the Educational Amendments of 1972, Brunswick Community College ensures the equality of treatment and access for all students and employees, female or male.

Complaints related to sex or sexual harassment should be filed with the college. For this purpose, the College has designated specialized Title IX Coordinators:

Student Title IX Coordinators:

- Lisa Fields, <u>fieldsl@brunswickcc.edu</u>, Main Campus, 910.755.7428
- Rebecca Walters, <u>waltersm@brunswickcc.edu</u>, Main Campus, 910.755.7821

Employee Title IX Coordinator:

 Latoya Young, <u>youngl@brunswickcc.edu</u>, Main Campus, 910.755.7391

An Incident may be reported directly through the college's website, http://www.brunswickcc.edu/resources/student-policies/, select "Sexual Misconduct/Sex-Based Discrimination Form" accordion or by going directly to http://cm.maxient.com/reportingform.php? BrunswickCC&layout_id=0.

Additional information on Title IX policy is available on the College's website, http://www.brunswickcc.edu/about/title-ix/.

STUDENT LIFE

The College recognizes co-curricular activities as a vital part of a full and meaningful educational experience and are organized by students in response to student interest and needs. BCC hosts student government events, intramural recreation activities, cookouts, student clubs and organizations, festivals, special social events, and contests.

Athletics

Brunswick Community College is a member of the National Junior College Athletic Association (NJCAA) and participate in the following intercollegiate sports:

- Men's Baseball
- Men's Basketball
- Women's Basketball
- Women's Softball

Information regarding eligibility can be found in the NJCAA Handbook.

The intercollegiate athletics program seeks to support the mission of Brunswick Community College by providing opportunities for students to improve their lives and well-being through participation in organized sports. The purpose of the athletic program is to promote and encourage in such a way that results will be consistent and supportive with the total educational purpose of the College.

It is the philosophy of the athletic program at the College that students are best served in an environment that recognizes the contributions and importance of faculty and staff. Brunswick Community College believes in academics first and athletics second. Through feedback received from faculty, staff and students, Brunswick Community College can determine the effectiveness of the athletics program.

BCC's athletic teams compete against other community college, junior college, and 4-year junior varsity teams in North Carolina, South Carolina, Virginia, and Florida.

Intercollegiate Athletics Policy

Brunswick Community College's intercollegiate athletic program contributes to the personal holistic development of its students, including academic success, as well as physical and

emotional well-being. In recognizing its obligation to develop and deliver a comprehensive educational program, the College acknowledges that academic study, taken solely and apart from other activities, may limit the achievements of the student later in life. Accordingly, the Trustees direct the President and administrative staff to pursue a viable student development program that may include intercollegiate athletics, with limitations imposed by college resources and students. Ultimate responsibility for control of the athletic program rests with the President of the College.

Students wishing to participate on athletic teams must be in good academic and disciplinary standing and adhere to:

- the academic and Student Code of Conduct standards provided in the College's Catalog and Student Handbook and the respective Student-Athletic Code of Conduct; and
- the policies established by the National Junior College Athletic Association.

Brunswick Community College believes that students are best served in an environment that recognizes the contributions and importance of its faculty and staff, which places academics first, and athletics second. Program administrators continuously evaluate the effectiveness of athletic programs in the holistic development of students by assessing grade point averages, persistence, and retention data as well as faculty, staff, and student feedback. Recruiting, admissions, financial aid, and academic eligibility are the same for all students. Athletic scholarships may be available as a result of fundraising events held by the Athletic Department. In accordance with Section 1B SBCCCC 600.99 of the North Carolina Community College Code, state funds may not be used to create, support, maintain, or operate BCC's intercollegiate athletics program.

Approved by Brunswick Community College Board of Trustees March 18, 1992; Amended January 5, 1997; January 15, 1997, June 28, 2013, and November 17, 2022.

Procedures

The athletic teams offered each year are based on student interest, financial resources, and the approval of administration. Student interest is determined by an annual survey and unsolicited requests for sports programs.

The College complies with the Constitution and Bylaws of the NJCAA, as published in their handbook.

The Director of Athletics coordinates intercollegiate athletics events and updates the college's Board of Trustees of student activities and intercollegiate athletics at their regularly scheduled meetings. The annual budget for athletics is a Special Funds budget, which also may include funds from Student Activity fees.

The Special Funds budget is submitted to the Board of Trustees by the Vice President of Budget and Finance and the President, with coordination from the Director of Athletics and Student Government Association. The Director of Fiscal Services provides fiscal oversight for athletic programs. The budget is audited annually as part of the audit conducted by representatives of the Office of the State Auditor.

The intercollegiate athletic program is evaluated annually by the Athletics Committee, which is appointed by the President and includes faculty, staff, and student representation. This committee makes recommendations to the Director of Athletics, Vice President of Student Affairs or appropriate administrator, and to the President. The Athletics Committee also reviews the Intercollegiate Athletics Policy to ensure that it is an integral part of the education of athletes and the educational purpose of the institution.

Brunswick Community College requires the same academic, admission, and financial policies of all students regardless of participation in athletics.

Clubs & Organizations

Student clubs and interest groups develop common bonds of friendship and purpose among students with similar career, civic, or academic interests. Faculty and staff members serve as advisors and assist student leaders in planning club programs and developing group activities. Student organizations on campus also include clubs associated with curriculum programs as well as honor societies.

Membership in student organizations is open to all eligible students in accordance with the constitutions and/or bylaws of the various student organizations.

Discrimination in student organizations based on race, religion, color, national origin, gender, age,

political affiliation, genetic information, sexual orientation or disability is specifically prohibited. Brunswick Community College is an equal opportunity institution and is committed to full compliance with all federal laws and regulations prohibiting discrimination.

Student clubs and organizations include:

- Art Club
- Dungeons & Dragons
- Equality Club
- National Technical Honor Society
- Phi Theta Kappa Honor Society
- Poetry Club
- Science Club
- Shield of Faith Club
- Student Ambassadors
- Student Government Association (SGA)

National Technical Honor Society

The National Technical Honor Society is an honor organization for outstanding students enrolled in associate degree, vocational, or technical programs.

The purpose of this organization is to promote service, leadership, honesty, career development, and skilled workmanship; to reward student achievement; to encourage and assist student education and career goal setting; and to promote the image of vocational-technical education in America.

To be considered for membership, a student must have completed at least 16 semester credit hours and must be enrolled in a curriculum program 3/4 time. The student's cumulative grade point average in their current program must be 3.60 or higher.

Phi Theta Kappa International Honor Society

Phi Theta Kappa International Honor Society recognizes academic excellence in the 2-year college setting. Students who enroll in an associate degree program are eligible for membership.

To be considered for membership, a student must have completed at least 12 semester hours (excluding college readiness courses) in an associate degree program, and be enrolled in a minimum of six semester hours. The student's cumulative GPA in their current program of study must be at least 3.5.

In addition to academic excellence, members are expected to be community minded, as chapter activities focus on helping others.

<u>Student Government Association (SGA)</u> The SGA is the primary student organization at the college and the SGA President serves as an ex officio member of the College's Board of Trustees.

SGA promotes good relationships and understanding among the students, administration, faculty, and trustees; to unify the student body in the development of selfgovernment and good citizenship; and to set a high level of standards for students through responsible conduct.

SGA is responsible for developing and administering student activities. Representing all students of the College. The SGA participates in, and gives direction regarding, student life beyond the classroom. SGA sponsors student events, speakers, and other related activities that are of interest to students.

Membership consists of all curriculum students who enroll for four or more credit hours. All other duly registered curriculum or community and continuing education students may elect to join by paying the appropriate student activity fee. For additional information, refer to Appendix D for SGA's Constitution and Bylaws.

DISTANCE LEARNING

Distance Learning at BCC consists of educational opportunities in which any portion of instruction occurs when the student and instructor are not in the same place. To meet the needs of students, BCC offers traditional face-to-face, online, hybrid, and blended learning opportunities.

Similar to traditional in-seat courses, Instructors deliver course instruction fully or partially through an online learning management system providing students with regularly engaging and collaborative pedagogical activities, coherent instructional units with specified due dates throughout the academic term, regular and substantive feedback on coursework, and timely responses to student communication via email and phone messages.

BCC is committed to ensuring that, regardless of modality, classes are equally comparable in relation to academic quality and rigor.

Password/Username Information

For complete login information, students should review the Student Technologies Orientation located at http://moodle.brunswickcc.edu. Click on the Student Technologies Orientation link in the right column to begin. The orientation contains information on getting assistance, Moodle, Self-Service, student email, and other topics and does not require the use of a username or password to gain access.

Online Courses

Online (or web-based) courses provide access to college courses via the Internet, anywhere, at any time, using a computer. An online course is an interactive class with an instructor and students primarily communicating via email, discussion forums, video conferencing, and online chats. These contacts are usually held at different times and in different places, or, in the case of online chats, same time but different places.

The College offers its online courses through Moodle. Moodle provides a user-friendly format and ensures that after taking one online course at BCC, a student will find a familiar layout for other online courses. Students taking online courses should have a computer and Internet access at home; however, students may use the computers on campus to complete their

coursework. Moodle access is password protected and students only have access to the course(s) in which they are enrolled.

Hybrid and Blended Courses

Courses that combine two or more types of modalities are referred to as hybrid or blended-type courses. These courses take many forms, and the exact format for each course will be explained at the first class meeting in the orientation session, or on the semester Course Information Schedule. Most courses in this category combine required class meetings and web-based instruction. For example, a course that traditionally meets twice a week may meet once a week and have assignments, reading materials, exams, and much more in the online component on the course Moodle webpage.

Course Supplements

All BCC courses have an online component that is accessible via Moodle. In addition, many textbooks have online supplements that require an internet connection for online access to view and participate in coursework.

Technology Requirements

Many courses utilize video conferencing (using products such as Zoom or Microsoft Teams) and/or online test proctoring. Some course assignments may require a student to upload audio or video files to Moodle. A webcam with an integrated microphone is required in these situations. Most laptops include an integrated webcam and microphone. Please check for this before purchasing a separate webcam/ microphone if you are using a laptop. Most webcams have microphone capabilities, so a separate microphone would not be needed unless the webcam you purchase does not have a microphone included.

Please note that you may not be able to complete all assignments using a Chromebook due to the limitations of the Chrome operating system. For more information, please see the Student Technology Orientation on Moodle.

Note: If the college is closed due to adverse weather or another emergency, classes will move to remote learning where possible using Moodle.

PUBLIC SAFETY/ CAMPUS SECURITY

Brunswick County Sheriff's Office

BCC maintains a safe and secure environment for students, employees and visitors by complying with local, state and federal regulations. The Brunswick County Sheriff's office has law enforcement and security authority on all BCC campuses. Contact the Brunswick County Sheriff's office for non-emergency calls at 910.755.7330; for emergencies, dial 911.

Campus Watch

Campus Watch is a program designed to alert the campus community of the formal process for reporting crimes and safety hazards on campus. Individuals can report incidents to the Brunswick County Sheriff's office in person, calling 910.755.7330; remain anonymous by calling 910.755.7410 or by sending an email to tipline@brunswickcc.edu.

Counseling and Other Services

Survivor Services

Students and employees may obtain counseling assistance or referrals through the Hope Harbor Home, Inc., the Brunswick County Sheriff's Office, Rape Crisis Center, or Coastal Horizons. For additional information, visit http://www.brunswickcc.edu/resources/personal-counseling/.

Emergency Notification System

An Emergency Notification System is available to alert BCC students, faculty, and staff of emergency conditions at the College.

Emergency Notification alerts are sent via email and/or text messaging. The service is free; however, subscribers may incur messaging costs from their cell phone provider. Full information is available in BCC's OneStop Student Services Center or the Brunswick County Sheriff's office. This notification system is part of the College's compliance with the Clery Act. For additional information, visit the college's website, http://www.brunswickcc.edu/about/policy-manual/.

Fire Alarms/Evacuations

In the event of a fire alarm or evacuation order, everyone must leave the building and report to their instructor or other campus authority as soon as possible. Take your personal belongings with you and do not reenter the building until instructed to do so by the Brunswick County Sheriff's Deputies or other authority. A list of evacuation areas can be found in the Emergency Action Plan located on the college's website, http://www.brunswickcc.edu/ about/campussafety-security/.

Lost and Found

Lost and found items should be checked for or turned in at the Brunswick County Sheriff's office located in the LaDane Williamson Student Center, Building A.

Pets On Campus

Pets are not permitted on campus, with the exception of service animals and service animals-in-training (seeing eye, drug enforcement, etc.).

Reporting Crime On Campus

All criminal acts occurring on campus should be reported to a Brunswick County Sheriff's office. A Brunswick County Sheriff's Deputy may be reached at 910.755.7330 or in the case of an emergency, dial 911. The Brunswick County Sheriff's Deputies have direct radio contact with the 911 Center and will summon outside assistance if needed. For additional information regarding reporting procedures, refer to the college's website, http://www.brunswickcc.edu/about/campus-safety-security/.

Traffic & Parking Regulations

Traffic regulations of the State of North Carolina are applicable to all persons who drive a motor vehicle on the campus.

All students are required to register their vehicles and display a current parking permit. Student parking permits are obtained in BCC's OneStop Student Services Center. Parking is permitted only in designated areas and traffic tickets will be given and fines levied for violation of traffic regulations. Faculty/staff parking areas are clearly designated by signs (Lots 2, 5, & 6). Student vehicles are not permitted to park in these spaces.

- Registered students are NOT considered a visitor at any time. Always park in student parking.
- Park in marked spaces only.
- Vehicles parking in a handicapped space must display a valid handicapped parking permit or license plate.
- Campus-wide speed limit is 25 MPH.

For additional information, refer to the BCC Traffic Rules and Regulations, pursuant to N.C.G.S. 115D-21, on the College's website, http://www.brunswickcc.edu/about/campussafety-security/.

Weapons On Campus

In accordance with G.S. 14-269.2 it is unlawful for any person to carry, openly or concealed, any weapon on the campus of Brunswick Community College includes its satellite locations, Leland Center, Southport Center and the BETC Center. Exceptions are made for those students or employees whose training (such as Basic Law Enforcement Training) may require weapons or those who are authorized by North Carolina General Statutes. For additional information visit.

http://www.brunswickcc.edu/about/campus-safety-security/

Emergency On Campus

Brunswick Community College is committed to the safety of faculty, staff, students, and visitors. In the event of a significant emergency, or dangerous situation involving an immediate threat to the health and safety of students or employees, college officials will immediately notify the campus community. For additional information, review the Emergency Action Plan on the College's website, http://www.brunswickcc.edu/about/campus-safety-security/.

Sexual Assault

In accordance with NC Chapter 14 Article 7B and the subsequent general statutes, a person commits a sexual offense by engaging in a sexual act with another person by force against the will of the other person; or with another person who lacks capacity, either mentally or physically, and the defendant knows or reasonably should know of that incapacity. For additional information

visit, http://www.brunswickcc.edu/about/title-ix/.

Educational Programs

Programs include publications, programs, and seminars to promote awareness of sexual assault and other sex offenses. Information is available to students and employees submitted by outside public agencies such as Hope Harbor, Rape Crisis Center, Brunswick County agencies, etc.

Reporting Procedures

All sexual assaults occurring on campus should be reported to the Brunswick County Sheriff's Office. In addition to appropriate criminal charges, sexual assaults committed by students will be referred to the College's Title IX Coordinators.

Student Title IX Coordinators:

- Lisa Fields, <u>fieldsl@brunswickcc.edu</u>, Main Campus, 910.755.7428
- Rebecca Walters, <u>waltersm@brunswickcc.edu</u>, Main Campus, 910.755.7821

Employee Title IX Coordinator:

 Latoya Young, <u>youngl@brunswickcc.edu</u>, Main Campus, 910.755.7391

An Incident may be reported directly through the College's website, http://www.brunswickcc.edu/resources/student-policies/, select "Sexual Misconduct/Sex-Based Discrimination Form" accordion or by going directly to http://cm.maxient.com/reportingform.php? BrunswickCC&layout_id=0.

Additional information on Title IX policy may be reviewed on the College's website, http://www.brunswickcc.edu/about/title-ix/.

Sanctions include permanent removal from the College Campus. Disciplinary actions in cases of alleged sexual assault:

- A. The accuser and accused are entitled to the same opportunities to have others present during a campus disciplinary proceeding.
- B. Both the accuser and the accused shall be informed of the outcome of any campus disciplinary proceeding alleging sexual assault.

Campus Crime Report

Colleges and universities are required to provide crime statistics relative to a number of specific categories of crime. Statistics are published in October of each year and include the past three calendar years. They are posted on the BCC website, distributed to students and employees, and are available upon request.

CURRICULUM ARTICULATION AGREEMENT

Consortium: Brunswick County Schools and Brunswick Community College Effective 2023-2024

Prospective college students may receive college credit for the high school courses listed below by meeting the following criteria:

- 1. Grade of B or higher in the high school course; and
- 2. Proof of Learning (POL)
 - CTE post-assessment Score of 90 or higher or
 - Performance-based measurement(PBM) Meets course proficiency
 - Industry Credentials
 - Course that have industry credentials, as proof of learning will follow the procedure for Credit for Prior Learning as outlined in NC Community College System Curriculum Procedures Reference Manual (http://www.nccommunitycolleges.edu/academic-programs/curriculum-procedures-reference-manual-cprm).

To receive articulated credit, students must enroll at Brunswick Community College within two years of their high school graduation date. The official high school transcript and all official standardized CTE post-assessment scores will be required to verify that the criteria to award credit for articulation coursework has been met. Students will submit supporting documentation to BCC. BCC officials will have the responsibility for verifying eligibility and acceptance of the articulated course or courses on the high school transcript for college credit.

HIGH SCHOOL PROGRAMS

Career and College Promise & Cooperative Innovative High School

The Career and College Promise program offers structured dual enrollment opportunities for qualified high school students to enroll in community college curriculum that lead to college, state, and industry recognized credentials and employment.

Career and College Promise offers North Carolina public, private, and home schooled high school students a clear path to success in college or in a career. The program is available to all students who maintain a "B" average and meet other eligibility requirements. Through a partnership of the Department of Public Instruction, the North Carolina Community College System, the University of North Carolina System, and many independent colleges and universities, North Carolina is helping eligible high school students to begin earning college credit at a Community College campus tuition free.

Career and College Promise offers high school students several pathways, each with specific eligibility criteria that leads to completing a certificate, diploma, degree program, or developing workforce skills. Students who continue onward to a university after graduating from high school, while dually enrolled, can complete a bachelor degree in less time than they would have if they waited to enroll in college courses after graduating from high school.

Brunswick Community College offers Career and Technical Education, College Transfer, and Cooperative Innovative High School pathways.

- College Transfer Pathways (CTP) requires the completion of at least 30 semester hours of transfer courses including English and mathematics.
- 2. Career and Technical Education Pathways (CTE) leading to a certificate or diploma align with a high school career cluster.
- 3. Workforce Continuing Education Pathway (WCEP) leading to a state or industry

- recognized credential align with a high school career cluster.
- 4. Cooperative Innovative High School Programs (CIHSP) like Brunswick County Early College High School (BCECHS) are located on college campuses (unless a waiver was provided) provide opportunities for students to complete an associate degree program or earn up to two years of college credit within five years.

College Transfer Pathway (CTP)

The College Transfer Pathway is designed for high school students who wish to begin the pathway toward a 4-year degree. The College Transfer Pathway offers tuition free course credits toward a 4-year degree. Insurance and technology fees are paid by the student and some courses may require additional fees. Brunswick Community College offers four College Transfer pathways that lead to an: Associate in Arts, Associate in Engineering, Associate in Science; or Associate Degree in Nursing.

The Career and College Promise College Transfer Pathway requires the completion of at least 30 semester hours of transfer courses, including English, mathematics, and a College Transfer Success Course (ACA 122).

Upon completion of the degree and admission to a North Carolina public university or participating independent college or university, students will receive credit for the undergraduate, lower-division general education core as established by the Comprehensive Articulation Agreement between the University of North Carolina and the North Carolina Community College System. (Pathway areas and specific courses subject to state approval.)

- To be eligible for enrollment, a high school student must:
 - A. be a freshman or sophomore who meets academically or intellectually gifted (AIG) criteria.
 - B. be a high school junior or senior; and
 - have an unweighted GPA of 2.8 on high school courses; or
 - demonstrate college readiness in English, reading and mathematics on an assessment or placement test or meet provisional status.

- To maintain eligibility for continued enrollment, a student must:
 - continue to make progress toward high school graduation; and
 - maintain a 2.0 GPA in college coursework after completing two courses. A student who falls below a 2.0 GPA after completing two college courses will be subject to the College's policy for satisfactory academic progress.
- A student must enroll in one College Transfer Pathway and may not substitute courses in one pathway for courses in another. In addition, the student may change one's Pathway and/or concurrently enroll in one/two College Transfer Pathway(s) and a Career Technical Education (CTE) Pathway upon approval of the high school principal and designated administrator, and the High School's Center of Advanced Studies Advisor.
- 4. With approval of the high school principal or designated administrator and the student's Center for Advanced Studies Advisor, a student who completes a College Transfer Pathway while still enrolled in high school may continue to earn college transfer credits leading to the completion of the Associate in Arts, Associate in Science, Associate in Engineering, or Associate in Nursing Degree program.

A student may complete a Career College Promise pathway and then continue to enroll in classes to complete the Associate in Arts, Associate in Science, Associate in Engineering, or Associate in Nursing Degree program.

The College Transfer Pathways and approved courses are:

LEADING TO THE ASSOCIATE IN ARTS (P1012C)

The College Transfer Pathway Leading to the Associate in Arts Degree is designed for high school students who wish to begin study toward the Associate in Arts degree and a 4-year non-STEM major.

*Optional General Education Hours (0-8 Credit Hours):
A student may take up to 8 credit hours of foreign
language courses and accompanying labs, in a

single language, designated as General Education

in the CAA as a part of the Leading to the Associate in Arts Teacher Preparation pathway. These courses are not a part of the Universal

General Education Transfer Component. Students who complete these courses with a grade of "C" or better will receive transfer credit. The receiving university will determine whether the courses will transfer as general education, pre-major, or elective credit.

Note: High school students in the College Transfer Pathway Leading to the Associate in Arts Teacher Preparation pathway must complete the entire pathway before taking additional courses in the Associate in Arts degree with the exception of foreign language and mathematics courses beyond MAT 271.

LEADING TO THE ASSOCIATE IN NURSING (P1032C)

The College Transfer Pathway Leading to the Associate Degree in Nursing is designed for high school students who wish to begin study toward the Associate Degree in Nursing and a 4-year Nursing degree. The pathway is based on Block 1 of the Uniform Articulation Agreement between the University of North Carolina's Registered Nurse to Bachelor of Science in Nursing programs and the North Carolina Community College Associate Degree Nursing Program that was approved by the State Board of Community Colleges and the UNC Board of Governors in February 2015.

A student who completes an Associate in Applied Science Nursing, which includes the courses listed below, with a GPA of at least 2.0 and a grade of "C" or better and completes the courses in Blocks 2-3 of the Uniform Articulation Agreement between the University of North Carolinas registered Nurse to Bachelor of Science in Nursing programs and the North Carolina Community College Associate Degree Nursing programs with a GPA of at least 2.0 and a grade of "C" or better, and who holds a current unrestricted license as a Registered Nurse in North Carolina will have fulfilled the UC institutions lower-division general education requirements as well as nursing program entry requirements. However, because nursing program admissions are competitive, no student is guaranteed admission to the program of one's choice.

The Career and Technical Education Curriculum Pathway (CTE)

The Career and Technical Education pathways offers tuition free course credits toward an entry level job credential, certificate or diploma for eligible high school for junior and senior students while freshman and sophomore pathways leads to an Industrial, Engineering, or Agriculture and Natural Resources certificate or diploma career cluster. Insurance and technology fees are paid by the students and some courses may require additional fees.

Curriculum Pathways include:

Accounting and Finance Business Administration Cosmetology Criminal Justice Technology Digital Marketing
Early Childhood Education
Health and Fitness Science
Health Information Technology
Horticulture Technology
Information Technology – Computer
Programming and Design
Information Technology – Information
Systems
Simulation and Game Development

Simulation and Game Development Landscape Construction Management Landscape Design and Construction Turfgrass Management Technology Web Development Welding Technology

 To be eligible for enrollment, a high school student must:

Be a high school junior or senior and:

- have an unweighted GPA of 2.8 on high school courses or have the recommendation of the high school principal or designated administrator; or
- demonstrate college readiness in English, reading and mathematics on an assessment or placement test or meet provisional status; and
- have received career pathway information outlining program requirements for completion of the certificate or diploma

Or, be a high school freshman and:

- passed Math I with a grade of "C" or better;
- scored a 3, 4, or 5 on End of Course assessment (EOC) for Math I;
- scored a 3, 4, or 5 on the 8th grade End of Grade ELA assessment.
- received career pathway information outlining program requirements for completion of the certificate or diploma.
- have the recommendation of the high school principal or designated administrator (based on assessment of student maturity and ability to effectively participate in a class that may include adult students); and
- are only eligible to enroll in Horticulture, Turfgrass Management and Welding Technology programs.

Or, be a high school sophomore and meets:

- · All of the freshman criteria listed above, and
- Have an unweighted GPA of 2.8 on high school courses or have the recommendation of the high school principal or designated administrator.

High school counselors should consider students' Pre-ACT scores in making pathway recommendations.

College Career Technical Education courses may be used to provide partial or full fulfillment of a four-unit career cluster. Where possible, students should be granted articulated credit based on the local or state North Carolina High School to Community College articulation agreement.

- To maintain eligibility for continued enrollment, a student must:
 - continue to make progress toward high school graduation, and maintain a 2.0 GPA in college coursework after completing two courses. A student who falls below a 2.0 GPA after completing two college courses will be subject to the College's policy for satisfactory academic progress.
 - a student must enroll in one College Transfer Program of Study and may not substitute courses in one program for courses in another.
 - the student may change one's Program of Study with approval of the high school principal or designated administrator and the Center of Advanced Studies Advisor.
 - a student may enroll in both a College Transfer Pathway program of study and a Career Technical Education (CTE) Program of Study.
- 3. With approval of the high school principal or designated administrator and the student's Center of Advanced Studies Advisor, a student who completes a College Transfer Pathway while still enrolled in high school may continue to earn college transfer credits leading to the completion of the Associate in Arts, Associate in Science, Associate in Nursing, or Associate in Engineering degrees.
- A student may be awarded a certificate or diploma prior to high school graduation. A student may complete the CTE certificate or

diploma and then continue towards completion of the Associate in Applied Science degree.

The Career Technical Education Pathways and approved courses are:

The Career and Technical Education Workforce Continuing Education Pathway

The Career and Technical Education pathways offers tuition free course. If applicable, Insurance and Technology Fees are paid by the student. Some courses may require additional fees. Career and Technical Education pathways offers credits toward an entry level job credentials related to workforce development that includes:

- Advanced Carpentry
- Culinary
- EMT
- Firefighter Academy
- HVAC
- Machine Technology
- Masonry
- Nurse Aide
- Pharmacy Technician
- Plumbing
- To be eligible for enrollment, a BCS high school student must meet the following criteria:

Be a high school junior or senior and;

- Have an unweighted GPA of 2.8 on high school courses or have the recommendation of the high school principal or designated administrator (assessment scores should be considered); and
- Have received career pathway program requirements for completion of the Workforce Continuing Education pathway

- To maintain eligibility for continued enrollment, a student must:
 - Continue to make progress toward high school graduations, and
 - Continue to make progress toward successful completion of the Workforce Continuing Education pathway as defined within the syllabus. A student who does not meet these criteria will be subject to the college's policy for satisfactory progress.
- 3. A student may be awarded a completion certificate prior to high school graduation.

Cooperative Innovative High School Pathway

Leads to the completion of a high school diploma and Associate Degree or provides up to two years of college credit within five years for Brunswick County Early College High School.

Brunswick County Early College High School (BCECHS) enrolls approximately 80 freshmen per year, and provide opportunities for students to complete an associate degree program or earn up to two years of college credit within five years. BCECHS is a partnership between Brunswick County Schools and Brunswick Community College (BCC). In addition to being an Innovative High School, BCECHS is a North Carolina New Schools Project STEM school: Science, Technology, Engineering, and Mathematics. Eligibility requirements for Cooperative Innovative High School Programs are established jointly by local boards of education and local boards of trustees in accordance with G.S. 115C-238.50. Through a rigorous application process, freshmen high school students that are accepted to BCECHS become members of a small, student-centered academic community.

Collaboratively, students, teachers, parents/ guardians, business, community, and BCC faculty and staff create a culture that fosters respect and responsible learning environments, on and off campus.

Students experience an innovative and flexible approach to learning, which enables them to meet rigorous academic standards. Students have the opportunity to earn their North Carolina High School Diploma and an Associate's Degree from Brunswick Community College in 5 years. Some students may earn their high school diploma and degree in 4 years or graduate and continue their postsecondary education with the transferrable credits they have earned.

College Readiness Coursework

BCC offers College Readiness Coursework prerequisite courses that give students an opportunity to improve their reading, writing, and/or mathematics skills.

Prerequisite English and math courses are semester-long courses designed to build knowledge and confidence for students who are entering college after years away from school or students who need to improve math and English skills to be successful in college-level (curriculum) coursework. Students in these courses are offered a high level of instructor support as they master course material.

Students are enrolled in College Readiness courses based on multiple criteria which indicate proficiency in English, reading, and mathematics, including high school GPA, standardized test scores (ACT, SAT, GED), and/or assessment inventory scores. Students may be exempt from College Readiness coursework based on the multiple criteria mentioned above. In some circumstances, students can choose to take these courses if they believe that enrollment in these courses will better prepare them to be successful in curriculum English and math courses. An academic advisor or success coach will work with a student to review the best options to assure student success.

<u>Progressing Through College Readiness</u> Coursework

Students must earn a grade of A, B, OR C to successfully complete the College Readiness English and math courses. A student's program of study will indicate which College Readiness courses the student needs to complete. Once a student enrolls in the course, the instructor may create a customized plan for the student to achieve course success.

If a student does not earn an A, B, or C in a College Readiness course, the student will receive a grade of F in the course and must repeat the course until a grade of A, B, or C is earned. Earning a passing grade in the College Readiness course will allow the student to move from the College Readiness course directly into a gateway English or math course. A failing grade in the College Readiness English and

math courses does count against student GPAs, but there is no limit on the number of times students may repeat a College Readiness course.

Note: Federal regulations stipulate that financial aid may only be used to pay for the first 30 credit hours attempted in College Readiness coursework.

Course Offering Methods

College Readiness courses are offered every term, and classes usually meet in face-to-face or blended (face-to-face classes with online labs and activities) formats. Classes are small, allowing instructors time to give students individual assistance. Because much of the instruction in these courses happens during class time, it is critical that students attend and actively participate in each class meeting.

College Readiness English

BCC offers one course to specifically address and refine reading and writing skills.

ENG 025 - College English Skills

Students who place into ENG 025 will be required to complete the course with a passing grade of A, B, or C before being permitted to enroll in curriculum English courses.

For detailed information about the content of each course, see the Course Description section of this catalog.

College Readiness Math

BCC offers two courses to address and refine various mathematical skill sets necessary for success in curriculum mathematics courses.

- MAT 025 Concepts of Essential Math/Statistics: This class prepares students for success in MAT 043 and MAT 052.
- MAT 035 Concepts of Algebra: This class prepares students for success in MAT 171.

Students who place into these classes will be required to complete the course with a passing grade of A, B, or C before being permitted to enroll in the curriculum math course needed for their program of study.

For detailed information about the content of each course, see the Course Description section of this catalog.

COLLEGE TRANSFER PROGRAMS

Brunswick Community College offers the following College Transfer Programs of Study:

- Associate in Arts (AA)
 AA Business Administration
 AA Teacher Preparation
- Associate in Engineering (AE)
- Associate in Science (AS)
 AS Teacher Preparation
 AS Computer Science

AS - Funeral Services

These programs of study are designed to prepare students to transfer to 4-year colleges and universities. They are also excellent general studies degrees for students who want to complete an associate degree and begin jobs and careers in various fields.

Each degree program includes a core curriculum of basic courses in English composition, humanities and fine arts, social and behavioral sciences, and natural sciences and mathematics, as well as both elective courses which prepare a student for transfer to a particular 4-year university and/or program of study.

Full-time students, who normally take five or six courses each semester (at least 16 credit hours), can graduate in four semesters, or two years.

Associate in Arts (A10100) Associate in Engineering (A10500) Associate in Science (A10400)

The Associate in Arts (AA), Associate in Engineering (AE), and Associate in Science (AS) degree programs allow students to transfer to 4-year colleges and universities. Students are able to complete the coursework equivalent of the first two years of 4-year bachelor's degree programs and upon graduation often transfer to 4-year institutions with junior status. These degrees are recognized and accepted by colleges and universities as the standard college transfer degrees.

Associate in Arts Degree

When students complete the AA degree, they are prepared to transfer and begin work on Bachelor's degrees in the liberal arts and/or pre-professional fields such as education, law, and business.

Associate in Engineering Degree

The AE degree plan includes required general education and prerequisite courses that are acceptable to all state funded Bachelor of Engineering programs. Students who follow the degree progression plan will meet the entrance requirements at all of the North Carolina public Bachelor of Science Engineering programs. Associate in Engineering graduates may then apply to any of these programs without taking additional and sometimes duplicative courses. Admission to Engineering programs is highly competitive, and admission to your chosen University may not be guaranteed.

Associate in Science Degree

The AS degree prepares students to pursue bachelor's degrees in scientific, health care, and technological fields such as biology, chemistry, mathematics, and computer science, and/or pre-professional fields such as medicine, public health, and engineering.

Structure of the AA, AE, and AS Programs

The AA, AE, and AS degree programs require students to complete 60-61 credit hours of coursework, including 45 credit hours of Universal General Education Transfer Component (UGETC) and General Education courses, 15 credit hours of additional elective courses, and a 1 credit hour orientation/study skills course.

<u>Transfer of Courses in the AA, AE, and AS</u> <u>Programs</u>

When all grade requirements are satisfied, UGETC courses are guaranteed to transfer to universities within the UNC-system as course-equivalents, whereas other general education and elective courses are guaranteed to transfer, but the individual accepting institution makes a determination as to whether the course transfers as a course-equivalent or as general elective credit towards graduation from a Bachelor's degree program.

Scholar of Global Distinction Program

The Scholar of Global Distinction program is a partnership between BCC and UNC World View. When you transfer to a four-year school or begin your career, the notation "Graduated with Global Distinction" on your transcript or resume will set you apart from others by showing that you have a more comprehensive understanding of global cultural, political and historical information.

Program Requirements:

- Completing at least 15 credit hours of globally intensive courses
- Participating in eight international activities and dialogues
- Gaining 30 hours of global experience in a study abroad or domestic intercultural experience
- Completing a capstone presentation related to their global learning experience

Student Competencies:

- Investigate the world beyond their immediate environment, framing significant problems and conducting well-crafted and age-appropriate research
- Recognize perspectives, others' and their own, articulating and explaining such perspectives thoughtfully and respectfully
- Communicate ideas effectively with diverse audiences, bridging geographic, linguistic, ideological, and cultural barriers
- Reflect critically on their role as a member of the global community and pursue ways to create positive change

For additional information, interested students should contact the Dean of Arts & Sciences.

Making Plans to Transfer

Brunswick Community College assists students in making plans to transfer to 4-year colleges or universities. However, each student is responsible for contacting the schools to which they intend to apply to obtain information in writing about transfer admission procedures and requirements.

Students should plan their BCC programs in consultation with both their BCC advisors and the admissions counselors at senior institutions. This will help assure that students take the courses they need for admission to the senior institutions and to the various bachelor's degree majors and pre-professional

programs. Students are advised to begin the application process two semesters before they intend to transfer.

Transferring to UNC-System Universities

Transferring to one of the 16 universities of The University of North Carolina (UNC) system has been simplified under the 2014 Comprehensive Articulation Agreement (CAA) between the UNC-system and the NC Community College System (NCCCS). The CAA addresses the transfer of credits and the admission of NCCCS graduates to the UNC-system.

Transfer of AA and AS Degrees

BCC graduates of the AA and AS programs will normally receive 60-61 hours of academic credit upon admission to a UNC-system university and have junior status if they have received a grade of "C" or better in all college transfer coursework, have complied with the receiving institution's advising guidance, and a GPA of 2.0 on a 4.0 scale. Under special circumstances, a university may accept additional credit hours. Graduates of the AA and AS programs may be required to meet any additional requirements of the receiving institution before or after admission to the institution.

Transfer of Individual Courses

A minimum grade of "C" or better is required for all courses to be acceptable as transfer credit. A minimum GPA of 2.0 or better is required in the program of study for the degree to be acceptable as a transferrable degree.

Transfer Assured Admissions Policy

The transfer assured admissions policy of the 2014 Comprehensive Articulation Agreement (CAA) and Independent Comprehensive Articulation Agreement (ICAA) guarantees admission to a UNC institution for students who have graduated from a community college with an AA, AE, or AS degree. Students must meet all the requirements of the CAA. They must have a grade of "C" or better in all transfer courses with an overall GPA of 2.0 on a 4.0 scale from the college they graduated from and be eligible for readmission.

Students must also meet the judicial and application requirements of the institution they apply to and submit all required documents on time. Under this policy, admission is not

guaranteed to a particular UNC institution nor does it constitute admission to a professional school or a specific program within the university.

Note: The Teacher Prep Degree Programs (Associate in Arts in Teacher Prep – A1010T & Associate in Science in Teacher Preparation – A1040T) have their own state-wide Uniform Articulation Agreement between the UNC System considered "an extension of the ICAA" and a Uniform Articulation Agreement with NC Independent Colleges and Universities. Further information on articulation agreements is available at http://www.nccommunitycolleges.edu/students/enrollment-and-registration/university-transfer/articulation-agreements/

2014 Comprehensive Articulation Agreement Approved by the Board of Governors of The University of North Carolina and the State Board of the NC Community College Systems February 2014.

2015 Independent Comprehensive Articulation Agreement Approved by the Board of Governors of the University of North Carolina and the State Board of the NC Community College Systems May 2015.

Bilateral Articulation Agreements

The transfer assured admission policy, while guaranteeing that a student who has met the criteria will be accepted at a UNC institution, does not assure admission to the university of their choice. Therefore, Brunswick Community College has established individual agreements with particular institutions regarding admission of students, including but not limited to:

- Appalachian State University
- Campbell University
- East Carolina University
- Fayetteville State University
- NC State University
- Regis University
- Salem International University
- University of Mount Olive
- University of North Carolina at Greensboro
- University of North Carolina at Pembroke
- University of North Carolina at Wilmington
- Western Governors University

College Transfer Program Courses Which Meet Graduation Requirements

An alphabetical list of course descriptions is provided in this Catalog and Student Handbook. Approved College Transfer courses are identified in course descriptions with a closing statement describing the use of the course and the way it will transfer to a UNC-system institution:

- This is a Universal General Education Transfer Component (UGETC) course in (subject area) for the (degree type).
- This course has been approved for transfer under the CAA and ICAA as a general education course in (subject area) for the (degree type).

Only courses with these statements have been approved for transfer to the 16 universities of The University of North Carolina system.

Courses which do not have these statements are not approved for use in the Associate in Arts, Associate in Engineering, or Associate in Science curricula. Certain courses are only approved for use in the Associate in Science or Associate in Engineering curriculum (or vice versa); this will be noted in the CAA statement following these courses. Brunswick Community College offers a selection from among these courses each semester.

Students should select courses based on college transfer plans, expected baccalaureate majors, career goals, and special interests. Students should meet with their advisors every semester to update their degree programs and to ensure they are taking appropriate courses. The course selection and scheduling process is driven by the need to help students, whose requirements and personal schedules vary widely, get the courses they must have to make progress toward completing their degree programs. All classes are subject to minimum enrollment requirements and availability of instructors.

Courses which are regularly scheduled for the Fall and Spring Semesters

The AA, AE, and AS degree programs are flexible. Students can generally begin the college transfer program in fall, spring, or summer semesters and can choose from a variety of courses that meet degree requirements. Courses in the highest demand, such as ENG 111 (Writing and Inquiry), MAT

143 (Quantitative Literacy), and MAT 171 (Precalculus Algebra), are offered every semester, as are selections of courses from traditional general education areas: humanities/fine arts, social/behavioral sciences, and natural sciences/mathematics.

However, certain courses are normally offered only one semester each year and may be part of a two or three course sequence. For instance, PHY 251 (General Physics I) is offered in the Fall semester and PHY 252 (General Physics II) is offered in the Spring semester. Thus, students need to plan ahead.

HEALTH SCIENCES

Health Sciences programs prepare graduates to be clinical professionals in healthcare provider's offices, hospitals, and other businesses in the healthcare industry. Brunswick Community College offers the following programs of study:

Associate in Applied Science Degree Programs

Associate Degree Nursing (ADN)
Paramedic to ADN Bridge
LPN to ADN Transition
Emergency Medical Science

Diploma Programs

Practical Nursing (PN)
Dental Assisting

Admission Requirements

Health Sciences programs have competitive admission processes. Admission to the College does not automatically entitle a student to admission to Health Sciences programs. Instead, students must apply for admission to Health Sciences Programs.

For additional admission requirements and information, visit http://www.brunswickcc.edu/programs/health-sciences/

ASSOCIATE DEGREE NURSING (ADN)

The Associate Degree Nursing Curriculum provides knowledge, skills, and strategies to integrate safety and quality into nursing care, to practice in a dynamic environment, and to meet individual needs that impact health, quality of life and achievement of potential.

Course work includes and builds upon the domains of healthcare, nursing practice, and the holistic individual. Content emphasizes the nurse as a member of the interdisciplinary team providing safe, individualized care while employing evidence-based practice, quality improvement, and informatics.

The Associate Degree Nursing (ADN) nursing program at Brunswick Community College located in Bolivia, NC is accredited by the:

Accreditation Commission for Education in Nursing (ACEN)

3390 Peachtree Road NE, Suite 1400 Atlanta, GA 30326 (404) 975-5000

The most recent accreditation decision made by the ACEN Board of Commissioners for the Associate Degree Nursing (ADN) nursing program is Initial Accreditation. View the public information disclosed by the ACEN regarding this program at http://www.acenursing.us/ accreditedprograms/programSearch.htm

The Associate Degree Nursing Program has selective admission requirements. Visit http://www.brunswickcc.edu/programs/health-sciences/ or contact BCC's OneStop Student Services Center or the Nursing Department for additional information.

Associate in Applied Science Degree (A45110)

Summer Semester #1 **NUR 117Pharmacology	
Fall Semester #1 *BIO 168 Anatomy and Physiology I	3 8
*BIO 169 Anatomy and Physiology II	5 5 3
Summer Semester #2 NUR 113Family Health Concepts	3
*BIO 275 Microbiology	5 5 3

Spring Semester #2

NUR 213 Complex Health Concepts 10
Semester Total13
Total Program Credits72

Students must complete all non-nursing courses with a grade of "C" or better. Students must also achieve an overall exam average of 80 or higher in all nursing (NUR) courses.

*Must not be more than 5 years old at the start of the program.

**Must not be more than 1-year-old at the start of the program.

RN to BSN Bridge Program with UNCP:

Brunswick Community College (BCC)
Associate Degree Nursing Students who
successfully pass the NCLEX-RN
examination, will be considered for admission,
transferring up to 62 semester hours of credit,
into UNC Pembroke's Bachelor of Science in
Nursing degree.

LPN TO ADN TRANSITION Associate in Applied Science Degree (A45110T)

The LPN to ADN Transition Program provides Licensed Practical Nurses the opportunity to earn an Associate Degree in Nursing (ADN) in three semesters.

Graduates of this program are eligible to apply to take the National Council Licensure Examination (NCLEX-RN). Employment opportunities are vast within the global health care system and may include positions within acute, chronic, extended, industrial, and community health care facilities.

Upon accepted in the LPN to ADN Transition program, students will receive credit for prior learning for the following courses:

Total Credits	20
NUR 117 Pharmacology	2
NUR 114 Holistic Health Concepts	5

DENTAL ASSISTING Diploma (D45240)

The Dental Assisting curriculum prepares individuals to assist the dentist in the delivery of dental treatment and to function as integral members of the dental team while performing chairside and related office and laboratory procedures.

Course work includes instruction in general studies, biomedical sciences, dental sciences, clinical sciences, and clinical practice. A combination of lecture, laboratory, and clinical experiences provide students with knowledge in infection/hazard control, radiography, dental materials, preventive dentistry, and clinical procedures.

Graduates may be eligible to take the Dental Assisting National Board Examination to become Certified Dental Assistants. As a Dental Assistant II, defined by the Dental Laws of North Carolina, graduates work in dental offices and other related areas.

EMERGENCY MEDICAL SCIENCE

Emergency Medical Science curriculum provides individuals with the knowledge, skills and attributes to provide advanced emergency medical care as a paramedic for critical and emergent patients who access the emergency medical system and prepares graduates to enter the workforce.

Students will gain complex knowledge, competency, and experience while employing evidence based practice under medical oversight, and serve as a link from the scene into the healthcare system.

Graduates of this program may be eligible to take state and/or national certification examinations. Employment opportunities include emergency medical services, fire departments, rescue agencies, hospital specialty areas, industry, educational and government agencies.

Students with a North Carolina or National Registry Certification may be granted advanced standing for EMT (EMS 110), or those with Advanced EMT may be granted advanced standing for AEMT (EMS 121), upon admissions to the program with Program Director Approval.

PROFESSIONAL AND TECHNICAL PROGRAMS

The Professional and Technical Associate, Degree, Diploma, and Certificate programs help prepare students for entry-level jobs in the professional and technical careers. Through these programs students obtain the training and skills they need to become employable and competent, and, in many cases, they can earn industry recognized certifications. In addition, through the college's partnerships with various public and private 4year institutions, students have the opportunities to continue to earn higher credentials beyond a 2-year program.

Professional Technical programs vary in length: Associate in Applied Science (AAS) degrees, from 64-69 credit hours; Diploma programs range from 36-48 hours; Certificate programs range from 12-18 credit hours; and the Associate in Science transfer degree with concentration in Computer Science and Associate in Arts in Business Administration degrees are 61 credits each. Classes are taught in traditional, online, and/or hybrid/ blended formats to ensure students have the flexibility necessary to be successful in their educational goals.

Most professional and technical programs are 2-years in length and contain at least 15 hours of general education coursework. General education courses include at least two communication courses and at least 3-4 credits from each of the following disciplines: humanities/fine arts, social/behavioral sciences, and natural sciences/mathematics.

University Transfer Opportunities

Through participation with various public and private 4-year institutions, many Associate in Applied Science courses and credentials are transferrable to higher education institutions.

For UNC institutions, these agreements do not necessarily guarantee student acceptance into a particular bachelor program, but insures that all Comprehensive Articulation Agreement (CAA), Independent Comprehensive Articulation Agreement (ICAA), or Universal General Education Transfer Component (UGETC) courses transfer to a UNC 4-year system institution provided the student earn a "C" or better in the course. In addition, Bilateral Agreements with private institutions insures that many of the Professional Technical courses transfer toward completing a bachelor program, including:

- Accounting and Finance
 - Lees McRae College
 - UNC Greensboro
- Business Administration
 - Lees McRae College
 - UNC Greensboro
- Criminal Justice Technology
 - Lees McRae College
 - NC State University
 - NC Wesleyan University
 - UNC Pembroke
 - Fayetteville State University
 - Western Carolina University
- Early Childhood Education
 Based on the University admission
 requirements, BCC graduates may be required
 to meet minimum GPA, Praxis scores, and
 other requirements to be admitted to a
 Bachelor's Degree in Birth-Kindergarten and
 Early Education-related programs (both
 licensure and non-licensure options).
 Applicants should review the published
 admission requirements for these institutions:
 - Appalachian State University
 - Barton College
 - East Carolina University
 - Elizabeth City State University
 - Fayetteville State University
 - North Carolina Agricultural & Technical State University

- North Carolina Central University
- University of North Carolina at Charlotte
- University of North Carolina at Greensboro
- University of North Carolina at Pembroke
- University of North Carolina Wilmington
- Western Carolina University
- Winston Salem State University
- Health and Fitness Science
 - UNC Pembroke
 - UNC Wilmington
- Health Information Technology
 - UNC Greensboro
- Horticulture Technology
 - NC A&T
- Information Systems
 - East Carolina University
 - UNC Greensboro
 - University of Mount Olive
- · Public Safety Administration
 - NC State University
- Turfgrass Management Technology
 - NC A&T

911 COMMUNICATIONS AND OPERATIONS <u>Associate in Applied</u> <u>Science Degree (A55470)</u>

The 911 Communication and Operations curriculum is designed to provide new students, as well as current practitioners, with knowledge and skills in the areas necessary for entrance or advancement within emergency communications.

Coursework includes concepts and skills in telecommunication systems, basic software and GIS/GPS, communications, documentation, public administration, personnel management and supervision, grant writing, professional ethics, cultural awareness, mental health awareness, and adaptation to technology within emergency communication organizations.

Brunswick Community College partnered with Richmond Community College for students to complete this degree program. Students complete general education courses at BCC, and the direct 911 courses through Richmond Community College. Richmond Community College will provide the 911 core courses in an online environment and students complete the Work Based Learning portion of the program at various locations throughout the county.

Given that 911 courses begin in the first fall semester, students will submit two applications, one to Brunswick Community College and the other to Richmond Community College. Upon successful completion of this program, students will be awarded the degree from Richmond Community College.

Graduates should qualify for employment and advancement in the public safety telecommunications field with a variety of employers, including local government emergency communications centers, county sheriffs' offices, local law enforcement, fire and EMS agencies, emergency management, and related emergency dispatch operations.

Community College ACCOUNTING AND

FINANCE

The Accounting and Finance curriculum is designed to provide students with the knowledge and the skills necessary for employment and growth in the accounting and finance profession. Accountant and finance professionals assemble and analyze, process, and communicate essential information about financial operations. Course work includes accounting, finance, business law computer applications, financial planning, insurance, marketing, and real estate. Related skills are developed through the study of communications, critical thinking skills, and ethics.

Graduates should qualify for entry-level accounting positions in many types of organizations including accounting firms, small businesses, manufacturing firms, banks, hospitals, school systems, and government agencies. With work experience and additional education, an individual may advance in the accounting and finance profession.

Note: See University Transfer Opportunities (p. 111).

ENG 111 Writing and Inquiry3	complete the first Summer and Second Fall
Semester Total14	and Spring courses through Wayne

Community College. Courses provided by Wayne Community College will be offered in an online environment.

After being accepted to the program, students will need to submit an application at Wayne Community College within the first semester to enroll in the core curriculum courses beginning in the Summer semester. Upon successful completion of this program, students will be awarded the degree from Wayne Community College.

Graduates may qualify for entry-level Al positions such as Al engineer, Al project manager, Al researcher, Al consultant, Al architect, conversational Al specialist, Al automation engineer, Al software engineer, and machine learning specialist.

BASIC LAW ENFORCEMENT TRAINING

Basic Law Enforcement Training (BLET) is designed to give students essential skills required for entry-level employment as law enforcement officers with state, county, or municipal governments, or company police.

This program covers the basic knowledge and skills needed for entry-level employment as a law enforcement officer in North Carolina as required by the Criminal Justice Education and Training Standards Commission and the Sheriffs' Education and Training Standards in North Carolina, criminal investigations, traffic enforcement/investigations, patrol techniques, crisis intervention, communication and deescalation skills, interviews and interrogations, criminal and constitutional law, court procedures, civil process, ethical problem solving, and officer wellness.

Upon completion, students should be able to demonstrate competence in the content required for the state comprehensive certification examination administered by the NC Department of Justice.

CRIMINAL JUSTICE TECHNOLOGY

The Criminal Justice Technology curriculum is designed to provide knowledge of criminal justice systems and operations. Study will focus on local, state, and federal law enforcement, judicial processes, corrections, and security services. The criminal justice system's role within society will be explored.

Emphasis is on criminal justice systems, criminology, juvenile justice, criminal and constitutional law, investigative principles, ethics, and community relations. Additional study may include issues and concepts of government, counseling, communications, computers, and technology.

Employment opportunities exist in a variety of local, state, and federal law enforcement, corrections, and security fields. Examples include police officer, deputy sheriff, county detention officer, state trooper, intensive probation/parole surveillance officer, and loss prevention specialist.

Criminal Justice students who previously completed BCC's BLET curriculum program on or after the year 2000 will receive prior learning credit for the following courses:

CJC 13	1Criminal Law	3
CJC 13 2	2Court Procedures & Evidence	3
CJC 22	1Investigative Principles	4
CJC 23	1Constitutional Law	3
CJC 22	5Crisis Intervention	3

Infant and Toddler Care

The curriculum prepares individuals to work with children from infancy to 3 years of age in diverse learning environments. Students will combine learned theories, competency-based knowledge, and practice in actual settings with young children under the supervision of qualified teachers.

Coursework includes infant/toddler growth and development: physical/nutritional needs of infants and toddlers; safety issues in the care of infants and toddlers; care and guidance; communication skills with parents and children; design and implementation of appropriate curriculum; and other related topics.

Infant and Toddler Care graduates should be prepared to plan and implement developmentally appropriate infant/toddler programs in early childhood settings. Employment opportunities include child development and childcare programs, preschools, public and private schools, recreational centers, Early Head Start Programs, and other infant/toddler programs.

HEALTH & FITNESS SCIENCE

The Health and Fitness Science program is designed to provide students with the knowledge and skills necessary for employment in the fitness and exercise industry.

Students will be trained in exercise science and be able to administer basic fitness tests and health risk appraisals, teach specific exercise and fitness classes, and provide instruction in the proper use of exercise equipment and facilities.

Health & Fitness Science graduates should qualify for employment opportunities in schools, commercial fitness clubs, YMCA's/YWCA's, wellness programs in business and industry, Parks & Recreation Department Athletics, and other organizations implementing exercise and fitness programs.

Note: See University Transfer Opportunities (p. 111).

HIT students are required to obtain group liability insurance coverage, submit to a criminal background check and drug testing, and complete a medical form with required immunizations prior to professional practice experience assignments.

Note: See University Transfer Opportunities (p. 111).

HORTICULTURE TECHNOLOGY

<u>Associate in Applied Science</u> <u>Degree/Diploma/Certificate</u>

The Horticulture Technology program is designed to prepare individuals for various careers in horticulture. Classroom instruction and practical laboratory applications of horticultural principles and practices are included in the program of study.

Course work includes plant identification, pest management, plant science and soil science. Also included are courses in sustainable plant production and management, landscaping, and the operation of horticulture businesses.

Horticulture Technology graduates should qualify for employment in a variety of positions associated with nurseries, garden centers, greenhouses, landscape operations, governmental agencies/parks, golf courses, sports complexes, highway vegetation, turf maintenance companies, and private and public gardens. Graduates should also be prepared to take the North Carolina Pesticide Applicator's Examination and/or the North Carolina Certified Plant Professional Examination.

A program that focuses on the general production and management of cultivated plants, shrubs, flowers, foliage, trees, groundcovers, and related plant materials; the management of technical and business operations connected with horticultural services; and the basic scientific principles needed to understand plants and their management and care.

The Horticulture Technology and Turfgrass Management Technology degree programs are designed so that, upon successful completion of one degree, you automatically earn the second degree. Because of this, a student is dually enrolled in both programs.

Note: See University Transfer Opportunities (p. 111).

TURFGRASS MANAGEMENT TECHNOLOGY

The Turfgrass Management Technology curriculum prepares individuals for various careers in horticulture. Classroom instruction and practical laboratory applications of horticulture principles and practices are included in the program of study.

Course work includes plant identification, pest management, plant science and soil science. Also included are courses in sustainable plant production and management, landscaping, and operation of horticulture businesses.

Graduates should qualify for employment in a variety of positions associated with nurseries, garden centers, greenhouses, landscape operations, governmental agencies/parks, golf courses, sports complexes, highway vegetation, turf maintenance companies, and private and public gardens.

Graduates should also be prepared to take the North Carolina Pesticide Applicator's Examination.

This program focuses on turfgrass and related groundcover plants and prepares individuals to develop ornamental or recreational grasses and related products; plant, transplant, and manage grassed areas; and to produce and store turf used for transplantation. Potential course work includes instruction in applicable plant sciences, genetics of grasses, turf science, use analysis, turf management, and related economics.

The Horticulture Technology and Turfgrass Management Technology degree programs are designed so that, upon successful completion of one degree, you automatically

earn the second degree. Because of this, a student is dually enrolled in both programs.

Note: See University Transfer Opportunities (p. 111).

WELDING TECHNOLOGY

The Welding Technology curriculum provides students with a sound understanding of the science, technology, and applications essential for successful employment in the welding and metalworking industry.

Instruction includes consumable and nonconsumable electrode welding and cutting processes. Courses may include math, print reading, metallurgy, welding inspection, and destructive and non-destructive testing providing the student with industry-standard skills developed through classroom training and practical application.

Welding Technology graduates may be employed as entry-level technicians in welding and metalworking industries. Career opportunities also exist in construction, manufacturing, fabrication, sales, quality control, supervision, and welding-related self-employment.

COURSE DESCRIPTIONS

Course Numbering System

Course designations consist of a three-letter course prefix followed by a three-digit course number, followed by the title of the course, followed by a sequence of five numbers (formatted as 0-0-0-0) which indicate the course hours:

- class lecture hours per week;
- lab hours per week:
- clinical or shop hours per week;
- work experience hours per week; and
- credit hours earned when the course is successfully completed.

College Readiness courses have course numbers between 010 and 099 (e.g. ENG 025, MAT 035). All associate degree, diploma, and certificate curriculum courses have course numbers between 100 and 299 (e.g. AQU 111, COS 271, ENG 112, NUR 101, SOC 210).

Prerequisites

Many courses have prerequisites--other courses that must be completed prior to enrollment. For example, a student must complete PSY 150 before enrolling in PSY 241; ACC 120 is a prerequisite for enrolling in BUS 225.

Many courses have College Readiness reading and writing or mathematics course prerequisites: for example, ENG 025 before ENG 111; ENG 025 and MAT 035 before MAT 143; ENG 025 before HIS 131. To gain admission to the curriculum courses, students must either pass the appropriate College Readiness prerequisites or make appropriate scores on assessment inventories that measure skills in English, mathematics, and reading.

Corequisites

Corequisites are courses which are taken at the same time. For example, PSY 241 has a corequisite of ENG 111; this means that a student should be taking both courses in the same semester unless the student has already completed ENG 111. Additionally, some science courses have mandatory corequisite lab sections. For example, BIO 140 requires enrollment in BIO 140A, CHM-131 requires enrollment in CHM 131A, and PHY 110 requires enrollment in PHY 110A.

State-mandated prerequisites and corequisites must be satisfied before enrollment. Under special circumstances, a local prerequisite may be waived; however, the Lead Instructor, Program Director, Department Chair, or Dean, and Vice President for Academic Affairs must approve the waiver in writing. If a course affects more than one division of the college, written approval is required from more than one program director before the student is eligible to enroll in the course.

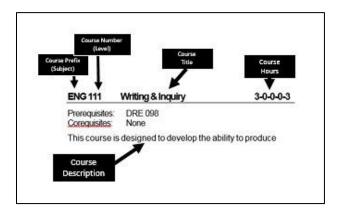

See Requisite Requirements & Waivers for additional information about requisite waivers.

Display of Courses in the Catalog

The following legend should be used to interpret each course block in the catalog:

Course Hours Number Sequence

Class Hours - Lab Hours - Clinic Hours - Work Experience Hours - Credit Hours

Comprehensive Articulation Agreement (CAA) Courses

Approved college transfer courses are identified in course descriptions with a closing statement describing the use of the course and the way it will transferred to a UNC-system institution:

• Universal General Education Transfer Component (UGETC) - UGETC courses are guaranteed to transfer as equivalency credit at the receiving institution with the grade of "C" or better. This is a Universal General Education Transfer Component (UGETC) course in (subject area) for the (degree type).

Note: Unless otherwise noted, UGETC courses are applicable to both the Associate in Arts (AA) and Associate in Science (AS) degrees. Courses applicable only to either the AA <u>or</u> AS will be noted as such in the individual course descriptions.

CAA Core Courses

CAA core courses will transfer to the receiving institution with a grade of "C" or better; however, it is up to the receiving institution as to how the course transfers (as equivalency credit or simply credit towards graduation). This course has been approved for transfer under the CAA as a general education course in (subject area) for the (degree type).

Pre-Major/Elective CAA Courses

CAA pre-major/elective courses will transfer to the receiving institution with a grade of "C" or better; however, it is up to the receiving institution as to how the course transfers (as equivalency credit or simply credit towards graduation). This course has been approved for transfer under the CAA as a pre-major and/or elective course requirement for the (degree type).

Only courses with these statements have been approved for transfer to the 16 universities of the University of North Carolina. Courses which do not have these statements are not approved for use in the Associate in Arts or Associate in Science curricula. Finally, certain courses are only approved for use in the Associate in Science curriculum (or vice versa); this will be noted in the CAA statement following these courses.

Course Availability

Courses may not be offered every semester. Certain courses are normally offered only one semester each year and may be part of a two or three course sequence. For instance, MAT 271 (Calculus I) and PHY 151 (College Physics I) will only be offered in the fall semester and MAT 272 (Calculus II) and PHY 152 (College Physics II) will only be offered in the spring semester. Thus, students need to plan ahead. All classes are subject to minimum enrollment requirements and availability of instructors.

Course Equivalencies

College Readiness Courses have gone through extensive redesigns 2012-2014, 2019-2020, and most recently in 2024-2025. As such, students may meet prerequisites and/or corequisites of current courses in the catalog by having completed or received credit for previous college readiness coursework. The following tables should be used to equate older college readiness courses to the current prerequisite and corequisite requirements:

Mathematics

Gateway Course	New MAT Courses	RISE Course	DMA/Multiple Measures	MAT Course
MAT 143	MAT 025, grade of A, B, or C	MAT 003, Grade P2	DMA 010, 020, 030, 040, 050	MAT 070
MAT 152	MAT 025, grade of A, B, or C	MAT 003, Grade P2	DMA 010, 020, 030, 040, 050	MAT 070 & ENG 080 & RED 080 or ENG 085 or MAT 080
MAT 171	MAT 035, grade of A, B, or C	MAT 003, Grade P3	DMA 010, 020, 030, 040, 050 DMA 060, 070, 080	MAT 080

English

Gateway Course	New ENG Course	RISE Course	DMA/Multiple Measur	ENG Course
Continuing Education Basic Skills			DRE 096	ENG 075, ENG 080 & RED 070
ENG 111	ENG 025, grade of A, B, or C	ENG 002 Grade of P2 or BSP-4002, Grade of P2	DRE 098	ENG 090 & RED 090 or ENG 095

Course Descriptions

Course Hours Number Sequence: Class Hours – Lab Hours – Clinic Hours – Work Experience Hours – Credit Hours

ACA 122 - College Transfer Success 0-2-0-0-1 Prerequisites: None; Corequisites: None

This course provides information and strategies necessary to develop clear academic and professional goals beyond the community college experience. Topics include the CAA, college policies and culture, career exploration, gathering information on senior institutions, strategic planning, critical thinking, and communications skills for a successful academic transition. Upon completion, students should be able to develop an academic plan to transition successfully to senior institutions. This course has been approved for transfer under the CAA and ICAA as a pre-major and/or elective course requirement for the AA, AE, and AS degrees.

ACC 120 – Princ of Financial Accounting 3-2-0-0-4 Prerequisites: None; Corequisites: None

This course introduces business decision-making using accounting information systems. Emphasis is placed on analyzing, summarizing, reporting, and interpreting financial information. Upon completion, students should be able to prepare financial statements, understand the role of financial information in decision- making and address ethical considerations. This course has been approved for transfer under the CAA and ICAA as a pre-major and/or elective course requirement for the AA and AS degrees.

ACC 121 - Princ of Managerial Accounting 3-2-0-0-4 Prerequisites: ACC 120; Corequisites: None

This course includes a greater emphasis on managerial and cost accounting skills. Emphasis is placed on managerial accounting concepts for external and internal analysis, reporting and decision-making. Upon completion, students should be able to analyze and interpret transactions relating to managerial concepts including product-costing systems. This course has been approved for transfer under the CAA and ICAA as a pre-major and/or elective course requirement for the AA and AS degrees.

ACC 130 - Business Income Taxes 2-2-0-0-3
Prerequisites: ACC 120; Corequisites: None

This course introduces the relevant laws governing business and fiduciary income taxes. Topics include tax law relating to business organizations, electronic research and methodologies, and the use of technology for the preparation of business tax returns. Upon completion, students should be able to analyze basic tax scenarios, research applicable tax law, and complete various business tax forms.

ACC 140 – Payroll Accounting 1-2-0-0-2 Prerequisites: ACC 115 or 120; Corequisites: None

This course covers federal and state laws pertaining to wages, payroll taxes, payroll tax forms, and journal and general ledger transactions. Emphasis is placed on computing wages; calculating social security, income, and unemployment taxes; preparing appropriate payroll tax forms; and journalizing/posting transactions. Upon completion, students should be able to analyze data, make appropriate computations, complete forms, and prepare accounting entries using appropriate technology.

ACC 150 - Accounting Software Applications 1-3-0-0-2 Prerequisites: ACC 115 or ACC 120; Corequisites: None

This course introduces microcomputer applications related to accounting systems. Topics include general ledger, accounts receivable, accounts payable, inventory, payroll, and correcting, adjusting, and closing entries. Upon completion, students should be able to use a computer accounting package to accurately solve accounting problems.

ACC 180 – Practices in Bookkeeping 3-0-0-0-3
Prerequisites: ACC 120; Corequisites: None

This course provides advanced instruction in bookkeeping and record-keeping functions. Emphasis is placed on mastering adjusting entries, correction of errors, depreciation, payroll, and

inventory. Upon completion, students should be able to conduct all key bookkeeping functions for small businesses.

ACC 215 - Ethics in Accounting 3-0-0-0-3

Prerequisites: ACC 121; Corequisites: None

This course introduces students to professional codes of conduct and ethics adopted by professional associations and state licensing boards for accountants, auditors, and fraud examiners. Topics include research and discussions of selected historical and contemporary ethical cases and issues as they relate to accounting and business. Upon completion, students should be able to apply codes, interpret facts and circumstances, as they relate to accounting firms and business activities.

ACC 220 – Intermediate Accounting I 3-2-0-0-4 Prerequisites: ACC 120; Corequisites: None

This course is a continuation of the study of accounting principles with in-depth coverage of theoretical concepts and financial statements. Topics include generally accepted accounting principles and extensive analysis of balance sheet components. Upon completion, students should be able to demonstrate competence in the conceptual framework underlying financial accounting, including the application of financial standards.

ACC 249 – Forensic Acctg & Cybersecurity 3-0-0-0-3 Prerequisites: ACC 120; Corequisites: None

This course introduces students to theoretical and practical applications of investigative and analytical skills for the purpose of resolving cybersecurity and financial crimes in a manner that meets standards required by a court of law. Emphasis is placed on investigative procedures used to detect, prevent and control fraud, defalcation and misrepresentation. Upon completion, students should be able to execute cybersecurity investigative procedures to assist businesses in detecting, investigating, documenting, and preventing fraud including the collection of evidence and preparation of documents for court proceedings.

ACC 267 – Fraud Examination 3-0-0-0-3

Prerequisites: ACC 120; Corequisites: None

This course is an introduction to the investigation techniques used to discover fraudulent activities. Emphasis is placed on the techniques for the

detection, deterrence and prevention of the major types of occupational and management frauds. Upon completion, students should be able to examine relevant fraud cases and apply critical thinking and technology skills used in fraud examination.

ACC 269 – Auditing & Assurance Srvcs 3-0-0-0-3 Prerequisites: ACC 220; Corequisites: None

This course introduces selected topics pertaining to the objectives, theory and practices in engagements providing auditing and other assurance services. Topics include planning, conducting and reporting, with emphasis on the related professional ethics and standards. Upon completion, students should be able to demonstrate an understanding of the types of professional services, the related professional standards, and engagement methodology.

ANT 210 - General Anthropology 3-0-0-0-3 Prerequisites: ENG 025; Corequisites: None

This course introduces the physical, archaeological, linguistic, and ethnological fields of anthropology. Topics include human origins, genetic variations, archaeology, linguistics, primatology, and contemporary cultures. Upon completion, students should be able to demonstrate an understanding of the four major fields of anthropology. This course has been approved for transfer under the CAA and ICAA as a general education course in Social and Behavioral Sciences for the AA and AS degrees.

ANT 220 - Cultural Anthropology 3-0-0-0-3 Prerequisites: ENG 025; Corequisites: None

This course introduces the nature of human culture. Emphasis is placed on cultural theory, methods of fieldwork, and cross-cultural comparisons in the areas of ethnology, language, and the cultural past. Upon completion, students should be able to demonstrate an understanding of basic cultural processes and how cultural data are collected and analyzed. This course has been approved for transfer under the CAA as a general education course in Social and Behavioral Sciences for the AA and AS degrees.

ANT 221 - Comparative Cultures 3-0-0-0-3 Prerequisites: ENG 025; Corequisites: None

This course provides an ethnographic survey of societies around the world covering their

distinctive cultural characteristics and how these relate to cultural change. Emphasis is placed on the similarities and differences in social institutions such as family, economics, politics, education, and religion. Upon completion, students should be able to demonstrate knowledge of a variety of cultural adaptive strategies. This course has been approved for transfer under the CAA and ICAA as a general education course in Social and Behavioral Sciences for the AA and AS degrees.

ART 111 - Art Appreciation

3-0-0-0-3

Prerequisites: ENG 025; Corequisites: None

This course introduces the origins and historical development of art. Emphasis is placed on the relationship of design principles to various art forms, including but not limited to, sculpture, painting, and architecture. Upon completion, students should be able to identify and analyze a variety of artistic styles, periods, and media. This course has been approved for transfer under the CAA and ICAA as a pre-major and/or general education elective course requirement for the AA, AE, and AS degrees. This is a Universal General Education Transfer Component (UGETC) course in Humanities & Fine Arts for the AA, AE, and AS degrees.

ART 114 - Art History Survey I 3-0-0-0-3

Prerequisites: ENG 025; Corequisites: None

This course covers the development of art forms from ancient times to the Renaissance. Emphasis is placed on content, terminology, design, and style. Upon completion, students should be able to demonstrate a historical understanding of art as a product reflective of human social development. This course has been approved for transfer under the CAA and ICAA as a premajor and/or general education elective course requirement for the AA, AE, and AS degrees. This is a Universal General Education Transfer Component (UGETC) course in Humanities & Fine Arts for the AA, AE, and AS degrees.

ART 115 - Art History Survey II 3-0-0-0-3

Prerequisites: ENG 025; Corequisites: None This course covers the development of art forms

This course covers the development of art forms from the Renaissance to the present. Emphasis is placed on content, terminology, design, and style. Upon completion, students should be able to demonstrate a historical understanding of art

as a product reflective of human social development. This course has been approved for transfer under the CAA and ICAA as a premajor and/or general education elective course requirement for the AA, AE, and AS degrees. This is a Universal General Education Transfer Component (UGETC) course in Humanities & Fine Arts for the AA, AE, and AS degrees.

<u>ART 121 - Two-Dimensional Design 0-6-0-0-3</u> Prerequisites: None; Corequisites: None

This course introduces the elements and principles of design as applied to two-dimensional art. Emphasis is placed on the structural elements, the principles of visual organization, and the theories of color mixing and interaction. Upon completion, students should be able to understand and use critical and analytical approaches as they apply to two-dimensional visual art. This course has been approved for transfer under the CAA and ICAA as a pre-major and/or elective course requirement in Humanities and Fine Arts for the AA and AS degrees.

ART 131 - Drawing I 0-6-0-0-3

Prerequisites: None; Corequisites: None

This course introduces the language of drawing and the use of various drawing materials. Emphasis is placed on drawing techniques, media, and graphic principles. Upon completion, students should be able to demonstrate competence in the use of graphic forms and various drawing processes. This course has been approved for transfer under the CAA and ICAA as a pre-major and/or elective course requirement in Humanities and Fine Arts for the AA and AS degrees.

AST 151 – General Astronomy I 3-0-0-0-3 Prerequisites: ENG-025; Corequisites: AST-151A

This course introduces the science of modern astronomy with a concentration on the solar system. Emphasis is placed on the history and physics of astronomy and an introduction to the solar system, including the planets, comets, and meteors. Upon completion, students should be able to demonstrate a general understanding of the solar system. This course has been approved for transfer under the CAA and ICAA as a general education elective course requirement in Natural Science.

<u>AST 151A – General Astronomy Lab</u> 0-2-0-0-1 Prerequisites: None; Corequisites: AST 151

The course is a laboratory to accompany AST 151. Emphasis is placed on laboratory experiences which enhance the materials presented in AST 151 and which provide practical experience. Upon completion, students should be able to demonstrate a general understanding of the solar system. This course has been approved for transfer under the CAA and ICAA as a general education elective course requirement in Natural Science.

BIO 110 - Principles of Biology 3-3-0-0-4
Prerequisites: ENG 025; Corequisites: None

This course provides a survey of fundamental biological principles for non-science majors. Emphasis is placed on basic chemistry, cell biology, metabolism, genetics, evolution, ecology, diversity, and other related topics. Upon completion, students should be able to demonstrate increased knowledge and better understanding of biology as it applies to everyday life. This course has been approved for transfer under the CAA and ICAA as a pre-major and/or general education elective course requirement for the AA, AE, and AS degrees. This is a Universal General Education Transfer Component (UGETC) course in Natural Sciences for the AA, AE, and AS degrees.

BIO 111 - General Biology I 3-3-0-0-4
Prerequisites: ENG 025; Corequisites: None

This course introduces the principles and concepts of biology. Emphasis is placed on basic biological chemistry, molecular and cellular biology, metabolism and energy transformation, genetics, evolution, and other related topics. Upon completion, students should be able to demonstrate understanding of life at the molecular and cellular levels. This course has been approved for transfer under the CAA and ICAA as a pre-major and/or general education elective course requirement for the AA, AE, and AS degrees. This is a Universal General Education Transfer Component (UGETC) course in Natural Sciences for the AA, AE, and AS degrees.

BIO 112 - General Biology II 3-3-0-0-4
Prerequisites: BIO 111, minimum Grade of "C";
Corequisites: None

This course is a continuation of BIO 111. Emphasis is placed on organisms, evolution, biodiversity, plant and animal systems, ecology, and other related topics. Upon completion, students should be able to demonstrate comprehension of life at the organismal and ecological levels. This course has been approved for transfer under the CAA and ICAA as a pre-major and/or general education elective course requirement for the AA and AS degrees. This is a Universal General Education Transfer Component (UGETC) course in Natural Sciences for the AS degree ONLY.

BIO 140 - Environmental Biology 3-0-0-0-3 Prerequisites: ENG 025; Corequisites: BIO 140A

This course introduces environmental processes and the influence of human activities upon them. Topics include ecological concepts, population growth, natural resources, and a focus on current environmental problems from scientific, social, political, and economic perspectives. Upon completion, students should be able to demonstrate an understanding of environmental interrelationships and of contemporary environmental issues. This course has been approved for transfer under the CAA and ICAA as a general education course in Natural Science for the AA and AS degrees.

BIO 140A - Environmental Biology Lab 0-3-0-0-1 Prerequisites: ENG 025; Corequisites: BIO140

This course provides a laboratory component to complement BIO140. Emphasis is placed on laboratory and field experience. Upon completion, students should be able to demonstrate a practical understanding of environmental interrelationships and of contemporary environmental issues. This course has been approved for transfer under the CAA and ICAA as a general education course in Natural Science for the AA and AS degrees.

BIO 143 – Field Biology Minicourse 1-2-0-0-2 Prerequisites: None; Corequisites: BIO 110, BIO 111, BIO 112, BIO 163, or BIO 168

This course introduces the biological and physical components of a field environment. Emphasis is placed on a local field environment with extended field trips to other areas. Upon completion, students should be able to demonstrate an understanding of the biological and physical components of the specific biological environment. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

BIO 155 - Nutrition

3-0-0-0-3

Prerequisites: None; Corequisites: None

This course covers the biochemistry of foods and nutrients with consideration of the physiological effects of specialized diets for specific biological needs.

Topics include cultural, religious, and economic factors that influence a person's acceptance of food, as well as nutrient requirements of the various life stages. Upon completion, students should be able to identify the functions and sources of nutrients, the mechanisms of digestion, and the nutritional requirements of all age groups. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement for the AA and AS degrees.

BIO 163 - Basic Anatomy & Physiology 4-2-0-0-5 Prerequisites: ENG 025; Corequisites: None

This course provides a basic study of the structure and function of the human body. Topics include a basic study of the body systems as well as an introduction to homeostasis, cells, tissues, nutrition, acid-base balance, and electrolytes. Upon completion, students should be able to demonstrate a basic understanding of the fundamental principles of anatomy and physiology and their interrelationships. This course has been approved for transfer under the CAA and ICAA as a pre-major and/or elective course requirement for the AA and AS degrees.

BIO 168 - Anatomy & Physiology I 3-3-0-0-4 Prerequisites: ENG 025; Corequisites: None

This course provides a comprehensive study of the anatomy and physiology of the human body. Topics include body organization, homeostasis, cytology, histology, and the integumentary, skeletal, muscular, and nervous systems and special senses. Upon completion, students should be able to demonstrate an in-depth understanding of principles of anatomy and physiology and their interrelationships. *This course has been approved for transfer under the CAA and ICAA as a pre-major and/or elective course requirement for the AA and AS degrees.*

BIO 169 - Anatomy & Physiology II 3-3-0-0-4 Prerequisites: BIO 168, minimum Grade of "C"; Corequisites: None

This course provides a continuation of the comprehensive study of the anatomy and physiology of the human body. Topics include the endocrine, cardiovascular, lymphatic, respiratory, digestive, urinary, and reproductive systems as well as metabolism, nutrition, acid-base balance, and fluid and electrolyte balance. Upon completion, students should be able to demonstrate an in-depth understanding of principles of anatomy and physiology and their interrelationships. This course has been approved for transfer under the CAA and ICAA as a pre-major and/or elective course requirement for the AA and AS degrees.

BIO 275 - Microbiology

3-3-0-0-4

Prerequisites: BIO 110, BIO 111, BIO163, BIO 165, or BIO 168, minimum Grade of "C";

Corequisites: None

This course covers principles of microbiology and the impact these organisms have on man and the environment. Topics include the various groups of microorganisms, their structure, physiology, genetics, microbial pathogenicity, infectious diseases, immunology, and selected practical applications. Upon completion, students should be able to demonstrate knowledge and skills including microscopy, aseptic technique, staining, culture methods, and identification of microorganisms. This course has been approved for transfer under the CAA and ICAA as a pre-major and/or elective course requirement for the AA and AS degrees.

<u>BUS 110 - Introduction into Business 3-0-0-0-3</u> Prerequisites: None; Corequisites: None

This course provides a survey of the business world. Topics include the basic principles and practices of contemporary business. Upon completion, students should be able to demonstrate an understanding of business concepts as a foundation for studying other business subjects. This course has been approved for transfer under the CAA and ICAA as a pre-major and/or elective course requirement for the AA and AS degrees.

BUS 115 - Business Law I

3-0-0-0-3

Prerequisites: None; Corequisites: None

This course introduces the student to the legal and ethical framework of business. Contracts, negotiable instruments, the law of sales, torts, crimes, constitutional law, the Uniform Commercial Code, and the court systems are examined. Upon completion, the student should be able to identify legal and ethical issues that arise in business decisions and the laws that apply to them. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement for the AA and AS degrees.

BUS 137 - Principles of Management 3-0-0-0-3 Prerequisites: None; Corequisites: None

This course is designed to be an overview of the major functions of management. Emphasis is placed on planning, organizing, controlling, directing, and communicating. Upon completion, students should be able to work as contributing members of a team utilizing these functions of management. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement for the AA and AS degrees.

BUS 147 – Business Insurance 3-0-0-0-3

Prerequisites: None; Corequisites: None

This course surveys the basic concepts of risk management. Topics include principles and applications of health, property, life, and casualty insurance. Upon completion, students should be able to evaluate different insurance needs and assist an organization in acquiring adequate insurance coverage.

BUS 153 - Human Resource Management 3-0-0-03 Prerequisites: None; Corequisites: None

This course introduces the functions of personnel/human resource management within an organization. Topics include equal opportunity and the legal environment, recruitment and selection, performance appraisal, employee development, compensation planning, and employee relations. Upon completion, students should be able to anticipate and resolve human resource concerns.

BUS 225 - Business Finance

2-2-0-0-3

Prerequisites: None; Corequisites: None

This course provides an overview of business financial management. Emphasis is placed on financial statement analysis, time value of money, management of cash flow, risk and return, and sources of financing. Upon completion, students should be able to interpret and apply the principles of financial management.

<u>BUS 230 – Small Business Management 3-0-0-0-3</u> Prerequisites: None; Corequisites: None

This course introduces the challenges of entrepreneurship including the startup and operation of a small business. Topics include market research techniques, feasibility studies, site analysis, financing alternatives, and managerial decision making. Upon completion, students should be able to develop a small business plan.

BUS 240 - Business Ethics 3-0-0-0-3

Prerequisites: None; Corequisites: None This course introduces contemporary and controversial ethical issues that face the business community. Topics include moral reasoning, moral dilemmas, law and morality, equity, justice and fairness, ethical standards, and moral development. Upon completion, students should be able to demonstrate an understanding of their moral responsibilities and obligations as members of the workforce and society.

CHM 132 - Organic and Biochemistry 3-3-0-0-4 Prerequisites: CHM 131 and CHM 131A or CHM 151, minimum grade of "C", Corequisites: None

This course provides a survey of major functional classes of compounds in organic and biochemistry. Topics include structure, properties, and reactions of the major organic and biological molecules and basic principles of metabolism. Upon completion, students should be able to demonstrate an understanding of fundamental chemical concepts needed to pursue studies in related professional fields. This course has been approved for transfer under the CAA and ICAA as a general education course in Natural Science for the AA and AS degrees.

CHM 151 - General Chemistry I 3-3-0-0-4 Prerequisites: ENG 025, MAT 025 or MAT 035; Corequisites: None

This course covers fundamental principles and laws of chemistry. Topics include measurement, atomic and molecular structure, periodicity, chemical reactions, chemical bonding, stoichiometry, thermochemistry, gas laws, and solutions. Upon completion, students should be able to demonstrate an understanding of fundamental chemical laws and concepts as needed in CHM 152. This course has been approved for transfer under the CAA and ICAA as a general education course in Natural Science for the AA and AS degrees. This is a Universal General Education Transfer Component (UGETC) course in Natural Sciences for the AA and AS degrees.

CHM 152 - General Chemistry II 3-3-0-0-4
Prerequisites: CHM 151, minimum grade of "C",
Corequisites: None

This course provides a continuation of the study of the fundamental principles and laws of chemistry. Topics include kinetics, equilibrium, ionic and redox equations, acid-base theory, electrochemistry, thermodynamics, introduction to nuclear and organic chemistry, and complex ions. Upon completion, students should be able to demonstrate an understanding of chemical concepts as needed to pursue further study in chemistry and related professional fields. This course has been approved for transfer under the CAA and ICAA as a general education course in Natural Science for the AA, AE, and AS degrees. This is a Universal General Education Transfer Component (UGETC) course in Natural Sciences for the AS degree ONLY.

CHM 251 - Organic Chemistry I 3-3-0-0-4
Prerequisites: CHM 152, Corequisites: None

This course provides a systematic study of the theories, principles, and techniques of organic chemistry. Topics include nomenclature, structure, properties, reactions, and mechanisms of hydrocarbons, alkyl halides, alcohols, and ethers; further topics include isomerization, stereochemistry, and spectroscopy. Upon completion, students should be able to demonstrate an understanding of the fundamental concepts of covered organic topics as needed in CHM 252. This course has been approved for transfer under the CAA and ICAA as a pre-major and/or elective course requirement for the AA and AS degrees.

CHM 252 - Organic Chemistry II 3-3-0-0-4
Prerequisites: CHM 251, minimum Grade of "C",
Corequisites: None

This course provides continuation of the systematic study of the theories, principles, and techniques of organic chemistry. Topics include nomenclature, structure, properties, reactions, and mechanisms of aromatics, aldehydes, ketones, carboxylic acids and derivatives, amines and heterocycles; multi-step synthesis will be emphasized. Upon completion, students should be able to demonstrate an understanding of organic concepts as needed to pursue further study in chemistry and related professional fields. This course has been approved for transfer under the CAA and ICAA as a pre-major and/or elective course requirement for the AA and AS degrees.

CIS 110 - Introduction to Computers 2-2-0-0-3
Prerequisites: None; Corequisites: None

This course introduces computer concepts, including fundamental functions and operations of the computer. Topics include identification of hardware components, basic computer operations, security issues, and use of software applications. Upon completion, students should be able to demonstrate an understanding of the role and function of computers and use the computer to solve problems. This course has been approved for transfer under the CAA and ICAA as a general education course in Mathematics (Quantitative Option) in the AA and AS degrees.

CIS 115 - Intro to Programming & Logic 2-3-0-0-3 Prerequisites: None; Corequisites: None

This course introduces computer programming and problem solving in a structured program logic environment. Topics include language syntax, data types, program organization, problem solving methods, algorithm design, and logic control structures. Upon completion, students should be able to use top-down algorithm design, and implement algorithmic solutions in a programming language. This course has been approved for transfer under the CAA and ICAA as a general education course in Mathematics (Quantitative Option) in the AA and AS degrees.

CJC 111 - Introduction to Criminal Justice 3-0-0-0-3

Prerequisites: None; Corequisites: None

This course introduces the components and processes of the criminal justice system. Topics include history, structure, functions, and philosophy of the criminal justice system and their relationship to life in our society. Upon completion, Students should be able to define and describe the major system components and their interrelationships and evaluate career options. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement for the AA and AS degrees

<u>CJC 112 – Criminology 3-0-0-0-3</u>

Prerequisites: None; Corequisites: None

This course introduces deviant behavior as it relates to criminal activity. Topics include theories of crime causation; statistical analysis of criminal behavior; past, present, and future social control initiatives; and other related topics. Upon completion, students should be able to explain and discuss various theories of crime causation and societal response.

CJC 113 – Juvenile Justice 3-0-0-3

Prerequisites: None; Corequisites: None

This course covers the juvenile justice system and related juvenile issues. Topics include an overview of the juvenile justice system, treatment and prevention programs, special areas and laws unique to juveniles, and other related topics. Upon completion, students should be able to identify/discuss juvenile court structure/procedures, function and jurisdiction of juvenile agencies, processing/detention of juveniles, and case disposition.

CJC 121 – Law Enforcement Operations 3-0-0-0-3 Prerequisites: None: Corequisites: None

This course introduces fundamental law enforcement operations. Topics include the contemporary evolution of law enforcement operations and related issues. Upon completion, students should be able to explain theories, practices, and issues related to law enforcement operations. This course has been approved for transfer under the CAA and ICAA as a pre-major and/or elective course requirement for the AA and AS degrees

CJC 131 – Criminal Law

-0-0-0-3

Prerequisites: None; Corequisites: None

This course covers the history/evolution/ principles and contemporary applications of criminal law. Topics include sources of substantive law, classification of crimes, parties to crime, elements of crimes, matters of criminal responsibility, and other related topics. Upon completion, students should be able to discuss the sources of law and identify, interpret, and apply the appropriate statutes/elements.

CJC 132 – Court Procedure & Evidence 3-0-0-0-3 Prerequisites: None; Corequisites: None

This course covers judicial structure/process/ procedure from incident to disposition, kinds and degrees of evidence, and the rules governing admissibility of evidence in court. Topics include consideration of state and federal courts, arrest, search and seizure laws, exclusionary and statutory rules of evidence, and other related issues. Upon completion, students should be able to identify and discuss procedures necessary to establish a lawful arrest/search, proper judicial procedures, and the admissibility of evidence.

CJC 141 - Corrections

3-0-0-0-3

Prerequisites: None; Corequisites: None

This course covers the history, major philosophies, components, and current practices and problems of the field of corrections. Topics include historical evolution, functions of the various components, alternatives to incarceration, treatment programs, inmate control, and other related topics. Upon completion, students should be able to explain the various components, processes, and functions of the correctional system. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement for the AA and AS degrees.

<u>CJC 161 – Intro Homeland Security 3-0-0-0-3</u> Prerequisites: None; Corequisites: None

This course introduces the historical, organizational and practical aspects of Homeland Security. Topics include a historic overview, definitions and concepts, organizational structure, communications, technology, mitigation, prevention and preparedness, response and recovery, and the future of Homeland Security. Upon completion, students should be able to

explain essential characteristics of terrorism and Homeland Security, and define roles, functions and interdependency between agencies.

<u>CJC 212 – Ethics & Comm Relations 3-0-0-0-3</u> Prerequisites: None; Corequisites: None

This course covers ethical considerations and accepted standards applicable to criminal justice organizations and professionals. Topics include ethical systems; social change, values, and norms; cultural diversity; citizen involvement in criminal justice issues; and other related topics. Upon completion, students should be able to apply ethical considerations to the decision-making process in identifiable criminal justice situations. This course has been approved for transfer under the CAA as a pre-major and/or elective course requirement for the AA and AS degrees.

CJC 213 – Substance Abuse 3-0-0-0-3

Prerequisites: None; Corequisites: None

This course is a study of substance abuse is

This course is a study of substance abuse in our society. Topics include the history and classifications of drug abuse and the social, physical, and psychological impact of drug abuse. Upon completion, students should be able to identify various types of drugs, their effects on human behavior and society, and treatment modalities.

CJC 214 – Victimology 3-0-0-0-3

Prerequisites: None; Corequisites: None

This course introduces the study of victims. Emphasis is placed on roles/characteristics of victims, victim interaction with the criminal justice system and society, current victim assistance programs, and other related topics. Upon completion, students should be able to discuss and identify victims, the uniqueness of victims' roles, and current victim assistance programs.

<u>CJC 221 – Investigative Principles 3-2-0-0-4</u> Prerequisites: None; Corequisites: None

This course introduces the theories and fundamentals of the investigative process. Topics include crime scene/incident processing, information gathering techniques, collection/ preservation of evidence, preparation of appropriate reports, court presentations, and other related topics. Upon completion, students should be able to identify, explain, and demonstrate the techniques of the investigative process, report preparation, and courtroom presentation.

CJC 225 – Crisis Intervention 3-0-0-0-3 Prerequisites: None: Corequisites: None

This course introduces critical incident intervention and management techniques as they apply to operational criminal justice practitioners. Emphasis is placed on the victim/offender situation as well as job-related high stress, dangerous, or problem-solving citizen contacts. Upon completion, students should be able to provide insightful analysis of emotional, violent, drug-induced, and other critical and/or stressful incidents that require field analysis and/or

CJC 231 – Constitutional Law 3-0-0-0-3

Prerequisites: None; Corequisites: None

resolution.

The course covers the impact of the Constitution of the United States and its amendments on the criminal justice system. Topics include the structure of the Constitution and its amendments, court decisions pertinent to contemporary criminal justice issues, and other related topics. Upon completion, students should be able to identify/discuss the basic structure of the United States Constitution and the rights/procedures as interpreted by the courts.

CJC 232 – Civil Liability 3-0-0-0-3

Prerequisites: None; Corequisites: None

This course covers liability issues for the criminal justice professional. Topics include civil rights violations, tort liability, employment issues, and other related topics. Upon completion, students should be able to explain civil trial procedures and discuss contemporary liability issues.

CJC 240 – Law Enfor Mgt & Supervis 3-0-0-0-3 Prerequisites: None; Corequisites: None

This course provides a study of the best known methods and practices of police leadership and management. Topics include the role of the manager in law enforcement, communications, time-management in law enforcement, managing problems, training and law enforcement productivity. Upon completion, students should be able to identify and discuss methods and practices capable of moving law enforcement agencies forward into the twenty-first century.

COM 120 – Intro Interpersonal Com 3-0-0-0-3

Prerequisites: None; Corequisites: None

This course introduces the practices and principles of interpersonal communication in both dyadic and group settings. Emphasis is placed on

the communication process, perception, listening, self-disclosure, speech apprehension, ethics, nonverbal communication, conflict, power, and dysfunctional communication relationships. Upon completion, students should be able to demonstrate interpersonal communication skills, apply basic principles of group discussion, and manage conflict in interpersonal communication situations. This course has been approved for transfer under the CAA and ICAA as a general education course in Communications for the AA and AS degrees. This is a Universal General Education Transfer Component (UGETC) course in Communications for the AA and AS degrees.

COM 231 - Public Speaking

3-0-0-0-3

Prerequisites: None; Corequisites: None

This course provides instruction and experience in preparation and delivery of speeches within a public setting and group discussion. Emphasis is placed on research, preparation, delivery, and evaluation of informative, persuasive, and special occasion public speaking. Upon completion, students should be able to prepare and deliver well-organized speeches and participate in group discussion with appropriate audiovisual support.

This course has been approved for transfer under the CAA and ICAA as a general education course in English Composition Communications) for the AA and AS degrees. This is a Universal General Education Transfer Component (UGETC) course in Communications for the AA and AS degrees.

COS 111 - Cosmetology Concepts I 4-0-0-0-4

Prerequisites: None; Corequisites: COS 112

This course introduces basic cosmetology concepts. Topics include safety, first aid, sanitation, bacteriology, anatomy, diseases and disorders, hygiene, product knowledge, chemistry, ethics, manicures, and other related topics. Upon completion, students should be able to safely and competently apply cosmetology concepts in the salon setting.

COS 112 - Salon I

0-24-0-0-8

Prerequisites: None; Corequisites: COS 111

This course introduces basic salon services. Topics include scalp treatments, shampooing, rinsing, hair color, design, haircutting, permanent waving, pressing, relaxing, wigs, and other related topics. Upon completion, students should

be able to safely and competently demonstrate salon services.

COS 113 - Cosmetology Concepts II 4-0-0-0-4

Prerequisites: COS 111 and COS 112;

Corequisites: None

This course covers more comprehensive cosmetology concepts. Topics include safety, product knowledge, chemistry, manicuring, chemical restructuring, and hair coloring. Upon completion, students should be able to safely and competently apply these cosmetology concepts in the salon setting.

COS 114 - Salon II

0-24-0-0-8

Prerequisites: COS 111 and COS 112;

Corequisites: None

This course provides experience in a simulated salon setting. Topics include basic skin care, manicuring, nail application, scalp treatments, shampooing, rinsing, hair color, design, haircutting, chemical restructuring, pressing, wigs, and other related topics. Upon completion, students should be able to safely and competently demonstrate these salon services.

COS 115 - Cosmetology Concepts III 4-0-0-0-4

Prerequisites: COS 111 and COS 112;

Corequisites: None

This course covers more comprehensive cosmetology concepts. Topics include safety, product knowledge, salon management, salesmanship, skin care, electricity/light therapy, wigs, thermal hair styling, lash and brow tinting, superfluous hair removal, and other related topics. Upon completion, students should be able to safely and competently apply these cosmetology concepts in the salon setting.

COS 116 - Salon III 0-12-0-0-4

Prerequisites: COS 111 and COS 112;

Corequisites: None

This course provides comprehensive experience in a simulated salon setting. Emphasis is placed on intermediate-level of skin care, manicuring, scalp treatments, shampooing, hair color, design, haircutting, chemical restructuring, pressing, and other related topics. Upon completion, students should be able to safely and competently

demonstrate these salon services.

COS 117 - Cosmetology Concepts IV 2-0-0-0-2
Prerequisites: COS 111, COS 112, COS 113,
COS 114, COS 115, and COS 116
Corequisites: COS 118

This course covers advanced cosmetology concepts. Topics include chemistry and hair structure, advanced cutting and design, and an overview of all cosmetology concepts in preparation for the licensing examination. Upon completion, students should be able to demonstrate an understanding of these cosmetology concepts and meet program completion requirements.

COS 118 - Salon IV 0-21-0-0-7
Prerequisites: COS 111, COS 112, COS 113,
COS 114, COS 115, and COS 116 Corequisites:

COS 117

This course provides advanced experience in a simulated salon setting. Emphasis is placed on efficient and competent delivery of all salon services in preparation for the licensing examination and employment. Upon completion, students should be able to demonstrate competence in program requirements and the areas covered on the Cosmetology Licensing Examination and meet entry-level employment requirements.

COS 223 - Contemporary Hair Coloring 1-3-0-0-2 Prerequisites: COS 111, COS 112, COS 115, and COS 116; Corequisites: None

This course covers basic color concepts, hair coloring problems, and application techniques. Topics include color theory, terminology, contemporary techniques, product knowledge, and other related topics. Upon completion, students should be able to identify a client's color needs and safely and competently perform color applications and correct problems.

COS 224 - Trichology & Chemistry 1-3-0-0-2
Prerequisites: COS 111 and COS 112;
Corequisites: None

This course is a study of hair and the interaction of applied chemicals. Emphasis is placed on pH actions and the reactions and effects of chemical ingredients. Upon completion, students should be able to demonstrate an understanding of chemical terminology, pH testing, and chemical reactions on hair.

<u>CSC 120 – Computing Fundamentals I 3-2-0-0-4</u> Prerequisites: None; Corequisites: None

This course provides the essential foundation for the discipline of computing and a program of study in computer science, including the role of the professional. Topics include algorithm design, data abstraction, searching and sorting algorithms, and procedural programming techniques. Upon completion, students should be able to solve problems, develop algorithms, specify data types, perform sorts and searches, and use an operating system.

CSC 121 – Python Programming 2-3-0-0-3
Prerequisites: None; Corequisites: None

This course introduces computer programming using the Python programming language. Emphasis is placed on common algorithms and programming principles utilizing the standard library distributed with Python. Upon completion, students should be able to design, code, test, and debug Python language programs.

CSC 134 - C++ Programming 2-3-0-0-3
Prerequisites: None: Corequisites: None

This course introduces computer programming using the C++ programming language with object-oriented programming principles.

Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, code, test and debug at a beginning level. This course has been approved for transfer under the CAA and ICAA as a pre-major and/or elective course requirement for the AA, AE, and AS degrees.

<u>CSC 151 - JAVA Programming 2-3-0-0-3</u> Prerequisites: None; Corequisites: None

This course introduces computer programming using the JAVA programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement for the AA, AE, and AS degree.

CSC 221 - Advanced Python Programming 2-3-0-0-3 Prerequisites: CSC 121; Corequisites: None

This course introduces advanced computer programming using the Python programming language. Emphasis is placed on the advanced programming concepts including advanced algorithms and programming principles utilizing standard and third party library tools. Upon completion, students should be able to design, code, test, and debug advanced Python language programs.

<u>CSC 234 - Advanced C++ Programming 2-3-0-0-3</u> Prerequisites: CSC 134; Corequisites: None

This course is a continuation of CSC 134 using the C++ programming language with standard programming principles. Emphasis is placed on advanced arrays/tables, file management/ processing techniques, data structures, sub-programs, interactive processing, sort/merge routines, and libraries. Upon completion, students should be able to design, code, test, debug and document programming solutions.

<u>CSC 249 – Data Structure & Algorithms 2-3-0-0-3</u> Prerequisites: None; Corequisites: None

This course introduces the data structures and algorithms frequently used in programming applications. Topics include lists, stacks, queues, dequeues, heaps, sorting, searching, mathematical operations, recursion, encryption, random numbers, algorithm testing, and standards. Upon completion, students should be able to design data structures and implement algorithms to solve various problems. This course has been approved for transfer under the CAA as a pre-major and/or elective course requirement for the AA and AS degrees.

<u>CSC 251 – Advanced JAVA Programming 2-3-0-0-3</u> Prerequisites: CSC-151; Corequisites: None

This course is a continuation of CSC 151 using the JAVA programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, code, test, debug, and implement objects using the appropriate environment. This course has been approved for transfer under the CAA as a pre-major and/or elective course requirement for the AA and AS degrees.

CTI 110 - Web, Pgm, & Db Foundation 2-2-0-0-3 Prerequisites: None; Corequisites: None

This course provides an introduction to technology concepts and current trends in IT. Topics include foundational concepts across various IT domains such as, but not limited to, artificial intelligence, database fundamentals, programming principles, and web development. Upon completion, students should be able to demonstrate knowledge in core IT areas and apply skills critical for their academic and professional success.

CTI 120 - Network & Security Foundation 2-2-0-0-3 Prerequisites: None; Corequisites: None

This course introduces students to the Network concepts, including networking terminology and protocols, local and wide area networks, and network standards. Emphasis is placed on securing information systems and the various implementation policies. Upon completion, students should be able to perform basic tasks related to networking mathematics, terminology, media and protocols.

CTS 115 - Info Sys Business Concepts 3-0-0-0-3 Prerequisites: None; Corequisites: None

The course introduces the role of IT in managing business processes and the need for business process and IT alignment. Emphasis is placed on industry need for understanding business challenges and developing/managing information systems to contribute to the decision-making process based on these challenges. Upon completion, students should be able to demonstrate knowledge of the 'hybrid business manager' and the potential offered by new technology and systems. *This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective requirement.*

CTS 120 - Hardware/Software Support 2-3-0-0-3 Prerequisites: None; Corequisites: None

This course covers the basic hardware of a personal computer, including installation, operations and interactions with software. Topics include component identification, memory-system, peripheral installation and configuration, preventive maintenance, hardware diagnostics/repair, installation and optimization of system software, commercial programs, system configuration, and device-drivers. Upon completion, students should be

able to select appropriate computer equipment and software, upgrade/maintain existing equipment and software, and troubleshoot/repair non-functioning personal computers.

CTS 130 - Spreadsheet 2-2-0-0-3

Prerequisites: None; Corequisites: None

This course introduces basic spreadsheet design and development. Topics include writing formulas, using functions, enhancing spreadsheets, creating charts, and printing. Upon completion, students should be able to design and print basic spreadsheets and charts.

CTS 285- Systems Analysis & Design 3-0-0-0-3 Prerequisites: None; Corequisites: None

This course introduces established and evolving methodologies for the analysis, design, and development of an information system. Emphasis is placed on system characteristics, managing projects, prototyping, CASE/ OOM tools, and systems development life cycle phases. Upon completion, students should be able to analyze a problem and design an appropriate solution using a combination of tools and techniques.

CTS 287- Emerging Technologies 3-0-0-0-3 Prerequisites: None; Corequisites: None

This course introduces emerging information technologies. Emphasis is placed on evolving technologies and trends in business and industry. Upon completion, students should be able to articulate an understanding of the current trends and issues in emerging technologies for information systems.

CTS 288- Professional Practices in IT 2-2-0-0-3 Prerequisites: None; Corequisites: None

This course provides students with the business skills needed for success in the information technology field. Topics include portfolio development, resume design, interviewing techniques and professional practices. Upon completion, students should be able to prepare themselves and their work for a career in the information technology field.

CTS 289 - System Support Project 1-4-0-0-3 Prerequisites: CTI 110, CTI 120, and CTS 115; Corequisites: None

This course provides an opportunity to complete a significant support project with minimal instructor assistance. Emphasis is placed on written and oral communication skills, project definition, documentation, installation, testing, presentation, and user training. Upon completion, students should be able to complete a project from the definition phase through implementation

DAN 110 - Dance Appreciation 3-0-0-0-3 Prerequisites: None: Corequisites: None

This course for non-dance majors surveys diverse dance forms and the religious and cultural values that shape them. Topics include dances from Europe, Africa, Asia, and America. Upon completion, students should be able to demonstrate an understanding of the diverse forms and values that dance embraces. This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities & Fine Arts for the AA and AS degrees.

<u>DBA 110 - Database Concepts 2-3-0-0-3</u> Prerequisites: CIS 110 or OST 137; Corequisites: None

This course introduces database design and creation using a DBMS product. Emphasis is placed on data dictionaries, normalization, data integrity, data modeling, and creation of simple tables, queries, reports, and forms. Upon Completion, students should be able to design and implement normalized database structures by creating simple database tables, queries, reports, and forms.

<u>DEN 100 – Basic Orofacial Anatomy 2-0-0-0-2</u> Prerequisites: None; Corequisites: None

This course provides a basic introduction to the structures of the head, neck, and oral cavity. Topics include tooth morphology, head and neck anatomy, histology, and embryology. Upon completion, students should be able to demonstrate knowledge of normal structures and development and how they relate to the practice of dental assisting.

<u>DEN 101 – Preclinical Procedures 4-6-0-0-7</u> Prerequisites: None; Corequisites: None

This course provides instruction in procedures for the clinical dental assistant as specified by the North Carolina Dental Practice Act. Emphasis is placed on orientation to the profession, infection control techniques, instruments, related expanded functions, and diagnostic, operative, and specialty procedures. Upon completion, students should be able to demonstrate proficiency in clinical dental assisting procedures.

DEN 102 – Dental Materials 2-4-0-0-4

Prerequisites: None; Corequisites: None

This course provides in identification, properties, evaluation of quality, principles, and procedures related to manipulation and storage of operative and specialty dental materials. Emphasis is placed on the understanding and safe application of materials used in the dental office and laboratory. Upon completion, students should be able to demonstrate proficiency in the laboratory and clinical application of routinely used dental materials.

DEN 103 – Dental Sciences 2-0-0-2

Prerequisites: None; Corequisites: None

This course is a study of oral pathology, pharmacology, and dental office emergencies. Topics include oral pathological conditions, dental therapeutics, and management of emergency situations. Upon completion, students should be able to recognize abnormal oral conditions, identify classifications, describe actions and effects of commonly prescribed drugs, and respond to medical emergencies.

<u>DEN 104 – Dental Health Education</u> <u>2-2-0-0-3</u> Prerequisites: None: Corequisites: None

This course covers the study of preventive dentistry to prepare dental assisting students for the role of dental health educator. Topics include etiology of dental diseases, preventive procedures, and patient education theory and practice. Upon completion, students should be able to demonstrate proficiency in patient counseling and oral health instruction in private

<u>DEN 105 – Practice Management 2-0-0-0-2</u> Prerequisites: None; Corequisites: None

practice or public health settings.

This course provides a study of principles and procedures related to management of the dental practice. Emphasis is placed on maintaining clinical and financial records, patient scheduling, and supply and inventory control. Upon completion, students should be able to demonstrate fundamental skills in dental practice management.

<u>DEN 106 – Clinical Practice I 2-0-12-0-6</u> Prerequisites: DEN 101; Corequisites: None

This course is designed to provide experience assisting in a clinical setting. Emphasis is placed on the application of principles and procedures of four-handed dentistry and laboratory and clinical support functions. Upon completion, students should be able to utilize classroom theory and laboratory and clinical skills in a dental setting.

<u>DEN 107 – Clinical Practice II 1-0-12-0-5</u> Prerequisites: DEN 106; Corequisites: None

This course is designed to increase the level of proficiency in assisting in a clinical setting. Emphasis is placed on the application of principles and procedures of four-handed dentistry and laboratory and clinical support functions. Upon completion, students should be able to combine theoretical and ethical principles necessary to perform entry-level skills including functions delegable to a DA II.

<u>DEN 111 – Infection/Hazard Control</u> <u>2-0-0-0-2</u> Prerequisites: None; Corequisites: None

This course introduces the infection and hazard control procedures necessary for the safe practice of dentistry. Topics include microbiology, practical infection control, sterilization and monitoring, chemical disinfectants, aseptic technique, infectious diseases, OSHA standards, and applicable North Carolina laws. Upon completion, students should be able to understand infectious diseases, disease transmission, infection control procedures, biohazard management, OSHA standards, and applicable North Carolina laws.

<u>DEN 112 – Dental Radiography 2-3-0-0-3</u> Prerequisites: None; Corequisites: None

This course provides a comprehensive view of the principles and procedures of radiology as they apply to dentistry. Topics include techniques in exposing, processing, and evaluating radiographs, as well as radiation safety, quality assurance, and legal issues. Upon completion, students should be able to demonstrate proficiency in the production of diagnostically acceptable radiographs using appropriate safety precautions.

<u>DFT 170 - Engineering Graphics 2-2-0-0-3</u> Prerequisites: None: Corequisites: None

This course introduces basic engineering graphics skills and applications. Topics include sketching, selection and use of current methods and tools, and the use of engineering graphics applications. Upon completion, students should be able to demonstrate an understanding of basic engineering graphics principles and practices. This course has been approved for transfer under the CAA and ICAA as a pre-major and/or elective course requirement for the AE and AS degrees.

ECO 251 - Principles of Microeconomics 3-0-0-0-3 Prerequisites: None; Corequisites: None

This course introduces economic analysis of individual, business, and industry in the market economy. Topics include the price mechanism, supply and demand, optimizing economic behavior, costs and revenue, market structures, factor markets, income distribution, market failure, and government intervention. Upon completion, students should be able to identify and evaluate consumer and business alternatives to efficiently achieve economic objectives. This course has been approved for transfer under the CAA and ICAA as a general education course in Social and Behavioral Sciences for the AA and AS degrees. This course has been approved for transfer under the CAA and ICAA as a general education course in Social & Behavioral Sciences for the AA and AS degrees.

ECO 252 - Principles of Macroeconomics 3-0-0-0-3 Prerequisites: None; Corequisites: None

This course introduces economic analysis of aggregate employment, income, and prices. Topics include major schools of economic thought: aggregate supply and demand; economic measures, fluctuations, and growth; money and banking; stabilization techniques; and international trade. Upon completion, students should be able to evaluate national economic components, conditions, and alternatives for achieving. This course has been approved for transfer under the CAA and ICAA as a general education course in Social and Behavioral Sciences for the AA and AS degrees. This is a Universal General Education Transfer Component (UGETC) course in Social and Behavioral Sciences for the AA and AS degrees.

EDU 119 - Intro Early Childhood Education 4-0-0-0-4 Prerequisites: None; Corequisites: None

This course introduces the foundations of culturally responsive, equitable and inclusive early childhood education, planning intentional developmentally appropriate experiences, learning activities, and teaching strategies for indoor and outdoor environments for all young children, guidance techniques, and professionalism. Topics include theoretical foundations, national early learning standards, NC Foundations for Early Learning and Development, state regulations, program types, career options, professionalism, ethical conduct, quality inclusive environments, guidance techniques, and curriculum responsive to the needs of each child/family. Upon completion, students should be able to implement developmentally appropriate environments, guidance techniques, schedules, and teaching strategies across developmental domains to support culturally, linguistically, and ability diverse children and their families in inclusive settings, and design a personal career/professional development plan.

EDU 131 - Child, Family, & Community 3-0-0-3 Prerequisites: None; Corequisites: None

This course covers the development of partnerships among culturally, linguistically and ability diverse families, children, schools and communities through the use of evidence-based strategies. Emphasis is placed on developing skills and identifying benefits for establishing and supporting respectful relationships between diverse families, programs/schools, and community agencies/resources reflective of the NAEYC Code of Ethical Conduct and the Code of Ethics for North Carolina Educators. Upon completion, students should be able to identify appropriate relationship building strategies between diverse families, children birth through adolescence, schools, and communities and demonstrate a variety of communication skills including appropriate use of technology to support every child. This course has been approved for transfer under the CAA and ICAA as a pre-major and/or elective course requirement for the AA and AS degrees.

<u>EDU 144 - Child Development I 3-0-0-0-3</u> Prerequisites: None; Corequisites: None

This course includes the theories of child development, observation and assessment. milestones, and factors that influence development, from conception through approximately 36 months. Emphasis is placed on knowledge, observation and assessment of developmental sequences in approaches to play/learning, emotional/social, health/physical, language/communication and cognitive domains. Upon completion, students should be able to compare/contrast typical/atypical developmental characteristics, explain biological and environmental factors that impact development, and identify evidence-based strategies for enhancing development for children that are culturally, linguistically, and ability diverse. This course has been approved for transfer under the CAA and ICAA as a pre-major and/or elective course requirement for the AA and AS degrees.

<u>EDU 145 - Child Development II 3-0-0-0-3</u> Prerequisites: None; Corequisites: None

This course includes the theories of child development, observation and assessment, milestones, and factors that influence development, from preschool through middle childhood. Emphasis is placed on knowledge, observation and assessment of developmental sequences in approaches to play/learning. emotional/social, health/physical, language/ communication and cognitive domains. Upon completion, students should be able to compare/ contrast typical/atypical developmental characteristics, explain biological and environmental factors that impact development, and identify evidence-based strategies for enhancing development for children that are culturally, linguistically, and ability diverse. This course has been approved for transfer under the CAA and ICAA as a pre-major and/or elective course requirement for the AA and AS degrees.

EDU 146 - Child Guidance

3-0-0-0-3

Prerequisites: None; Corequisites: None

This course introduces evidence-based strategies to build nurturing relationships with each child by applying principles and practical techniques to facilitate developmentally appropriate guidance. Topics include designing responsive/supportive learning environments, cultural, linguistic and

socio-economic influences on behavior, appropriate expectations, the importance of communication with children/families including using technology and the use of formative assessments in establishing intentional strategies for children with unique needs. Upon completion, students should be able to demonstrate direct/indirect strategies for preventing problem behaviors, teaching appropriate/acceptable behaviors, negotiation, setting limits and recognizing at risk behaviors.

EDU 151 - Creative Activities

3-0-0-0-3

Prerequisites: None; Corequisites: None

This course introduces developmentally supportive, diverse, equitable, and inclusive creative learning environments with attention to divergent thinking, creative problem-solving, evidence-based teaching practices, and openended learning materials and activities that align with the NC Foundations for Early Learning and Development. Emphasis is placed on best practices providing process-driven culturally diverse, learning experiences in art, music, creative movement, dance, and dramatic play integrated across all domains and academic content in indoor/outdoor environments for every young child age birth through age eight. Upon completion, students should be able to observe, examine, create, adapt, and advocate for developmentally appropriate creative learning materials, experiences, and environments for children that are culturally, linguistically, and ability diverse.

EDU 153 - Health, Safety, & Nutrition 3-0-0-0-3 Prerequisites: None; Corequisites: None

This course covers promoting and maintaining the health and well-being of every child. Topics include health and nutritional guidelines, common childhood illnesses, maintaining safe and healthy learning environments, health benefits of active play, recognition and reporting of abuse/neglect, and state regulations. Upon completion, students should be able to apply knowledge of NC Foundations for Early Learning and Development for health, safety, nutritional needs and safe learning environments.

<u>EDU 187 – Teaching and Learning for All 3-3-0-0-4</u> Prerequisites: None; Corequisites: None

This course introduces students to knowledge, concepts, and best practices needed to provide developmentally appropriate, effective, inclusive,

and culturally responsive educational experiences in the classroom. Topics include growth and development, learning theory, student motivation, teaching diverse learners, classroom management, inclusive environments, student-centered practices, instructional strategies, teaching methodologies, observation/assessment techniques, educational planning, reflective practice, collaboration, cultural competence, ethics, professionalism, and leadership. Upon completion, students should be able to identify the knowledge, skills, roles, and responsibilities of an effective educator as defined by state and national professional teaching standards.

EDU 216 - Foundations of Education 3-0-0-03 Prerequisites: ENG 025; Corequisites: None

This course introduces the examination of the American educational system and the teaching profession. Topics include the historical and philosophical influences on education, various perspectives on educational issues, and experiences in birth through grade 12 classrooms. Upon completion, students should be able to reflect on classroom observations. analyze the different educational approaches. including classical/traditional and progressive, and have knowledge of the various roles of educational systems at the federal, state and local level. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement for the AA and AS degrees.

<u>EDU 221 - Children with Exceptional Needs 3-0-0-0-3</u> Prerequisites: EDU 144, EDU 145, and ENG 025; Corequisites: None

This course covers atypical patterns of child development, inclusive/diverse settings, evidenced-based education/family plans, differentiated instruction, adaptive materials, and assistive technology. Emphasis is place on the characteristics of exceptionalities and delays, early intervention/special education, transitions, observation, developmental screening, formative assessment of children, and collaborating with families and community partners. Upon completion, students should be able to recognize diverse abilities, describe the referral process, identify community resources, explain the importance of collaboration with families/ professionals and develop appropriate strategies/adaptations to support children in all environments with best practices as defined by

laws, policies and NC Foundations for Early Learning and Development. *This course has been approved for transfer under the CAA and ICAA as a pre-major and/or elective course requirement for the AA and AS degrees*.

EDU 234 - Infants, Toddlers, & Twos 3-0-0-0-3
Prerequisites: ENG 025, EDU 119; Corequisites: None

This course covers the development of highquality, individualized, responsive/engaging relationships and experiences for infants, toddlers, and twos. Emphasis is placed on typical and atypical child development, working with diverse families to provide positive, supportive, and engaging early learning activities and interactions through field experiences and the application of the NC Foundations for Early Learning and Development. Upon completion, students should be able to demonstrate responsive curriculum planning, respectful relationships and exposure to a variety of developmentally appropriate experiences/materials that support a foundation for healthy development and growth of culturally, linguistically and ability diverse children birth to 36 months.

EDU 250 – Teacher Licensure Preparation 3-0-0-0-3 Prerequisites: Take one Set: ENG 111 and MAT 143; ENG 111 and MAT 152; or ENG 111 and MAT 171; Corequisites: None

This course provides information and strategies necessary for transfer to a teacher licensure program at a senior institution. Topics include entry level teacher licensure exam preparation, performance based assessment systems, requirements for entry into teacher education programs, the process to become a licensed teacher in North Carolina, and professionalism including expectations within the field of education. Upon completion, students should be able to utilize educational terminology and demonstrate knowledge of teacher licensure processes including exam preparation. technology based portfolio assessment, and secondary admissions processes to the school of education at a senior institution.

EDU 251 - Exploration Activities 3-0-0-0-3

Prerequisites: ENG 025; Corequisites: None

This course covers fundamental concepts in the content areas of science, technology, engineering, math, and social studies through

investigative experiences aligned with NC Foundations for Early Learning and Development. Emphasis is placed on exploring fundamental concepts, scope and sequence, and teaching strategies to engage each child through play and open-ended discovery in indoor/outdoor environments. Upon completion, students should be able to understand major concepts in each content area and implement developmentally appropriate, culturally responsive, equitable, and inclusive experiences for all young children.

EDU 261 - Early Childhood Administration I 3-0-0-0-3 Prerequisites: ENG 025; Corequisites: EDU 119

This course introduces principles and practices essential to preparing and supporting child care administrators. Topics include program philosophy, policies and procedures, NC Child Care Law and Rules, business planning, personnel and fiscal management, and NAEYC Code of Ethical Conduct Supplement for Early Childhood Program Administration. Upon completion, students should be able to articulate a developmentally appropriate program philosophy, locate current state licensing regulations, analyze a business plan and examine comprehensive program policies and procedures.

<u>EDU 262 - Early Childhood Administration II 3-0-0-0-3</u> Prerequisites: ENG 025, EDU-119 and EDU-261; Corequisites: None

This course focuses on advocacy/leadership, public relations/ community outreach and program quality/evaluation for diverse early childhood programs. Topics include program evaluation/ accreditation, involvement in early childhood professional organizations, leadership/mentoring, family, volunteer and community involvement and early childhood advocacy. Upon completion, students should be able to define and evaluate all components of early childhood programs, develop strategies for advocacy and integrate community into programs.

<u>EDU 270 – Effective Instructional Envir 2-0-0-0-3</u> Prerequisites: None; Corequisites: None

This course is designed to provide learners with the knowledge and skills to create, manage, and assess effective instructional environments, learning attitudes, and behaviors for today's diverse learning population. Topics include organizing the learning environment, fostering positive learning attitudes, supporting healthy stakeholder partnerships, engaging students using effective differentiated instruction, guiding, and managing student behaviors, and assessing student progress. Upon completion of this course, learners will demonstrate effective dispositions of the professional educator that include managing schedules, spaces, and resources, promoting supportive learning mindsets, engaging students with diverse instructional strategies, guiding student behaviors to maximize both the instructional and social climate, and analyzing and effectively responding to student progress.

EDU 272 – Technology, Data, and Access 2-3-0-0-3 Prerequisites: None; Corequisites: None

This course is designed to provide students with the knowledge and skills to utilize digital instructional technologies and technology-based assessments to plan and implement appropriate educational experiences and interventions in the classroom. Topics include educational technology to enhance instruction, instructional technologies for teaching, technology-based assessment, formative and summative assessments, data to inform practice, and ethical practices for technology and assessment. Upon completion, students will be able to demonstrate effective integration of educational technology into classroom practice, appropriate use of technology-based assessments, and practical application of data to inform educational planning and interventions.

<u>EDU 277 – Integ CU Inst: Math/Science 2-3-0-0-3</u> Prerequisites: None; Corequisites: None

This course is designed to provide learners with the content knowledge, instructional methods/materials, and assessment techniques needed to provide research-based math and science K - 12 instruction. Topics include essential math and science concepts and skills, developmentally appropriate pedagogy, culturally responsive instruction, standards-based outcomes, technology enhanced lesson planning, formative/summative assessments, researchbased interventions, authentic learning experiences, and reflective practice. Upon completion, learners will be able to plan, implement, assess, and reflect on developmentally appropriate math and science instruction aligned to the NC Standard Course of Study, other professional and national standards.

EDU 278 – Integ CU Inst: Soc Stu/ELA 2-3-0-0-3 Prerequisites: None; Corequisites: None

This course is designed to provide learners with the content knowledge, instructional methods/materials, and assessment techniques needed to provide research-based social studies and ELA K -12 instruction. Topics include essential social studies and ELA concepts and skills, developmentally appropriate pedagogy, culturally responsive instruction, standards-based outcomes, technology enhanced lesson planning, formative/summative assessments, researchbased interventions, authentic learning experiences, and reflective practice. Upon completion, learners will be able to plan, implement, assess, and reflect on developmentally appropriate social studies and ELA instruction aligned to the NC Standard Course of Study, other professional and national standards.

EDU 279 - Literacy Development and Instruct 3-3-0-0-4 Prerequisites: ENG 025; Corequisites: None

This course is designed to provide students with concepts and skills of literacy development, instructional methods/materials and assessment techniques needed to provide scientificallybased, systematic reading and writing instruction into educational practice. Topics include literacy concepts, reading and writing development, developmentally appropriate pedagogy. culturally-responsive instruction, standards-based outcomes, lesson planning, formative/summative assessment, recognizing reading difficulties, research-based interventions, authentic learning experiences, classroom implementation, and reflective practice. Upon completion, students should be able to plan, implement, assess, evaluate, and demonstrate developmentally appropriate literacy instruction aligned to the NC Standard Course of Study and other state and national standards.

EDU 280 - Language & Literacy Experiences 3-0-0-0-3 Prerequisites: ENG 025; Corequisites: None

This course provides evidence-based strategies for enhancing language and literacy experiences that align with NC Foundations for Early Learning and Development. Topics include developmental sequences for children's emergent receptive and expressive language, print concepts, appropriate observations/assessments, literacy enriched environments, quality selection of diverse literature, interactive media, and inclusive practices. Upon

completion, students should be able to select, plan, implement and evaluate developmentally appropriate language and literacy experiences for children who are culturally, linguistically and ability diverse.

EDU 283 – Educator Prep Practicum 2-3-0-0-3 Prerequisites: None: Corequisites: None

This course is designed to allow learners to demonstrate acquired skills and competencies in a developmentally appropriate learning environment. Topics include dispositions of effective teachers, portfolio assessment development, reflective practice, teaching methods, assessment strategies, and professional practices based on state and national Teaching Standards. Upon completion, learners should be able to provide a portfolio assessment with evidence of ethical/professional standards, respect for a diverse population in learning environments, content knowledge, appropriate guidance intervention, and gradelevel technology enhanced lesson planning/assessments through practices in the classroom environment.

EDU 284 - Early Childhood Capstone Pract 1-9-0-0-4 Prerequisites: ENG 025, EDU 119, EDU 144, EDU 145, EDU 146, and EDU 151; Corequisites: None

This course is designed to allow students to demonstrate acquired skills in a three star (minimum) or NAEYC accredited or equivalent, quality early childhood environment. Emphasis is placed on designing, implementing and evaluating developmentally appropriate activities and environments for all children; supporting/engaging families; and modeling reflective and professional practices based on national and state guidelines. Upon completion, students should be able to apply NC Foundations for Early Learning and Development to demonstrate developmentally appropriate plans/assessments, appropriate guidance techniques and ethical/professional behaviors, including the use of appropriate technology, as indicated by assignments and onsite faculty assessments.

EGR 115 – Introduction to Technology 2-3-0-0-3 Prerequisites: None; Corequisites: None

This course introduces the basic skills and career fields for technicians. Topics include career options, technical vocabulary, dimensional analysis, measurement systems, engineering

graphics, calculator applications, professional ethics, safety practices, and other related topics. Upon completion, students should be able to

demonstrate an understanding of the basic technologies, prepare drawings and sketches, and perform computations using a scientific calculator.

EGR 131 – Intro to Electronics Technology 1-2-0-0-2 Prerequisites: MAT 025; Corequisites: None

This course introduces the basic skills required for electrical/ electronic technicians. Topics include soldering/de-soldering, safety and sustainability practices, test equipment, scientific calculators, AWG wire table, the resistor color code, electronic devices, problem solving, and use of hand tools. Upon completion, students should be able to solder/de-solder, operate test equipment, apply problem-solving techniques, and use a scientific calculator.

EGR 150 - Introduction to Engineering 1-2-0-0-2 Prerequisites: None; Corequisites: None

This course is an overview of the engineering profession. Topics include goal setting and career assessment, ethics, public safety, the engineering method and design process, written and oral communication, interpersonal skills and team building, and computer applications. Upon completion, students should be able to understand the engineering process, the engineering profession, and utilize college resources to meet their educational goals. This course has been approved for transfer under the CAA and ICAA as a pre-major and/or elective course requirement for the AE or AS degrees.

EGR 210-Intro to Elec Computer Engineering 1-3-0-0-2 Prerequisites: MAT 271 and PHY 251, minimum Grade of "C"; Corequisites: None This course provides an overview of electrical and computer engineering, through a lecture and laboratory setting. Topics include fundamental concepts, electronic circuits, digital circuits, communication systems, and signal processing. Upon completion, students should be able to discuss the wide range of fields available to the electrical or computer engineer. This course has been approved for transfer under the CAA and ICAA as a pre-major and/or elective course requirement for the AE or AS degrees.

EGR 212 - Logic System Design I 3-0-0-0-3 Prerequisites: MAT 271 and PHY 251, minimum Grade of "C"; Corequisites: None

This course provides an introduction to digital circuits and analysis. Topics include Boolean Algebra; mixed logic; design of combinational circuits; introduction to sequential systems; and MSI building blocks. Upon completion, students should be able to analyze and design digital circuits and systems. This course has been approved for transfer under the CAA and ICAA as a pre-major and/or elective course requirement for the AE or AS degrees.

EGR 215 - Network Theory I 3-0-0-0-3
Prerequisites: MAT 272 and PHY 251, minimum
Grade of "C"; Corequisites: PHY 252 and MAT
273

This course provides an introduction to Kirchoff's laws and terminal equations, circuit analysis techniques and network theorems, transient and natural response, and state variable analysis. Topics include Kirchoff's laws, Ohm's law, circuit analysis techniques, Network theorems, singularity functions, transient and natural responses, power, and state variable analysis. Upon completion, students should be able to analyze electric circuits involving capacitors, inductors, and resistors to determine required parameters. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement for the AE or AS degrees.

EGR 216 - Logic and Network Lab 0-3-0-0-1
Prerequisites: MAT 272, and PHY 251, minimum
Grade of "C"; Corequisites: EGR 212, and EGR 215

This course provides laboratory experiments in network measurements and logic design and laboratory equipment and techniques. Topics include network measurement and applications, experimental logic design and introduction to laboratory equipment and techniques. Upon completion, students should be able to complete network measurement logic design and be able to use laboratory equipment with proper techniques. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement for the AE or AS degrees.

EGR 220 - Engineering Statics

3-0-0-0-3

Prerequisites: PHY 251, minimum Grade of "C"; Corequisites: MAT 272

This course introduces the concepts of engineering based on forces in equilibrium. Topics include concentrated forces, distributed forces, forces due to friction, and inertia as they apply to machines, structures, and systems. Upon completion, students should be able to

solve problems which require the ability to analyze systems of forces in static equilibrium.

This course has been approved for transfer under the CAA and ICAA as a pre-major and/or elective course requirement for the AE or AS degrees.

EGR 225 - Engineering Dynamics

3-0-0-0-3

Prerequisites: EGR 220, minimum Grade of "C"; Corequisites: MAT 273

This course introduces the concepts of engineering based on the analysis of motion in Cartesian, cylindrical, and spherical coordinate systems. Topics include the two and three dimensional motion of particles and rigid bodies, the forces associated with that motion, and relative motion between two coordinate systems. Upon completion, students should be able to solve problems which require the ability to analyze the motion and forces involved in a dynamic system. This course has been approved for transfer under the CAA and ICAA as a pre-major and/or elective course requirement for the AE or AS degrees.

EGR 228 - Intro to Solid Mechanics 3-0-0-0-3 Prerequisites: EGR 220 minimum Grade of "C"; Corequisites: None

This course provides an introduction to engineering theory of deformable solids and applications. Topics include stress and deformation resulting from axial, torsion, and bending loads; shear and moment diagrams; Mohr's circle of stress; and strain and buckling of columns. Upon completion, students should be able to analyze solids subject to various forces and design systems using a variety of materials. This course has been approved for transfer under the CAA and ICAA as a pre-major and/or elective course requirement for the AE or AS degrees.

EGR 285 - Design Project

0-4-0-0-2

Prerequisites: None; Corequisites: None

This course provides the opportunity to design an instructor- approved project using previously acquired skills. <u>Emphasis</u> is placed on selection, proposal, design, testing, and documentation of the approved project. Upon completion, students should be able to present and demonstrate projects.

EMS 110 - EMT

6-6-3-0-9

Prerequisites: None; Corequisites: None

This course introduces basic emergency medical care. Topics include preparatory, airway, patient assessment, medical emergencies, trauma, infants and children, and operations. Upon completion, students should be able to demonstrate the knowledge and skills necessary to achieve North Carolina State or National Registry EMT certification.

EMS 121 – AEMT Clinical Practicum 0-0-48-0-2 Prerequisites: EMS 110; Corequisites: None

This course provides the hospital and field internship/clinical experiences required in preparation for the Advanced EMT certification. Emphasis is placed on performing patient assessments, treatments, and interactions appropriate at the Advanced EMT level of care. Upon completion, students should be able to demonstrate competency at the Advanced EMT skill level.

EMS 122 – EMS Clinical Practicum I 0-0-3-0-1 Prerequisites: EMS 110; Corequisites: None

This course provides the introductory hospital clinical experience for the paramedic student. Emphasis is placed on mastering fundamental paramedic skills. Upon completion, students should be able to demonstrate competency with fundamental paramedic level skills demonstrate competency at the Advanced EMT skill level.

EMS 130 – Pharmacology

3-3-0-0-4

Prerequisites: EMS 110; Corequisites: None

This course introduces the fundamental principles of pharmacology and medication administration and is required for paramedic certification. Topics include medical terminology, pharmacological concepts, weights, measures, drug calculations, vascular access for fluids and medication

administration and legislation. Upon completion, students should be able to accurately calculate drug dosages, properly administer medications, and demonstrate general knowledge of pharmacology.

EMS 131 – Advanced Airway Mgmt 1-2-0-0-2 Prerequisites: EMS 110; Corequisites: None

This course is designed to provide advanced airway management techniques and is required for paramedic certification. Topics include respiratory anatomy and physiology, airway/ventilation, adjuncts, surgical intervention, and rapid sequence intubation. Upon completion, students should be able to properly utilize all airway adjuncts and pharmacology associated with airway control and maintenance.

EMS 160 – Cardiology I 2-3-0-0-3

Prerequisites: EMS 110; Corequisites: None

This course introduces the study of cardiovascular emergencies and is required for paramedic certification. Topics include anatomy and physiology, pathophysiology, electrophysiology, and rhythm interpretation. Upon completion, students should be able to recognize and interpret rhythms.

EMS 220 – Cardiology II 2-3-0-0-3 Prerequisites: EMS 122, EMS 130, EMS 160;

Corequisites: None

This course provides an in-depth study of cardiovascular emergencies and is required for paramedic certification. Topics include assessment and treatment of cardiac emergencies, cardiac pharmacology, and patient care. Upon completion, students should be able to manage the cardiac patient.

EMS 221 – EMS Clinical Practicum II 0-0-6-0-2 Prerequisites: EMS 121 or EMS 122; Corequisites: None

This course provides clinical experiences in the hospital and/or field. Emphasis is placed on increasing the proficiency of students' skills and abilities in patient assessments and the delivery of care. Upon completion, students should be able to demonstrate continued progress in advanced-level patient care.

EMS 231 – EMS Clinical Practicum III 0-0-9-0-3 Prerequisites: EMS 221; Corequisites: None

This course provides clinical experiences in the hospital and/or field. Emphasis is placed on enhancing the students' skills and abilities in providing advanced-level care. Upon completion, students should be able to demonstrate continued progress in advanced-level patient care.

EMS 235 – EMS Management 2-0-0-0-2 Prerequisites: None; Corequisites: None

This course stresses the principles of managing a modern emergency medical service system. Topics include structure and function of municipal governments, EMS grantsmanship, finance, regulatory agencies, system management, legal issues, and other topics relevant to the EMS manager. Upon completion, students should be able to understand the principles of managing emergency medical service delivery systems.

EMS 240 – Patients w/Special Challenges 1-2-0-0-2 Prerequisites: EMS 122, EMS 130; Corequisites: None

This course includes concepts of crisis intervention and techniques of interacting with patients with special challenges and is required for paramedic certification. Topics include appropriate intervention and interaction for neglected, abused, terminally ill, chronically ill, technology assisted, bariatric, physically challenged, mentally challenged, or assaulted patients as well as behavioral emergencies. Upon completion, students should be able to recognize and manage the care of patients with special challenges.

EMS 241 – EMS Clinical Practicum IV 0-0-12-0-4 Prerequisites: EMS 231; Corequisites: None

This course provides clinical experiences in the hospital and/or field. Emphasis is placed on mastering the skills/competencies required of the paramedic providing advanced-level care. Upon completion, students should be able to provide advanced-level patient care as an entry-level paramedic.

EMS 250 – Medical Emergencies 3-3-0-0-4

Prerequisites: EMS 122 and EMS 130;

Corequisites: None

This course provides an in-depth study of medical conditions frequently encountered in the prehospital setting and is required for paramedic certification. Topics include pulmonology, neurology, endocrinology, anaphylaxis, gastroenterology, toxicology, and environmental emergencies integrating case presentation and emphasizing pharmacotherapeutics. Upon completion, students should be able to recognize and manage frequently encountered medical conditions based upon initial patient impression.

EMS 260 – Trauma Emergencies 1-3-0-0-2 Prerequisites: EMS 122, EMS 130; Corequisites: None

This course provides in-depth study of trauma including pharmacological interventions for conditions frequently encountered in the prehospital setting and is required for paramedic certification. Topics include an overview of thoracic, abdominal, genitourinary, orthopedic, neurological, and multi-system trauma, soft tissue trauma of the head, neck, and face as well as environmental emergencies. Upon completion, students should be able to recognize and manage trauma situations based upon patient assessment and should adhere to standards of care.

EMS 270 – Life Span Emergencies 3-3-0-0-4

Prerequisites: EMS 122, EMS 130;

Corequisites: None

This course covers medical/ethical/legal issues and the spectrum of age-specific emergencies from conception through death required for paramedic certification. Topics include gynecological, obstetrical, neonatal, pediatric, and geriatric emergencies and pharmacological therapeutics. Upon completion, students should be able to recognize and treat age-specific emergencies.

EMS 280 – EMS Bridging Course 2-2-0-0-3

Prerequisites: None Corequisites: None

This course provides an opportunity to demonstrate problem-solving skills as a team leader in simulated patient scenarios and is required for paramedic certification. Emphasis is placed on critical thinking, integration of didactic and psychomotor skills, and effective performance in simulated emergency situations.

Upon completion, students should be able to recognize and appropriately respond to a variety of EMS-related events.

EMS 285 – EMS Capstone

1-3-0-0-2

Prerequisites: EMS 220, EMS 250, and EMS

260; Corequisites: None

This course provides an opportunity to demonstrate problem-solving skills as a team leader in simulated patient scenarios and is required for paramedic certification. Emphasis is placed on critical thinking, integration of didactic and psychomotor skills, and effective performance in simulated emergency situations. Upon completion, students should be able to recognize and appropriately respond to a variety of EMS-related events.

ENG 025 – College English Skills 3-0-0-0-3 Prerequisites: None; Corequisites: None

This course provides the skills necessary for success in college English courses. Topics include reading and writing processes and strategies, such as critical thinking, text analysis, idea development, and application of writing conventions. Upon completion, students should be able to analyze readings and produce unified, coherent, well developed paragraphs and essays using appropriate document design and standard written English while developing positive academic habits, learning strategies, and a growth mindset.

ENG 111- Writing and Inquiry 3-0-0-0-3

Prerequisites: ENG 025; Corequisites: None

This course is designed to develop the ability to produce clear writing in a variety of genres and formats using a recursive process. Emphasis includes inquiry, analysis, effective use of rhetorical strategies, thesis development, audience awareness, and revision. Upon completion, students should be able to produce unified, coherent, well-developed essays using standard written English. This course has been approved for transfer under the CAA and ICAA as a premajor and/or general education elective course requirement for the AA, AS or AE degrees. This is a Universal General Education Transfer Component (UGETC) course in English Composition for the AA, AE, and AS degrees.

ENG 112 - Writing/Research in the Disciplines 3-0-0-0-3 Prerequisites: ENG 111; Corequisites: None

This course, the second in a series of two. introduces research techniques, documentation styles, and writing strategies. Emphasis is placed on analyzing information and ideas and incorporating research findings into documented writing and research projects. Upon completion, students should be able to evaluate and synthesize information from primary and secondary sources using documentation appropriate to various disciplines. This course has been approved for transfer under the CAA and ICAA as a pre-major and/or general education elective course requirement for the AA, AS or AE degrees. This is a Universal General Education Transfer Component (UGETC) course in English Composition for the AA, AE, and AS degrees.

ENG 114 - Prof Research & Reporting 3-0-0-0-3 Prerequisites: ENG 111; Corequisites: None

This course, the second in a series of two, is designed to teach professional communication skills. Emphasis is placed on research, listening, critical reading and thinking, analysis, interpretation, and design used in oral and written presentations. Upon completion, students should be able to work individually and collaboratively to produce well-designed business and professional written and oral presentations. *This course has been approved for transfer under the CAA and ICAA as a general education course in English Composition for the AA and AS degrees*.

ENG 231 - American Literature I 3-0-0-3
Prerequisites: ENG 112 or ENG 114;
Corequisites: None

This course covers selected works in American literature from its beginnings to 1865. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to analyze and interpret literary works in their historical and cultural contexts. This course is a Universal General Education Transfer Component (UGETC) course in Humanities/Fine Arts/Communications. This course has also been approved for transfer under the CAA and ICAA as general education as well as a pre-major and/or elective course in Humanities/Fine Arts/Communication for the AA. AS or AE degrees.

ENG 232 - American Literature II 3-0-0-0-3
Prerequisites: ENG 112 or ENG 114;
Corequisites: None

This course covers selected works in American literature from 1865 to the present. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to literary works in their historical and cultural contexts. This course is a Universal General Education Transfer Component (UGETC) course in Humanities/Fine Arts/Communications. This course has also been approved for transfer under the CAA and ICAA as general education as well as a pre-major and/or elective course in Humanities/Fine Arts/Communication for the AA, AS or AE degrees.

ENG 241 - British Literature I 3-0-0-0-3 Prerequisites: ENG 112 or ENG 114; Corequisites: None

This course covers selected works in British literature from its beginnings to the Romantic Period. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to literary works in their historical and cultural contexts. This course is a Universal General Education Transfer Component (UGETC) course in Humanities/Fine Arts/Communications. This course has also been approved for transfer under the CAA and ICAA as general education as well as a pre-major and/or elective course in Humanities/Fine Arts/Communication for the AA, AS or AE degrees.

ENG 242 - British Literature II 3-0-0-0-3 Prerequisites: ENG 112 or ENG 114; Corequisites: None

This course covers selected works in British literature from the Romantic Period to the present. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to literary works in their historical and cultural contexts. This course is a Universal General Education Transfer Component (UGETC) course in Humanities/Fine Arts/Communications. This course has also been approved for transfer under the CAA and

ICAA as general education as well as a premajor and/or elective course in Humanities/Fine Arts/Communication for the AA, AS or AE degrees.

<u>EPT 140 – Emergency Management 3-0-0-3</u> Prerequisites: None; Corequisites: None

This course covers the four phases of emergency management: mitigation, preparedness, response, and recovery. Topics include organizing for emergency management, coordinating for community resources, public sector liability, and the roles of government agencies at all levels. Upon completion, students should be able to demonstrate an understanding of comprehensive emergency management and the integrated emergency management system.

EPT 150 – Incident Management 3-0-0-3 Prerequisites: None; Corequisites: None

This course introduces the National Incident Management System (NIMS). Topics include integrating command and control systems, maintaining communication within command and control systems, and using NIMS procedures. Upon completion, students should be able to demonstrate knowledge of key concepts necessary for operating within the National Incident Management System.

FIP 120 – Intro to Fire Protection 3-0-0-0-3 Prerequisites: None; Corequisites: None

This course provides an overview of the development, methods, systems and regulations that apply to the fire protection field. Topics include history, evolution, statistics, suppression, organizations, careers, curriculum, and related subjects. Upon completion, students should be able to demonstrate a broad understanding of the fire protection field.

FIP 124 – Fire Prev & Public Ed 3-0-0-0-3 Prerequisites: None; Corequisites: None

This course introduces fire prevention concepts as they relate to community and industrial operations referenced in NFPA standard 101. Topics include the development and maintenance of fire prevention programs, educational programs, and inspection programs. Upon completion, students should be able to research, develop, and present a fire safety program to a citizens or industrial group.

FIP 132 – Building Construction 3-0-0-0-3 Prerequisites: None; Corequisites: None

This course covers the principles and practices reference in NFPA standard 220 related to various types of building construction, including residential and commercial, as impacted by fire conditions. Topics include types of construction and related elements, fire resistive aspects of construction materials, building codes, collapse, and other related topics. Upon completion, students should be able to understand and recognize various types of construction and their positive or negative aspects as related to fire conditions.

FIP 152 – Fire Protection Law 3-0-0-0-3

Prerequisites: None; Corequisites: None

This course covers fire protection law as referenced in NFPA standard 1. Topics include legal terms, contracts, liability, review of case histories, and other related topics. Upon completion, students should be able to discuss laws, codes, and ordinances as they relate to fire protection.

FIP 220 – Fire Fighting Strategies 3-0-0-0-3 Prerequisites: None; Corequisites: None

This course provides preparation for command of initial incident operations involving emergencies within both the public and private sector referenced in NFPA standards 1561, 1710, and 1720. Topics include incident management, fire-ground tactics and strategies, incident safety, and command/control of emergency operations. Upon completion, students should be able to describe the initial incident system as it relates to operations involving various emergencies in fire and non-fire situations.

FIP 224 – Fire Instructor I & II 4-0-0-0-4 Prerequisites: None; Corequisites: None

This course covers the knowledge, skills, and abilities needed to train others in fire service operations. Topics include planning, presenting, and evaluating lesson plans, learning styles, use of media, communication, and other related topics. Upon completion, students should be able to meet the requirements of the Fire Instructor I and II objectives from National Fire Protection Association (NFPA) 1041.

FIP 226 - Fire Officer I & II

4-0-0-0-4

Prerequisites: None; Corequisites: None

This course covers the knowledge, skills, and requirements referenced in the National Fire Protection Association (NFPA) Standard 1021 for Fire Officer I and II training. Topics include officer roles and responsibilities, budgets, fire cause determination, inspections, education, leadership, management, public relations, and other requirements included in the NFPA standard. Upon completion, students should be able to demonstrate an understanding of relevant NFPA standards as required for state Fire Officer I and II certification.

FIP 276 – Managing Fire Services 3-0-0-0-3

Prerequisites: None; Corequisites: None

This course provides an overview of fire department operative services referenced in NFPA standard 1021. Topics include finance, staffing, equipment, code enforcement, management information, specialized services, legal issues, planning, and other related topics. Upon completion, students should be able to understand concepts and apply fire department management and operations principles.

GEL 111 - Geology 3-2-0-0-4

Prerequisites: ENG 025; Corequisites: None

This course introduces basic landforms and geological processes. Topics include rocks, minerals, volcanoes, fluvial processes, geological history, plate tectonics, glaciers, and coastal dynamics. Upon completion, students should be able to describe basic geological processes that shape the earth. This course has been approved for transfer under the CAA and ICAA as a general education course in Social and Behavioral Sciences for the AA and AS degrees. This is a Universal General Education Transfer Component (UGETC) course in Natural Sciences for the AA and AS degrees.

GEO 111 - World Regional Geography 3-0-0-0-3 Prerequisites: ENG 025; Corequisites: None

This course introduces the regional concept, which emphasizes the spatial association of people and their environment. Emphasis is placed on the physical, cultural, and economic systems that interact to produce the distinct regions of the earth. Upon completion, students should be able to describe variations in physical and cultural features of a region and demonstrate

an understanding of their functional relationships. This course has been approved for transfer under the CAA and ICAA as a general education course in Social and Behavioral Sciences for the AA and AS degrees.

GEO 112 – Cultural Geography 3-0-0-0-3

Prerequisites: ENG 025; Corequisites: None

This course is designed to explore the diversity of human cultures and to describe their shared characteristics. Emphasis is placed on the characteristics, distribution, and complexity of earth's cultural patterns. Upon completion, students should be able to demonstrate an understanding of the differences and similarities in human cultural groups. This course has been approved for transfer under the CAA and ICAA as a general education course in Social and Behavioral Sciences for the AA and AS degrees.

GEO 130 - General Physical Geography 3-0-0-0-3 Prerequisites: ENG 025; Corequisites: None

This course introduces both the basic physical components that help shape the earth and the study of minerals, rocks, and evolution of landforms. Emphasis is placed on the geographic grid, cartography, weather, climate, mineral composition, fluvial processes, and erosion and deposition. Upon completion, students should be able to identify these components and processes and explain how they interact. *This course has been approved for transfer under the CAA and ICAA as a general education course in Social and Behavioral Sciences for the AA and AS degrees*

<u>HEA 110 – Personal Health/Wellness 3-0-0-0-3</u> Prerequisites: None, Corequisites: None

This course provides an introduction to basic personal health and wellness. Emphasis is placed on current health issues such as nutrition, mental health, and fitness. Upon completion, students should be able to demonstrate an understanding of the factors necessary to the maintenance of health and wellness. This course has been approved for transfer under the CAA and ICAA as a pre-major and/or elective course requirement for the AA and AS degrees.

HEA 112 - First Aid & CPR

1-2-0-0-2

Prerequisites: None, Corequisites: None

This course introduces the basics of emergency first aid treatment. Topics include rescue breathing, CPR, first aid for choking and bleeding, and other first aid procedures. Upon completion, students should be able to demonstrate skills in providing emergency care for the sick and injured until medical help can be obtained. This course has been approved for transfer under the CAA and ICAA as a pre-major and/or elective course requirement for the AA and AS degrees.

HFS 110 - Exercise Science

4-0-0-0-4

Prerequisites: None; Corequisites: None

This course is a survey of scientific principles, methodologies, and research as applied to exercise and physical adaptations to exercise. Topics include the basic elements of kinesiology, biomechanics, and motor learning. Upon completion, students should be able to identify and describe physiological responses and adaptations to exercise.

HFS 111 - Fitness & Exercise Testing I 3-2-0-0-4

Prerequisites: None; Corequisites: None

This course introduces the student to graded exercise testing. Topics include various exercise testing protocols with methods for prescribing exercise programs based on exercise tolerance tests and the use of various equipment and protocols. Upon completion, students should be able to conduct specific exercise tests and the use of various equipment.

HFS 116 - Prev & Care of Exercise Injuries 2-2-0-0-3

Prerequisites: None; Corequisites: None

This course provides information about the care and prevention of exercise injuries. Topics include proper procedures, prevention techniques, and on-site care of injuries. Upon completion, students should be able to demonstrate the knowledge and skills necessary to prevent and care for exercise related injuries.

HFS 118 - Fitness Facility Management 4-0-0-0-4

Prerequisites: None; Corequisites: None

This course provides information about the management and operation of health and fitness facilities and programs. Topics include human resources, sales and marketing, member retention, financial management, facility design and maintenance, and risk management. Upon

completion, students should be able to demonstrate the knowledge and skills necessary to effectively manage a fitness facility.

HFS 120 - Group Exercise Instruction 2-2-0-0-3 Prerequisites: HFS 110; Corequisites: None

This course introduces the concepts and guidelines of instructing exercise classes. Topics include program designs, working with special populations, and principles of teaching and monitoring physical activity. Upon completion, students should be able to demonstrate basic skills in instructing an exercise class and monitoring workout intensity.

HFS 210 - Personal Training

2-2-0-0-3

Prerequisites: HFS 110 and HFS 111;

Corequisites: None

This course introduces the student to the aspects of personal (one- on- one) training. Topics include training systems, marketing, and program development. Upon completion, students should be able to demonstrate personal training techniques and competencies of same.

HFS 212 - Exercise Programming 2-2-0

Prerequisites: HFS 110; Corequisites: None

This course provides information about organizing, scheduling, and implementation of physical fitness programs. Topics include programming for various age groups, competitive activities and special events, and evaluating programs. Upon completion, students should be able to organize and implement exercise activities in a competent manner.

HFS 214 - Health & Fitness Law 3-0-0-0-3

Prerequisites: None; Corequisites: None

This course is designed to build a greater awareness and understanding of laws and legal issues encountered in the health and fitness industry. Topics include federal/state regulations, historical/current practices, risk management, torts, employment, discrimination, contracts, waivers, health/ fitness screening, client confidentiality, facility safety, equipment liability, and emergency procedures. Upon completion, students should be able to demonstrate an understanding of the legal system to prevent or minimize liability in a fitness setting.

HFS 218 - Lifestyle Change & Wellness 3-2-0-0-4 Prerequisites: None; Corequisites: None

This course introduces health risk appraisals and their application to lifestyle changes. Topics include nutrition, weight control, stress management, and the principles of exercise. Upon completion, students should be able to conduct health risk appraisals and apply behavior modification techniques in a fitness setting.

HIS 111 - World Civilizations I 3-0-0-0-3

Prerequisites: ENG 025; Corequisites: None

This course introduces world history from the dawn of civilization to the early modern era. Topics include Eurasian, African, American, and Greco-Roman civilizations and Christian, Islamic and Byzantine cultures. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in pre-modern world civilizations. This course has been approved for transfer under the CAA and ICAA as a general education course in Social and Behavioral Sciences for the AA, AE, and AS degrees. This is a Universal General Education Transfer Component (UGETC) course in Social & Behavioral Sciences for the AA, AE, and AS degrees.

HIS 112 - World Civilizations II 3-0-0-0-3

Prerequisites: ENG 025; Corequisites: None

This course introduces world history from the early modern era to the present. Topics include the cultures of Africa, Europe, India, China, Japan, and the Americas. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in modern world civilizations. This course has been approved for transfer under the CAA and ICAA as a general education course in Social and Behavioral Sciences for the AA, AE, and AS degrees This is a **Universal General Education Transfer** Component (UGETC) course in Social and Behavioral Sciences for the AA, AE, and AS degrees.

HIS 131 - American History I 3-0-0-0-3

Prerequisites: ENG 025; Corequisites: None

This course is a survey of American history from pre-history through the Civil War era. Topics include the migrations to the Americas, the colonial and revolutionary periods, the development of the Republic, and the Civil War.

Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in early American history. This course has been approved for transfer under the CAA and ICAA as a general education course in Social & Behavioral Sciences for the AA, AE, and AS degrees. This is a Universal General Education Transfer Component (UGETC) course in Social and Behavioral Sciences for the AA, AE, and AS degrees.

HIS 132 - American History II 3-0-0-0-3 Prerequisites: ENG 025; Corequisites: None

This course is a survey of American history from the Civil War era to the present. Topics include industrialization, immigration, the Great Depression, the major American wars, the Cold War, and social conflict. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in American history since the Civil War. This course has been approved for transfer under the CAA and ICAA as a general education course in Social and Behavioral Sciences for the AA, AE, and AS degrees. This is a Universal General Education

HIT 110 - Intro to Healthcare & HIM 3-0-0-0-3

Prerequisites: None; Corequisites: None

AE, and AS degrees.

Transfer Component (UGETC) course in

Social and Behavioral Sciences for the AA,

This course introduces healthcare settings and the Health Information Management (HIM) professional's role in healthcare delivery systems. Topics include health information management operations in compliance with standards, regulations and accrediting body initiatives: healthcare providers and disciplines; and electronic health records (EHRs). Upon completion, student should be able to demonstrate an understanding of health information management and healthcare organizations, professions and trends.

HIT 112 - Health Law & Ethics 3-0-0-0-3

Prerequisites: HIT 110; Corequisites: None

This course covers the study of the judicial, legislative, and regulatory standards applicable to health care and health information processes. Topics include legal terminology, confidentiality, privacy, security, access and disclosure of health information, ethical implications, data

stewardship, and the integrity of the legal health record. Upon completion, students should be able to apply policies, procedures and ethical standards in compliance with external forces.

HIT 114 - Health Data Sys/Standards 2-3-0-0-3 Prerequisites: HIT 110; Corequisites: None

This course covers concepts and techniques for managing and maintaining all health record formats including electronic health records (EHR). Topics include structure and use of health information including data collection and analysis, data sources/sets, archival systems, as well as quality and integrity of healthcare data. Upon completion, students should be able to determine compliance of health record content and governance standards within the health organization.

HIT 124 – Prof Practice Exp II 0-0-3-0-1

Prerequisites: HIT 112 and HIT 114;

Corequisites: None

This course provides supervised and/or simulated health information technology clinical experience in healthcare settings. Emphasis is placed on practical application of HIM functions and core curriculum concepts. Upon completion, students should be able to apply health information theory to healthcare facility practices.

HIT 211 – Diagnosis Coding & Reporting 2-3-0-0-3 Prerequisites: HIT 114 and HIT 226;

Corequisites: None

This course covers diagnostic coding and sequencing utilizing the current version of the ICD code set for inpatient, outpatient and ambulatory care settings. Emphasis is placed on the rules and conventions of the ICD official coding guidelines in relation to anatomy, physiology and disease processes. Upon completion, students should be able to accurately assign and sequence diagnosis codes in compliance with the ICD official coding guidelines for reporting statistical data, patient outcomes and reimbursement methodologies.

<u>HIT 213 – Inpt Proc Coding & Reporting 1-3-0-0-2</u> Prerequisites: HIT 114, HIT 226; Corequisites: None

This course covers the application of coding guidelines as applied to the reporting of inpatient procedures. Emphasis is placed on the rules and conventions of the ICD-PCS code set utilizing the index and tables, in relation to anatomy and physiology to assign principal and secondary

procedure codes in hospital inpatient settings. Upon completion, students should be able to accurately assign procedural codes according to the official ICD-PCS coding guidelines and evaluate compliance with regulatory requirements and reimbursement methodologies.

HIT 214 – OP Procedure Coding/Reporting 1-3-0-0-2 Prerequisites: HIT 211; Corequisites: None

This course covers application of coding and reporting standards as they apply to Current Procedural Terminology (CPT) guidelines and principles. Emphasis is placed on application of the coding guidelines, in relation to anatomy and physiology, for ambulatory healthcare settings. Upon completion, students should be able to assign CPT/HCPCS procedural codes according to official guidelines and evaluate compliance with regulatory requirements and reimbursement methodologies.

HIT 215 – Revenue Cycle Management 1-3-0-0-2

Prerequisites: None; Corequisites: None

This course covers the revenue cycle management process used in all healthcare settings as they relate to national billing, compliance, and reporting requirements. Topics include clinical documentation improvement, prospective payment systems, billing processes and procedures, charge master maintenance, regulatory guidelines, fraud and abuse, reimbursement monitoring, compliance strategies and reporting. Upon completion, students should be able to perform data quality reviews to validate code assignment and comply with reimbursement and reporting requirements.

HIT 217 - Quality & Data Analysis 2-3-0-0-3 Prerequisites: MAT 152; Corequisites: None

This course covers the principles of quality assessment and improvement, including data analysis and decision making in healthcare. Topics include healthcare statistics, continuous quality improvement, data analysis and reporting techniques, quality and outcome metric monitoring. Upon completion, students should be able to compute healthcare statistics, abstract, analyze and report clinical data for organization-wide quality and performance improvement programs for compliance purposes.

HIT 218 - Mgmt Principles in HIT 3-0-0-0-3 Prerequisites: None; Corequisites: None

This course covers organizational management concepts as applied to healthcare settings. Topics include leadership skills, managing organizational change, best practices, decision-making, financial management, cultural diversity, ethics, consumer engagement, and workforce training. Upon completion, students should be able to apply management, leadership, and supervisory concepts to various healthcare settings.

<u>HIT 220 – Electronic Health Records 1-2-0-0-2</u> Prerequisites: None; Corequisites: None

This course covers EHR systems, design, implementation and application. Topics include EHR, informatics, information governance, health information exchange (HIE), speech & imaging technology, information/network security & integrity, data dictionaries, modeling and warehousing. Upon completion, students should be able to facilitate usage of electronic health record systems and other technologies.

HIT 222 – Prof Practice Exp III 0-0-6-0-2

Prerequisites: None; Corequisites: None

This course provides supervised and/or simulated health information technology clinical experience in healthcare settings. Emphasis is placed on practical application of HIM functions and core curriculum concepts. Upon completion, students should be able to apply health information theory to healthcare facility practices.

<u>HIT 226 – Pathophysiology & Pharmacology 2-3-0-0-3</u> Prerequisites: BIO 163, BIO 166 or BIO 169; Corequisites: None

This course covers principles of disease and the associated pharmacological treatments. Emphasis is placed on physical signs and symptoms, prognoses, common complications and therapeutic options. Upon completion, students should be able to relate disease processes to physical signs and symptoms, prognosis, common complications and their management.

<u>HIT 280 – HIM Capstone 2-0-0-0-2</u>

Prerequisites: HIT 211; Corequisites: None

This course integrates application of knowledge and skills learned in prior HIT courses and is designed to prepare students for professional roles in HIM and promote ethical standards of practice. Emphasis is placed on AHIMA domains and professional competencies, career services and preparation for the National Certification exam. Upon completion, students should be able to demonstrate competency in the entry-level domains and subdomains of health information management.

HOR 112 - Landscape Design I 2-3-0-0-3 Prerequisites: None; Corequisites: None

This course covers landscape principles and practices for residential and commercial sites. Emphasis is placed on drafting, site analysis, and common elements of good design, plant material selection, and proper plant utilization (encouraged use of native plants and discouraged use of invasive species). Upon completion, students should be able to read plans and draft a landscape design according to sustainable practices.

HOR 114 - Landscape Construction 2-2-0-0-3 Prerequisites: None; Corequisites: None

This course introduces the design and fabrication of landscape structures/features. Emphasis is placed on safety, tool identification and use, material selection, construction techniques, and fabrication. Upon completion, students should be able to design and construct common landscape structures/features.

HOR 134 - Greenhouse Operations 2-2-0-0-3 Prerequisites: None; Corequisites: None

This course covers the principles and procedures involved in the operation and maintenance of greenhouse facilities. Emphasis is placed on the operation of greenhouse systems, including the environmental control, record keeping, scheduling, and production practices. Upon completion, students should be able to demonstrate the ability to operate greenhouse systems and facilities to produce greenhouse crops.

HOR 160 - Plant Materials I 2-2-0-0-3 Prerequisites: None; Corequisites: None

This course covers identification, culture, characteristics, and use of plants in a sustainable landscape. Emphasis is placed on nomenclature, identification, growth requirements, cultural requirements, soil preferences, and landscape applications. Upon completion, students should be able to demonstrate knowledge of the proper selection and utilization of plant materials, including natives and invasive plants.

HOR 162 - Applied Plant Science 2-2-0-0-3 Prerequisites: None; Corequisites: None

This course introduces the basic concepts of botany as they apply to horticulture. Topics include nomenclature, physiology, morphology, and anatomy as they apply to plant culture. Upon completion, students should be able to apply the basic principles of botany to horticulture.

HOR 164 - Horticulture Pest Management 2-2-0-0-3 Prerequisites: None; Corequisites: None

This course covers the identification and control of plant pests including insects, diseases, and weeds. Topics include pest identification and chemical regulations, safety, and pesticide applications. Upon completion, students should be able to meet the requirements for North Carolina Commercial Pesticide Grounds Applicators license

HOR 166 - Soils & Fertilizers 2-2-0-0-3

Prerequisites: None; Corequisites: None

This course covers the physical and chemical properties of soils and soil fertility and management. Topics include soil formation; classification; physical, chemical, and biological properties (including microorganisms); testing; and fertilizer application. Upon completion, students should be able to analyze, evaluate, and properly amend soils/media according to sustainable practices.

HOR 168 - Plant Propagation 2-2-0-0-3 Prerequisites: None; Corequisites: None

This course is a study of sexual and asexual reproduction of plants. Emphasis is placed on seed propagation, grafting, stem and root propagation, micro-propagation, and other propagation techniques. Upon completion, students should be able to successfully propagate ornamental plants.

HOR 257 - Arboriculture Practices 1-3-0-0-2 Prerequisites: None; Corequisites: None

This course covers the culture and maintenance of trees and shrubs. Topics include fertilization, pruning, approved climbing techniques, pest control, and equipment use and safety. Upon completion, students should be able to properly prune trees and shrubs and perform arboricultural practices.

HOR 273 - Horticulture Mngt & Marketing 3-0-0-0-3 Prerequisites: None; Corequisites: None

This course covers the steps involved in starting or managing a horticultural business. Topics include financing, regulations, market analysis, employer/ employee relations, formulation of business plans, and operational procedures in a horticultural business. Upon completion, students should be able to assume ownership or management of a horticultural business.

<u>HUM 110 – Technology and Society 3-0-0-3</u> Prerequisites: None; Corequisites: None

This course considers technological change from historical, artistic, and philosophical perspectives and its effect on human needs and concerns. Emphasis is placed on the causes and consequences of technological change. Upon completion, students should be able to critically evaluate the implications of technology. This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts for the AA and AS degrees.

<u>HUM 115 – Critical Thinking</u> 3-0-0-0-3 Prerequisites: ENG 025; Corequisites: None

This course introduces the use of critical thinking skills in the context of human conflict. Emphasis is placed on evaluating information, problem solving, approaching cross-cultural perspectives, and resolving controversies and dilemmas. Upon completion, students should be able to demonstrate orally and in writing the use of critical thinking skills in the analysis of appropriate texts. This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts for the AA and AS degrees.

HUM 120 – Cultural Studies 3-0-0-0-3

Prerequisites: None; Corequisites: None

This course introduces the distinctive features of a particular culture. Topics include art, history, music, literature, politics, philosophy, and religion. Upon completion, students should be able to appreciate the unique character of the study culture. This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts for the AA and AS degrees.

ISC 210 – Oper & Prod Planning 3-0-0-0-3 Prerequisites: None; Corequisites: None

This course includes the fundamentals of operations and production planning, forecasting, and scheduling. Topics include demand management, production planning and control, scheduling, and budgeting. Upon completion, students should be able to demonstrate an understanding of the concepts and techniques involved in operations and production planning.

<u>LET 110 – Basic Law Enforcement BLET 28-27-0-0-37</u> Prerequisites: None; Corequisites: None

This course covers the basic knowledge and skills needed for entry-level employment as a law enforcement officer in North Carolina as required by the Criminal Justice Education and Training Standards Commission and the Sheriffs' Education and Training Standards Commission. Topics include Commission-mandated content specific to law enforcement in North Carolina, criminal investigations, traffic enforcement/ investigations, patrol techniques, crisis intervention, communication and de-escalation skills, interviews and interrogations, criminal and constitutional law, court procedures, civil process, ethical problem solving, and officer wellness. Upon completion, students should be able to demonstrate competence in the content required for the state comprehensive certification examination administered by the NC Department of Justice.

<u>LOG 110 - Introduction to Logistics 3-0-0-0-3</u> Prerequisites: None; Corequisites: None

This course provides an overview of logistics. Topics include traffic management, warehousing, inventory control, material handling, global logistics, and the movement and storage of goods from raw materials sources to end consumers. Upon completion, students should be able to identify the different segments of logistics and use the terminology of the industry.

<u>LOG 211 – Distribution Management 2-2-0-0-3</u> Prerequisites: LOG 110; Corequisites: None

This course covers the functions, techniques, and tools utilized in warehousing and distribution centers and their role in business and logistics. Emphasis is placed on warehouse and distribution center management, operations, productivity, software systems, picking, automation, cross docking, safety, security,

material handling, benchmarking, and cost. Upon completion, students should be able to describe the role of warehouses and distribution centers, apply industry principles and terminology, and understand distribution productivity measures.

<u>LOG 215 – Supply Chain Management 3-0-0-0-3</u> Prerequisites: LOG 110; Corequisites: None

This course covers all activities involved in the flow of products and information between the suppliers, customers, producers, and service providers. Topics include acquiring, purchasing, manufacturing, assembling, and distributing goods and services throughout the supply chain organizations. Upon completion, students should be able to identify the supply chain units and describe the materials management processes.

<u>LOG 240 – Purchasing Logistics 3-0-0-0-3</u> Prerequisites: LOG-110; Corequisites: None

This course provides an overview of logistics. Topics include traffic management, warehousing, inventory control, material handling, global logistics, and the movement and storage of goods from raw materials sources to end consumers. Upon completion, students should be able to identify the different segments of logistics and use the terminology of the industry.

MAT 025 – Concepts of Essential Math/Sta 3-0-0-3 Prerequisites: None; Corequisites: None

This course provides an opportunity to customize foundational math content and statistical concepts specific to real-world applications. Topics include decimals, percentages, ratios, proportions, solving basic equations, geometrical concepts, dimensional analysis, financial applications and elements of statistics and probability. Upon completion, students should be able to successfully demonstrate the use of mathematics, technology and statistical concepts to solve practical problems while developing positive academic habits, learning strategies and growth mindset.

MAT 035 – Concepts of Algebra 3-0-0-03

Prerequisites: None; Corequisites: None

This course covers algebraic concepts with an emphasis on application and analysis. Topics include rational/radical expressions and equations, solving equations and inequalities, concepts of functions, factoring, and exponents. Upon completion, students should be able to

successfully demonstrate mastery of algebraic concepts through application and analysis while developing positive academic habits, learning strategies and growth mindset.

MAT 110 – Math Measurement & Literacy 2-2-0-0-3 Prerequisites: None; Corequisites: None

This course provides an activity-based approach that develops measurement skills and mathematical literacy using technology to solve problems for non-math intensive programs. Topics include unit conversions and estimation within a variety of measurement systems; ratio and proportion; basic geometric concepts; financial literacy; and statistics including measures of central tendency, dispersion, and charting of data. Upon completion, students should be able to demonstrate the use of mathematics and technology to solve practical problems, and to analyze and communicate results.

MAT 143 - Quantitative Literacy 2-2-0-0-3

Prerequisites: MAT 025; Corequisites: None

This course is designed to engage students in complex and realistic situations involving the mathematical phenomena of quantity, change and relationship, and uncertainty through project- and activity-based assessment. Emphasis is placed on authentic contexts which will introduce the concepts of numeracy, proportional reasoning, dimensional analysis, rates of growth, personal finance, consumer statistics, practical probabilities, and mathematics for citizenship. Upon completion, students should be able to utilize quantitative information as consumers and to make personal, professional, and civic decisions by decoding, interpreting, using, and communicating quantitative information found in modern media and encountered in everyday life. This course has been approved for transfer under the CAA and ICAA as a general education course in Mathematics (Quantitative) for the AA and AS degrees. This is a Universal General Education Transfer Component (UGETC) course in Mathematics (Quantitative) for the AA degree <u>ONLY</u>.

MAT 152 - Statistical Methods I 3-2-0-0-4
Prerequisites: MAT 025; Corequisites: None

This course provides a project-based approach to introductory statistics with an emphasis on using real-world data and statistical literacy. Topics include descriptive statistics, correlation and

regression, basic probability, discrete and continuous probability distributions, confidence intervals and hypothesis testing. Upon completion, students should be able to use appropriate technology to describe important characteristics of a data set, draw inferences about a population from sample data, and interpret and communicate results. This course has been approved for transfer under the CAA and ICAA as a general education course in Mathematics (Quantitative) for the AA and AS degrees. This is a Universal General Education Transfer Component (UGETC) course in Mathematics (Quantitative) for the AA degree ONLY.

MAT 171 - Precalculus Algebra 3-2-0-0-4 Prerequisites: MAT 035; Corequisites: None

This course is designed to develop topics which are fundamental to the study of calculus. Emphasis is placed on solving equations and inequalities, solving systems of equations and inequalities, and analysis of functions (absolute value, radical, polynomial, rational, exponential, and logarithmic) in multiple representations. Upon completion, students should be able to select and use appropriate models and techniques for finding solutions to algebra-related problems with and without technology. This course has been approved for transfer under the CAA and ICAA as a general education course in Mathematics (Quantitative) for the AA and AS degrees. This is a Universal General Education Transfer Component (UGETC) course in Mathematics (Quantitative) for the AA and AS degrees.

MAT 172 - Precalculus Trigonometry 3-2-0-0-4 Prerequisites: MAT 171, minimum Grade of "C"; Corequisites: None

This course is designed to develop an understanding of topics which are fundamental to the study of Calculus. Emphasis is placed on the analysis of trigonometric functions in multiple representations, right and oblique triangles, vectors, polar coordinates, conic sections, and parametric equations. Upon completion, students should be able to select and use appropriate models and techniques for finding solutions to trigonometry-related problems with and without technology. This course has been approved for transfer under the CAA and ICAA as a general education course in Mathematics (Quantitative) for the AA and AS degrees. This is a Universal General Education Transfer Component (UGETC) course in Mathematics (Quantitative) for the AS degree ONLY.

MAT 263 - Brief Calculus

Prerequisites: MAT 171 or MAT 175, minimum Grade of "C": Corequisites: None

This course is designed to introduce concepts of differentiation and integration and their applications to solving problems. Topics include graphing, differentiation, and integration with emphasis on applications drawn from business. economics, and biological and behavioral sciences. Upon completion, students should be able to demonstrate an understanding of the use of basic calculus and technology to solve problems and to analyze and communicate results. This course has been approved for transfer under the CAA and ICAA as a general education course in Mathematics (Quantitative) for the AA and AS degrees. This is a Universal General Education Transfer Component (UGETC) course in Mathematics (Quantitative) for the AS degree ONLY.

MAT 271 - Calculus I

Prerequisites: MAT 172 or MAT 175, minimum Grade of "C": Corequisites: None

This course is designed to develop the topics of differential and integral calculus. Emphasis is placed on limits, continuity, derivatives and integrals of algebraic and transcendental functions of one variable. Upon completions, students should be able to select and use appropriate models and techniques for finding solutions to derivative-related problems with and without technology. This course has been approved for transfer under the CAA and ICAA as a general education course in Mathematics (Quantitative) for the AA and AS degrees. This is a Universal General Education Transfer Component (UGETC) course in Mathematics (Quantitative) for the AE and AS degrees.

MAT 272 - Calculus II

3-2-0-0-4

Prerequisites: MAT 271, minimum Grade of "C"; Corequisites: None

This course is designed to develop advanced topics of differential and integral calculus. Emphasis is placed on the applications of definite integrals, techniques of integration, indeterminate forms, improper integrals, infinite series, conic sections, parametric equations, polar coordinates, and differential equations. Upon completion, students should be able to select and use appropriate models and techniques for finding solutions to integral-related problems with

and without technology. This course has been approved for transfer under the CAA and ICAA as a general education course in Mathematics (Quantitative) for the AA and AS degrees. This is a Universal General Education Transfer Component (UGETC) course in Mathematics (Quantitative) for the AE and AS degrees.

MAT 273 - Calculus III

3-2-0-0-4

Prerequisites: MAT 272, minimum Grade of "C":

Corequisites: None

This course is designed to develop the topics of multivariate calculus. Emphasis is placed on multivariate functions, partial derivatives, multiple integration, solid analytical geometry, vector valued functions, and line and surface integrals. Upon completion, students should be able to select and use appropriate models and techniques for finding the solution to multivariate-related problems with and without technology. This course has been approved for transfer under the CAA and ICAA as a general education course in Mathematics (Quantitative) for the AA and AS degrees. This is a Universal General Education Transfer Component (UGETC) course in Mathematics (Quantitative) for the AE and AS degrees.

MAT 280 - Linear Algebra

2-2-0-0-3

Prerequisites: MAT 271, minimum Grade of "C": Corequisites: None

This course provides an introduction to linear algebra topics. Emphasis is placed on the development of abstract concepts and applications for vectors, systems of equations, matrices, determinants, vector spaces, multidimensional linear transformations, eigenvectors, eigenvalues, diagonalization and orthogonality. Upon completion, students should be able to demonstrate understanding of the theoretical concepts and select and use appropriate models and techniques for finding solutions to linear algebra-related problems with and without technology. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement for the AA, AE and AS degrees.

MAT 285 - Differential Equations

2-2-0-0-3

Prerequisites: MAT 272, minimum Grade of "C";

Corequisites: None

This course provides an introduction to topics involving ordinary differential equations. Emphasis is placed on the development of abstract concepts and applications for first-order and linear higher-order differential equations, systems of differential equations, numerical methods, series solutions, eigenvalues and eigenvectors, and LaPlace transforms. Upon completion, students should be able to demonstrate understanding of the theoretical concepts and select and use appropriate models and techniques for finding solutions to differential equations-related problems with and without technology. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement for the AA, AE and AS degrees.

MED 121 - Medical Terminology I 3-0-0-0-3 Prerequisites: None; Corequisites: None

This course introduces prefixes, suffixes, and word roots used in the language of medicine. Topics include medical vocabulary and the terms that relate to the anatomy, physiology, pathological conditions, and treatment of selected systems. Upon completion, students should be able to pronounce, spell, and define medical terms as related to selected body systems and their pathological disorders.

MED 122 - Medical Terminology II 3-0-0-0-3 Prerequisites: MED 121; Corequisites: None

This course is the second in a series of medical terminology courses. Topics include medical vocabulary and the terms that relate to the anatomy, physiology, pathological conditions, and treatment of selected systems. Upon completion, students should be able to pronounce, spell, and define medical terms as related to selected body systems and their pathological disorders.

MKT 120 - Principles of Marketing 3-0-0-0-3 Prerequisites: None; Corequisites: None

This course introduces principles and problems of marketing goods and services. Topics include promotion, placement, and pricing strategies for products. Upon completion, students should be able to apply marketing principles in organizational decision making.

MKT 232 – Social Media Marketing 2-2-0-0-3 Prerequisites: None; Corequisites: None

This course is designed to build students' social media marketing skills by utilizing projects that give students hands on experience implementing social media marketing strategies. Topics include integrating different social media technologies into a marketing plan, creating social media

marketing campaigns, and applying appropriate social media tools. Upon completion, students should be able to use social media technologies to create and improve marketing efforts for businesses.

MUS 110 - Music Appreciation 3-0-0-0-3 Prerequisites: None: Corequisites: None

This course is a basic survey of the music of the Western world. Emphasis is placed on the elements of music, terminology, composers, form, and style within a historical perspective. Upon completion, students should be able to demonstrate skills in basic listening and understanding of the art of music. This course has been approved for transfer under the CAA and ICAA as a pre-major and/or general education elective course requirement for the AA, AE, and AS degrees. This is a Universal General Education Transfer Component (UGETC) course in Humanities & Fine Arts for the AA, AE, and AS degrees.

MUS 111 - Fundamentals of Music 3-0-0-0-3 Prerequisites: None; Corequisites: None

This course is an introductory course for students with little or no music background. Emphasis is placed on music notation, rhythmic patterns, scales, key signatures, intervals, and chords. Upon completion, students should be able to demonstrate an understanding of the rudiments of music. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement for the AA and AS degrees.

MUS 112 - Introduction to Jazz 3-0-0-0-3 Prerequisites: None; Corequisites: None

This course introduces the origins and musical components of jazz and the contributions of its major artists. Emphasis is placed on the development of discriminating listening habits, as well as the investigation of the styles and structural forms of the jazz idiom. Upon completion, students should be able to demonstrate skills in listening and understanding this form of American music. This course has been approved for transfer under the CAA and ICAA as a pre-major and/or general education elective course requirement for the AA, AE, and AS degrees. This is a Universal General Education Transfer Component (UGETC) course in Humanities and Fine Arts for the AA, AS, and AE degrees.

NET 110 - Networking Concepts 2-2-0-0-3 Prerequisites: None; Corequisites: None

This course introduces students to the networking field. Topics include network terminology and protocols, local-area networks, wide-area networks, OSI model, cabling, router programming, Ethernet, IP addressing, and network standards. Upon completion, students should be able to perform tasks related to networking mathematics, terminology, and models, media, Ethernet, subnetting, and TCP/IP Protocols.

NOS 110 - Operating Systems Concepts 2-3-0-0-3 Prerequisites: None: Corequisites: None

This course introduces students to a broad range of operating system concepts, including installation and maintenance. Emphasis is place on operating system concepts, management, maintenance, and resources required. Upon completion of this course, students will have an understanding of OS concepts, installation, management, maintenance, using a variety of operating systems.

NOS 120 - Linux Single User 2-3-0-0-3

Prerequisites: None; Corequisites: None

This course provides students with GUI and command line skills for using a Linux machine. Topics include Linux file system and access permissions, desktop or shell environments, command line editors, display servers, expression pattern matching, I/O redirection, and networking. Upon completion, students should be able to demonstrate competency in customizing a Linux system.

NOS 130 - Windows Single User 2-2-0-0-3

Prerequisites: NOS 110; Corequisites: None

This course introduces operating system concepts for single-user systems. Topics include hardware management, file and memory management, system configuration/optimization, and utilities. Upon completion, students should be able to perform operating systems functions at the support level in a single-user environment.

NOS 230 - Windows Administration I 2-2-0-0-3 Prerequisites: NOS 130; Corequisites: None

This course covers the installation and configuration of a Windows Server operating system. Emphasis is placed on the basic configuration of core network services, Active

Directory and group policies. Upon completion, students should be able to install and configure a Windows Server operating system.

NUR 101 - Practical Nursing I 7-6-6-0-11 Prerequisites: BIO 163, ENG 111; NUR 117 Corequisites: PSY 150

This course introduces the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts within each domain including assessment, clinical decision making, professional behaviors, caring interventions, biophysical and psychosocial concepts, communication, collaboration, teaching/learning, safety, ethical principles, legal issues, informatics, and evidence-based practice. Upon completion, students should be able to provide safe nursing care across the lifespan incorporating the concepts identified in this course.

NUR 102 - Practical Nursing II 7-0-9-0-10 Prerequisites: NUR 101; Corequisites: None

This course is designed to further develop the concepts within the three domains of the individual, nursing, and healthcare. Emphasis is placed on the concepts, within each domain including clinical decision making, caring interventions, biophysical and psychosocial concepts, communication, collaboration, teaching and learning, accountability, safety, informatics, and evidence-based practice. Upon completion, students should be able to provide safe nursing care across the lifespan incorporating the concepts identified in this course.

NUR 103 - Practical Nursing III 6-0-9-0-9 Prerequisites: NUR 101, NUR 102;

Corequisites: None

This course is designed to assimilate the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on biophysical and psychosocial concepts, professional behaviors, healthcare systems, health policy, and quality improvement. Upon completion, students should be able to demonstrate the knowledge, skills, and attitudes necessary to provide safe, quality, and individualized entry level nursing care.

NUR 111 - Introduction to Health Concepts 4-6-6-0-8 Prerequisites: NUR 117; Corequisites: None

This course introduces the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts within each domain including medication

administration, assessment, nutrition, ethics, interdisciplinary teams, informatics, evidence-based practice, individual-centered care, and quality improvement. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

NUR 112 - Health-Illness Concepts 3-0-6-0-5 Prerequisites: NUR 111; Corequisites: None

This course is designed to further develop the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of acid-base, metabolism, cellular regulation, oxygenation, infection, stress/coping, health-wellness- illness, communication, caring interventions, managing care, safety, quality improvement, and informatics. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

NUR 113 - Family Health Concepts 3-0-6-0-5 Prerequisites: NUR 111; Corequisites: None

This course is designed to further develop the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of oxygenation, sexuality, reproduction, grief/loss, mood/affect, behaviors, development, family, health- wellness-illness, communication, caring interventions, managing care, safety, and advocacy. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

NUR 114 - Holistic Health Concepts 3-0-6-0-5 Prerequisites: NUR 111; Corequisites: None

This course is designed to further develop the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of cellular regulation, perfusion, inflammation, sensory perception, stress/coping, mood/affect, cognition, self, violence, health- wellness-illness, professional behaviors, caring interventions, and safety. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

NUR 117 - Pharmacology

1-3-0-0-2

Prerequisites: Admission to the Practical Nursing or Associate Degree Nursing Program; Corequisites: None

This course introduces information concerning sources, effects, legalities, and the safe use of medications as therapeutic agents. Emphasis is placed on nursing responsibility, accountability, pharmacokinetics, routes of medication administration, contraindications and side effects. Upon completion, students should be able to compute dosages and administer medication safely.

NUR 211 - Health Care Concepts 3-0-6-0-5 Prerequisites: NUR 111: Corequisites: None

This course is designed to further develop the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of cellular regulation, perfusion, infection, immunity, mobility, comfort, behaviors, healthwellness-illness, clinical decision-making, caring interventions, managing care, and safety. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

NUR 212 - Health System Concepts 3-0-6-0-5 Prerequisites: NUR 111; Corequisites: None

This course is designed to further develop the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of grief/loss, violence, health-wellness- illness, collaboration, managing care, safety, advocacy, legal issues, policy, healthcare systems, ethics, accountability, and evidence-based practice. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

NUR 213 - Complex Health Concepts 4-3-15-0-10 Prerequisites: NUR 111, NUR 112, NUR 113, NUR 114, NUR 211, and NUR 212; Corequisites: None

This course is designed to assimilate the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of fluid/electrolytes, metabolism, perfusion, mobility, stress/coping, violence, health-wellness-illness, professional behaviors, caring interventions, managing care, healthcare systems, and quality improvement. Upon completion, students should be able to

demonstrate the knowledge, skills, and attitudes necessary to provide quality, individualized, entry level nursing care.

NUR 215 – Paramedic/RN Bridge Concepts 3-3-6-0-6 Prerequisites: Admission to the Paramedic to ADN Bridge Program; Corequisites: None

This course is designed to introduce concepts within the three domains of the individual, healthcare, and nursing as the Associate Degree in Emergency Medical Science Paramedic transitions to the nursing role. Emphasis is placed on the concepts within each domain including evidenced-based practice, quality improvement, communication, safety, interdisciplinary team, collaboration, clinical decision-making, professional behaviors, informatics, assessment, perfusion, oxygenation, elimination, and cellular regulation. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

OMT 222 – Project Management 3-0-0-0-3 Prerequisites: None; Corequisites: None

This course covers fundamental concepts associated with multi-task management and coordination. Topics include flow diagrams, process and operations charts, network scheduling, Gantt charts, and PERT and Critical Path Methods as tools in project management. Upon completion, students should be able to understand and apply project management tools and methods.

PAD 151 – Intro to Public Admin 3-0-0-0-3
Prerequisites: None; Corequisites: None

This course includes an overview of the role of the public administrator in government and an examination of the development and implementation of public policy. Topics include public personnel administration and management, decision making, public affairs, ethics, organizational theories, budgetary functions within governmental agencies, and other governmental issues. Upon completion, students should be able to explain the functions of government in society and in the lives of people composing that society.

PAD 152 – Ethics in Government 3-0-0-0-3 Prerequisites: None; Corequisites: None

This course introduces the ethical issues and problems within the public administration field.

Emphasis is placed on building analytical skills, stimulating moral imagination, and recognizing the discretionary power of the administrator's role. Upon completion, students should be able to understand the moral dimensions of public administrative decision making.

PAD 251 - Public Finance & Budgeting 3-0-0-0-3

Prerequisites: None; Corequisites: None

This course provides an overview of the public finance and budgeting processes used in the allocation of public resources to meet differing public interests. Topics include the political environment, government expenditures, revenues, taxation, budgetary process theories and techniques, and the relation of government finance to the economy. Upon completion, students should be able to recognize impacts of government revenue and expenditure policies and understand the role of budgeting in executing governmental policy.

PAD 252 – Public Policy Analysis 3-0-0-0-3
Prerequisites: None; Corequisites: None

This course is a study of methods and techniques used to determine the effectiveness of public programs. Emphasis is placed on the concept of ecology and environmental impact, informal groups and information networks, and the relationship between public and private sectors. Upon completion, students should be able to analyze case studies with the use of political analysis techniques.

PAD 254- Grant Writing 3-0-0-0-3 Prerequisites: None; Corequisites: None

This course covers the basic techniques of successful grant writing. Topics include concept development, funding sources research, and writing skills relevant to the grants process. Upon completion, students should be able to demonstrate a basic understanding of the grants process.

PED 110 - Fit and Well for Life 1-2-0-0-2

Prerequisites: None; Corequisites: None

This course is designed to investigate and apply the basic concepts and principles of lifetime physical fitness and other health-related factors. Emphasis is placed on wellness through the study of nutrition, weight control, stress management, and consumer facts on exercise and fitness. Upon completion, students should be able to plan a personal, lifelong fitness program based on individual needs, abilities, and interests. *This course has been approved for transfer under the CAA and ICAA as a pre-major and/or elective course requirement for the AA, AE, and AS degrees.*

PED 113 - Aerobics

0-3-0-0-1

Prerequisites: None; Corequisites: None

This course introduces a program of cardiovascular fitness involving continuous, rhythmic exercise. Emphasis is placed on developing cardiovascular efficiency, strength, and flexibility and on safety precautions. Upon completion, students should be able to select and implement a rhythmic aerobic exercise program. This course has been approved for transfer under the CAA and ICAA as a pre-major and/or elective course requirement for the AA and AS degrees.

PED 117 – Weight Training

0-3-0-0-1

Prerequisites: None; Corequisites: None

This course introduces the basics of weight training. Emphasis is placed on developing muscular strength, muscular endurance, and muscle tone. Upon completion, students should be able to establish and implement a personal weight training program. This course has been approved for transfer under the CAA and ICAA as a pre-major and/or elective course requirement for the AA and AS degrees.

PED 119 - Circuit Training

0-3-0-0-1

Prerequisites: None; Corequisites: None

This course covers the skills necessary to participate in a developmental fitness program. Emphasis is placed on the circuit training method which involves a series of conditioning timed stations arranged for maximum benefit and variety. Upon completion, students should be able to understand and appreciate the role of circuit training as a means to develop fitness. This course has been approved for transfer under the CAA and ICAA as a pre-major and/or elective course requirement for the AA and AS degrees.

PED 120 – Walking for Fitness 0-3-0-0-1 Prerequisites: None; Corequisites: None

This course introduces fitness through walking. Emphasis is placed on stretching, conditioning exercises, proper clothing, fluid needs, and injury prevention. Upon completion, students should be able to participate in a recreational walking program. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement for the AA and AS degrees.

PED 122 - Yoga I

0-2-0-0-1

Prerequisites: None; Corequisites: None

This course introduces more detailed aspects of the discipline of yoga. Topics include breathing and physical postures, relaxation, and mental concentration. Upon completion, students should be able to demonstrate advanced procedures of yoga. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement for the AA and AS degrees.

PED 154 – Swimming for Fitness

0-3-0-0-1

Prerequisites: None; Corequisites: None

This course introduces lap swimming, aquacises, water activities, and games. Emphasis is placed on increasing cardiovascular efficiency through aquatic exercise. Upon completion, students should be able to develop an individualized aquatic fitness program. This course has been approved for transfer under the CAA and ICAA as a pre-major and/or elective course requirement for the AA and AS degrees.

PED 165 – Sport Science As A Career 3-0-0-0-3 Prerequisites: None; Corequisites: None

This course provides students with foundational knowledge about the study of physical activity and career opportunities within the discipline. Emphasis will be placed on the role of physical activity, the subdisciplines of the field, and possible career choices. Upon completion, students should have an understanding of the subdisciplines and employment opportunities within an Exercise and Sport Science program. This course has been approved for transfer under the CAA and ICAA as a pre-major and/or elective course requirement for the AA and AS degrees.

PED 216 – Indoor Cycling 0-3-0-0-1

Prerequisites: None; Corequisites: None

This course is designed to promote physical fitness through indoor stationary cycling. Emphasis is placed on pedaling techniques, safety procedures, and conditioning exercises necessary for cycling. Upon completion, students should have improved cardiovascular and muscular endurance and be able to design and participate in a cycling for fitness program. This course has been approved for transfer under the CAA and ICAA as a pre-major and/or elective course requirement for the AA and AS degrees.

PED 217 – Pilates I 0-2-0-0-1

Prerequisites: None; Corequisites: None

This course provides an introduction to the pilates method of body conditioning exercise. Topics include instruction in beginning and intermediate pilates exercises using a mat or equipment, history of pilates method, and relevant anatomy and physiology. Upon completion, students should be able to perform beginning and intermediate exercises, and possess an understanding of the benefits of conditioning the body's core muscles. This course has been approved for transfer under the CAA and ICAA as a pre-major and/or elective course requirement for the AA and AS degrees.

PED 250 – Officiating/Bkball/Vball 1-2-0-0-2 Prerequisites: None; Corequisites: None

This course introduces the rules and techniques for sports officiating in basketball and volleyball. Emphasis is placed on officiating fundamentals and responsibilities. Upon completion, students should be able to demonstrate proper mechanics and knowledge of officiating procedures in basketball and volleyball. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement for the AA and AS degrees.

PED 251 – Officiating/Ftball/Soccer 1-2-0-0-2 Prerequisites: None; Corequisites: None

This course introduces the rules and techniques for sports officiating in football and soccer. Emphasis is placed on officiating fundamentals and responsibilities. Upon completion, students should be able to demonstrate proper mechanics and knowledge of officiating procedures in football and soccer. *This course has been*

approved for transfer under the CAA and ICAA as a pre-major and/or elective course requirement for the AA and AS degrees.

PED 252 – Officiating/Baseball/Softball 1-2-0-0-2 Prerequisites: None; Corequisites: None

This course introduces the rules and techniques for sports officiating in baseball and softball. Emphasis is placed on officiating fundamentals and responsibilities. Upon completion, students should be able to demonstrate proper mechanics and knowledge of officiating procedures in baseball and softball. This course has been approved for transfer under the CAA and ICAA as a pre-major and/or elective course requirement for the AA and AS degrees.

<u>PED 259 – Prev & Care Ath Injuries 1-2-0-0-2</u> Prerequisites: None; Corequisites: None

This course provides information on the prevention and care of athletic injuries. Topics include safety devices, taping, therapeutic techniques, and conditioning exercises. Upon completion, students should be able to demonstrate proper preventive measures and skills in caring for athletic injuries. This course has been approved for transfer under the CAA and ICAA as a pre-major and/or elective course requirement for the AA and AS degrees.

PHI 215 - Philosophical Issues 3-0-0-0-3 Prerequisites: ENG 111; Corequisites: None

This course introduces fundamental issues in philosophy considering the views of classical and contemporary philosophers. Emphasis is placed on knowledge and belief, appearance and reality, determinism and free will, faith and reason, and justice and inequality. Upon completion, students should be able to identify, analyze, and critically evaluate the philosophical components of an issue. This course has been approved for transfer under the CAA and ICAA as a pre-major and/or elective course requirement for the AA and AS degrees. This is a Universal General Education Transfer Component (UGETC) course in Humanities & Fine Arts for the AA and AE degrees.

PHI 240 - Introduction to Ethics 3-0-0-0-3
Prerequisites: ENG 111; Corequisites: None

This course introduces theories about the nature and foundations of moral judgments and

3-2-0-0-4

applications to contemporary moral issues. Emphasis is placed on moral theories such as consequentialism, deontology, and virtue ethics. Upon completion, students should be able to apply various ethical theories to moral issues such as abortion, capital punishment, poverty, war, terrorism, the treatment of animals, and issues arising from new technologies. This course has been approved for transfer under the CAA and ICAA as a pre-major and/or elective course requirement for the AA, AE, and AS degrees. This is a Universal General Education Transfer Component (UGETC) course in Humanities & Fine Arts for the AA, AE, and AS degrees.

PHY 110 - Conceptual Physics 3-0-0-0-3

Prerequisites: MAT 025 or MAT 035;

Corequisites: PHY 110A

This course provides a conceptually-based exposure to the fundamental principles and processes of the physical world. Topics include basic concepts of motion, forces, energy, heat, electricity, magnetism, and the structure of matter and the universe. Upon completion, students should be able to describe examples and applications of the principles studied. This course has been approved for transfer under the CAA and ICAA as a pre-major and/or elective course requirement for the AA and AS degrees. This is a Universal General Education Transfer Component (UGETC) course in Natural Sciences for the AA and AS degrees.

PHY 110A - Conceptual Physics Lab 0-2-0-0-1

Prerequisites: MAT 025 or MAT 035;

Corequisites: PHY 110

This course is a laboratory for PHY 110. Emphasis is placed on laboratory experiences that enhance materials presented in PHY 110. Upon completion, students should be able to apply the laboratory experiences to the concepts presented in PHY 110. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement for the AA and AS degrees. This is a Universal General Education Transfer Component (UGETC) course in Natural Sciences for the AA and AS degrees.

PHY 151 - College Physics I

Prerequisites: MAT 171 or MAT 271, minimum

Grade of "C"; Corequisites: None

This course uses algebra- and trigonometry-based mathematical models to introduce the fundamental concepts that describe the physical world. Topics include units and measurement, vectors, linear kinematics and dynamics, energy, power, momentum, fluid mechanics, and heat. Upon completion, students should be able to demonstrate an understanding of the principles involved and display analytical problem-solving ability for the topics covered. This course has been approved for transfer under the CAA and ICAA as a pre-major and/or elective course requirement for the AA and AS degrees. This is a Universal General Education Transfer Component (UGETC) course in Natural Sciences for the AS degree ONLY.

PHY 152 - College Physics II 3-2-0-0-4
Prerequisites: PHY 151, minimum Grade of "C":

Corequisites: None

This course uses algebra- and trigonometry-based mathematical models to introduce the fundamental concepts that describe the physical world. Topics include electrostatic forces, electric fields, electric potentials, direct-current circuits, magneto static forces, magnetic fields, electromagnetic induction, alternating-current circuits, and light. Upon completion, students should be able to demonstrate an understanding of the principles involved and display analytical problem-solving ability for the topics covered. This course has been approved for transfer under the CAA and ICAA as a pre-major and/or elective course requirement for the AA and AS degrees. This is a Universal General Education Transfer Component (UGETC) course in Natural Sciences for the AS degree ONLY.

PHY 251 - General Physics I 3-3-0-0-4 Prerequisites: MAT 271, minimum Grade of "C";

Corequisites: None

This course uses calculus-based mathematical models to introduce the fundamental concepts that describe the physical world. Topics include units and measurement, vector operations, linear kinematics and dynamics, energy, power, momentum, rotational mechanics, periodic motion, fluid mechanics, and heat. Upon completion, students should be able to demonstrate an understanding of the principles involved and display analytical problem-solving ability for the topics covered. *This course has been approved*

for transfer under the CAA and ICAA as a premajor and/or elective course requirement for the AA and AS degrees. This is a Universal General Education Transfer Component (UGETC) course in Natural Sciences for the AE and AS degrees.

PHY 252 - General Physics II 3-3-0-0-4 Prerequisites: MAT 272 and PHY 251, minimum Grade of "C"; Corequisites: None

This course uses calculus-based mathematical models to introduce the fundamental concepts that describe the physical world. Topics include electrostatic forces, electric fields, electric potentials, direct-current circuits, magneto static forces, magnetic fields, electromagnetic induction, alternating-current circuits, and light. Upon completion, students should be able to demonstrate an understanding of the principles involved and display analytical problem-solving ability for the topics covered. This course has been approved for transfer under the CAA and ICAA as a pre-major and/or elective course requirement for the AA and AS degrees. This is a Universal General Education Transfer Component (UGETC) course in Natural Sciences for the AE and AS degrees.

<u>POL 120 - American Government 3-0-0-0-3</u> Prerequisites: ENG 025; Corequisites: None

This course is a study of the origins, development, structure, and functions of American national government. Topics include the constitutional framework, federalism, the three branches of government including the bureaucracy, civil rights and liberties, political participation and behavior, and policy process. Upon completion, students should be able to demonstrate an understanding of the basic concepts and participatory processes of the American political system. This course has been approved for transfer under the CAA and ICAA as a pre-major and/or elective course requirement for the AA and AS degrees. This is a Universal General Education Transfer Component (UGETC) course in Social & Behavioral Sciences for the AA, AE, and AS degrees.

POL 130 - State & Local Government 3-0-0-0-3 Prerequisites: ENG 025; Corequisites: None

This course includes state and local political institutions development across the life span and apply this and practices in the context of American federalism. knowledge to their specific field of study. Emphasis is placed on procedural and policy

differences as well as political issues in state, regional, and local governments of North Carolina. Upon completion, students should be able to identify and discuss various problems associated with intergovernmental politics and their effect on the community and the individual. This course has been approved for transfer under the CAA and ICAA as a pre-major and/or elective course requirement for the AA degree ONLY.

POL 210 - Comparative Government 3-0-0-0-3 Prerequisites: ENG 025; Corequisites: None

This course provides a cross-national perspective on the government and politics of contemporary nations such as Great Britain, France, Germany, and Russia. Topics include each country's historical uniqueness, key institutions, attitudes and ideologies, patterns of interaction, and current political problems. Upon completion, students should be able to identify and compare various nations' governmental structures, processes, ideologies, and capacity to resolve major problems. This course has been approved for transfer under the CAA and ICAA as a general education course in Social & Behavioral Sciences for the AA and AS degrees.

POL 220 - International Relations 3-0-0-0-3 Prerequisites: ENG 025; Corequisites: None

This course provides a study of the effects of ideologies, trade, armaments, and alliances on relations among nation-states. Emphasis is placed on regional and global cooperation and conflict, economic development, trade, non-governmental organizations, and international institutions, such as the World Court and UN. Upon completion, students should be able to identify and discuss major international relationships, institutions, and problems. *This course has been approved for transfer under the CAA and ICAA as a general education course in Social & Behavioral Sciences for the AA and AS degrees*.

<u>PSY 110 - Life Span Development 3-0-0-0-3</u> Prerequisites: None; Corequisites: None

This course provides an introduction to the study of human growth and development. Emphasis is placed on the physical, cognitive, and psychosocial aspects of development from conception to death. Upon completion, students should be able to demonstrate knowledge of development across the life span and apply this knowledge to their specific field of study.

PSY 150 - General Psychology 3-0-0-0-3

Prerequisites: ENG 025; Corequisites: None

This course provides an overview of the scientific study of human behavior. Topics include history, methodology, biopsychology, sensation, perception, learning, motivation, cognition, abnormal behavior, personality theory, social psychology, and other relevant topics. Upon completion, students should be able to demonstrate a basic knowledge of the science of psychology. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement for the AA and AS degrees. This is a Universal General Education Transfer Component (UGETC) course in Social and Behavioral Sciences for the AA, AE, and AS degrees.

PSY 237 - Social Psychology 3-0-0-0-3

Prerequisites: PSY 150 or SOC 210;

Corequisites: None

This course introduces the study of individual behavior within social contexts. Topics include affiliation, attitude formation and change, conformity, altruism, aggression, attribution, interpersonal attraction, and group behavior. Upon completion, students should be able to demonstrate an understanding of the basic principles of social influences on behavior. This course has been approved for transfer under the CAA and ICAA as a general education course in Social and Behavioral Sciences for the AA and AS degrees.

PSY 239 - Psychology of Personality 3-0-0-03 Prerequisites: PSY 150; Corequisites: None

This course covers major personality theories and personality research methods. Topics include psychoanalytic, behavioristic, social learning, cognitive, humanistic, and trait theories including supporting research. Upon completion, students should be able to compare and contrast traditional and contemporary approaches to the understanding of individual differences in human behavior. This course has been approved for transfer under the CAA and ICAA as a general education course in Social and Behavioral Sciences for the AA and AS degrees.

<u>PSY 241 - Developmental Psychology 3-0-0-0-3</u> Prerequisites: PSY 150; Corequisites: None

This course is a study of human growth and development. Emphasis is placed on major theories and perspectives as they relate to the

physical, cognitive, and psychosocial aspects of development from conception to death. Upon completion, students should be able to demonstrate knowledge of development across the life span. This course has been approved for transfer under the CAA and ICAA as a general education course in Social & Behavioral Sciences for the AA and AS degrees.

PSY 263 - Educational Psychology 3-0-0-0-3 Prerequisites: PSY 150; Corequisites: ENG 111

This course examines the application of psychological theories and principles to the educational process and setting. Topics include learning and cognitive theories, achievement motivation, teaching and learning styles, teacher and learner roles, assessment, and developmental issues. Upon completion, students should be able to demonstrate an understanding of the application of psychological theory to educational practice. This course has been approved for transfer under the CAA and ICAA as a pre-major and/or elective course requirement for the AA and AS degrees.

PSY 281 - Abnormal Psychology 3-0-0-0-3 Prerequisites: PSY 150; Corequisites: None

This course provides an examination of the various psychological disorders, as well as theoretical, clinical, and experimental perspectives of the study of psychopathology. Emphasis is placed on terminology, classification, etiology, assessment, and treatment of the major disorders. Upon completion, students should be able to distinguish between normal and abnormal behavior patterns as well as demonstrate knowledge of etiology, symptoms, and therapeutic techniques. This course has been approved for transfer under the CAA and ICAA as a general education course in Social and Behavioral Sciences for the AA and AS degrees.

REL 110 - World Religions 3-0-0-0-3

Prerequisites: ENG 025; Corequisites: None

This course introduces the world's major religious traditions. Topics include Primal religions, Hinduism, Buddhism, Islam, Judaism, and Christianity. Upon completion, students should be able to identify the origins, history, beliefs, and practices of the religions studied. *This course has been approved for transfer under the CAA and ICAA as a general education course in*

Humanities and Fine Arts for the AA, AE, and AS degrees.

REL 211 - Introduction to Old Testament 3-0-0-03 Prerequisites: ENG 025; Corequisites: None

This course is a survey of the literature of the Hebrews with readings from the law, prophets, and other writings. Emphasis is placed on the use of literary, historical, archeological, and cultural analysis. Upon completion, students should be able to use the tools of critical analysis to read and understand Old Testament literature. This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities and Fine Arts for the AA and AS degrees.

REL 212 - Introduction to New Testament 3-0-0-0-3 Prerequisites: ENG 025; Corequisites: None

This course is a survey of the literature of first-century Christianity with readings from the gospels, Acts, and the Pauline and pastoral letters. Topics include the literary structure, audience, and religious perspective of the writings, as well as the historical and cultural context of the early Christian community. Upon completion, students should be able to use the tools of critical analysis to read and understand New Testament literature. This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities and Fine Arts for the AA and AS degrees.

REL 221 - Religion in America 3-0-0-0-3 Prerequisites: ENG 025; Corequisites: None

This course is an examination of religious beliefs and practice in the United States. Emphasis is placed on mainstream religious traditions and non- traditional religious movements from the Colonial period to the present. Upon completion, students should be able to recognize and appreciate the diversity of religious traditions in America. This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities and Fine Arts for the AA and AS degrees.

SEC 110 - Security Concepts 2-3-0-0-3 Prerequisites: CIS 110; Corequisites: None

This course introduces the concepts and issues related to securing information systems and the development of policies to implement information security controls. Topics include the historical

view of networking and security, security issues, trends, security resources, and the role of policy, people, and processes in information security. Upon completion, students should be able to identify information security risks, create an information security policy, and identify processes to implement and enforce policy.

SGD 111 – Simulation & Game Development 2-3-0-0-3 Prerequisites: None; Corequisites: None

This course provides students with an introduction to simulation and game development. Topics include setting, storytelling, narrative, character design, interface design, game play, internal economy, core mechanics, game genres, AI, the psychology of game design and professionalism. Upon completion, students should be able to demonstrate knowledge of the major aspects of simulation and game design and development.

SGD 112 – SGD Design I 2-3-0-0-3

Prerequisites: None; Corequisites: None

This course introduces the fundamentals of simulation and game design. Topics include industry standards and design elements for simulation and games. Upon completion, students should be able to design simple simulations and/or games.

SGD 113 – SGD Programming I 2-3-0-0-3 Prerequisites: None; Corequisites: None

This course introduces the fundamentals of programming languages and tools employed in simulation and game development. Emphasis is placed on programming concepts used to create simulations and games. Upon completion, students should be able to program simple games and/or simulations.

SGD 213 – SGD Programming II 2-3-0-0-3 Prerequisites: SGD 113, CSC-134, CSC-151 or CSC-153; Corequisites: None

This course covers advanced programming concepts used to create simulations and games. Emphasis is placed on acquiring advanced programming skills for use in creating simulations and games. Upon completion, students should be able to program an advanced simulation or game.

SOC 210 - Introduction to Sociology 3-0-0-0-3 Prerequisites: ENG 025; Corequisites: None

This course introduces the scientific study of human society, culture, and social interactions.

Topics include socialization, research methods, diversity and inequality, cooperation and conflict, social change, social institutions, and organizations. Upon completion, students should be able to demonstrate knowledge of sociological concepts as they apply to the interplay among individuals, groups, and societies. This course has been approved for transfer under the CAA and ICAA as a pre-major and/or elective course requirement for the AA, AE, and AS degrees. This is a Universal General Education Transfer Component (UGETC) course in Social and Behavioral Sciences for the AA, AE, and AS degrees.

SOC 213 - Sociology of the Family 3-0-0-0-3 Prerequisites: ENG 025; Corequisites: None

This course covers the institution of the family and other intimate relationships. Emphasis is placed on mate selection, gender roles, sexuality, communication, power and conflict, parenthood, diverse lifestyles, divorce and remarriage, and economic issues. Upon completion, students should be able to analyze the family as a social institution and the social forces which influence its development and change. This course has been approved for transfer under the CAA and ICAA as a general education course in Social and Behavioral Sciences for the AA and AS degrees.

SOC 220 - Social Problems 3-0-0-0-3
Prerequisites: ENG 025; Corequisites: None

This course provides an in-depth study of current social problems. Emphasis is placed on causes, consequences, and possible solutions to problems associated with families, schools, workplaces, communities, and the environment. Upon completion, students should be able to recognize, define, analyze, and propose solutions to these problems. This course has been approved for transfer under the CAA and ICAA as a general education course in Social and Behavioral Sciences for the AA and AS degrees.

SOC 225 - Social Diversity 3-0-0-0-3
Prerequisites: ENG 025; Corequisites: None

This course provides a comparison of diverse roles, interests, opportunities, contributions, and experiences in social life. Topics include race, ethnicity, gender, sexual orientation, class, and religion. Upon completion, students should be able to analyze how cultural and ethnic

differences evolve and how they affect personality development, values, and tolerance. This course has been approved for transfer under the CAA and ICAA as a general education course in Social and Behavioral Sciences for the AA and AS degrees.

SOC 240 - Social Psychology 3-0-0-0-3 Prerequisites: ENG 025; Corequisites: None

This course examines the influence of culture and social groups on individual behavior and personality. Emphasis is placed on the process of socialization, communication, conformity, deviance, interpersonal attraction, intimacy, race and ethnicity, small group experiences, and social movements. Upon completion, students should be able to identify and analyze cultural and social forces that influence the individual in a society. This course has been approved for transfer under the CAA and ICAA as a general education course in Social and Behavioral Sciences for the AA and AS degrees.

SPA 111 - Elementary Spanish I 3-0-0-0-3
Prerequisites: ENG 025; Corequisites: None

This course introduces the fundamental elements of the Spanish language within a cultural context. Emphasis is placed on the development of basic listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written Spanish and demonstrate cultural awareness. This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities and Fine Arts for the AA and AS degrees.

SPA 112 - Elementary Spanish II 3-0-0-0-3 Prerequisites: SPA 111; Corequisites: None

This course is a continuation of SPA 111 focusing on the fundamental elements of the Spanish language within a cultural context. Emphasis is placed on the progressive development of listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written Spanish and demonstrate further cultural awareness. *This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities and Fine Arts for the AA and AS degrees.*

SPA 211 - Intermediate Spanish I Prerequisites: SPA 112; Corequisites: None

This course provides a review and expansion of the essential skills of the Spanish language. Emphasis is placed on the study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate effectively, accurately, and creatively about the past, present, and future. This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities and Fine Arts for the AA and AS degrees.

TRF 110 - Introduction to Turfgrass Cultures & ID 3-2-0-0-4 Prerequisites: None: Corequisites: None

This course covers the principles of reproduction. growth development, species characteristics. establishment and maintenance of golf courses and sports fields, and lawns. Topics include principles of reproduction, growth development, species characteristics, establishment and maintenance of golf courses and sports fields. and lawn applications. Upon completion, students should be able to identify turfgrass species and develop an establishment and maintenance plan for high quality turf areas in accordance with sustainable practices.

TRF 120 - Turfgrass Irrigation & Design 2-4-0-0-4 Prerequisites: None; Corequisites: None

This course covers the basic techniques involved in the design, layout, installation, and use of water-wise turfgrass irrigation systems. Topics include types of irrigation systems, components of the systems, materials available for use, and economic considerations. Upon completion, students should be able to complete a functional design for a turfgrass irrigation system according to sustainable practices

TRF 152 - Landscape Maintenance 2-2-0-0-3 Prerequisites: None; Corequisites: None

This course introduces the tasks of landscape maintenance. Emphasis is placed on lawns, shrubs, trees, flowers, and ground covers. Upon completion, students should be able to maintain a landscape area on a year-round schedule.

TRF 210 - Turfgrass Equipment Management 1-4-0-0-3 Prerequisites: None; Corequisites: None

This course covers the operation and maintenance of specialized turfgrass

management equipment. Topics include small engine use and repair; operation, maintenance, and repair of turfgrass management equipment; organization of shop areas; and safety considerations. Upon completion, students should be able to operate and maintain turfgrass management equipment.

TRF 230 - Turfgrass Management Applications 1-2-0-0-2 Prerequisites: None; Requisites: None

This course introduces specific sports field design, installation, and maintenance. Topics include natural grass croquet courts and baseball, soccer, and football fields. Upon completion, students should be able to perform specific tasks in layout, field marking, and preparing for tournament play.

TRF 240 - Turfgrass Pest Control 2-2-0-0-3 Prerequisites: None; Corequisites: None

This course covers detection and identification of turfgrass pests with emphasis on methods of control or eradication. Topics include weeds, insects, diseases, and nematodes identification with an understanding of pesticides used, application procedures, and costs involved in control programs. Upon completion, students should be able to identify turfgrass pests, select the proper pesticide, develop pest control programs, and/or use integrated pest management.

TRF 260 - Advanced Turfgrass Management 3-2-0-0-4 Prerequisites: TRF 110; Corequisites: None

This course covers the principles and practices involved in turfgrass management. Topics include choosing the best management practice in mowing, pest control, fertilization, irrigation, traffic control, air control, budgeting, and materials procurement. Upon completion, students should be able to demonstrate knowledge of the principles covered and select and apply the best practices in turfgrass management.

WBL 111 - Work-Based Learning I

Prerequisites: Department Approval;

Corequisites: None

This course provides a work-based learning experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

WBL 112 - Work-Based Learning I 0-0-0-20-2

Prerequisites: Department Approval;

Corequisites: None

This course provides a work-based learning experience with a college- approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

WEB 115 – Web Markup & Scripting 2-3-0-0-3 Prerequisites: None; Corequisites: None

This course introduces Worldwide Web Consortium (W3C) Internet programming using JavaScript. Topics include basic syntax, object-oriented programming, functions, variables, events, arrays, validation, accessibility, and web standards. Upon completion, students should be able to write, debug, maintain well-formed and well documented interactive web content using JavaScript code.

WEB 120 – Intro to Internet Multimedia 2-2-0-0-3 Prerequisites: None; Corequisites: None

This course introduces the creation of rich media for the Internet. Topics include the design, production and delivery of interactive content, rich media, digital video, and digital audio. Upon completion, students should be able to create multimedia projects incorporating graphics, text, video, and audio using industry standard authoring software or web standards.

WEB 125 – Responsive Web Frameworks 2-3-0-0-3 Prerequisites: None; Corequisites: None

This course introduces students to responsive web frameworks. Topics include planning effective responsive websites, industry standard Markup Language, Cascading Style Sheets (CSS), testing, and web publishing. Upon completion, students should be able to plan, develop, test, and publish responsive web content.

WEB 182 – PHP Programming 2-3-0-0-3

Prerequisites: None; Corequisites: None

This course introduces students to the serverside, HTML-embedded scripting language PHP. Emphasis is placed on programming techniques required to create dynamic web pages using PHP scripting language features. Upon completion, students should be able to design, code, test, debug, and create a dynamic web site using the PHP scripting language.

WEB 210 – Web Design 2-

2-3-0-0-3

Prerequisites: None; Corequisites: None

This course introduces intermediate to advanced web design techniques. Topics include customer expectations, advanced markup language, multimedia technologies, usability and accessibility practices, and techniques for the evaluation of web design. Upon completion, students should be able to employ advanced design techniques to create high impact and highly functional web sites.

WEB 213 – Internet Mrktg & Analytics 2-3-0-0-3 Prerequisites: None: Corequisites: None

This course introduces students to Search Engine Optimization (SEO), Search Engine Marketing (SEM)and web analytics. Topics include Search Engine Optimization (SEO), Pay Per Click advertising (PPC), Search Engine Marketing (SEM), web analytics, eye-tracking software and email marketing. Upon completion, students should be able to set up, monitor and maintain SEO optimized websites; and develop strategies for online marketing and advertising plans.

WEB 214 – Social Media 2-3-0-0-3 Prerequisites: None; Corequisites: None

This course introduces students to social media for organizations. Topics include social media, marketing strategy, brand presence, blogging, social media analytics and technical writing. Upon completion, students should be able to utilize popular social media platforms as part of a marketing strategy, and work with social media analytics tools.

WEB 225 – Content Management Sys 2-3-0-0-3 Prerequisites: None; Corequisites: None

This course introduces students to Content Management Systems (CMS) designed for the publication of Web content to Web sites. Topics include individual user accounts, administration menus, RSS-feeds, customizable layout, flexible account privileges, logging, blogging systems, creating online forums, and modules. Upon completion, students should be able to register and maintain individual user accounts and create a business website and/or an interactive community website.

WEB 250 – Database Driven Websites 2-3-0-0-3 Prerequisites: None; Corequisites: None

This course introduces dynamic (database-driven) website development. Topics include the use of basic database CRUD statements (create, read, update and delete) incorporated into web applications, as well as in software architecture principles. Upon completion, students should be able to design and develop database drive web applications according to industry standards.

WLD 110 - Cutting Processes 1-3-0-0-2

Prerequisites: None; Corequisites: None

This course introduces oxy-fuel and plasma-arc cutting systems. Topics include safety, proper equipment setup, and operation of oxy-fuel and plasma-arc cutting equipment with emphasis on straight line, curve and bevel cutting. Upon completion, students should be able to oxy-fuel and plasma-arc cut metals of varying thickness.

WLD 115AB - SMAW (Stick) Plate 1-5-0-0-3 Prerequisites: None; Corequisites: None

This course introduces the shielded metal arc (stick) welding process. Emphasis is placed on padding, fillet, and groove welds in various positions with SMAW electrodes. Upon completion, students should be able to perform SMAW fillet and groove welds on carbon plate with prescribed electrodes. Credit for WLD 115 is only available after completion of both WLD 115AB and WLD 115BB.

WLD 115BB - SMAW (Stick) Plate 1-4-0-0-2 Prerequisites: None; Corequisites: None

This course introduces the shielded metal arc (stick) welding process. Emphasis is placed on padding, fillet, and groove welds in various positions with SMAW electrodes. Upon completion, students should be able to perform SMAW fillet and groove welds on carbon plate with prescribed electrodes. Credit for WLD 115 is only available after completion of both WLD 115AB and WLD 115BB.

WLD 117 - Industrial SMAW 1-4-0-0-3

Prerequisites: None; Corequisites: None

This course introduces the SMAW (stick) process for joining carbon steel components for industrial applications. Topics include padding, fillet, and groove welds in various positions with SMAW electrodes.

Upon completion, student should be able to safely perform SMAW fillet and groove welds on carbon steel plate with prescribed electrodes.

WLD 121 - GMAW (MIG) FCAW/Plate 2-6-0-0-4 Prerequisites: None; Corequisites: None

This course introduces metal arc welding and flux core arc welding processes. Topics include equipment setup and fillet and groove welds with emphasis on application of GMAW and FCAW electrodes on carbon steel plate. Upon completion, students should be able to perform fillet welds on carbon steel with prescribed electrodes in the flat, horizontal, and overhead positions.

WLD 131 - GTAW (TIG) Plate 2-6-0-0-4

Prerequisites: None; Corequisites: None

This course introduces the gas tungsten arc (TIG) welding process. Topics include correct selection of tungsten, polarity, gas, and proper filler rod with emphasis placed on safety, equipment setup, and welding techniques. Upon completion, students should be able to perform GTAW fillet and groove welds with various electrodes and filler materials.

WLD 132 - GTAW (TIG) Plate/PIPE 1-6-0-0-3 Prerequisites: WLD-131; Corequisites: None

This course is designed to enhance skills with the gas tungsten arc (TIG) welding process. Topics include setup, joint preparation, and electrode selection with emphasis on manipulative skills in all welding positions on plate and pipe. Upon completion, students should be able to perform GTAW welds with prescribed electrodes and filler materials on various joint geometry.

WLD 141 - Symbols & Specifications 2-2-0-0-3 Prerequisites: None; Corequisites: None

This course introduces the basic symbols and specifications used in welding. Emphasis is placed on interpretation of lines, notes, welding symbols, and specifications. Upon completion, students should be able to read and interpret symbols and specifications commonly used in welding.

WLD 231 – GTAW (TIG) Pipe 1-6-0-0-3

Prerequisites: WLD 132; Corequisites: None

This course covers gas tungsten arc welding on pipe. Topics include joint preparation and fit up with emphasis placed on safety, GTAW welding technique, bead application, and joint geometry.

Upon completion, students should be able to perform GTAW welds to applicable codes on pipe with prescribed electrodes and filler materials in various pipe positions.

WLD 262 - Inspection & Testing 2-2-0-0-3

Prerequisites: None; Corequisites: None

This course introduces destructive and non-destructive testing methods. Emphasis is placed on safety, types and methods of testing, and the use of testing equipment and materials. Upon completion, students should be able to understand and/or perform a variety of destructive and non-destructive testing processes.

CONTINUING EDUCATION, ECONOMIC AND WORKFORCE DEVELOPMENT

An important function of the College is to provide numerous courses for the continuing education of adults. The development of these courses is based upon the needs and interests of the professional, business, industry, and civic communities.

Continuing Education, Economic and Workforce Development promotes the concept of lifelong learning by providing meaningful educational experiences that will help adults meet occupational and professional goals and fulfill social and personal needs. Courses, programs, seminars, and career pathways assist adult learners with reaching their full potential in our ever-changing world of knowledge, skills, and understanding.

The diversity of these programs cover a broad spectrum of opportunities that include basic literacy, resume preparation, high school equivalency, trades education, computer skills, technical skill upgrades, personal enrichment, and much more. Some courses are offered on a continuing basis while others are established in response to specific requests by individuals or groups. Course descriptions are not listed in this catalog. However, information about courses may be obtained by contacting Continuing Education, Economic and Workforce Development or by visiting http://www.brunswickcc.edu/home /find-a-program/continuing-educationworkforce-development/

Admission to Continuing Education, Economic and Workforce Development Courses

Persons who wish to take courses for Continuing Education Unit (CEU) credit are admitted and enrolled at least 48 hours before the start date of the class. The Continuing Education, Economic and Workforce Development department periodically publishes class schedules.

For additional information contact: OneStop Student Services, 910.755.7320, OneStop@brunswickcc.edu.

Registration Information

Continuing Education students must complete registration and payment at least 48 hours (2 days) prior to the start of class unless stated otherwise. Should the College be closed 48 hours prior to the start of class, registration will be taken the first day the College is reopened. Registration forms are available online and within the College's OneStop Student Services Center located on the Main Campus, Building A.

Online: http://www.brunswickcc.edu/home/finda-program/continuing-educationworkforce-development/

OneStop Student Services Center Hours:

Monday through Thursday
7:30 a.m. – 5:30 p.m.
Friday
8:00 a.m. – 3:00 p.m. (except holidays)

Who May Register

Any adult, 18 years of age or older, may register for a course. Individuals 16 to 17 years old may register upon recommendation of the chief administrative school officer and parent/guardian.

Registration Fees

The North Carolina State Board of Community Colleges is responsible for our fee structure for Occupational Extension courses in compliance with North Carolina Statutes. Fee Waivers are determined by the North Carolina Community College System.

Hours Registration Fee 1 – 24 \$ 70.00 25 – 50 \$125.00 51 + \$180.00

Other costs in these classes may include textbooks and/or equipment and tools. In a limited number of self-supporting classes and seminars, special fees may be charged. Registration fees are subject to change

contingent upon action by the North Carolina General Assembly

Refund Policy

Refunds are allowed under the following circumstances:

- A student who officially withdraws, in writing, from an occupational extension class prior to the first class meeting or if a class is cancelled shall be eligible for a 100% refund.
- After class begins, 75% shall be refunded at the request of the student if the student officially withdraws, in writing, from the class prior to or at the 10% point of the scheduled hours of the class.

Note: This rule is applicable regardless of the number of times the class meets or the number of hours the class is scheduled to meet.

- For contact hour classes, students must withdraw, in writing, within 10 calendar days.
- Self-Supporting classes will refund 75% to the student with an official withdraw from the class prior to the start date. No refunds will be issued after the start date of class.
- If a student, having paid the required registration fee for a semester, dies during that semester (prior to or on the last day of examinations of the course the student was attending), all registration fees for that semester will be refunded to the estate of the deceased.

Class Locations

Many Continuing Education, Economic and Workforce Development classes are offered on the main campus of the College. However, to meet the increasing demand, additional classes are held online and at locations off-campus. Classes are held in the surrounding communities of Southport, Sunset Beach, Leland, local high schools, and in various businesses in Brunswick County. Almost any

course can and will be organized in any location when a sufficient number of citizens indicate an interest in having a class.

Myong & Paul Jensen Workforce Development Center 50 College Road, N.E. Bolivia, NC 28422

Leland Center 2045 Enterprise Boulevard Leland, NC 28451

> Southport Center 701 N. Lord Street Southport, NC 28461

Minimum Enrollment Required

Normally, a course will be offered when a minimum number of students enroll. The College reserves the right to cancel any course when an insufficient number of students' register.

Class Hours

The majority of occupational extension and community service courses are offered one or two days per week for one to four hours per day. Special extension, industrial, and seminar programs may be scheduled at the convenience of the participants and the College.

Continuing Education Units (C.E.U.)

The Continuing Education Unit (C.E.U.) is used as the basic measurement for an individual's participation in non-credit classes, courses, and programs. One (1) C.E.U. is defined as ten contact hours of participation in an organized continuing education class.

Workforce Development Pathways

Brunswick Community College has designed career pathways for students that are seeking programs that accelerate the development of employability skills and lead to national credentials. Students enrolled in workforce development can experience a series of interconnected educational training programs that can be completed in six months or less. The pathway framework enables individuals to secure a job or advance in a high demand industry. The courses are affordable and conveniently located throughout Brunswick County. The career pathways include:

Beauty & Wellness Services (Esthetics, Massage, Manicurist) **Building Construction / Code Enforcement** Computer Repair / A+ Certification Culinary **Dental Assisting** Electrical Technician / Lineworker Green Technology **Health Occupations** Heating & Air Conditioning Technician Hospitality Industrial & Facilities Maintenance Machine Technology Plumbing Technician Solar Installer Welding

Personal Computer Training provides classes for business and industry, and those seeking job opportunities requiring skills and certifications in software applications such as MS-Word, MS- Excel, MS-PowerPoint, Windows, Internet, and basic computer skills.

Emergency Services Training

Courses offered through this program area align with standards issued through the North Carolina Office of EMS, NC Office of State Fire Marshall, and North Carolina Criminal Justice Training Standards. The program also offers short-term training opportunities in OSHA, first aid, and CPR.

Emergency Medical Services

Emergency Medical Training provides certification, recertification courses, and continuing education for all EMT levels and Medical Responder.

Fire/Rescue

Fire Training provides instruction that focuses on firefighting techniques for members of municipal, volunteer, and industrial brigades. Many of the courses lead to certification that is recognized by the NC Office of State Fire Marshall.

Health Occupations

Health Occupation programs have been established for persons seeking additional medical, allied health, and nursing knowledge and skills. All levels of courses from paraprofessional to professional are offered. Students have the opportunity to experience both hands-on learning in our lab and a variety of clinical experiences in approved healthcare facilities/physicians' offices.

Law Enforcement In-Service

Law Enforcement In-Service courses are designed for upgrading both experienced and recently employed police officers and law enforcement officials. Training includes Mandated Training as set annually by the State of NC, Criminal Justice Training & Standards as well as the Sheriff's Training Standards Commission. In addition to the mandated training, other topics are developed and/or recruited.

Economic Development

Customized Training

One of the basic objectives of Brunswick Community College is to stimulate the creation of more challenging and rewarding jobs for the citizens of our area by providing a customized training service to new and expanding industries.

Subject to minimal limitation, Brunswick Community College, in cooperation with the NC Manufacturing Extension Partnership and NC Community College System, will design and administer a special program for training the production manpower required by any new or expanding industry creating new employment opportunities in North Carolina.

The purpose of this service is to help a new or expanding industry meet its immediate manpower needs and to encourage each industry to develop a long-range training program of its own to satisfy its continuing replacement and retraining needs. There is no charge for these services.

Business Innovation, Sustainability and Multicultural Programs

Business Innovation and sustainability provide resources and training for business and industry and the public on sustainability practices and workforce skills in the region. This program creates networking opportunities through events, workshops, classes, and forums. The purpose is to build local and regional partnerships, create an environment where new ideas flourish, problems become opportunities, and knowledge helps grow an organization, and provides up-to-date sustainability resources and tools from nationally and internationally recognized organizations. The resources available can add value to construction, manufacturing, small and large businesses, education. municipalities, healthcare, tourism, and agriculture.

The Multicultural Program is designed to help non-English speaking individuals learn workforce development skills in an English speaking environment.

Small Business Center

The Small Business Center is designed to serve prospective and existing small business owners with free, confidential one-on-one business counseling. A variety of business related seminars, workshops, and specific courses geared to small business owners are offered throughout the year at locations across the county.

The center works in cooperation with the area Chambers of Commerce, the Small Business Administration, SCORE, SBTDC, and many other agencies that provide information and assistance to small businesses.

The center focuses activities to those businesses generally employing ten or less. The Small Business Center strives to enhance all aspects of economic development in Southeastern North Carolina through its mission of increasing the success rate of entrepreneurs. The Center assists prospective and established small business persons to reach their full potential, by utilizing all resources available throughout the network. From its inception in 1986, Brunswick Community College's Small Business Center continues to serve its business community by working to identify and respond to its informational needs in a timely, efficient, and professional manner.

Community Services

The Community Services program offers individuals 16 years of age and older short-term courses for self-improvement, cultural enrichment, academic achievement, and personal development. The program provides access to lifelong learning opportunities that contribute to the community's overall cultural, civic, and intellectual growth.

Brunswick Community College provides personal enrichment experience as diverse as oil painting, dancing, quilting, cooking, or motorcycle safety, just to name a few. Personal enrichment programs offer a wide variety of learning experiences that expand individual interests, enhance abilities, and renew passion for artists, hobbyists, and those seeking an encore career.

Gateway to Employment & Academic Readiness

Adult Basic Education

Brunswick Community College's GEAR (Gateway to Employment & Academic Readiness) program is designed to improve students reading, communication, problem solving, computation, and writing skills. Instruction includes practical, real-life content that will prepare adults for employment, family finances, parenting, and contemporary society. Students can expect this program to lay the foundation for post-secondary education and higher income earnings.

Adult High School Diploma

The Adult High School Program (AHS) is designed to allow students the opportunity to complete a high school credential that mirrors a public school credential. The program is accredited by the Southern Association of Colleges and Schools and aligns with the North Carolina Community College System requirements which are established by the Department of Public Instruction. This diploma is the same as those offered through public school system in Brunswick County.

English as a Second Language

English as a Second Language is designed to quickly improve the adult learner's ability to speak, read, listen, and write the English language. Any adult student who does not speak English as their native language can enroll with no fees or tuition costs. Students will have the opportunity to use CASAS® listening assessments, Rosetta Stone®, All Stars, Milestones Reading Library, video streaming, and other online tools. The program is designed to move adult learners through the six levels of ESL instruction through small group instruction and ongoing assessment.

High School Equivalency (HSE)

The high school equivalency program has opened the doors of opportunity for millions of adult learners. This credential is the gateway to college, workplace learning, and family sustaining wages. The program's accelerated instruction prepares students for the official exams, which include four content areas. These areas are aligned with current high

school standards and career readiness/ employer expectations. The official HSE exam is provided via electronically using a desktop computer and upon request may be taken in paper base form. HSE content includes:

- A. Reasoning through Language Arts (RLA) (150 minutes)
 - 1. Section 1 (35 minutes)
 - 2. Section 2 (45 minutes)
 - 3. Student Break (10 minutes)
 - 4. Section 3 (60 minutes)
- B. Mathematical Reasoning (115 minutes)
 - Section 1 (first 5 test questions) calculator not allowed
 - 2. Section 2 (remaining 41 test questions)
 calculator allowed
- C. Science (90 minutes)
- D. Social Studies (90 minutes)
 - 1. Section 1 (65 minutes)
 - 2. Section 2 (25 minutes)

Human Resource Development (HRD) Program

HRD is designed to recruit, assist, and train the unemployed and underemployed adults of Brunswick County. The instructors have experience with career planning and are able to utilize a variety of assessments that measure individual interests and abilities. Fee waivers are available for qualifying students.

Career Readiness Certification

(CRC) is designed to meet the needs of both employers and job seekers in this transitioning economy. For employers, the CRC offers a reliable means of determining whether a potential employee has the necessary literacy, numeracy, and problem solving skills to be "job ready." For job seekers, the CRC serves as a portable credential that can be more meaningful to employers than a high school degree or a resume citing experience in a different job setting. The CRC is based upon WorkKeys, a state recognized, skills assessment tool developed by ACT®.

Workplace Literacy

The Workplace Literacy Program customizes basic skills classes for employers who want to upgrade workers' skills thus meeting the increasingly higher educational requirements of the workplace.

Brunswick Interagency Program

The Brunswick Interagency Program (BIP) is a comprehensive educational/vocational program for Brunswick County's residents diagnosed with intellectual/developmental disabilities from age 17 and older. Additional services and support are provided through our partnering agencies: Trillium Health Resources, North Carolina Vocational Rehabilitation, and North Carolina Council on Developmental Disabilities.

The program's adult basic education courses enable students to reach their full potential and achieve a higher level of independence in their community. The program provides access to a continuum of educational services and career coaching that compliments the strengths of each student. Students are assessed for progress and recognized throughout the duration of their enrollment in the program. The program provides

instruction that includes personal and community living skill development, literacy, budgeting, interviewing skills, effective communication and motor skill development. Use of leisure time, vocational evaluation and adjustment, and work activity training are included.

The Brunswick Interagency Program offers innovative approaches to supported employment. Assessment services or community and on-site employment is available for students who wish to enter the work force. Long-term support is offered to guarantee a long and successful work experience, personal satisfaction, and gratification for the student.

Brunswick Interagency Program employs a full-time director, an enhanced services coordinator, and two retention specialists that assist and refer qualifying students to day support services, financial benefits, community-based services, outpatient services, medical/ dental treatment, social activities, transportation, and residential placement.

Appendix A

STUDENT CODE OF CONDUCT

(Student Rights and Responsibilities)

The Student Code of Conduct Policy includes information concerning student rights, responsibilities, and procedures. Freedom to teach and freedom to learn are inseparable facets of academic freedom. The freedom to learn depends upon appropriate opportunities and conditions in the classroom, on the campus, and in the community. Students should exercise their freedom with responsibility. As members of the academic community, students are subject to all laws, the enforcement of which is the responsibility of duly constituted authorities. When students violate laws, they may incur penalties prescribed by legal authorities. When students violate College regulations, they are subject to disciplinary action by Brunswick Community College whether or not the conduct violates both College regulations and the law. The College may take disciplinary action independent of that taken by legal authorities.

Students shall enjoy all the rights and privileges guaranteed to every citizen by the Constitution of the United States and by the State of North Carolina. Students are free to pursue their educational goals through appropriate opportunities for learning in the classroom and on the campus. Students have the right to freedom of expression, inquiry, and assembly without restraint or censorship subject to rules and regulations regarding time, place and manner as specified in the College's Free Speech and Public Assembly Policy.

Students have the right to inquire about and to propose improvements in policies, regulations and procedures affecting the welfare of students through established student government procedures, campus committees and College offices.

The Family Educational Rights and Privacy Act (FERPA) of 1974 provides safeguards regarding the confidentiality of and access to student records. Students and former students have the right to review their official records and to request a hearing if they challenge the contents of these records. Brunswick Community College may release directory information to appropriate agencies and organizations. Brunswick Community College may disseminate information concerning student achievement, honors awarded or other exemplary actions or conduct. No other records shall be made available to unauthorized personnel or groups inside or outside the College without written consent of the student involved, except under legal compulsion.

I. Student Code of Conduct

The College reserves the right to maintain a safe and orderly educational environment for students and staff. When a student's conduct disrupts or threatens to disrupt the college community, appropriate disciplinary action will be taken to restore and protect the sanctity of the community.

The following regulations set forth rules of conduct that prohibit certain types of behavior. Violation of one or more of these regulations may result in disciplinary sanctions. Students are not permitted to engage in any of the following activities while participating in any college course while on campus, while participating in college sponsored events, or while in a college-owned vehicle.

- A. Academic dishonesty, which includes cheating, fabrication, falsification, multiple submission, plagiarism, abuse of academic material, and complicity in academic dishonesty.
- B. Theft of, misuse of, or damage to college property, or theft of or damage to property of a member of the college community or a campus visitor on college premises or at college functions.

- C. Trespass which includes unauthorized entry or presence on the property of the college or in a college facility or any portion therefore to which entry or presence has been restricted.
- D. Violation of the Drug and Alcohol Policy.
- E. Lewd or indecent conduct on college premises or at college sponsored or college supervised functions.
- F. Mental or physical abuse of any person on college premises or at college supervised functions, including verbal or physical actions which threaten or endanger an individual's health or safety.
- G. Violation of the Sexual Harassment Policy.
- H. Intentional obstruction or material and substantial disruption of teaching, administration or disciplinary proceedings, or other activities, including public service functions and other duly authorized activities on college premises.
- I. Occupation or seizure in any manner of college property, a College facility or any portion thereof for a use inconsistent with prescribed, customary or authorized use.
- J. Participating in or conducting an assembly, demonstration or gathering in a manner which threatens or causes injury to person or property; which is harmful, obstructive to the functions of Brunswick Community College; remaining at the scene of such an assembly after being asked to leave by a representative of the College staff.
- K. Possession or use of a weapon on college premises or at college sponsored or college supervised functions, except in connection with a college approved activity or stored and locked according to NC General Statute 14-269.2 (K).
- L. Setting off a fire alarm, using or tampering with any fire safety equipment on college premises or at college sponsored or college supervised functions, except with reasonable belief in the need for such alarm or equipment.
- M. Gambling on college premises or at college sponsored or college supervised functions.
- N. Smoking and/or using other forms of tobacco products in classrooms, shops, and labs or other unauthorized areas on college premises.
- O. Violations of college regulations regarding the operation and parking of motor vehicles.
- P. Forgery, alteration, or misuse of college documents, records or instruments of identification with intent to deceive.
- Q. Failure to comply with instructions of college officials acting in performance of their duties.
- R. Violation of the terms of disciplinary probation or any college regulation during the period of probation.
- S. Fiscal irresponsibility such as failure to pay college levied fines, failure to repay college-funded loans or the passing of worthless checks to college officials.
- T. Violations of local, state or federal criminal law on college premises, adversely affecting the College community's pursuit of its proper educational purposes.
- U. Unauthorized use of cell phones and other electronic devices during activities where use is directly prohibited (i.e. instructional time).

II. Disciplinary Procedures

Nothing in these policies shall limit an instructor's or administrative officer's discretion to warn a student against violating the Student Code of Conduct or from removing a student from a single class or activity for the duration of that specific class or activity. No disciplinary sanctions other than such a warning or temporary removal may be imposed upon any student except in accordance with this policy.

A. Emergency Suspension Activities

If it is determined by the Vice President of Student Affairs or his/her designee that a student's conduct poses a continuing threat to the health or well-being of any member of the academic community or the activities of the college, he/she may suspend the student from a course of the College until the investigation of the student's conduct can be completed. Prior to suspension, the student shall be given the opportunity to explain his/her conduct to the Vice President of Student Affairs or designated administrator. The instructor or administrative officer reporting the incident of student misconduct shall file a charge under (See C.1) with the Vice President of Student Affairs or designated administrator within one business day following the incident. The Vice President of Student Affairs or designated administrator shall resolve the matter in a timely fashion utilizing the steps outlined below.

B. Responsibility for Implementation

The Vice President of Student Affairs or designated administrator is responsible for implementing student discipline procedures.

C. Disciplinary Procedures

The following procedures shall be followed to provide an orderly procedure for handling student disciplinary cases:

1. Charges

Any administrative official, faculty member, or student may file charges with the Vice President of Student Affairs or designated administrator against any student or student organization for violations of College regulations. The individual(s) making the charge must submit a written statement which includes:

- a. name of the student(s) involved,
- b. the specific code(s) of conduct violated,
- c. a description of the incident(s), including the time, place, and date of the incident(s),
- d. names of person(s) directly involved or witnesses to the incident(s), and
- e. any action taken that related to the matter. The statement of the charge should be forwarded directly to the Vice President of Student Affairs or designated administrator.

2. Preliminary Investigation and Decision

Within ten (10) business days after the charge is filed, the Vice President of Student Affairs or designated administrator shall complete a preliminary investigation of the charge, which shall include meeting with the student being charged with a Code of Conduct violation and meeting with students involved to determine whether disciplinary sanctions should be initiated. In extraordinary discipline and safety issues, the Vice President of Student Affairs or designated administrator may elect to assemble an assessment team to assist in evaluating and assessing a student's behavior.

The Vice President of Student Affairs or designated administrator shall also meet with the student, present the student with the evidence against him/her, giving the student the opportunity to respond. In instances where the student cannot be reached to schedule an appointment with the Vice President of Student Affairs or designated administrator or where the student refuses to cooperate, the Vice President of Student Affairs or designated administrator shall send written correspondence letter to the student's Colleague or Police provided address (via email and 1-2 day mail service that requests read/receipt signature), which shall inform the student of the

charges, results of the preliminary investigation, the decision, and the appeals procedure (Section IV). The student may have access to the College's Learning Management System (LMS) to complete course work during the preliminary investigation and decision time frame. If a student elects to appeal the suspension, he/she may have access to course work through the College's LMS until the appeals process is complete and a final decision is rendered.

3. Decisions

If the Vice President of Student Affairs or assigned administrator determines that the student violated the Student Code, the decision shall include:

- a. a statement of the specific provision(s) of the Student Code that the student violated;
- b. a written copy of the evidence against them;
- c. a statement of sanctions imposed;
- d. a statement of the student's right to appeal the decision; and
- e. instructions governing the appeals procedure (Section VI).

If the Vice President of Student Affairs or designated administrator determines that the student did not violate a provision of the Student Code, then the decision shall state that the charge has been dismissed.

III. Sanctions

- A. <u>Reprimand</u>: A written communication which gives official notice to the student that one has violated the Student Code and any subsequent violation of the Student Code may carry heavier penalties because of this prior infraction.
- B. **General Probation:** An individual may be placed on General Probation when involved in a minor disciplinary offense. General Probation has two (2) important implications: the individual is given a chance to show one's capability and willingness to observe the Student Code without further penalty; secondly, if the student errs again, additional sanctions will be imposed for this violation. The probation will be in effect for no more than two (2) semesters.
- C. <u>Restrictive Probation</u>: Restrictive Probation results in loss of good standing and notation of such is made in the College community. Generally the individual will not be eligible for initiation into any local or any national organization and may not participate in any College or student organization, publication, or activity. This probation will be in effect for not less than two (2) semesters. Any violation of Restrictive Probation may result in immediate suspension.
- D. <u>Restitution</u>: Paying for damaging, misusing, destroying or losing property belonging to the College, college personnel, or students.
- E. <u>Emergency Suspension</u>: Exclusion from class(es), and/or all other privileges or activities as set forth in the notice, until a final decision has been made concerning the alleged violation.
- F. Loss of Academic Credit or Grade: Imposed as a result of academic dishonesty.
- G. Withholding Diploma or Right to Register: Imposed when financial obligations are not met.
- H. <u>Suspension</u>: Exclusion from class(es) and/or all other privileges or activities of the College for a specified period of time. This sanction is reserved for those offenses warranting discipline more severe than probation and for repeated misconduct. Students who receive this sanction must get specific written permission from the Vice President of Student Affairs before returning to campus.

- I. <u>Expulsion</u>: Dismissing a student from campus for an indefinite period. The student loses "student" status. The student may be readmitted to the College only with the approval of the Vice President of Student Affairs or the President of the College.
- J. <u>Group Probation</u>: This is given to a College club or other organization/group for a specified period of time. If group violations are repeated during the term of the sentence, the charter may be revoked or activities restricted.
- K. <u>Group Restriction</u>: Removing College recognition during the semester in which the offense occurred or for a longer period (usually not more than one semester). While under restriction the group may not seek or add members, hold or sponsor events in the College community, or engage in other activities as specified.
- L. <u>Group Revocation</u>: Removal of College recognition for a group, club, society, or other organization for a minimum of two years. Re-charter after that time must be approved by the President of the College.

IV. Appeal Procedure

A student who disagrees with the decision of the Vice President of Student Affairs or designated administrator may request a hearing before a Disciplinary Review Committee. The student must deliver a written request for a hearing, via email to the Vice President of Student Affairs or designated administrator within three (5) business days of receipt of the Vice President of Student Affairs or designated administrator's decision. As a general rule, the sanctions resulting from a disciplinary decision will be considered to be in place and enforced until such time as determined otherwise by the appeals committee. A student who enters into an appeal of a Code of Conduct ruling shall not be allowed to also submit a grievance related to the same incident(s) under the Student Grievance Policy. The appeal of the Code of Conduct ruling provides the student with a venue for seeking college action related to the incident(s).

A. Appointment of Disciplinary Review Committee

Within five (5) business days after receiving the request for a hearing, the President shall appoint a Disciplinary Review Committee, select a chair, and notify the Vice President of Student Affairs or designated administrator of committee members.

The Disciplinary Review Committee shall consist of one faculty member, one staff member, and one-student. All members of the Disciplinary Review Committee must not be directly responsible for the department from which the cause of the grievance originated. Should a committee member not be able to fulfill their commitment, the President of the College will appoint a replacement.

B. Guaranteed Student Procedural Rights

- The right to counsel. The role of the person acting as counsel is solely to advise the student. The counsel shall not address the Committee. If the student opts to bring counsel, the student must inform the Vice President of Student Affairs or designated administrator of this intention when the request for the hearing is filed. If the student brings counsel to the hearing without informing the Vice President of Student Affairs or designated administrator, the committee chairperson will give the student the option of proceeding without counsel or postponing the hearing for 5 working days.
- The right to request in writing, that the President disqualify any member of the Committee for cause. A request for disqualification, if made, must be submitted at least three (3) working days prior to the hearing. If such disqualification occurs, the Present shall appoint a replacement.

- The right to present relevant evidence and up to three witnesses in his/her defense.
- The right to a hearing before an impartial Disciplinary Review Committee.
- The right to hear and/or see the evidence against him/her and the right to crossexamine witnesses against him/her through prior submission of questions.

C. Preliminary Hearing before a Disciplinary Review Committee

- 1. Within ten (10) business days of the appointment of the Disciplinary Review Committee, the Disciplinary Review Committee shall conduct a preliminary hearing to which the Vice President of Student Affairs or designated administrator and the student shall be invited. During the preliminary hearing:
 - a. The Vice President of Student Affairs or designated administrator shall provide a written statement of charges against the student which shall include the information listed in Section II.C.1.
 - b. The Committee shall set a date and time for the hearing no later than ten (10) business days from the date of the preliminary hearing.
 - c. The Vice President of Student Affairs or designated administrator and the student shall exchange any documents they want to present at the Disciplinary Review Hearing. Each party shall also exchange any questions planned for witnesses.
 - d. The student shall provide the Vice President of Student Affairs or designated administrator and the Committee with his/her current address and telephone number and determine the primary means of communication between parties.
 - e. Members of the Committee shall inform the parties of any facts which could reasonably affect their ability to give the parties a fair hearing. If either party objects to the continued service of such member and any member of the committee concurs in that objection, then such member shall resign from the Committee. Within five (5) business days, the President shall appoint a new member of the Committee. The new Committee member shall be subject to the same qualifications and obligations as the original Committee members.

D. Hearings before the Disciplinary Review Committee

- 1. The hearing shall be confidential and shall be closed to all persons except the following:
 - a. Vice President of Student Affairs or designated administrator
 - b. witnesses who shall
 - give testimony singularly and in the absence of other witnesses. If the
 complainant or witness may be harmed emotionally by testifying in the
 presence of the respondent to the hearing, other arrangements will be
 made to allow participation without depriving the respondent access to the
 testimony, evidence or information.
 - leave the committee meeting room immediately upon the completion of their testimony
- The hearing will be recorded. Recordings will become the property of the College, and access to them will be determined by the Vice President of Student Affairs or designated administrator. All recordings will be stored in digital format by the office of the Vice President of Student Affairs or designated

administrator. The Committee shall have the authority to adopt supplementary rules of procedure consistent with this policy.

- 3. The Committee shall have the authority to render written advisory opinions concerning the meaning and application of this policy.
- 4. Within three (3) business days of completion of a hearing, the Committee shall meet in executive session to decide whether there has been a violation of the Student Code: and, if so, to recommend sanctions.
- 5. Decisions of the Committee shall be based upon a preponderance of the evidence as determined by a majority of the Committee.
- 6. Decisions of the Committee shall be in writing and contain at least a statement of the specific provisions of the Student Code that the student violated and a description of the facts supporting that conclusion; and sanction which shall be no greater than the sanction imposed by Vice President of Student Affairs or designated administrator; or charges were not proven by a preponderance of the evidence.
- 7. Within two (2) business days of the Committee's decision, the Committee Chairperson shall deliver a copy of the decision to the Vice President of Student Affairs or designated administrator and send a copy of the decision by email and 1-2 day mail service that requests read/receipt signature to the student's Colleague or Police recorded address.

E. Appeal to the President

If a student desires to appeal a decision of a Disciplinary Review Committee, he/she must deliver a written request for such appeal to the President within three (3) business days of receipt of the Committee's decision by email or by written request delivered to the college. The President shall have the authority to affirm, remand, modify or reverse the decision of the findings of the Committee. Within (10) working days of receiving the appeal, the President shall send the decision to the student by email and 1-2 day mail service that requests read/signature receipt. The decision of the President is final.

- 1. If a student fails to comply with any of the time requirements set forth herein with respect to completing and delivering the documents required to pursue his/her appeal, to appear or to be represented at any hearing, or otherwise to meet his/her other obligations under these procedures, then the last decision rendered on behalf of the college will stand as final, and all proceedings will be terminated. The college shall make every reasonable effort to comply with the timeliness requirements specified in the Student Code. The President shall investigate failures to comply with the timeliness requirements specified in the Student Code and take appropriate action. The College's failure to meet any deadline shall not exempt the student from any sanctions under the Student Code.
- A student's decision to withdraw from school during a disciplinary proceeding shall not affect the College's right to continue the disciplinary process or impose sanctions.

Approved by Brunswick Community College Board of Trustees January 15, 1997. Amended May 26, 2011, June 28, 2013, June 26, 2015, April 20, 2017, and January 12, 2018. Procedures Revised by Brunswick Community College Board of Trustees April 17, 2025.

Appendix B STUDENT GRIEVANCE POLICY

Brunswick Community College is committed to resolving complaints in a timely, fair, and amicable manner. The purpose of the Student Grievance Policy is to provide a system to channel student complaints against faculty and staff, except for the following:

- A. Grades, which shall be subject to the decision of the instructor unless related to some type of suspected discrimination:
- B. Attendance policies and matters of a purely academic nature, which shall be adjudicated through the Director, Department Chair, or Dean of the area of instruction; and
- C. Financial Aid eligibility, which shall be subject to review by the Financial Aid Appeals Committee with a final ruling by the Vice President of Student Affairs or appropriate administrator.

Specific grievances may include (but are not limited to):

- A. Alleged discrimination on the basis of age, sex, race, handicap or other conditions, preferences, or behavior, and
- B. Sexual harassment complaints, which should be directed to the Vice President of Student Affairs or appropriate administrator and/or the Director of Human Resources. Because of the sensitive nature of this kind of complaint, a conference with the Vice President of Student Affairs or appropriate administrator will replace the first step of the grievance procedure. The Vice President of Student Affairs or appropriate administrator will counsel the student to determine the appropriate action that is required. If the grievance is not resolved after this meeting, then the remainder of the grievance procedure will be followed.

Grievance Procedure

First Step

The student must go to the instructor or staff member where the alleged problem originated (except when the College employee is directly involved in an alleged case involving sensitive issues identified above). In extreme cases, such as alleged sexual harassment, the student may go directly to the Vice President of Student Affairs or any other Administrative official within whom the students feels comfortable. An attempt must be made to resolve the matter equitably and *informally* at this level. The conference must take place within 10 working days of the incident that generated the complaint. The student may elect to put one's concern in writing at this point, but a formal grievance form is not necessary.

Second Step

If the student complaint is not resolved to the student's satisfaction at the informal conference, the student may file a written grievance no later than 14 working days from the incident that generated the complaint. A Student Grievance Form is available on the College Website under the Resource Tab, "Incident Referral, Complaints, Grievances".

- The Vice President of Student Affairs or appropriate administrator will explain the grievance process to the student or direct them to review the policy and procedure in this College Catalog and Student Handbook.
- The Vice President of Student Affairs or appropriate administrator will give written acknowledgment of receipt of the completed grievance form. This acknowledgment may be given immediately or no later than two working days after receipt of the grievance form from the student.
- The Vice President of Student Affairs or appropriate administrator will then refer the grievance to the immediate supervisor involved no later than two working days after receipt of the grievance from the student.

• The supervisor must respond in writing to the student within 10 working days of receipt of the grievance form from the Vice President of Student Affairs or appropriate administrator. As a part of the effort to resolve the issue, the supervisor will consult with the chief administrative office of the division or department concerned.

Third Step

If the written statement of the supervisor does not satisfy the student to resolve the matter, a request to appear before the *Student Grievance Committee* may be made.

- The student must submit the request within five working days after receiving the written response of
 the supervisor. The request must include a copy of the original grievance form and the reason why
 the supervisor's response is unsatisfactory. A copy of the supervisor's response must be attached to
 the complaint filed by the student.
- The Vice President of Student Affairs or appropriate administrator must immediately notify the President who shall appoint a *Student Grievance Committee* composed of:
 - Three students recommended by the governing body of the Student Government Association.
 - Two faculty members recommended by the Vice President of Student Affairs or appropriate administrator.
 - One Student Services & Enrollment Management staff member recommended by the Vice President of Student Affairs or appropriate administrator.
- The Vice President of Student Affairs or appropriate administrator will send copies of the grievance to the members of the committee, the employee, and the employee's supervisor.
- The employee against whom the grievance was filed must be given an opportunity to respond in writing to the chairperson of the committee prior to the date of the Student Grievance Committee meeting.
- Meeting(s) must be conducted between five and 15 working days following the date of the request. A
 postponement may be granted by the chairperson upon written request of either party if the reason
 stated justifies such action. Postponement requests must be submitted to the office of the Vice
 President of Student Affairs or appropriate administrator.
- The Committee must hold interviews with the student, the employee, and the supervisor, singularly, in the absence of other witnesses. In cases of conflict of interest, the supervisor may not be interviewed. The Committee may interview additional witnesses that it considers necessary to render a fair decision.
- The Committee must decide by a majority vote the resolution of the grievance. In case of a tie, the chairperson will vote and break the tie. Within two working days of the last Grievance Committee interview meeting, the chairperson will forward a copy of the Committee's decision to all parties involved and to the Office of the President of the College.

Fourth Step

The Committee's decision may be appealed by either party to the President of the College within 10 working days of the Committee's decision.

- Either party may submit a written appeal to the President of the College.
- The President will review the Committee's findings, conduct additional inquires deemed necessary, and render a decision within 10 working days of receipt of the student's appeal. The decision of the President is final.

Approved by Brunswick Community College Board of Trustees January 15, 1997. Amended May 26, 2011, June 28, 2013, June 26, 2015 and April 20, 2017. Procedures Revised by President's Cabinet November 20, 2017.

Appendix C STUDENT DRUG AND ALCOHOL POLICY

The use and abuse of drugs and alcohol are subjects of immediate concern in our society. These problems are extremely complex and ones for which there are no easy solutions. From a safety perspective, the users and/or abusers of drugs or alcohol may impair the well-being of all employees, students, and the public at large, which may also result in damage to College property. Therefore, in compliance with the Federal Drug-Free Workplace and Drug-Free Schools and Campuses regulations, the College's policy is that the unlawful use, being under the influence of, possession, manufacture, distribution, or dispensation of controlled substances or alcohol is prohibited while on College premises or as a part of any College-sponsored activity. In addition, a student determined to be under the influence of a controlled substance or alcohol while on College premises, or as a part of any College-sponsored activity, is subject to disciplinary action. Any student violating this policy will be subject to disciplinary action up to and including expulsion and referral for prosecution.

The specifics of this policy are as follows:

- A. BCC does not differentiate between lawful users or sellers of drugs or alcohol. Any student who unlawfully possesses, uses, or is under the influence of, sells, gives, or transfers a controlled substance or alcoholic beverage to another person while on College premises or as a part of any College-sponsored activity will be subject to disciplinary action up to and including expulsion and referral for prosecution.
- B. A student who is enrolled in programs (continuing education or curriculum) and tests positive for controlled substances will be removed from the program and is subject to expulsion from the College.
- C. The term "controlled substance" means any drug listed in 21CFR, Part 1300 and 1308 federal regulations as well as those listed in Chapter 90 of the North Carolina General Statutes. Generally, these are drugs that have a high potential for abuse. Such drugs include, but are not limited to heroin, PCP, cocaine, crack, and marijuana. They also include "legal drugs" which are not prescribed by a physician to the person possessing them.
- D. The term "alcoholic beverage" includes beer, wine, whiskey, and any other beverage listed in Chapter 18B of the General Statutes of North Carolina. If any student is convicted of violating any criminal drug or alcoholic beverage control statutes while on College premises or as part of any College- sponsored activity, one will be subject to disciplinary action up to and including expulsion. Specifically, any such person who is convicted of a felony or a misdemeanor which results in a prison sentence will be expelled. Other misdemeanor convictions will be evaluated on a case-by-case basis, and the penalties to be imposed may range from written warnings or mandatory counseling or rehabilitation to expulsion from enrollment. Any such person charged with a violation of this policy concerning illegal drugs may be suspended from enrollment before initiation or completion of disciplinary proceedings if the Vice President of Student Affairs and/or assignee determines that the continued presence of such person within the college community would constitute a clear and immediate danger to the health or welfare of other members of the community after an appropriate pre-termination inquiry.
- E. Each student is required to inform the Vice President of Student Affairs and/or assignee in writing within five days after one is convicted of violation of any federal, state, or local criminal drug or alcoholic beverage control statute where such violation occurred while on a college- sponsored activity. A conviction means a plea or finding of guilt (including a plea of nolo contendere) and the imposition of a judgment by any federal government official.
- F. A description of applicable state sanctions, the health risks associated with the use of both illicit drugs and alcohol, and a listing of area treatment resources are published in the BCC College Catalog and Student Handbook.

Approved by Brunswick Community College Board of Trustees November 28, 1984. Amended June 21, 1989, February 22, 2006, June 14, 2011, and June 28, 2013.

Appendix D STUDENT GOVERNMENT ASSOCIATION

Constitution and Bylaws

Constitution

Preamble

We, the students of Brunswick Community College, in order to establish better communications, relationships, and understanding among students, faculty, staff, and trustees to better the College community in leadership, citizenship, responsible conduct, do ordain and establish this Constitution of the Student Government Association for the students of Brunswick Community College.

Article I: Name/Mascot/Objective

- The name of this organization shall be known as the Student Government Association of Brunswick Community College.
- 2. The mascot adopted shall be the Dolphin.
- 3. The objectives of the Student Government Association are:
 - a. To promote the welfare of the students.
 - b. To advise and work with the administration in the improvement of student life.
 - c. To establish an annual budget and plan activities with the collected Activity Fee.

Article II: Membership

Membership shall be open to every full-time and part-time curriculum student who pays the student activity fee and shall extend to these individuals the privilege of participating in all activities sponsored by the Student Government Association.

Article III: Executive Council Authority and Composition

The executive powers of the student body shall be vested in the Executive Council, composed of the student body President, Vice President, Secretary, Treasurer, Public Information Officer, and Parliamentarian, each of whom shall be elected by a simple majority of members of the Association, voting in a general election held annually in the fall semester each year. Students may hold office for a maximum of two years.

- A. The requirement for being elected to an executive office and holding that office throughout the term shall be as follows:
 - 1. Be a full-time curriculum student or enrolled in the last semester of a degree, diploma, or certification program.
 - 2. At all times throughout the term be in good standing with the College both academically and otherwise.
 - 3. Must maintain an overall 2.5 grade point average.
- B. The terms of office for all executive officers shall be one year, beginning July 1 and ending with graduation of the next calendar year.

Article IV: Student Senate

The Student Senate officers shall consist of two representatives from each curriculum, one acting and one alternate. Voting in each curriculum shall be by simple majority.

The requirements for being elected a Student Senator and holding the office throughout the term shall be as follows:

- A. Enroll in a minimum of 9 credit hours.
- B. At all times be in good standing with the College, both academically and otherwise.
- C. Maintain an overall 2.5 grade point average.

Article V. Meetings of the Association

- A. Regular Meetings Executive Council shall schedule a time and place for regular meetings.
- B. Senate Meetings The Student Senate shall hold one regular meeting each month.

Article VI. Amendment

The Senate, whenever necessary, shall propose amendments of the Constitution. Each shall be voted on and passed by a two-thirds vote of the Student Senate. Proposals for amendments will be made by the Senate. Final approval of amendments will rest with the SGA Executive Council and Vice President of Student Affairs or appropriate administrator.

Article VII. Ratification

The Constitution and amendments to it shall be adopted upon approval by two-thirds vote of the Student Senate. These adoptions are subject to approval of the Vice President of Student Affairs or appropriate administrator.

Bylaws

Article I: Purpose of the SGA Bylaws

The Bylaws are the working rules of the SGA and are subject to change by approval of the Student Senate. Two-thirds majority is required to change the Bylaws. The Bylaws must not conflict with the Constitution of the SGA.

Article II: Amendments

The Senate, whenever necessary, shall propose amendments of the Bylaws. Each shall be voted on and passed by a two-thirds vote of the Student Senate. Proposals for amendments will be made by the Senate. Final approval of amendments rests with the Vice President of Student Affairs or appropriate administrator and SGA Executive Council.

Article III: Ratification

The Bylaws and amendments to it shall be adopted upon approval by a two-thirds vote of the Student Senate. The adoptions are subject to the approval of the Vice President of Student Affairs or appropriate administrator and the SGA Executive Council.

Article IV: Quorum

A quorum shall consist of two-thirds of the Student Senate membership to vote on issues or motions.

Article V: Duties of the Office of President

- A. Administer and uphold the Constitution of the Association.
- B. Support suggested student activities and to encourage support by Student Government Association representatives.
- C. Chair all meetings as stated in Roberts Rules of Order, Newly Revised.
- D. Protect the assembly from obviously frivolous or dilatory motions by refusing to recognize them.
- E. Authenticate by one's signature, when necessary, all acts, orders, and proceedings of the assembly.
- F. Be the official representative of the students of Brunswick Community College on all occasions and functions wherein participation is required.
- G. Serve as a non-voting member of the Board of Trustees of Brunswick Community College.
- H. Be the official spokesperson for the SGA.
- I. Know one's rights and the rights of the SGA.

Article VI: Duties of the Office of Vice President

- A. To assist the President in any way necessary.
- B. To fulfill the duties of the President in case of illness or absence of the President.
- C. To take the office of President and to carry out the duties of the office for the remainder of the term in the event the President resigns or is unable to complete one's term.

Article VII: Duties of the Office of Secretary

- A. Keep a record (minutes of all the proceedings) of the meetings, both regular and special, of the organization.
- B. Keep on file all committee reports and to keep a list of all existing committees and their members.
- C. Keep the organization's official membership roll and to call the roll at meetings.
- D. Make the minutes and records available to members upon request.
- E. Notify officers, committee members, and delegates of their election or appointment.
- F. Sign all certified copies of acts of the SGA.
- G. Maintain record book(s) in which the minutes are entered and to have the current record book(s) on hand at every meeting.
- H. Send out to the membership a notice of each meeting, known as the "Call of the Meeting," and to conduct the general correspondence which is not a function proper to other offices or to other committees.
- I. Prepare prior to each meeting an order of business for the use of the presiding officer, showing their exact order, under each heading, all matters known in advance that are due to come up and, if applicable, the times for which they are set.
- J. In the absence of the President and Vice President, call the meeting to order and preside until the election of a Chairman Pro Tem, which should take place immediately.

Article VIII: Duties of the Office of Treasurer

- A. To keep an accurate record of financial actions of the Student Government Association based on financial reports prepared monthly by the Business Office of Brunswick Community College.
- B. To prepare and submit to the Student Government Association an annual financial report.

Article IX: Duties of the Office of Parliamentarian

- A. Be a key consultant in the preparation for a meeting or convention and be well engaged in advance.
- B. Serve as the principal advisor to the President, the officers, and the committee chair regarding management of the meeting as it relates to actual business.
- C. Protect the assembly from obviously frivolous or dilatory motions by refusing to recognize them.
- D. Assist the President in chairing the meeting according to Robert's Rules of Order, Newly Revised.

Article X: Duties of the Public Information Officer

- A. Serve as a member of the Senate and is responsible for the maintenance of SGA bulletin boards.
- B. Coordinate publicity for all SGA activities.
- C. Responsible for all SGA public relations.
- D. Manage SGA social media accounts with the support of other SGA representatives and appropriate BCC staff.

Article XI: Duties of the Early College Representative

- A. Update the Student Government Association of any Early College business and/or events.
- B. Report back to Early College of Brunswick Community College on college official business and/or events as deemed appropriate.
- C. Make special reports on committees that are assigned to them by the President.

Article XII: Duties of the Brunswick Interagency Representative

- A. Update the Student Government Association of any BIP business and/or events.
- B. Report back to BIP of Brunswick Community College on college official business and/or events as deemed appropriate.
- C. Make special reports on committees that are assigned to them by the President.

Article XIII: Duties of the Student Senate

- A. Recommend rules and procedures necessary and proper to promote the general welfare of the student body.
- B. Hold one regular meeting each month.
- C. Attend meetings, both regular and special.
- D. Take on the responsibilities as Chairman on special appointed committees.
- E. Report back to the students in their curriculums what has taken place in the meetings.
- F. Elect a President and Vice President to fulfill the regular term, in the event both are unable to carry out their duties to the extent that they were expected.
- G. Make special reports on committees that were assigned to them by the President.
- H. Remove and replace any chairperson or member who is found guilty of unethical actions, reasons, or conduct.

Article XIV: Motions

- A. Motions are to be made in accordance with regulations stated in Robert's Rules of Order, Newly Revised.
- B. Motions are to be presented in writing.
- C. Motions may be oral with the consensus of the Senate.

Article XV: Committees

- A. The President is to be an ex-officio member to all committees.
- B. A representative of the SGA will serve on the following committees of the College:
 - 1. Institutional Effectiveness Team
 - 2. Marketing Committee
 - 3. Athletics Committee
 - 4. Odell Williamson Auditorium Advisory Committee
- C. Committees are to be appointed by the President.
- D. The President will appoint someone to the position of chairperson and appoint committee members.
- E. The President may pass appointment of committee members to chairs.

Article XVI: Petitions

- A. The Student Government Association is under no obligation to recognize petitions
- B. Petitions may be presented in the form of suggestions and through each curriculum Senator in the form of motions.

Article XVII: Impeachment

- A. The Student Senate shall have the power to try all impeachments.
- B. The SGA President shall have the power of veto over impeachments.
- C. Grounds for impeachment are as follows:
 - Actions unbecoming of a student at BCC.
 - 2. If an Executive Officer or Senator is negligent of one's SGA duties and responsibilities.
 - 3. Failure to comply with any part of the Constitution or Bylaws of this organization.
 - 4. Any SGA member Senator/Executive Council missing more than three (3) meetings without just cause will be subject to impeachments

Article XVIII: Parliamentarian Authority

- A. The main parliamentary authority of the Student Government Association shall be Robert's Rules of Order, Newly Revised.
- B. Other parliamentary authorities shall include:
 - 1. The Bylaws of the Student Government Association.
 - 2. Person(s) knowledgeable of parliamentary procedures.

Article XIX: Visitors

Visitors will be allowed to attend Student Government Association meetings. They will be allowed only to observe. Visitors cannot participate in discussion, debate, or voting unless on special occasions when they are recognized by the Chair.

Article XX: Minutes

- A. Minutes are to be filed in the SGA files.
- B. Minutes are to be typed and distributed within three school days after the meeting.
- C. Minutes are to be distributed to Senate, one copy per person.
- D. Minutes are to be posted on the student bulletin boards.

Article XXI: Student Senate Meetings

- A. Meetings are to be held monthly.
- B. The Student Senate meetings shall be conducted according to the parliamentary procedures outlined in Robert's Rules of Order, Newly Revised.
- C. A guorum shall consist of a majority of Student Senate membership.
- D. To vote on issues, two-thirds majority of the Student Senate membership must be present.

Article XXII: Executive Council Authority

- A. To dismiss any Senator who has missed three meetings without cause.
- B. To have the power to veto any measure passed by the Senate.

Article XXIII: Statement of Nondiscrimination

It is the policy of Brunswick Community College that membership in student organizations is open to all eligible students in accordance with the Constitution and/or Bylaws of the various student organizations. Membership is open to all students without regard to race, religion, color, national origin, gender, gender expression, age, political affiliation, genetic information, sexual orientation, or disability.

Article XXIV: Amendment in Absence of Executive Team

If it is not possible for the SGA to meet in its full working capacity, at least 50% of the Senate Body shall constitute the two-thirds as required by the Constitution and Bylaws.

Article XXV: Vacancies

A. Senators

If a Senator resigns or is impeached, the vacancy will be posted for seven school days. If there are no applications, the program advisor may select a student from the curriculum. If more than one applies, the Senator will be selected by the Senators and the Executive Council.

B. Executive Officers

If there is a vacancy in an Executive office, the SGA Advisor and current executive officers shall have the power to appoint a new officer. Vacancies may occur automatically under the following conditions:

- 1. Failure to register as a student (except during summer semesters).
- 2. Voluntary withdrawal from the College.
- 3. Suspension from the College.
- 4. Student not in good standing or who has had poor conduct with the SGA and the College.

5. Written resignation

a. A written resignation goes into effect immediately.

Article XXVI: Purchase Orders

Before a requisition goes through the Business Office, it must be signed by the SGA Advisor and Vice President of Student Affairs or assigned administrator. All purchase orders must be approved by the SGA President and/or Senate Body including amounts and purpose of purchase and be reflected in the minutes of the meeting.

Article XXVII: BCC Board Meetings

The SGA President will attend all BCC Board Meetings. Other members are invited to attend any Board Meeting unless it is an Executive Board closed session.

Article XXVIII: Oath of Officers

The Oath shall take place at the first meeting after the elections in the spring semester. The Oath of office shall be as follows:

I pledge to uphold the SGA Constitution and Bylaws and to abide by the regulations and policies as prescribed by the Trustees and administration of Brunswick Community College.

I pledge to be fair in all my endeavors and to promote good will for Brunswick Community College.

I pledge to be fair in all my responsibilities of my office, to the best of my ability and to promote harmony among all segments of the student body.

The Oath shall be administered by the Vice President of Academic and Student Affairs or the President of the College.

Article XXIX: Chartering

The Brunswick Community College Student Government Association must approve the Charter of every club or organization on the campus.

Appendix E INFORMATION TECHNOLOGY SERVICES

Password & Username Information

Usernames, passwords, and multi-factor authentication needed to access computing resources at Brunswick Community College are provided for all students, faculty, and staff from the Information Technology department.

Student usernames are generated by combining the first four letters of the student's first name and the last five digits of the student's college ID. Passwords are auto generated using the first two letters of the last name, first letter uppercase, second lowercase, followed by the person's birthdate in MMDDYY. All passwords expire every 180 calendar days. These can be reset using the Self-Service Password Reset tool on the brunswickcc.edu website located on both the Student Portal and My BCC pages. The Self-Service Password Reset tool is also available as Password Management on the Moodle homepage via the BCC Sites drop-down. Multi-factor authentication is required to access BCC computing resources.

Faculty and Staff usernames and passwords are created following the same format as students for new employees.

Internet Use Disclaimers

- Users of BCC computing resources are advised that the range of content in information available via the Internet is broad and is uncensored.
- The availability of such information does not imply that BCC approves of, condones, endorses, or accepts responsibility for any content not under its control.
- BCC makes no guarantee as to the validity or reliability of information accessed via the Internet.
- Information obtained from Internet sources should be properly cited based on Instructor or course requirements.
- Users of BCC computer equipment are NOT guaranteed personal identification security during online payment using credit cards, nor is guarantee implied.

Improper or questionable Internet use may be treated as misconduct and may result in disciplinary action. Computing privileges may be terminated, and violators may be subject to the judicial procedures of the College.

Computer Software Policy

In support of and compliance with federal copyright law, Brunswick Community College requires that all computer software located within any facility of the College be purchased and used only by the College according to current licensing agreements with respective software manufacturers.

Infringements of this policy include the making or use of unauthorized software by copying, sharing, lending, giving, transferring, and/or installing software in ways not covered by the licensing agreement for particular software purchased by the College. All software requisitions must be approved by the Chief Information Officer prior to purchase. Software not purchased by the College will be considered unauthorized.

Such infringements constitute grounds for disciplinary action by the College and/or prosecution by software manufacturer(s) and the College. Compliance will be monitored through procedures adopted by the College.

Periodic audits of software will be conducted by the Chief Information Officer. Any unauthorized software may be erased by the Chief Information Officer without notification or permission of the user.

Approved by Brunswick Community College Board of Trustees March 17, 1993: and Amended June 28, 2013.

Electronic Records Retention Policy

Purpose

In today's College environment, employees create and maintain an increasing portion of their records using computers. Electronic records must be managed alongside traditional records to ensure compliance with state and federal regulations and to preserve institutional history.

The purpose of this policy is to inform College employees and departmental management of the requirements and responsibilities for management and disposition of electronic records.

Scope

The electronic records retention policy set forth herein applies to all employees of the College and applies to all electronic records that are made or received in the transaction of College or public business.

Definitions

- A. The term "electronic record" means any record that is created, received, maintained or stored on College local workstations or central servers. Examples include, but are not limited to:
 - a. electronic mail (e-mail)
 - b. word processing documents, spreadsheets, and databases
- B. The term "legal custodian" shall mean the originator of an e- mail message or the creator of an electronic document if that person is a College employee; otherwise it is the College employee to whom the message is addressed or to whom the electronic document is sent. If the record is transferred, by agreement or policy, to another person for archival purposes, then that person becomes the legal custodian
- C. "Official" records retention and disposition schedules are the general and departmental program schedules that have been approved by the state and the College (NCDCR 2-19-99).

Policy Statement

A. General Requirements

Maintenance and disposal of electronic records, as determined by the content, is the responsibility of the legal custodian and must be in accordance with guidelines established by the Department of Cultural Resources (G.S. §121-5) and also in compliance with State and College approved records retention and disposition schedules (NCD of Cultural Resources 2-19-99). Failure to properly maintain electronic records may expose the College and individuals to legal risks.

The department head of an office having public records is responsible for ensuring compliance with this Policy and with the Public Records Act. When an employee leaves a department or the College, the department head is responsible for designating a new custodian and ensuring that any public records in the separating employee's possession are properly transferred to the new custodian. The department head is responsible for contacting Information Technology Services to arrange for the transfer of the electronic records to the new custodian before the accounts are scheduled to be deleted.

B. Electronic Mail

Work-related e-mail is a College record, and must be treated as such. Each e-mail user must take responsibility for sorting out personal messages from work-related messages and retaining College records as directed in official records retention and disposition schedules. E-mail that does not meet the definition of a public record, e.g., personal e-mail, or junk e-mail, should be deleted immediately from the system.

Email accounts are provided by BCC to students <u>(user@student.brunswickcc.edu)</u> and to employees (user@brunswickcc.edu) using Office 365. These two (2) account domains will be the primary, preferred contact addresses used by BCC for communication purposes. It is important that you maintain your access and use these accounts for all College communication.

BCC e-mail servers are NOT intended for long-term record retention. BCC does follow the 7 year retention policy as forth by the State of North Carolina Community Colleges through the use of E-mail archiving. E-mail messages of major importance and any associated attachment(s) with retention periods greater than three (3) years are to be printed and filed in similar fashion to paper records. It is important to note that the e-mail messages should be kept with the attachment(s). The printed copy of the e-mail must contain the following header information:

- 1. Who sent message
- 2. Who message was sent to
- 3. Date and time message was sent
- 4. Subject

When an e-mail is used as a transport mechanism for other record types, it is possible, based on the content, for the retention and disposition periods of the e-mail and the transported record(s) to differ. In this case, the longest retention period shall apply.

Instant Messaging

The College does not support the use of Instant Messaging (IM) for College business.

ITS Backup Files

Information Technology Services performs backups on a regular schedule of the e-mail and electronic files stored on central servers for disaster recovery. These backups are to be used for system restoration purposes only. The IT system administrator is not the legal custodian of messages or records which may be included in such backups.

Litigation Holds

When litigation against the College or its employees is filed or threatened, the law imposes a duty upon the College to preserve all documents and records that pertain to the issues. As soon as the College is made aware of pending or threatened litigation, a litigation hold directive will be issued to the legal custodians. The litigation hold directive overrides any records retention schedule that may have otherwise called for the transfer, disposal or destruction of the relevant documents, until the hold has been cleared by the College. E-mail and computer accounts of separated employees that have been placed on a litigation hold by the College will be maintained by Information Technology Services until the hold is released. No employee who has been notified by the College of a litigation hold may alter or delete an electronic record that falls within the scope of that hold. Violation of the hold may subject the individual to disciplinary action, up to and including dismissal, as well as personal liability for civil and/or criminal sanctions by the courts or law enforcement agencies.

Enforcement

Failure to comply with the Electronic Records Retention Policy and associated guidelines and procedures can result in disciplinary action and penalties applicable by law.

Review

The Chief Information Officer submitted the Electronic Records Retention Policy to the Board of Trustees. The policy will be reviewed periodically and recommendations presented to the Board of Trustees and the College President.

Approved by Brunswick Community College Board of Trustees June 9, 2010; Amended June 28, 2013

Wireless Communication Policy

Purpose

The Brunswick Community College's (hereinafter "College") computing and telecommunication networks, computing equipment and computing resources are owned by the College and are provided to support the academic and administrative functions of the College. Federal and state law, and College policies and procedures govern the use of this equipment and technologies. Any additional requirements must be in compliance with applicable federal and state laws, and this policy.

Wireless communications networks use radio waves as a transport medium in lieu of copper cables to transmit voice and data signals. As such, they permit wireless-equipped communications devices to have mobile access to the College (wired) network wherever wireless communications access points are installed.

The purpose of this policy is to set the standard for network operation and security, specifically in the context of wireless network access. The configuration, installation, and maintenance of wireless communication network access point devices, if unmanaged, could result in severe interference with other network users and serious security risks.

Information Technology Services (ITS) defines the standards for the use of networks, including the wireless communications spectrum on campus.

Scope

This policy applies to all faculty, staff, students, and others who use the wireless communications spectrum. Adherence to the policy will help protect the integrity of the campus wireless network and mitigate security risks.

Procedures

- A. The Wireless Spectrum
 - 1. BCC regulates and manages all unlicensed radio frequencies on campus.
 - 2. Wireless equipment installed by ITS uses either the FCC unlicensed 2.4 GHz Industrial/Scientific/ Medical (ISM) band or the FCC 5.0 GHz Unlicensed National Information Infrastructure (U-NII) band.
 - 3. Wireless equipment transmissions within the 2.4 GHz and 5.0 GHz bands conform to current IEEE 802.11 wireless LAN specifications.
 - 4. ITS may restrict the use of any potentially interfering wireless radio device in College- owned buildings and all outdoor spaces on the BCC campus.
 - Faculty who believe they have special wireless needs should contact ITS.
- B. Wireless Network Operation and Security
 - 1. ITS will provide spectrum tuning, and general device management per access area according to wireless access device management standards.
 - Wireless networks will be segmented and treated as a "foreign/untrusted network" from a security standpoint. A firewall, router/switch VLAN technology, or similar technology will be employed to provide this segmentation.
 - 3. Wireless users must be authenticated with unique user credentials.
 - 4. Wireless traffic involving data classified as Restricted under the Data Classification Policy must be used only during registration periods and under the regulations of ITS.
 - 5. Only authorized access points will be permitted. Unauthorized access points will be disabled.
 - 6. Unauthorized traffic interception and/or bridging between the wired and wireless network is prohibited
 - 7. Applications supported over the wireless network will be limited, as long as this is necessary to provide an acceptable quality of service for all users.
 - 8. No wireless spectrum interference or disruption of other authorized communications is permitted.

Enforcement

ITS will enforce the Wireless Communications Policy and establish standards, procedures, and protocols in support of the policy.

ITS has the authority to disconnect network service or modify/enhance network security without notification in the event of law violation, systems compromise involving Restricted data as defined by the Data Classification Policy, or negative network communications impact affecting service for other users.

Review

The CIO for Information Technology Services has submitted the *Wireless Communications Policy* to the Board of Trustees for approval and will periodically review the policy.

Approved by Brunswick Community College Board of Trustees June 9, 2010; and Amended June 28, 2013.

Appendix F College Readiness Placement Guide

Brunswick Community College will accept your unweighted U.S. high school GPA, coursework, and NCDAP, SAT, ACT, GED, HiSET, RISE Placement, and ACCUPLACER scores for college course placement. Students without the appropriate high school GPA and coursework and who have ACT, SAT, RISE Placement, and ACCUPLACER scores that do not place them into college-level courses will be required to enroll in College Readiness Courses or take the ACCUPLACER for possible placement into college level courses.

Course	Unweighted US HS GPA	ACT Math	SAT Math Scores 2016 - present	GED Scores 2014 - present	HiSET Scores 2014 - present	CCRG Math Test Score	RISE Placement Test	Accuplacer NextGen	Dev Ed Courses Completed	Additional Notes

Appendix G GLOSSARY OF FREQUENTLY USED TERMS

Academic Advising: Academic Advising is provided by faculty and Academic Success Coaches. Academic advising is an interactive process that connects students with faculty. Students meet with advisors at least two or three times a year to review academic progress. During advising sessions, faculty help students make informed career and academic decisions by clarifying goals, exploring career options, and learning opportunities. Academic Advisors also link students with community resources, tutoring and other support services.

Academic Advisor: a faculty member who explains College policies and provides guidance in developing and achieving student's educational, career, and personal goals. Students are required to meet with an academic advisor periodically throughout an academic year, especially prior to registration.

Academic Alert: a notice received from Student Services & Enrollment Management regarding a student's performance in an enrolled course. The purpose of this notice is to alert Student Services & Enrollment Management and provide students information on supports available to help them be successful in the course.

Academic Honesty: the absence of, though not limited to, cheating and plagiarism. Sanctions for students who violate the principals of academic honesty range from failure of course work to dismissal from the College. See Expectations of Adult Learners in the Records & Registration section of this Catalog and Student Handbook for additional information.

Academic Standing: a representation of a student's progress in a program of study via class standing (freshman or sophomore). Additionally, completers are labeled with a standing of "graduated." Students who fail to satisfactorily progress will be assigned an "academic warning" standing.

Academic Warning: a status representative of a student whose cumulative grade point average (GPA) falls below a 2.0 and/or a student who fails to successfully complete 67% of the credit hours attempted. Students on academic warning will be asked to meet with a counselor and/or advisor to reevaluate academic progress. Students on academic warning may continue to receive financial aid for one semester. See Satisfactory Academic Progress in the Student Financial Resources section of this Catalog and Student Handbook for additional information.

Accommodations: An alteration of environment, curriculum format, or equipment that allows an individual with a disability to gain access to content and/or complete assigned tasks. They allow students with disabilities to pursue a regular course of study.

Accreditation: a status granted by authorized third party organizations that represent the academic integrity of an institution and its ability to grant degrees. BCC is regionally accredited by the Southern Association of Colleges and Schools Commission on Colleges.

Add/Drop Period: a period when students may change their class schedule. Students must complete a written Add/Drop Form, obtain an advisor's signature and submit the add/drop form to the Registrar's office. After the semester start date, students are charged 25 % of the tuition for each course dropped.

Adjunct: a part-time faculty member. Adjunct faculty often do not have an on-campus office, office hours, or advisees but are available by phone and/or email.

Admission: admittance to a specific program of study and/or the College, after a student meets specified requirements.

Advanced Credit: credit given by submitting official copies of score reports with satisfactory scores from Advanced Placement (AP), College Level Placement Exams (CLEP), and/or High Level International Baccalaureate (IB) exams.

Advising Period: a period each semester, when students are required to meet with assigned advisors to discuss academic progress and have the registration hold removed to permit registration.

Articulation Agreement: an agreement between two institutions of higher education which specifies special conditions for and benefits of transferring from one institution to the other. "Bi- lateral" articulation agreements at BCC are in place to guarantee admission to certain institutions or to certain universities for select professional/technical programs.

Assessment Inventory: a standardized computer-based assessment used to determine appropriate placement in English and mathematics courses. Also called an "assessment/ placement test." For additional information regarding waivers of the placement assessment see the Placement Testing Policy in the Admissions & Enrollment Services section of this Catalog and Student Handbook.

Associate in Applied Science (AAS): a 2-year professional/ technical degree that prepares individuals for the job market or transfer to select 4-year schools and programs of study.

Associate in Arts (AA): a 2-year college transfer program that concentrates on humanities and social sciences for those planning to work toward a Bachelor of Arts degree at a 4-year college or university.

Associate in Engineering (AE): a 2-year college transfer program that concentrates on general education and prerequisite courses that are acceptable to all state funded Bachelor of Engineering Programs.

Associate in Science (AS): a 2-year college transfer degree program that concentrates on mathematics and science for the student planning to work toward a Bachelor of Science degree at a 4-year college or university.

Audit: a course for which a student attends normally, but does not receive credit. Students must both register and pay tuition for any audit course.

BCC ID #: a seven-digit (with the leading zero) number used in lieu of a social security number to identify a student within the College's student information system.

BCC User ID: an eight-character identifier which serves as an individual's username for email, Moodle, and Self-Service. In most cases, student BCC User ID's are made up of the first four letters of the first name and the last four numbers of BCC's ID #.

Career Counseling: Career Counseling is a process that assists individuals through the development of self-discovery, understanding the world of work, and providing the resources and skills to take action in order to make career, educational, and life decisions.

Career and College Promise (CCP): the name of the program which includes all programs for current high school students in NC public, private, or home schools. The three programs are the Cooperative Innovative High School (Early College High School), Career and Technical Education Pathways, and College Transfer Pathways.

Career and College Ready Graduate (CCRG): the State Board of Community Colleges (SBCC) in consultation with the State Board of Education (SBOE) designed a program that introduces the college developmental math, reading, and English curriculum prior to high school graduation. High school seniors that are not career and college ready by the end of their junior year will have opportunities for college remediation prior to high school graduation through cooperation with community college partners.

Career and Technical Education Pathways: the Career and College Promise Pathways that afford qualifying high school students to complete coursework and credentials at the College for transfer to a 4-year college or university and/or employment after one's high school graduation.

Catalog: an annual publication that contains information regarding admissions, program requirements, academic regulations, course descriptions, graduation requirements, etc. for a college or university.

Catalog of Record: the catalog for which a student's program of study is active and defines the requirements of one's program of study.

Census Date: the point and deadline by which a student must enroll in a course. If a student enrolls but fails to attend by the census date, the student will receive a grade of NS (No Show) in the course.

Certificate: a program of study that is up to or less than one year in length.

Childcare Assistance Project: a program that provides limited funds to BCC students to be used for childcare to qualifying students.

Clubs: extra-curricular opportunities for involvement in academic, athletic, civic, social, or other groups of common interest. Also called "student organizations."

Corequisite: a course that is taken in conjunction with another course during the same semester. Some corequisites are optional (such as taking an English course alongside a psychology course), while others are required (such as a corresponding lab portion with a lecture course).

College Readiness Courses: College Readiness courses are designed to help students transition into college and offer opportunities for students to improve their reading, writing, and/or mathematics skills. Students may be exempted from reading, writing, and/or mathematics courses through a variety of means including previous credit, placement/assessment testing scores, multiple measures, etc.

College Transfer Pathways: the Career and College Promise pathways that afford qualifying high school students the opportunity to complete coursework at the College for transfer to a 4-year college or university after their high school graduation.

College Transfer Programs: the programs intended for transfer to 4-year institutions like the Associate in Arts, Association in Engineering, and Associate in Science, which are also a part of the Comprehensive Articulation Agreement (CAA).

Comprehensive Articulation Agreement (CAA): an agreement between the 58 colleges of the North Carolina Community College System and the 16 public universities of the University of North Carolina-system which guarantees admission to a public university in North Carolina (though not necessarily the student's top choice) for any student who graduates from a North Carolina Community College with an Associate in Arts or Associate in Science degree with a minimum of a 3.0 GPA.

Computer Labs: classrooms or open labs which have a computer or laptop available for student use.

Contact Hour: one hour of student attendance in a class for which the student is enrolled.

Continuing Education Unit (CEU): a unit of credit earned in courses offered through Continuing Education/Economic & Workforce Development.

Cooperative Education: instruction consisting of the integration of traditional classroom learning with supervised work experience with a professional organization.

Core Requirement: a non-elective required course in a program of study. Also called "Universal General Education Requirements."

Cost of Attendance: the total cost per semester for a student to attend the College, including tuition, fees, and other expenses.

Counselor: a person who provides personal, academic, and/or career counseling at no cost to the student.

Course Description: a brief description of the content of a course and what skills the students should master upon successfully completing the course. Classroom hours, laboratory hours, clinic or co-op hours, credits earned, and prerequisite/corequisite courses are listed in the course description.

Course Substitution: a formal process in which a student's Lead Instructor, Program Director, Department Chair, or Dean submits a request to use a course outside of the student's program of study to substitute for another course in the student's program of study. With minimal exceptions, course substitutions are only made in professional/technical programs of study.

Credential: Documented evidence that confirms academic skill, such as the awarding of a certificate, degree, or diploma.

Credit Hour: a representation of the number of units towards completion of a program of study earned upon completing a curriculum course. Also called "credits," "semester hours," or "semester hours credit."

De-Registration: a process by which a student's course schedule is canceled for non-payment.

Dean: the chief administrator of a specific unit within the College.

Dean's List: a list of students who are enrolled for a minimum of 12 credit hours (college readiness courses and courses offered through Institutional Service Agreements with sister colleges which yield credit from the other institution are excluded) and have achieved a semester grade point average of at least 3.5 out of a possible 4.0 (with no grade lower than "C"). Students eligible for the Dean's List must be enrolled in an associate degree, diploma, or certificate program.

Department Chair: a secondary administrator of an academic unit within the College.

Diploma: a program of study that is more than one semester but less than two years in length. A "diploma" can also be used to define a physical piece of paper issued to a high school graduate or institution of higher education graduate.

Disability: a documented physical or mental impairment that substantially limits one or more major life activities.

Distance Learning: a non-traditional course delivery method including hybrid, NC information highway, online, and web- assisted courses.

Documented Disability Documentation: disability related documentation that identifies the functional impact of the disability so that effective accommodations can be identified. Common sources of documentation are health care providers, psychologists, diagnosticians, and/or information from a previous school (e.g., 504 or IEP, documents).

Dolphin: the mascot of Brunswick Community College.

Dolphin Cove: the Student Lounge located in Building A.

Due Date: the date or deadline at which an assignment must be submitted, debts must be paid, etc. There are serious repercussions for failure to adhere to due dates.

Dunkin' the Dolphin: the name of the mascot of Brunswick Community College.

Early College High School (ECHS): a Brunswick County Schools' secondary institution on BCC's campus that affords qualifying high school students to take coursework through the College for credit while enrolled in high school that is applied toward a transfer or applied science degree.

Early Alert: An Early Alert also known as an Academic Alert informs a student when they are at risk of failing one or more courses. Early intervention increases a student's likelihood of improving academic success.

Elective Course: a non-core course in a program of study.

Emotional Support Animal: any animal that alleviates one or more identified symptoms or effects of a person's disability. An Emotional Support Animal is not a "Service Animal" as defined under this policy or the Americans with Disabilities Act (ADA). http://www.ada.gov/regs2010/service_animal_qa.html

Excessive Absenteeism Notice: a notice received from a Student Services & Enrollment Management regarding student performance in a course for which you are enrolled. The purpose of this notice is to alert a student of the steps one can take to continue in the course and earn a passing grade (or steps to officially withdrawal without academic penalty).

Faculty: instructors for courses and academic advisors.

FAFSA: the "Free Application for Federal Student Aid." This application is *free* and must be completed annually for financial aid in a given academic year. The FAFSA becomes available in January for the academic year beginning in August of that year.

Fees: required costs to the student in addition to tuition that students must pay. These include the activity fee, student accident insurance fee, and technology fee.

FERPA: The Family Educational Rights and Privacy Act (FERPA) of 1974 provides safeguards regarding the confidentiality of and access to student records.

Fin's Grill: Cafeteria that is located in the LaDane Williamson Student Center.

Financial Aid: funds available from a variety of sources such as grants, scholarships, and on-campus workstudy (when criteria are met) to assist students with paying tuition and other college related expenses.

Financial Aid Suspension: the consequence of a student failing to obtain a 2.00 or higher Financial Aid GPA and/or complete 67% of courses at the end of the semester for which the student has been placed on an academic warning.

First-Year Student: A first-year freshman student has not taken any collegiate-level courses *after* graduation from high school.

Food Pantry: BCC has a small food pantry to directly serve students who suffer from hunger and food insecurity. The BCC Food Pantry is located in Student Services.

Foundation: the fundraising and alumni relations office of the College. The foundation is responsible for the majority of scholarships offered to BCC students.

Full-Time Student: a student enrolled for 12 or more credit hours per semester (6 or more in the summer semester).

Grade Point Average (GPA): a computation of the total number of grade points earned, multiplied by the number of credits in the course, divided by the total number of credit hours in the semester. College Readiness courses are excluded in the calculation of GPA. A student must have a 2.0 GPA in one's program of study in order to graduate, and a semester-by- semester cumulative 2.0 GPA is required to remain in good academic standing semester-by- semester.

Grades: an alphabetical representation of a student's final performance in a course, which ultimately determine a student's academic standing and grade point average. For additional information, see *Grading in the Records & Registration* section of this Catalog and Student Handbook for additional information.

Grants: state or federally funded awards, based on financial need, which are used to pay for a student's cost of attendance. Grants are free and do not have to be repaid by the student.

Hearing Dog: a hearing dog is a dog that has been trained to alert a person with significant hearing loss or who is deaf when a sound, such as a knock on the door occurs.

Honor Roll: a list of students who are enrolled for a minimum of 12 credit hours (College Readiness courses and courses offered through Institutional Service Agreements with sister colleges which yield credit from the other institution are excluded) and have achieved a semester grade point average of 3.00 to 3.49 (with no grade lower than "C"). Students eligible for the Honor Roll must be in an associate degree, diploma, or certificate program.

Honors: recognition given to a graduate of a degree and diploma program with exemplary grade point averages (at the end of the fall semester) in one's program(s) of study. Diploma graduates with a 3.50 or greater GPA are "honor graduates; degree graduates with a 3.50 to 3.74 GPA graduate "cum laude" (with honors); degree graduates with a 3.75 to 3.89 GPA graduate "magna cum laude" (with high honors); degree graduates with a 3.90 or higher GPA graduate "summa cum laude" (with the highest honors).

Human Resources Development (HRD): a program to help unemployed or underemployed adults develop the essential skills needed for securing and maintaining employment.

Hybrid Course: a hybrid course is a combination of weekly face- to-face meetings and online activities/ assignments. Online activities/ assignments are not always homework for the class meeting but rather are part of class instruction. Hybrid courses provide regular opportunities for students to meet with their instructor and classmates. Students spend more time outside of the class completing course activities.

Identification Card: a College issued Identification Card stating the Service Animal is registered with the Office of Accessibility Services.

Independent Comprehensive Articulation Agreement (ICAA): an agreement between the 58 colleges of the North Carolina Community College System and the 16 public universities of the University of North Carolina-system which guarantees admission to a public university in North Carolina (though not necessarily the student's top choice) for any student who graduates from a North Carolina Community College with an Associate in Arts, Associate in Engineering, or Associate in Science degree.

Information Highway Courses: a course that meets in person via two-way video, but is either broadcast between the BCC Campus and/or ancillary centers or to/from a sister institution in the NC Community College System.

In-State Residency: a United States citizen and legal resident of North Carolina for the last 12 months for tuition purposes (simply living in the State does not earn in-state residency for tuition purposes). For

additional information, see the Appendix D: North Carolina Residency for Tuition Purposes in the BCC Catalog and Student Handbook for additional information.

Internet Courses: a course that does not meet in-person; 100% of the instruction is delivered online. Also called "asynchronous." For some internet courses, it may be required that the final exam be administered on campus or proctored at a testing center.

LaDane Williamson Student Center: the wing of Building A that houses Fin's Grill, the bookstore, Dolphin Cove, and the Brunswick County Sheriff's office.

Late Registration/Add/Drop: a short period in which a student can add/drop classes once the semester has begun. The student is still held accountable for absences that occurred prior to one's enrollment in classes, and any courses dropped will be subject to a 75% tuition refund.

Lead Instructor: the senior instructor in a program of study for which there is no department chair. Lead instructors report to the Dean of their academic unit.

Learning Resources Center (LRC): a department of Academic Support that includes the library and the Learning Center.

Mentoring Programs: Mentoring Programs including the Male Mentoring Program are open to all enrolled students and available through the Academic Support office. Mentoring services and program events provide personalized coaching helping transform students into leaders, while offering opportunities to meet with peers, community leaders, and mentors outside the college setting. The atmosphere is accepting and encouraging, instilling students with knowledge and skills to be successful in and beyond college.

Moodle: the College's learning management system that houses course information where students have access to complete assignments, especially for online courses. All courses at BCC have a Moodle website that corresponds to the course, so it is important that Moodle is used early and often throughout the semester. Further, in the event of cancelled classes, alternative make up assignments are delivered via Moodle.

No Show (NS): Student is dropped from the class for not attending prior to Course Census Date. Student is not charged for class.

Non-Traditional Student: a student who enters college after a significant absence from the time one actually (or normally would have) graduated from high school and pursues a college education. In some cases, a non-traditional student is an individual who returns to college after a number of years away from formal education.

Other Expenses: the costs in addition to tuition and fees required to attend college. Other expenses include (but are not limited to) books, course supplies, housing, transportation, and food costs.

Out-of-State Residency: a non-United States citizen or a legal resident of a state other than North Carolina. A person who has resided in North Carolina for less than 12 months is automatically out-of-state. Passing the 12-month time limit does not automatically qualify a person as an in-state resident.

Part-Time Student: A student enrolled for fewer than 12 credits per semester (fewer than six in the summer semester).

Pass (P): a grade issued only in academic support courses, which notes satisfactory progress to continue on to coursework at the next level.

Person with a Disability. a person with a physical or mental impairment that substantially limits one or more of the major life activities; or being regarded as having such an impairment.

Pet: a domestic animal kept for pleasure of companionship and excluded from the definitions of "Emotional Support Animal" and "Service Animal". Pets are not permitted on College property or in College buildings and shall not be permitted as a reasonable accommodation for otherwise eligible students, staff or faculty.

Prerequisite: a course that must be completed prior to enrolling in another course.

President's Award: an annual award given to the student with the highest GPA and most hours and programs of study completed at BCC.

President's List: a list of students who are enrolled in 6 to 11 credit hours (College Readiness courses and courses offered through Institutional Service Agreements with sister colleges which yield credit from the other institution are excluded) and have achieved a semester grade point average of at least 3.5 out of a possible 4.0 (with no grade lower than "C"). Students eligible for the President's List must be in an associate degree, diploma, or certificate program.

Proficiency Exam: an exam, which may be taken (for a fee) to receive credit for a course without having attended any of the class. For additional information, see *Proficiency Examinations in the Records & Registration* section of this Catalog and Student Handbook for additional information.

Program Description: a brief synopsis of the coursework and core concepts for a program of study, as well as a list of all courses required to complete the certificate, degree, or diploma.

Program Director: the senior instructor and administrator of a program of study for which there is no department chair. Program directors report to the Dean of their academic unit.

Program of Study: the academic curriculum in which the student is enrolled, which may lead to a certificate, degree, and/or diploma. Also called a "Curriculum of Study" or "major."

Program of Study Change Form: a form used to change one's program of study, which is submitted to the Student Services & Enrollment Management for processing. The form requires the student advisor's approval and the approval of the Office of Student Financial Resources (for financial aid recipients) prior to processing. For additional information, refer to the *Program of Study Changes in the Records & Registration* section of this Catalog and Student Handbook.

Project Finish Line: A grant program offered through the Academic Support office that provides individuals who are near completion of an Associate Degree, Workforce Development Career Pathway or High School Equivalency the opportunity to obtain their credential. The Project Finish Line program helps to reengage students in learning providing funding for books, testing and certification fees, and in some cases, connects students to tuition scholarships.

Provisional Acceptance: an admission status given to a student who is admitted to the College with an incomplete record (missing transcripts or other items). Students with provisional acceptance are permitted to register for courses for that one term only and will not be permitted to register again until they complete their record.

Reasonable Accommodation: an adjustment to a class, program, or job requirements that would allow a qualified individual with a disability to participate in the class or program or to perform the essential functions of a position, without fundamentally altering academic, conduct or performance requirements.

Re-Enrollee: a student who has previously attended BCC as a curriculum student at any point in time, even as a high school student.

Record: a student's permanent file. The record includes one's application for enrollment, transcripts, test scores, and all other forms and paperwork relating the student. BCC maintains imaged, permanent electronic records for all students who obtain admission to the College.

Records & Enrollment Services: a department of Student Services & Enrollment Management that includes admissions and enrollment services and records and registration.

Registration: a period in which established advising and web registration periods are set for students to meet with their advisor and register for courses.

Reliable Third Party: a person who is familiar with a student's disability, familiar with the necessity for a specifically requested animal and is qualified to make medical attestations regarding a student's disability and requested accommodation. Such person may include a physician, psychiatrist, or other medical or mental health professional.

Renewable: a term used to describe select scholarships that a student can continue to receive after the initial award, provided the student continues to meet the established criteria.

Repeat (R): a grade issued only in academic support courses. It denotes unsatisfactory progress, and the student must enroll in the course again.

Scholarships: "free" money (i.e. it does not have to be repaid) awarded to students who meet certain demographic and/or academic criteria.

Self-Service: the online tool used by students, faculty, and staff to administrate a variety of actions. Students use Self-Service to search and register for courses, access their final grades, accept financial aid awards, etc. Faculty use Self-Service to view their advisees' information, enter grades, and track attendance. Staff use Self-Service to access their paystubs and tax information.

Seizure Dog: a seizure response dog is a dog trained to assist a person with a seizure disorder. How the dog serves the person depends on the animals training and the person's needs. The dog may predict a seizer, warn the person in advance, stand guard over the person during a seizure, or the dog may also go for help.

Semester: a calendar period during which courses are offered. Typically BCC has two 16-week semesters (fall and spring) and one summer semester. Eight week courses are also offered. A course may begin or end before or after the official start and end date of a semester and in some cases courses may last fewer weeks than the entire the semester.

Service Animal: any dog or miniature horse that is individually trained to do work or perform tasks for the benefit of an individual with a disability. The work or tasks performed by the animal must be directly related to the person's disability. Examples include, but are not limited to, guiding people who are blind, alerting people who are deaf, pulling a wheelchair, alerting/protecting an individual who is having a seizure and reminding an individual to take medication. The provision of emotional support, well-being, comfort or companionship does not constitute work or tasks under this definition. While dogs are the most common Service Animals, under certain circumstances, a miniature horse may qualify as a Service Animal. Other animals do not qualify as Service Animals. http://www.ada.gov/service_animals_2010.htm

Service Animal in Training: an animal that is being trained to do work or perform tasks for the benefit of an individual with a disability, including a physical, sensory, psychiatric, intellectual, or other mental disability.

Social Signal Dog (SIG): a SIG dog is a dog that is trained to assist a person with autism. The dog alerts the partner to distracting repetitive movements common among those with autism, allowing the person to stop the movement such as hand flapping. A person with autism may also have problems with sensory input and may need the same support services from a dog that a person who is blind or deaf might need.

Special Credit Student: an individual who is a true non-degree seeking student with no intention of applying for or receiving federal financial aid, or receiving a certificate, degree, or diploma from the College.

Stacked Programs: select programs of study within the College that afford a student the opportunity to obtain various certificates and/or diplomas during the course of completing the requirements of one's primary degree or diploma program. For additional information, see Stacked Programs of Study in the Records & Registration section of this Catalog and Student Handbook.

Staff: any employee of the College, including administrators, faculty, or other professional employees.

Student Code of Conduct: the guide that governs student behavior inside and outside of the classroom and the policies and procedures of the code of conduct violations. For additional information, see the Student Code of Conduct Appendix in the BCC Catalog and Student Handbook.

Student Financial Resources: a department of Student Services & Enrollment Management that includes financial aid and veteran's services.

Student Grievance Policy: A grievance system to channel student complaints against faculty and staff.

Student Government Association (SGA): the governing student organization of all clubs at the College. The SGA President also serves as a member of BCC's Board of Trustees. For additional information concerning the Constitution and Bylaws of the SGA, see the SGA Appendix in this Catalog and Student Handbook.

Syllabus: an overview of the material a course will cover, the instructor's expectation of students, due dates, deadlines, and content of assignments, instructor contact information and office hours (if applicable), and any other information pivotal to a student's success in a course.

TLC: The Learning Center provides free tutoring and other academic support services to students.

Title IX: assures that no student or employee shall, on the basis of sex, be excluded from the participation in, be denied the benefits of, or be otherwise subjected to discrimination in any program or activity of the College.

Transcript: a reflection or a physical piece of paper that reflects the student's academic record at the College. There are different transcripts for curriculum, continuing education, and basic skills coursework.

Transfer Credit: credit previously earned at another regionally accredited college or university that is equivalent to BCC courses. For additional information, see the Transfer Admission and Transcript Evaluation Policy in the Admissions & Enrollment Services section of this Catalog and Student Handbook.

Transfer Student: a student who has previously attended one or more colleges or universities after graduating from high school.

Tuition: the amount of money a student must pay for each credit hour of curriculum coursework in each semester, or per each continuing education course. For curriculum students, the maximum charge is for 16 credit hours in each semester; beyond this, no additional tuition is collected. Tuition is billed based on residency status for tuition purposes (in-state or out-of-state).

Universal General Education Transfer Course (UGETC): courses that have been identified as part of the Comprehensive Articulation Agreement (CAA) and are guaranteed to transfer to institutions of the University of North Carolina system for equivalency credit with a grade of "C" or better. These courses are noted as UGETC in the course descriptions within the BCC Catalog and Student Handbook.

Veteran's Affairs (VA): the title used to describe programs that provide educational benefits to active-duty, reservist, or retired members of the United States Armed Services.

Withdrawal: an official action using a Withdrawal Request Form, which allows a student to withdraw from a course by a set date without academic penalty. A grade of "W" reflects on the student's transcript and counts against the student's attempted hours, but does not affect the student's cumulative or program GPA. Other than in extreme circumstances, withdrawals are only granted up to the 75% point in a course. For additional information, see Withdrawing from Courses in the Records & Registration section of this Catalog & Student Handbook.

Withdrawal Request Form: the form used to obtain permission from a student's advisor, financial aid, and instructor(s) to withdraw from one or more courses. All approving signatures are required before Student Services & Enrollment Management will process a Withdrawal Request Form.

Work-study: a federal program based on extreme financial need, through which students are given paid part-time employment up to 20 hours per week.

Workforce Innovation and Opportunity Act (WIOA): a federal workforce development program that provides training, education, and employment services using a one-stop delivery system through the student's local Employment Security Commission office.
